MATERIAL CHANGE REPORT

TO: British Columbia Securities Commission, Alberta Securities Commission

Item 1. Name and Address of Company: La Ronge Gold Corp.
#701 – 675 West Hastings Street
Vancouver, British Columbia V6B 1N2

Item 2. Date of Material Change: March 28th 2012

Item 3. News Release: The press release was issued on March 28th 2012 in Vancouver, Canada.

Item 4. Summary of Material Change Vancouver, BC, March 28, 2012 – La Ronge Gold Corp. (TSX.V: LAR) (the "Company") announces the following update on the Company's properties located in Saskatchewan.

The winter drill program at the Preview SW deposit is now complete with a total of 2,928 m drilled in 15 drill holes. Logging and splitting of the drill core are almost complete, and the remaining assays will be released once they are received and compiled. The drill program is designed to update the historical resources to NI 43-101 standards and to expand the limits of the known mineralized zones. These historical resources are discussed in the News Releases dated October 17 and November 2, 2011. An updated resource should be complete before the end of the second quarter of 2012. Additional drilling will likely be carried out this summer on the Preview SW deposit. A baseline environmental survey will also commence this summer.

Item. 5 Full Description of Material Change
Vancouver, BC, March 28, 2012 – La Ronge Gold Corp. (TSX.V: LAR) (the "Company") announces the following update on the Company's properties located in Saskatchewan.

The winter drill program at the Preview SW deposit is now complete with a total of 2,928 m drilled in 15 drill holes. Logging and splitting of the drill core are almost complete, and the remaining assays will be released once they are received and compiled. The drill program is designed to update the historical resources to NI 43-101 standards and to expand the limits of the known mineralized zones. These historical resources are discussed in the News Releases dated October 17 and November 2, 2011. An updated resource should be complete before the end of the second quarter of 2012. Additional drilling will likely be carried out this summer on the Preview SW deposit. A baseline environmental survey will also commence this summer.

In addition to this work at Preview SW, the following work is planned on La Ronge Gold's properties in 2012:

- Confirmatory drilling to upgrade historical resources at the Twin Deposit in the Wedge Property
- Basal till sampling at the Greywacke Extension properties to define drill targets
- Airborne geophysical surveying over all of La Ronge Gold's properties.

A summary of the agreements covering the properties optioned from North-Sask Ventures is given below.
