

Select Sands Appoints David Giannini To the Board of Directors

November 21, 2016 – Vancouver, BC, Canada – Select Sands Corp. (“Select Sands” or the “Company”) (TSXV: SNS, OTC:CLICF) is pleased to announce that David Giannini will be joining the Company’s Board of Directors as an independent director.

David Giannini is an investment banker registered with Scarsdale Equities LLC working from both Houston, Texas and Ottawa, Ontario. David has over 30 years experience in the investment business.

Prior to joining Scarsdale Equities in 2006, he spent nearly ten years with Sanders Morris Harris in institutional sales, after stints with Jefferies & Company, Inc., Simmons & Company International also in Houston, and seven years with Kidder Peabody & Co. Incorporated in New York. In recent years he has specialized in oil & gas, metal mining, and related industries. Mr. Giannini graduated with a B.A. and LL.B. from Western University, and an LL.M. from the London School of Economics. He was raised in Canada and still plays hockey.

“David Giannini’s knowledge and background in the U.S. oil and gas industry and his deep contacts in the industry were invaluable in helping Select Sands with their recent private placement financing. His experience will help provide advice and direction to Select Sands in their role within the U.S. oil and gas industry and will help Select Sands to connect with U.S. institutions, funds investors, and analysts,” commented Rasool Mohammad, Company President and CEO. “We are very pleased to have David on our team.”

Mr. Giannini’s appointment is effective immediately but remains subject to TSX Venture Exchange approval.

Mr. Giannini has been granted 300,000 options under the Company's option plan. Each option is exercisable into one common share at an exercise price of Cdn\$0.90 at any time on or before the fifth anniversary of its issuance. One half of such options will vest on the six month anniversary of the issuance date with the remainder vesting on the 12 month anniversary of the issuance date.

About Select Sands Corp.

Select Sands’ Sandtown property, located in northeast Arkansas, USA, is underlain by the Ordovician St. Peter sandstone formation, which is a major source of Northern White Silica Sand.’). Compared to competitive sand mines located in Wisconsin owned by the largest US frac sand producers, Sandtown has a competitive location advantage as it is approximately 650 rail miles closer to the Texas/Louisiana oil/gas plays as well as the Houston port and industrial hub.

The Company has acquired a wet processing plant to produce Northern White 40/70 and 100 mesh silica sand products with daily capacity of up to 1,500 tons per day (see August 23, 2016 News Release). The wet processing plant includes feed hopper, conveyor, classifiers, cyclones, and control building and is optimized to increase its daily capacity at minimal cost as needed. The Company continues to seek additional opportunities in the region to secure strategic assets that will continue to optimize production

The Company has acquired 20 million common shares of Comstock Metals Ltd. pursuant to its sale of its gold assets to Comstock as set forth in the Company's press release issued on Sept. 14, 2016. The 20 million shares were issued at a deemed price of 29 cents per share for total deemed consideration of CAD\$5.8 million. After giving effect to the acquisition by the Company of the 20 million common shares, the Company has ownership or control over approximately 35.4 percent of the issued and outstanding common shares of Comstock.

As per the June 2015 PEA report by Tetra Tech of Golden, Colorado, USA and Vancouver, BC, Canada, the Sandtown property has a pre-tax net present value of US\$160 million and a post-tax net present value of US\$92 million. The PEA was completed on a portion of the current silica sand mineral resources (see the Select Sands' June 10, 2015 News Release). Select Sands would like to remind investors that mineral resources for the Sandtown Property are not mineral reserves and do not have demonstrated economic viability and there is no certainty that this PEA will be realized. The PEA is preliminary in nature that it includes inferred mineral resources that are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves, and there is no certainty that the PEA will be realized. Mineral resources are not mineral reserves and do not have demonstrated economic viability. There is no certainty that the resources development, production, and economic forecasts on which this PEA is based will be realized. Subsequent to the completion of the 2015 PEA, Select Sands announced an updated mineral resource estimate for the Sandtown property totaling 41.98 Million Tons of Indicated silica sand mineral resources (see the Select Sands February 10, 2016 news release).
