1. Nature of Operations

Search Minerals Inc. (the "Company") was incorporated under the provisions of the Business Corporation Act (British Columbia) on June 7, 2006. On May 3, 2007, the Company commenced trading on the TSX Venture Exchange (the "TSX-V") under the trading symbol "SMY.V". The Company is in the business of mineral exploration involving acquiring, exploring and evaluating mineral resource properties. At February 28, 2018, the Company was in the exploration and evaluation stage and had properties located in Canada. The Company's corporate head office is located at 108, 901 West 3rd Street, North Vancouver, British Columbia, Canada.

The Company is currently exploring its mineral properties and has not yet determined whether the properties contain mineral reserves that are economically recoverable. The amounts shown as mineral properties represent costs incurred to date, less amounts recovered from third parties and/or written-down, and do not necessarily represent current or future fair values.

2. Going Concern

These condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for the foreseeable future. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current operations, including exploration programs, will result in profitable mining operations. The recoverability of the carrying value of exploration and development properties and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. Changes in future conditions could require material write-downs of the carrying values.

At February 28, 2018, the Company had not yet achieved profitable operations, had working capital deficiency of $1,284,567, had an accumulated deficit of $16,791,945 since inception and expects to incur further losses in the development of its business. Management is in the process of obtaining additional financial resources and believes sufficient resources will be available as required. Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company. The above factors may cast significant doubt upon the Company's ability to continue as a going concern and, therefore, it may be unable to realize its assets and discharge its liabilities in the normal course of business.

3. Basis of Presentation

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34 – Interim Financial Reporting. These condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended November 30, 2017 which have been prepared in accordance with IFRS as issued by the IASB.

In the preparation of these condensed interim consolidated financial statements, the Company has used the same accounting policies and methods of computation as in the annual consolidated financial statements for the year ended November 30, 2017 except as outlined in Note 4.

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Unless otherwise stated, all dollar amounts are in Canadian dollars

4. Accounting Standards Issued But Not Yet Effective

The following new standards have been issued by the IASB but not yet applied:

IFRS 9, Financial Instruments, was issued in July 2014 and replaces IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 was developed in phases by the IASB. As a result there are a number of transition options and requirements in relation to earlier versions of IFRS 9 prior to the mandatory effective date of IFRS 9 in its entirety. IFRS 9 is mandatory for annual periods beginning on or after January 1, 2018. IFRS 9 includes requirements for classification and measurement of financial assets and financial liabilities; impairment methodology for financial instruments; and general hedge accounting. IFRS 9 has specific requirements for whether debt instruments are accounted for at amortized cost, fair value through other comprehensive income or fair value through profit or loss. IFRS 9 requires equity instruments to be measured at fair value through profit or loss unless an irrevocable election for use of fair value through other comprehensive income which results in changes in fair value not being recycled to the income statement. The Company has not adopted IFRS 9 and has not completed its assessment of the impact of this standard.

(Unaudited - Expressed in Canadian dollars)

IFRS 16, Leases, was issued in January 2016 and eliminates the classification of leases as either operating or finance leases for a lessee. Instead all leases are capitalized by recognizing the present value of lease payments and recognizing an asset and a financial liability representing an obligation to make future lease payments. The principles in IFRS 16 provide a more consistent approach to acquiring the use of an asset whether by leasing or purchasing an asset. The new leasing standard is applicable to all entities and will supersede current lease accounting standards under IFRS. IFRS 16 is mandatory for annual periods beginning on or after January 1, 2019. The Company has not adopted IFRS 16 and has not completed its assessment of the impact of this standard.

(1) During the three months ended February 28, 2018, the Company applied for the non-repayable Junior Exploration Assistance Program offered by the Province of Newfoundland and Labrador for eligible exploration expenses incurred during 2017. Subsequent to February 28, 2018, the Company received $68,722 from the program.

6. Mineral Properties – Schedule 1

Although the Company has taken steps to verify title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee a clear title. Property title may be subject to unregistered prior agreements and regulatory requirements. The Company is not aware of any disputed claims of title.

The Company acquired the mineral properties primarily by staking the claims. In order to maintain title to the claims, the Company must incur minimum exploration expenditures per claim as specified by the Mineral Act of the Province of Newfoundland and Labrador. In lieu of incurring the minimum expenditures, the Company may make security deposits with the Government of Newfoundland and Labrador. Other commitments relating to mineral properties are as follows:

Port Hope Simpson REE District, Labrador

The Company acquired the Port Hope Simpson REE District primarily by staking the claims. In addition, the Company acquired the B and A Claims and the Quinlan Property.

B and A Claims

On December 10, 2009, the Company entered into a binding letter of intent (the “LOI”) with B and A Minerals Inc. (“B and A”), further defined in a Mining Option Agreement, for an option to acquire an undivided 100% interest in and to certain claims in southeast Labrador owned by B and A (“Port Hope Simpson, B and A Claims”).

Under the terms of the Mining Option Agreement, to earn the undivided 100% interest in Port Hope Simpson, B and A Claims, the Company paid B and A an aggregate of $140,000 and issuing an aggregate 1,100,000 common shares of the Company. The final payment and share issuance was made in January 2013. The Company now owns a 100% interest in the property.

The Mining Option Agreement is subject to a 3% net smelter return in favor of B and A, of which the Company can purchase 2% at any time for $2,000,000.

(Unaudited - Expressed in Canadian dollars)

Quinlan Property

On January 13, 2011, the Company entered into a binding letter of intent (the "LOI") with Andrew Quinlan, Roland Quinlan and Tony Quinlan (the "Vendors"). Pursuant to the LOI, the Company has the option to earn an undivided 100% interest in and to certain claims owned by the Vendors known as the Fox Harbour Claims (the "Quinlan Property"). The Quinlan Property is comprised of three licenses totaling 48 claims located east of St. Lewis, Labrador.

Under the terms of the LOI, the Company earned an undivided 100% interest in Quinlan Property by making aggregate cash payments of $90,000 and issuing an aggregate of 300,000 common shares of the Company.

The Vendors were granted a 1.5% net smelter return royalty ("NSR"). The Company may, at any time, purchase 1% of the net smelter return royalty for $1,000,000. The Company must make annual cash advance payments of $10,000 for the Quinlan Property to the Vendors commencing February 23, 2016 and continuing each year thereafter until commencement of commercial production, deductible against the NSR. During the year ended November 30, 2017, the Company paid the second $10,000 annual cash payment. During the three months ended February 28, 2018, the Company paid the third $10,000 annual cash payment.

Red Wine Property, Labrador

On June 28, 2015, the Company purchased from Great Western Minerals Group Ltd. ("GWMG") its interest in the Red Wine Property for $20,000. GWMG had acquired its approximate 50% interest in the Red Wine Property pursuant to an option agreement between the Company and GWMG dated July 23, 2010. Following the acquisition, the Company now owns 100% of the Red Wine Property.

NunatuKavut Community Council

On August 27, 2012, as amended on November 13, 2014, the Company entered into a Mining Exploration Activities Agreement with the NunatuKavut Community Council (the "NunatuKavut"), the political representative body of the Inuit of South-Central Labrador. The agreement solidifies a relationship that has evolved through the Company's activity in and around NunatuKavut communities on the south coast. The agreement sets out a respectful way forward, meeting the interests of and ensuring mutual benefit for both parties. Key elements in the agreement address environmental protocols and safeguards for matters of historic values. The agreement also sets out hiring and business opportunities for NunatuKavut members and communities as well as certain financial considerations.

InCoR Convertible Debenture

On September 7, 2017, the Company entered into an agreement with InCoR Holdings Plc, ("InCoR") pursuant to which InCoR agreed to provide funding of $500,000 by way of a secured convertible debentures (the "InCor Convertible Debentures"). The debentures have a maturity date of one year from the date of issuance (the "Maturity Date") and bear interest at a rate of 15% per annum, calculated and paid semi-annually in cash or, at InCoR's option, payable in Units. Any interest which is not paid when due shall bear interest at the same rate. The debentures and any accrued and unpaid interest are convertible into units ("Units" of the Company at a conversion price of $0.06 per Unit at any time prior to the Maturity Date. Each Unit will be comprised of one common share of the Company and one common share purchase warrant with each warrant entitling the holder thereof to acquire one additional share at an exercise price of $0.07 per share for five years from the date of issuance of the debentures. The debentures are secured by all of the Company's assets.

On September 28, 2017 the Company received the first $150,000 from InCoR (the "First Debenture") and On October 27, 2017, the Company received the final tranche of $350,000 (the "Second Debenture"), for aggregate proceeds received from the two tranches of $500,000.

If InCoR does not elected to convert the entire amount of principal and accrued interest into Units at the end of the initial twelve month term, the Company may extend the Maturity Date by one period of six months by paying an extension fee of $50,000 (the "Extension Fee") in cash or Units at the election of InCoR within three business days of the end of the initial twelve month term. If the Company has paid the Extension Fee in connection with the First Debenture, the Extension Fee would not be required for the Second Debenture.

In connection with the InCoR Convertible Debentures, the Company incurred legal and filing fees of $44,500. These transaction costs are amortized over the term of the First and Second Debentures. During the three months ended February 28, 2018, the Company recorded amortization of transaction costs of $11,125.

Subsequent to the completion of InCoR Convertible Debentures, InCoR appointed two members to the Board of Directors of the Company.

December 2016 Convertible Debenture

On December 29, 2016, the Company issued an unsecured convertible debenture in the amount of $120,750 (the "December 2016 Convertible Debenture"). The debenture bears interest at the rate of 10% per annum, calculated and paid quarterly in arrears, and matures on December 29, 2017. The debenture is convertible into units at a conversion price of $0.07 per unit. Each unit will be comprised of one common share and one share purchase warrant. Each whole warrant will entitle the holder thereof to purchase an additional common share of the Company at $0.14 per common share up to one year from the date of conversion of the debenture.

During the three months ended February 28, 2018, the lender of the December 2016 Convertible Debenture agreed to extend the maturity date to March 31, 2018. No penalties or fees were incurred in relation to the extension and all other terms of the 2016 Convertible Debenture remain the same. Subsequent to February 28, 2018, the lender agreed to a further extension to June 30, 2018. No penalties or fees were incurred in relation to the extensions and all other terms of the 2016 Convertible Debenture remain the same except that the conversion feature expired on March 31, 2018.

During the three months ended February 28, 2018, the Company recorded interest expense of $21,512 and accretion expense of $9,570.

9. Share Capital

a. Common shares authorized

Unlimited number of common shares

156,092,857 outstanding at February 28, 2018 (November 30, 2017: 155,292,857).

b. Financings

On December 11, 2017, the company the second and final tranche of a non-brokered private placement of 800,000 flow-through shares at a price of $0.05 per share for gross proceeds of $40,000. The fair value of the flow-through shares was determined to be $32,000 with the remaining $8,000 being allocated to flow-through premium liability. As at February 28, 2018, the Company had incurred eligible Canadian Exploration Expenditures of $40,000. Accordingly, the Company recorded the flow-through premium liability as an other income item amounting to $8,000.

(Unaudited - Expressed in Canadian dollars)

The Company incurred $11,241 of fees in connection with the private placements.

c. Stock option plan

The Company has a stock option plan whereby the maximum number of shares reserved for issue under the plan shall not exceed 10% of the outstanding common shares of the Company, as at the date of the grant. The maximum number of common shares reserved for issue to any one person under the plan cannot exceed 5% of the issued and outstanding number of common shares at the date of the grant and the maximum number of common shares reserved for issue to a consultant or a person engaged in investor relations activities cannot exceed 2% of the issued and outstanding number of common shares at the date of the grant. The exercise price of each option granted under the plan may not be less than the Discounted Market Price (as that term is defined in the policies of the TSX-V). Options may be granted for a maximum term of ten years from the date of the grant, are non-transferable and expire within 90 days of termination of employment or holding office as a director or officer of the Company.

Changes in share purchase options during the three months ended February 28, 2018 and the year ended November 30, 2017 are as follows:

	Number of Options	Weighted Average Exercise Price	Weighted Average Life (Years)
Outstanding, November 30, 2016	9,210,000	$0.11	2.97
