

KONTROL ENERGY ENTERS INTO DISTRIBUTION AGREEMENT WITH GRANDE WEST TO OFFER BIOCLOUD TECHNOLOGY COVID-19 DETECTION SYSTEMS FOR VICINITY BUSES

TORONTO, ON / December 15th, 2020 / Kontrol Energy Corp. ([CSE:KNR](#)) ([OTCQB:KNRLF](#)) ([FSE:1K8](#)) ("Kontrol" or "Company") is pleased to announce that it has entered into a distribution agreement with Grande West, a Canadian manufacturer of mid-sized multi-purpose transit vehicles for sale in Canada and the United States, to offer BioCloud™ technology to the Vicinity line of buses.

"We are pleased to enter into this agreement with Grande West as we continue to target the important sector of ground transportation with an established and successful bus OEM. We are excited to be working with another disruptive Canadian company, focusing on a transit solution that will make buses safer and reduce risk of potential viral spread for the riders," stated Paul Ghezzi, CEO Kontrol Energy. "We anticipate that this additional partnership will add another channel for incremental sales as the need for safe detection of airborne viruses in public spaces grows."

Under the terms of the non-exclusive distribution agreement, Grande West will offer the BioCloud solution as an option in its Vicinity Lightning™, Vicinity LT and Vicinity heavy duty bus specifications. Grande West's existing customers will be notified of the option to retrofit the BioCloud devices into existing fleets across Canada. United States customers will be serviced by working with Kontrol Energy's exclusive distributor, United Safety and Survivability Corporation. Pricing will not be disclosed for industry competitive purposes.

William Trainer, President & CEO of Grande West stated, "Grande West is proud to be partnering with Kontrol in working towards making our Vicinity buses safer for all of our end users. The Company is expanding its product lines into Electric Vehicles and lighter duty models and ramping up its U.S. sales and expects significant growth in the coming years. We will do everything we can to offer the safest and most effective transit solutions to our customers."

As an initial step, Grande West is immediately ordering two of BioCloud units for its offices and operations headquarters in Aldergrove to improve the safety considerations of its employees.

About BioCloud™

BioCloud is a real-time analyzer designed to detect airborne viruses. It has been designed to operate as a safe space technology by sampling the air quality over time. With a proprietary detection chamber that can be replaced as needed, viruses are detected, and an alert system is created in the Cloud or over local intranet. BioCloud has been designed for spaces where individuals gather including classrooms, offices, retirement homes, hospitals, mass transportation and others.

Additional information about Kontrol BioCloud can be found on its website at www.kontrolbiocloud.com

BioCloud is an air quality technology and not a medical device. The Company is not making any express or implied claims that its product has the ability to eliminate, cure or contain the COVID-19 (or SARS-2 Coronavirus).

About Kontrol Energy

Kontrol Energy Corp., a Canadian public company, is a leader in smart buildings and cities through IoT, Cloud and SaaS technology. Kontrol Energy provides a combination of software, hardware, and service solutions to its customers to improve energy management, air quality and continuous emission monitoring.

About Grande West Transportation Group

Grande West Transportation is a Canadian company that designs and engineers mid-size multi-purpose transit vehicles for public and commercial enterprises. Grande West utilizes world-class manufacturing partners to produce the *Purpose-Built* Vicinity™ medium and heavy-duty buses available in electric, CNG, gas and clean diesel drive systems. The Vicinity Lightning™ EV with an electric propulsion drive system is available for 2021 deliveries.

The Company has been successful in supplying Canadian municipal transportation agencies and private operators with new buses. Grande West is compliant to Buy America certification, and with a strong distribution chain in the U.S., is actively pursuing opportunities in public and private transit fleet operations that would benefit from Grande West's vehicles.

Forward-Looking Statements

This news release contains “forward-looking information” within the meaning of applicable securities laws. All statements contained herein that are not clearly historical in nature may constitute forward-looking information. In some cases, forward-looking information can be identified by words or phrases such as “may”, “will”, “expect”, “likely”, “should”, “would”, “plan”, “anticipate”, “intend”, “potential”, “proposed”, “estimate”, “believe” or the negative of these terms, or other similar words, expressions and grammatical variations thereof, or statements that certain events or conditions “may” or “will” happen, or by discussions of strategy.

Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is based on assumptions made in good faith and believed to have a reasonable basis. Such assumptions include, without limitation, that sufficient capital will be available to the Company and that technology will be as effective as anticipated.

However, forward-looking statements are subject to risks, uncertainties, and other factors, which could cause actual results to differ materially from future results expressed, projected, or implied by such forward-looking statements. Such risks include, but are not limited to, that sufficient capital and financing cannot be obtained on reasonable terms, or at all, that technologies will not prove as effective as expected, that customers and potential customers will not be as accepting of the Company's product and service offering as expected, and government and regulatory factors impacting the energy conservation industry. In particular, successful development and commercialization of the Kontrol BioCloud™ (“BioCloud”) are subject to the risk that the Kontrol BioCloud may not prove to be successful in detecting the virus that causes COVID-19 effectively or at all, uncertainty of timing or availability of any regulatory approvals and Kontrol’s lack of track record in developing products for medical applications.

Accordingly, undue reliance should not be placed on forward-looking statements and the forward-looking statements contained in this press release are expressly qualified in their entirety by this cautionary statement. The forward-looking statements contained herein are made as at the date hereof and are based on the beliefs, estimates, expectations, and opinions of management on such date. Kontrol does not undertake any obligation to update publicly or revise any such forward-looking statements or any forward-looking statements contained in any other documents whether as a result of new information, future events or otherwise or to explain any material difference between subsequent actual events and such forward-looking information, except as required under applicable securities law. Readers are cautioned to consider these and other factors, uncertainties, and potential events carefully and not to put undue reliance on forward-looking information.
