

MATERIAL CHANGE REPORT
(Section 7.1 of National Instrument 51-102)

Item 1: Name and Address of Reporting Issuer

Claim Post Resources Inc.
141 Adelaide Street East, Suite 903
Toronto, Ontario M5H 3L5

Item 2: Date of Material Change

February 26, 2014

Item 3: News Release

The news release announcing the material change was released on February 27, 2014 through Canadian Newswire and subsequently filed on the System for Electronic Document Analysis and Retrieval. A copy of the press release is attached hereto.

Item 4: Summary of Material Change

Claim Post Resources Inc. (“**Claim Post**” or the “**Company**”) announced that it had filed an Application in Manitoba to enforce the terms of a purchase agreement with Char Crete Ltd. (“**Char Crete**”) (see press release dated July 19, 2013). Under the Char Crete agreement Claim Post purchased nine sand quarry leases from Char Crete for \$1.5 million subject to a residual royalty.

Item 5: Full Description of Material Change

The Company announced that it had filed an Application in Manitoba to enforce the terms of a purchase agreement with Char Crete (see press release dated July 19, 2013). Under the Char Crete agreement Claim Post purchased nine sand quarry leases from Char Crete for \$1.5 million subject to a residual royalty.

The Char Crete leases are part of the Seymourville Frac Sand Project that Claim Post has assembled. In addition to the Char Crete leases, an additional nine quarry leases have been optioned to purchase a 100% interest from Gossan Resources Ltd. subject to a residual royalty. The Seymourville Frac Sand Project is a high grade silica sand project located 200 km north-east of Winnipeg, Manitoba just off of paved Highway 304 on the east shore of Lake Winnipeg. The Seymourville silica sand deposit is being evaluated to be used as a natural sand proppant (frac sand) for the oil and gas industry.

As previously reported, a third party, purporting to be a creditor of Char Crete, has registered an instrument against title to the Char Crete leases. The Company's position is that Char Crete had already sold its interest in the leases to Claim Post, so that no security interest should attach to the leases. An Application has been filed in Manitoba for a

determination and a declaration of title and other related relief, including the renewal and transfer of the leases to the Company.

Please see the attached press release for more information.

Item 6: Reliance of subsection 7.1(2) of NI 51-102
