About Bioasis

Bioasis Technologies Inc. is a biopharmaceutical company developing the xB³ platform, a proprietary technology for the delivery of therapeutics across the blood brain barrier and the treatment of CNS disorders in areas of high unmet medical need, including brain cancers and neurodegenerative diseases. The delivery of therapeutics across the blood brain barrier represents the final frontier in treating neurological disorders. The in-house development programs at Bioasis are designed to develop symptomatic and disease-modifying treatments for brain-related diseases and disorders. The company maintains headquarters in Guilford, Conn., United States. Bioasis trades on the TSX Venture Exchange under the symbol “BTI.V” and on the OTCQB under the symbol “BIOAF.” For more information about the company, please visit www.bioasis.us.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
