Pan American Energy Announces Changes to Board of Directors

June 20, 2025

Calgary, Alberta --- **Pan American Energy Corp. (CSE: PNRG | OTCQB: PAANF | FRA: SS60)** ("**Pan American**" or the "**Company**"), an exploration stage company engaged principally in the acquisition, exploration and development of mineral properties focused on battery metals in North America, is pleased to announce that Mr. Tasheel Jeerh has been appointed as a Board Member of the Company. The Company also announces that Paul Gorman is stepping down as a Director of Pan American and is thanked for his services.

Mr. Jeerh brings a wealth of experience in the energy and minerals sectors, with a strong focus on strategic growth and resource development. His leadership and expertise will be invaluable as Pan American continues to expand its footprint in the critical minerals space.

CEO Adrian Lamoureux commented, "We are excited to welcome Mr. Jeerh to the Board of Directors. His background in the minerals and energy industries, combined with his strategic insight, will be crucial as we move forward with our growth plans. I would also like to take this opportunity to wish Mr. Gorman well in his future endeavors."

About Pan American Energy Corp.

Pan American Energy Corp. (CSE: PNRG) (OTC: PAANF) (FSE: SS60) is an exploration stage company engaged principally in the acquisition, exploration, and development of mineral properties containing battery and critical metals in North America.

The Company has executed an option agreement in Canada with Magabra Resources pursuant to which it has acquired a 75% interest in the Big Mack Lithium Project, 80 km north of Kenora, Ontario, with the right to earn an additional 15% for a total 90% interest. Pan American has also entered into an option agreement with Northern Critical Minerals Corp. to acquire up to a 100% interest in the Tharsis REE Project, located in the Northwest Territories. The project hosts the Squalus Lake Alkaline Complex, a Proterozoic-age carbonatite-bearing intrusion prospective for rare earth and high field strength elements.
