FORM 51-102F3
MATERIAL CHANGE REPORT

ITEM 1. NAME AND ADDRESS OF COMPANY

WEST KIRKLAND MINING INC. ("West Kirkland")
328 – 550 Burrard Street Vancouver BC, V6C 2B5
Telephone: (604) 685-8311 Facsimile: (604) 484-4710

ITEM 2. DATE OF MATERIAL CHANGE November 17, 2010

ITEM 3. NEWS RELEASE

A news release was disseminated on November 17, 2010 to the TSXV as well as through various other approved public media and was SEDAR filed with the British Columbia and Alberta Securities Commissions.

ITEM 4. SUMMARY OF MATERIAL CHANGE

West Kirkland Mining announces the expansion of its land position west of the prolific Kirkland Lake, Ontario gold district by entering into option agreements to acquire two key properties.

ITEM 5. FULL DESCRIPTION OF MATERIAL CHANGE

VANCOUVER, BRITISH COLUMBIA, November 17, 2010 - West Kirkland Mining Inc. ("**WKM-TSXV**") ("West Kirkland" or the "Company") announces the expansion of its land position west of the prolific Kirkland Lake, Ontario gold district by entering into option agreements to acquire two key properties.

McLean Property:

The McLean Property consists of one 57 hectare patented parcel of land which lies immediately to the west of the "M2" showing on the Company's Cunningham Property.

Results of drilling by previous operators include the following:

Hole ID	From (m)	To (m)	Length (m)	Au g/t*
HT89-21	59.44	62.18	2.74	12.17
HT89-21	64.31	67.06	2.74	13.35
HT89-21	87.17	89.00	1.83	7.51

*These results are historic in nature and have not been verified by West Kirkland

The McLean agreement calls for cash payments totaling $55,000 over five years, to acquire a 100% interest in the mineral rights to the property. Also included in the agreement is an option to purchase the surface rights to the property. For this option, West Kirkland will pay an additional $1,000 per year. The vendor also retains a 1% Net Smelter Return ("NSR") purchasable by West Kirkland for $250,000.

Sutton Property:

West Kirkland has entered into an agreement to acquire 100% of the 203 hectare Sutton Property from Mike Sutton, a highly regarded exploration geologist residing in the Kirkland Lake area. Mike was co-discoverer of the high-grade South Mine Complex and is a past winner of the Ontario Prospector of the Year award.

The Sutton Property is located approximately five kilometers along strike from the "M2" showing and is contiguous with the Company's Cunningham Property. Previous drilling on the property has yielded numerous assays greater than 1 g/t Au at shallow depths. West Kirkland is currently compiling data and will evaluate targets generated for drilling.

The Sutton agreement calls for cash payments totaling $148,000 over six years and work expenditures totaling $220,000 over three years to earn a 100% interest in the property subject to a 2% NSR. West Kirkland holds the right to purchase 1.5% of the NSR for $500,000 up to the commencement of commercial production.

"Both the Sutton and McLean properties have excellent shallow gold prospects and tie into our existing land position." stated West Kirkland's Vice President of Exploration, Michael G. Allen.

Qualified Person, Verification, Quality Control and Assurance

Michael G. Allen, P. Geo is the non-independent qualified person for this news release. He has relevant experience in exploration and development projects in North America over the past twelve years.

About West Kirkland Mining

West Kirkland Mining was formed in 2010 to focus on gold exploration along major trends in North America. The Company has consolidated significant mineral rights positions in the Kirkland Lake area of Canada and along the Carlin trend of Nevada – two of North America's Premier Gold camps. The founders and Board of West Kirkland Mining have successful gold discovery, development and mine operations experience in both Ontario and Nevada over the past 40 years.
