Arian Clarifies Technical Disclosure

September 23, 2016 - Arian Resources Corp. ("Arian" or the **"Company") (TSXV: ARC) -** advises that, as a result of a review by the British Columbia Securities Commission (the "BCSC"), we are issuing the following news release to clarify our disclosure.

The BCSC has advised the Company that it has reviewed the Company's technical report titled "Technical Report for the Perlat Property, Merditë District, Republic of Albania", filed on SEDAR on September 2, 2014 (the "Technical Report") and considers it to be non-compliant with the requirements of National Instrument 43-101 *Standards of Disclosure for Mineral Projects* ("NI 43-101") and Form 43-101F1. Investors should not rely on the Technical Report or its results until Arian files an amended technical report which is compliant with NI 43-101 and Form 43-101F1. The Company is working to correct the deficiencies in the Technical Report to address the non-compliance issues.

The BCSC has also identified technical disclosure deficiencies contained on the Company's website. The BCSC's comments on the Company's website include concerns regarding non-compliant disclosure of a mineral resource estimate, a target for further exploration, historical estimates, exploration information and an estimate of mineral reserves; the inclusion of restricted disclosure pertaining to the gross value of metal in a mineral deposit; and the failure to name the qualified person who prepared/supervised/approved certain scientific or technical information.

The Company has temporarily suspended its website until the foregoing deficiencies are rectified. As a result of the foregoing deficiencies, the BCSC has placed the Company on its Issuers in Default list until the deficiencies are rectified.

The foregoing technical information contained in this news release has been approved by Mr. Chad Ulansky, P.Geo., a member of Arian's advisory board and a qualified person for the purpose of NI 43-101.

ON BEHALF OF THE BOARD OF DIRECTORS

Robert Naso, CEO

About Arian Resources Corp.

Arian Resources Corp. is a junior mineral exploration company with a focus on the exploration of prospective gold and copper properties in Albania.

Forward-Looking Information

This news release contains "forward-looking information" and "forward-looking statements" (collectively, "forward- looking information") within the meaning of applicable securities laws. Forward-looking information is generally identifiable by use of the words "intends", "believes", "may", "plans", "will", "anticipates", and similar expressions. Forward-looking information in this news release includes statements about the work towards, and completion of, a NI 43-101 compliant technical report and rectification of website disclosure issues; resolution of the BCSC's issues and comments with the Technical Report and the Company's website and the filing a NI 43-101 compliant technical report.

In connection with the forward-looking information contained in this news release, the Company has made numerous assumptions, regarding, among other things, that the Company will be able to work with its consultants and the BCSC to resolve the issues addressed by the BCSC in a NI 43-101 compliant technical report and website. While the Company considers these assumptions to be reasonable, these assumptions are inherently subject to significant uncertainties and contingencies. Additionally, there are known and unknown risk factors which could cause the Company's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information contained herein. Known risk factors include, among others: the Company may not be able to resolve the issues raised by the BCSC in connection with the Technical Report or website on a timely basis, or at all, and the Company may not receive necessary cooperation of third parties required in order to address the issues raised by the BCSC. All forward-looking information herein is qualified in its entirety by this cautionary statement, and the Company disclaims any obligation to revise or update any such forward-looking information or to publicly announce the result of any revisions to any of the forward-looking information contained herein to reflect future results, events or developments, except as required by law.
