Aurora Solar Technologies announces volume order from the world's largest solar cell manufacturer

North Vancouver, Canada, January 7, 2020 – Aurora Solar Technologies Inc. (TSX.V: ACU) (the “Company”) is pleased to announce that it has received a new volume order for fourteen DM measurement systems. This order, from the largest manufacturer of high-efficiency PERC solar cells, continues to build on our growing business with our top-tier customers.

“This order is Aurora’s first from the largest solar cell manufacturer in the world. Combined with our existing business with the top-tier manufacturers, this continues to solidify Aurora’s position as the dominant player in our field,” said Gordon Deans, Aurora’s Chief Executive Officer. “We continue to appreciate the confidence that our customers have placed in Aurora’s solutions”, he continued.

Aurora expects to ship these DM measurement systems later in the current fiscal quarter.

About Aurora Solar Technologies:

Aurora Solar Technologies is a leader in the development and delivery of inline process measurement, analysis and control systems for solar cell manufacturers. We believe that solar power will dominate the renewable energy field, and our mission is to bring quality and profitability to every customer through superior control of critical processes during solar cell manufacturing.

Aurora’s products are used by some of the world’s most advanced and respected solar cell manufacturers. With headquarters near Vancouver, Canada, Aurora has operations in Shanghai, China and partners in all major solar manufacturing markets. Aurora is a public company, traded on the TSX Venture Exchange (ACU) and is a two-time TSX-V Top 50 winner. Aurora’s website is located at www.aurorasolartech.com.
