

1844 Extends Its Position to 299 Claims on Native Copper Project

Saskatoon, Saskatchewan--(Newsfile Corp. - June 20, 2022) - **1844 RESOURCES INC. (TSXV: EFF)** (the "**Company**" or "**1844**") announces that it has acquired the final four (4) claims required to complete its land position on its Native Copper Project on the Gaspé Peninsula of eastern Quebec. This addition now brings the total land position to 299 claims covering over 98 square kilometres and includes seven (9) known copper showings and high-grade drilling, trenching and grab sample assays for both coppers.

Mr. Bernard-Olivier Martel, Director of Exploration at 1844, states "we are exceptionally pleased with this addition as it closes off our land position and adds the remaining two (2) known showing in the Native Copper Project area. The high-grade samples taken to date on the limited exploration done in the area are highly prospective and strengthens our thesis that the Native Copper Project could become a copper exploration camp in the Gaspé Peninsula." Historic work results on these newly acquired claims are as follows:

Under the terms of the purchase agreement (the "Agreement"), the Vendor, an arms-length party, will receive \$5,000 and 500,000 common shares and a 2% net smelter returns royalty, 1% of which may be retired for a one-time payment of \$750,000.

Vortex Update

After detailed analysis 1844 has decided to postpone its previously announced drill program on the Vortex Project due to the proximity of a habitat of a vulnerable or threatened wildlife species (Forest Caribou, Gaspésie population). 1844's technical team has now shifted its exploration plans firmly to the Native Copper Project.
