

CONSENT OF EXPERT

EPCM Erudite Strategies Inc. (“**EPCM**”) is a full service mining engineering firm that, among other things, provides consulting services to mining companies, including the preparation of technical reports under National Instrument 43-101.

In connection with the preparation of the technical study to assess a potential battery anode facility to be constructed by NextSource Materials Inc. (“**NextSource**”) in Mauritius, EPCM was engaged to scope the design and engineering of a 3,600 tpa BAF plant and associated utilities, produce a Class 4 estimate of capital and operating costs, and a project schedule for the completion of a more robust estimate of capital expenditures (the “**Mauritius BAF Technical Study**”).

EPCM hereby consents to being named in the final short form prospectus of NextSource dated July 27, 2023 (the “**Prospectus**”) and to the inclusion of the written disclosure in the Prospectus or incorporated by reference therein related to the inputs provided by EPCM in the preparation of Mauritius BAF Technical Study.

We confirm that we have read the Prospectus, including the written disclosure of the information provided by EPCM in the Mauritius BAF Technical Study contained in the Prospectus or incorporated by reference therein and have no reason to believe that there are any misrepresentations in the information contained therein that is within our knowledge as a result of the services performed by EPCM in connection with the Mauritius BAF Technical Study.

DATED this 27th day of July, 2023.

EPCM Erudite Strategies Inc.
