MANAGEMENT'S DISCUSSION AND ANALYSIS

For the three months ended September 30, 2015

Comments in this management's discussion and analysis ("MD&A") of the financial condition of the Company should be read in conjunction with the unaudited financial statements and related notes for the three months ended September 30, 2015 and the audited financial statements and related notes for the year ended June 30, 2015. The information contained within this MD&A is current to November 24, 2015 and in Canadian dollars unless otherwise stated. The directors of the Company approved the contents of this MD&A on November 24, 2015.

OVERVIEW

Redline Resources Inc., formerly Benzai Capital Corp., is structured as a "Capital Pool Company" as defined by the policies of the TSX Venture Exchange (the "Exchange"). The Company completed its initial public offering and listed its common shares on the Exchange in December 2007. The Company's business is to identify and evaluate potential business opportunities with a view to completing a "Qualifying Transaction". A proposed Qualifying Transaction must be accepted by the Company's shareholders and by the Exchange in accordance with Exchange Policy 2.4. Exchange policies had required that the Company complete the Qualifying Transaction prior to March 31, 2010.

The Company did not initially complete a Qualifying Transaction within the necessary time and the Company was required to transfer its listing to the NEX board of the Exchange ("NEX"). The Company's application for listing was approved by NEX effective July 16, 2010. As a Capital Pool Company listed on NEX, the Company continues to be required to comply with all of the requirements and restrictions in Exchange Policy 2.4.

As a result of delays in filing certain disclosure documents, including its annual and quarterly financial statements and management discussion and analysis, on November 7, 2013, the British Columbia Securities Commission issued a cease trade order (the "Cease Trade Order") suspending trading of the Company's securities. As a result of the Cease Trade Order, the TSX Venture Exchange suspended trading of the Company's common shares until such time as the Company's filings were up-to-date and it accepted a reinstatement application by the Company. The Cease Trade Order was revoked effective June 23, 2015.

PROPOSED ACQUISITION OF REDLINE MINERALS INC.

On February 10, 2012, the Company announced that it had reached an agreement in principle (the "Agreement") to acquire all of the shares of Redline Minerals Inc. ("RMI"). RMI is a private Canadian company in the business of sourcing, exploring and developing mineral properties in the southwestern United States. Effective June 25, 2012, the Company entered into an agreement with RMI and the RMI shareholders, pursuant to which the Company agreed to acquire all of the issued and outstanding common shares of RMI in exchange for an equivalent number of the Company's common shares (the "Acquisition"). The Acquisition was conditional upon the approval by the Company's shareholders of the transaction and a share consolidation of two pre-consolidation common shares for every one post-consolidation common share. The acquisition was also conditional on the Company raising a minimum of \$500,000 through private placement offerings prior to the closing of the Acquisition in order to fund acquisition expenditures, a future initial phase of work on RMI's mineral property interests and for general working

capital purposes. If approved, the Company anticipated issuing 10,896,974 post-consolidation common shares to acquire RMI.

On January 9, 2013, the Company's shareholders approved the Acquisition and the share consolidation and on February 11, 2013, the Company consolidated its issued and outstanding common shares on the basis of one new common share for every two common shares previously issued and outstanding. The completion of the Acquisition remained conditional on the Company raising sufficient funds through private placements to meet its funding requirement.

The Company was not able to raise the necessary funds to close the Acquisition with RMI.

PROPOSED ACQUISITION OF TYKO RESOURCES INC.

The Company entered into a Share Exchange Agreement, effective January 30, 2015, concerning a proposed transaction whereby the Company will acquire ownership of Tyko Resources Inc. ("Tyko"), a private Canadian company in the business of sourcing, exploring and developing mineral properties in Ontario (the "Proposed Transaction"). The Proposed Transaction with Tyko is expected to constitute the Company's Qualifying Transaction as defined under Policy 2.4 of the Exchange, thereby replacing the prior target company RMI, which has granted the Company permission to enter into this Proposed Transaction. Closing of the Proposed Transaction is subject to certain receipts and third-party consents, Exchange approval, the Company raising a minimum of \$1,000,000 through the issuance of common shares, completion by Tyko of a National Instrument 43-101 technical report and title opinion on the Tyko mineral property, the settlement of certain of the Company's outstanding debts, the removal of the Company's cease trade order and the changing of the Company's name to Nickel One Inc.. If the closing does not occur on or before December 31, 2015, the Share Exchange Agreement will terminate unless extended by mutual agreement of the parties.

The Company's primary activities for the three months ended September 30, 2015, have focused on meeting the Exchange's minimum listing requirements and investigating a possible Qualifying Transaction. The increased net loss for the quarter ended June 30, 2015 is due to the accrual of legal fees relating to the proposed Qualifying Transaction. RECENT ACCOUNTING PRONOUNCEMENTS

The accounting policies adopted in the preparation of these condensed interim financial statements are consistent with those followed in the preparation of the Company's annual audited financial statements for the year ended June 30, 2015. It is not anticipated that the adoption of recent or future IFRS policies will have any significant impact on the Company.

CRITICAL ACCOUNTING ESTIMATES

The preparation of the financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Areas requiring a significant degree of estimation and judgment include the assumptions made in assessing the use of the going concern assumption. Due to the inherent uncertainty involved with making such estimates, actual results reported in future years may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

RISKS AND UNCERTAINTIES

The Company recognizes that certain risks are inherent in its business plan, which requires the Company to manage its affairs to minimize the potential impact of such risks to its operations. The following are the more significant

risks managed by the Company, but there may be other risks and uncertainties that are not presently known or that are currently deemed immaterial, that may also impair the operations of the Company in the future.

The Qualifying Transaction may not be completed.

The completion of the Qualifying Transaction is subject to raising minimum financing and acceptance for filing by the Exchange. There can be no assurance that the funds will be raised or all of the necessary approvals will be obtained. If the Qualifying Transaction does not complete, the Company will continue to search for other opportunities, however, it will have incurred significant costs associated with the Qualifying Transaction. In the event the Qualifying Transaction is not accepted for filing, the Company will remain a CPC.

The Exchange will review the expenses, disclosure, trading history and other transactions undertaken by the Company during its listing to determine compliance with Exchange policies. The Exchange may refuse to accept the Qualifying Transaction if significant concerns arise from its review and where, among other things, the Company fails to meet the minimum listing requirements prescribed by the Exchange upon completion of the Qualifying Transaction, or the consideration proposed to be paid by the Company in connection with the Qualifying Transaction is objectionable to the Exchange.

Securing additional financing for ongoing operations may not occur.

Given the present financial position of the Company, it will need to raise additional equity financing in order to maintain its listing on the Exchange until such time that a Qualifying Transaction can be completed as discussed elsewhere. There is no guarantee that the Company will be able to secure additional financings in the future at terms that are acceptable.
