**12.98 g/t GOLD OVER 14.63 m INTERSECTED IN SIXTIES ZONE  
And  
22.2 g/t GOLD OVER 6.1 m INTERSECTED IN BIG M ZONE**

**Stewart, BC** - Decade Resources Ltd. ("Decade") reports that it has received the assays for further diamond drill holes completed in 2014 on the Bow Property. Core had been logged and cut in December 2014 and assays results are now being obtained for the late 2014 work. The Company completed 15 drill holes testing different zones on the Bow property in the 2014 exploration program. Six holes tested the Sixties – Big M vein areas, 3 holes tested a stockwork zone of narrow pyrite veining, 2 holes tested the Oro Grande zone, 2 holes tested a large gold-copper soil anomaly and 2 holes tested areas of intense rust staining. Highlights of assays for the fifth hole include the following:

| <b>Drill Hole<br/>#</b> | <b>Azimuth<br/>(degrees)</b> | <b>Dip<br/>(degrees)</b> | <b>From (m)</b> | <b>To (m)</b> | <b>Width (m)</b> | <b>Au g/t</b> |
|-------------------------|------------------------------|--------------------------|-----------------|---------------|------------------|---------------|
| DDH-14-<br>Bow-5        | 90                           | - 45                     | 21.96           | 36.59         | 14.63            | 12.98         |
| and                     |                              |                          | 63.11           | 73.17         | 6.1              | 22.2          |

Both holes 5 and 6 intersected the Sixties zone south of the Blueberry structure. A map showing the 2014 drill plan in the area of DDH-Bow-2014-1 to 6 is posted on the website. The intersections on the Sixties zone is approximately 50 m south of the collars for DDH-14 - BOW- 1 to 2. Photos of the core from DDH-14-Bow 1 and 2 are also posted on the website.

It is expected that complete assay results for the remaining holes will be received in the next few weeks. Upon receipt of complete results and tabulation, the Company will release final assays.

Ed. Kruchkowski, P. Geo., a qualified person under National Instrument 43-101, is in charge of the exploration programs on behalf of the Company and is responsible for the contents of this release. E Kruchkowski has conducted all the exploration on behalf of the Company on this property and was responsible for all the logging and sampling. All

samples are assayed by Loring Laboratories of Calgary, Alberta. It is an ISO9001 certified laboratory. All gold assays are analyzed by fire methods which includes gravimetric finishes on the individual samples.

Decade Resources Ltd. is a Canadian based mineral exploration company actively seeking opportunities in the resource sector. Decade holds numerous properties at various stages of development and exploration from basic grass roots to advanced ones. Its properties and projects are in Northern British Columbia.
