NEWS RELEASE

July 21, 2017 TSX-V: DEC

DECADE CLOSES PRIVATE PLACEMENT FOR $457,900

Stewart, B.C. – Decade Resources Ltd. (the "Company") is pleased to report that it has closed its previously announced non-brokered private placement of flow-through and non-flow-through units.

The Company issued a total of 2,898,823 flow-through units, at a price of $0.085 per flow-through unit, for gross proceeds of $246,400. Each flow-through unit is comprised of one flow-through common share and one transferable non-flow-through warrant, each warrant being exercisable for the purchase of one additional common share, at a price of $0.11 per share, for a two year period.

Due to the recent increase in the Company's share price, the non-flow-through units were issued at two prices. Subscriptions for non-flow-through units received before the Company's July 5, 2017 news release regarding drilling on the Red Cliff property were issued at the previously-announced price ($0.065 per unit), whereas subscriptions received after the issuance of that news release received units at the minimum price permitted by the TSX Venture Exchange ($0.085 per unit). As a result, the Company issued 1,000,000 non-flow-through units at a price of $0.065 per unit for gross proceeds of $65,000, with each such unit being comprised of one common share and one transferable warrant, each warrant being exercisable for the purchase of one additional common share at a price of $0.09 per share, for a two year period. The Company also issued 1,723,527 non-flow-through units at a price of $0.085 per unit, for gross proceeds of $146,500. Each of these units is comprised of one common share and one transferable warrant, each warrant being exercisable for the purchase of one additional common share, at a price of $0.11 per share, for a two year period. Aggregate subscription proceeds from the sale of all of the non-through through units totaled $211,500.

The aggregate proceeds from the sale of flow-through and non-flow-through units totaled $457,900. The proceeds from the sale of the flow-through units will be expended on the Company's properties located in British Columbia and the proceeds from the sale of non-flow-through units will be used for working capital purposes.

No finder's fees or commissions were paid in connection with the private placement.

All of the shares, warrants, and any shares issued upon exercise of the warrants comprising the units, are subject to a hold period until November 22, 2017, except as permitted by applicable Canadian securities laws and the TSX Venture Exchange.

Decade Resources Ltd. is a Canadian based mineral exploration company actively seeking opportunities in the resource sector. Decade holds numerous properties at various stages of development and exploration from basic grass roots to advanced ones. Its properties and projects are all located in the "Golden Triangle" area of Northern British Columbia.
