WESTCORE ENERGY LTD. PROVIDES DRILLING UPDATE AT FLAXCOMBE

SASKATOON, SASKATCHEWAN – (Marketwired – June 16, 2017) Westcore Energy Ltd. (“Westcore” or the “Company”) (TSXV: WTR) announces that it has completed the initial drilling operations on its three well program at Flaxcombe, along with its partner Eros Resources Corp. The three well program commenced on June 1, 2017 and drilling was completed on June 14, 2017. The program was designed based on the re-interpretation of a 3D seismic survey that Westcore acquired with the property.

All three wells successfully encountered the Lower Mannville Group Success Sand Formation, with multiple oil bearing sands in each well bore. The Upper Success Sand Formation, which is the primary target, shows total oil bearing formation thicknesses of 5 meters, 9 meters and 11 meters respectively. The Lower Success Sand Formation, which is a secondary target, shows a total oil bearing formation thickness of 8 meters in each well. The Company will be reviewing the results with its completions team, with a view to bringing the wells on production in the most efficient manner possible.

Reader Advisory

Except for statements of historical fact, this news release contains certain "forward-looking information" within the meaning of applicable securities law. Forward-looking information is frequently characterized by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur. Although we believe that the expectations reflected in the forward-looking information are reasonable, there can be no assurance that such expectations will prove to be correct. We cannot guarantee future results, performance or achievements. Consequently, there is no representation that the actual results achieved will be the same, in whole or in part, as those set out in the forward-looking information.

Forward-looking information is based on the opinions and estimates of management at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated in the forward-looking information. Some of the risks and other factors that could cause the results to differ materially from those expressed in the forward-looking information include, but are not limited to: general economic conditions in Canada, the United States and globally; industry conditions, governmental regulation, including environmental regulation; commodity prices; unanticipated operating events or performance; failure to obtain industry partner and other third party consents and approvals, if and when required; the availability of capital on acceptable terms; the need to obtain required approvals from regulatory authorities; stock market volatility; competition for, among other things, capital, skilled personnel and supplies; changes in tax laws; and the other risk factors disclosed under our profile on SEDAR at www.sedar.com. Readers are cautioned that this list of risk factors should not be construed as exhaustive.

The forward-looking information contained in this news release is expressly qualified by this cautionary statement. We undertake no duty to update any of the forward-looking information to conform such information to actual results or to changes in our expectations except as otherwise required by applicable securities legislation. Readers are cautioned not to place undue reliance on forward-looking information.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
