Notes to the Condensed Interim Consolidated Financial Statements

September 30, 2023 and 2022

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

1. NATURE OF OPERATIONS AND GOING CONCERN

Falcon Gold Corp. (the “Company”) was incorporated pursuant to the provisions of the Business Corporations Act (Ontario) on November 24, 2006 and was continued under the Business Corporations Act (British Columbia) on May 2, 2013. The Company’s registered office is located at suite 1100 – 1111 Melville Street, Vancouver, BC, V6E 3V6.

These condensed interim consolidated financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company was not expected to continue operations for the foreseeable future. At September 30, 2023, the Company has not achieved profitable operations, has accumulated losses of \$11,170,229 since inception and expects to incur further losses in the development of its business.

The Company’s business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, and national and international circumstances. Recent geopolitical events, including, the outbreaks of the coronavirus (COVID-19) pandemic, relations between NATO and Russian Federation regarding the situation in Ukraine, and potential economic global challenges such as the risk of the higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Company’s business.

The above material uncertainties cast significant doubt about the Company’s ability to continue as a going concern. The Company’s continuation as a going concern is dependent upon successful results from its exploration and evaluation activities, its ability to attain profitable operations to generate funds and/or its ability to raise equity capital or borrowings sufficient to meet its current and future obligations. Although the Company has been successful in the past in raising funds to continue operations, there is no assurance it will be able to do so in the future.

These condensed interim consolidated financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these consolidated financial statements.

2. BASIS OF PREPARATION**Statement of compliance**

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”) and in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting.

The condensed interim consolidated financial statements were authorized for issue by the Board of Directors on January 15, 2024.

Basis of Measurement

These condensed interim consolidated financial statements have been prepared on a historical cost basis. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information. The presentation currency and the functional currency of the Company and its subsidiaries is the Canadian dollar.

2. BASIS OF PREPARATION (cont'd)**Basis of Measurement**

These condensed interim consolidated financial statements have been prepared on a historical cost basis. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information. The presentation currency and the functional currency of the Company and its subsidiaries is the Canadian dollar.

Transactions in foreign currencies are translated into the functional currency at exchange rates at the date of the transactions. Foreign currency differences arising on translation are recognized in profit or loss. Foreign currency monetary assets and liabilities are translated at the functional currency exchange rate at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when acquired. All gains and losses on translation of these foreign currency transactions are included in profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES

The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of the audited consolidated financial statements as at June 30, 2023.

Recent accounting pronouncements

A number of new standards, and amendments to standards and interpretations, are not yet effective for the fiscal period ended September 30, 2023 and have not been early adopted in preparing these financial statements. These new standards, and amendments to standards and interpretations are either not applicable or are not expected to have a significant impact on the Company's financial statements.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in net loss in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

Impairment of Mineral Properties

In accordance with the Company's accounting policy for its mineral properties, exploration and evaluation expenditures on mineral properties are capitalized. There is no certainty that the expenditures made by the Company in the exploration of its property interests will result in discoveries of commercial quantities of minerals. The Company applies judgment to determine whether indicators of impairment exist for these capitalized costs.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (cont'd)Impairment of Mineral Properties (cont'd)

Management uses several criteria in making this assessment, including the period for which the Company has the right to explore, expected renewals of exploration rights, whether substantive expenditures on further exploration and evaluation of mineral properties are budgeted, and evaluation of the results of exploration and evaluation activities up to the reporting date.

Determining Amount and Timing of Reclamation Provisions

A reclamation provision represents the present value of estimated future costs for the reclamation of the Company's mineral properties. These estimates include assumptions as to the future activities, cost of services, timing of the reclamation work to be performed, inflation rates and interest rates. The actual cost to reclaim a mine or exploration property may vary from the estimated amounts because there are uncertainties with respect to the extent of required future remediation activities, as studies are currently ongoing, and uncertainties in factors used to estimate the cost and potential changes in regulations or laws governing the reclamation of a mineral property. Management periodically reviews the reclamation requirements and adjusts the liability as new information becomes available and will assess the impact of new regulations and laws as they are enacted.

Going Concern

The assessment of the Company's ability to execute its strategy by funding future working capital requirements involves judgement. Management monitors future cash requirements to assess the Company's ability to meet these future funding requirements. Further information regarding going concern is outlined in Note 1.

5. MARKETABLE SECURITIES

Marketable securities are fair valued at the end of each reporting period. The fair values of the common shares of the publicly traded companies have been directly referenced to published price quotations in an active market. The fair value of investments in private company is referenced to the most recent equity financing completed.

Investment in marketable securities	Number of shares/Units Held	Investment Cost	Fair Value at Sept. 30, 2023	Number of shares/Units Held	Investment Cost	Fair Value at June 30, 2023

During the fiscal year ended June 30, 2023, the Company completed the plan of arrangement ("the Arrangement") whereby the Company spun out its Esperanza property assets to create a new exploration company, Latamark Resources Corp. ("Latamark"), under the Business Corporations Act (British Columbia). In consideration for the transferred assets, the Company received 5,000,000 common shares of Latamark and in addition, each holder of common shares of the Company received one Latamark common share for each 5.8 common shares of the Company held which was recorded as distribution to the shareholders of the Company. Latamark is connected by way of common directors or officer.

6. EXPLORATION AND EVALUATION ASSETS (cont'd)**Central Canada Property**

The Central Canada Property is subject to a 2.0% net smelter return in favour of the previous owner of the claims. On January 10, 2018, the Company entered into an option agreement to acquire 100% of the Central Canada Property consisting of a claim group located in Hutchinson Township, east of Atikokan in Northern Ontario. The Central Canada Property consists of 7 unpatented mining claims consisting of 42 claim shares. As consideration, the Company is required to issue 325,000 common shares and make cash payments totalling \$141,500 and incur \$100,000 in exploration and evaluation expenditures as follows:

- a) Cash payment of \$6,500 on signing (paid);
- b) Issue 50,000 common shares on regulatory approval (issued);
- c) Cash payment of \$15,000 (paid), issuance of 50,000 common shares (issued) and incur \$10,000 in exploration expenditures on or before the first anniversary of the approval (incurred);
- d) Cash payment of \$30,000, issuance of 50,000 common shares (see below) and incur \$20,000 in exploration expenditures on or before the second anniversary of the approval (incurred);
- e) Cash payment of \$40,000 (paid), issuance of 75,000 common shares (issued) and incur \$30,000 in exploration expenditures on or before the third anniversary of the approval date (incurred); and
- f) Cash payment of \$50,000 (paid), issuance of 100,000 common shares (issued) and incur \$40,000 in exploration expenditures on or before the fourth anniversary of the approval date (incurred).

In addition, on the fifth anniversary of the approval date, the Company must pay a pre-production advance royalty cash payment of \$20,000 (paid), and cash payments of \$5,000 thereafter on each anniversary of the approval date.

The Central Canada Property is subject to a 2.0% net smelter return in favour of the previous owner of the claims. The Company may purchase the one-half of the net smelter return for an aggregate amount of \$1,000,000 at any time prior to the commencement of production.

During the year ended June 30, 2020, the Company entered into a debt settlement agreement to cover \$21,000 of the second anniversary payment by issuing 350,000 common shares and a cash payment of \$15,000, which was paid on August 8, 2020.

On July 23, 2020, the Company staked additional mineral claims consisting of 369 units in Atikokan gold camp. During the year ended June 30, 2022, the Company has determined not to renew some of the claims as they are not considered to be core claims. During the year ended June 30, 2023, the Company determined not to renew any non-core claims and wrote down the carrying amount of non-core claims by \$17,000. As at September 30, 2023, the Company has a total of 31 claims.

Spitfire and Sunny Boy

On April 14, 2020, the Company acquired 100% interest in Spitfire and Sunny Boy claims in south central British Columbia. The claims are located approximately 16 kilometers east of Merritt and total 502 hectares. As consideration the Company paid cash of \$25,000, issued 2,500,000 common shares fair valued at \$175,000 and issued 2,500,000 warrants exercisable at \$0.10 for a period of two years with a fair value of \$113,883.

The vendor will retain a 2% net smelter royalty (NSR). The Company will have the right to purchase 0.5 of the total NSR 1% at any time up to commencement of production for a one-time payment of \$400,000.

6. EXPLORATION AND EVALUATION ASSETS (cont'd)**Gaspard Claims**

On January 27, 2021, the Company entered into a property purchase agreement to acquire 100% interest in the Gaspard Claims which is located in the Clinton Mining District in central British Columbia. The Gaspard Claims consist of 3 mineral claims totaling 3,955.15 hectares. As consideration, the Company paid \$15,000 in cash and issued 200,000 common shares and granted 200,000 warrants at \$0.20 per share for a two year term within 15 days of the effective date and complete \$34,000 in exploration expenditures on the property during the 2021 field season.

The Company fair valued the 200,000 warrants at \$10,000 using the Black Scholes option pricing model with the following assumptions – Share price on grant date of \$0.09; Risk-free interest rate of 0.22%; Dividend yield of NIL; Expected volatility of 140%; Expected life of 2 years and forfeiture rate of 0%. Volatility was determined based on the Company's historical data.

The Company will pay a 2% net Smelter Returns ("NSR") to the vendor and the Company may at any time purchase 1% NSR for \$1,500,000.

Hope Brook

During the year ended June 30, 2021, the Company staked claims within the Hope Brook area in Newfoundland for a total cost of \$64,740. During year ended June 30, 2022, the Company staked additional claims for a total cost of \$43,160. As at June 30, 2023, the Company has a total of 1,795 claims. During fiscal 2023, it was determined that some of the claims comprising the Hope Brook property would be allowed to lapse. The Company recorded impairment in the amount of \$13,818.

Baie Verte Area

During the year ended June 30, 2022, the Company staked claims in Newfoundland for a total cost of \$62,045. As at September 30, 2023, the Company has a total of 502 claims.

During the fiscal year ended June 30, 2023, the Company entered into an option agreement with Carmanah Minerals Corp. ("Carmanah") with respect to 502 claims whereby the Company will receive cash payments of \$62,000 over a four-year period and 2,000,000 common shares and 2,000,000 common share purchase warrants of Carmanah with each share purchase warrant exercisable for one common share at \$0.10 per share for a period of three years from the date of issue. In addition, the Company will retain a 2.5% NSR of which Carmanah may purchase 1% for \$1,000,000 at any time. The transaction is subject to approval by the TSX Venture Exchange as the Company and Carmanah are related parties as a result of common officers and directors. (See Note 11)

8. RELATED PARTY TRANSACTIONS

Related parties include the Board of Directors and officers, close family members and enterprises that are controlled by these individuals as well as certain consultants performing similar functions.

Related party transactions conducted in the normal course of operations are measured at the exchange value (the amount established and agreed to by the related parties).

The Company had the following transactions in the normal course of operations with related parties:

		For the three months ended September 30,	
		2023	2022
Management fees	R7 Capital Ventures Ltd. controlled by CEO	\$ 45,000	\$ 30,000
Office and miscellaneous	R7 Capital Ventures Ltd.	13,900	7,500
Professional fees	Harmony Corporate Services Ltd. controlled by CFO	-	6,000
	Brant Capital Partners Inc. Controlled by CFO	6,000	-
Share-based payments	Directors and officers	12,600	-
		\$ 77,500	\$ 43,500

As at September 30, 2023, prepaid expenses include \$7,600 (June 30, 2023 - \$11,400) in prepaid rent to the CEO.

As at September 30, 2023, accounts payable and accrued liabilities include \$11,600 (June 30, 2023 - \$nil) due to officers and directors of the Company. These amounts are unsecured, non-interest bearing and have no fixed terms of repayment.

9. RISK MANAGEMENT, CAPITAL MANAGEMENT AND FINANCIAL INSTRUMENTS

The Company manages its capital structure and makes adjustments to it based on the funds available to the Company in order to support future business opportunities. The Company defines its capital as shareholders' equity. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to manage its capital to be able to sustain the future development of the Company's business.

The Company currently has no source of revenues, and therefore is dependent upon external financings to fund activities. In order to carry future projects and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the period ended September 30, 2023. The Company is not subject to externally imposed capital requirements.

9. RISK MANAGEMENT, CAPITAL MANAGEMENT AND FINANCIAL INSTRUMENTS (cont'd)

The Company's risk exposure and the impact on the Company's financial instruments are summarized below:

(a) Credit risk

Concentration of credit risk exists with respect to the Company's cash as all amounts are held at major Canadian financial institutions.

The Company's concentration of credit risk and maximum exposure is as follows:

	September 30, 2023	June 30, 2023
Cash and cash equivalents	\$ 65,071	\$ 326,356

The credit risk associated with cash is minimized by ensuring it is placed with a major Canadian financial institution with a strong investment-grade rating issued by a primary ratings agency.

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they fall due. The Company's approach to managing liquidity risk is to provide reasonable assurance that it will have sufficient funds to meet liabilities when due. The Company manages its liquidity risk by forecasting cash flows required for operations and anticipated investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments.

The business of mining and exploration involves a high degree of risk and there can be no assurance that exploration programs will result in profitable mining operations. The Company has insufficient cash to meet its requirements for administrative overhead, to conduct due diligence on mineral property acquisition targets, and to conduct exploration of its mineral properties and mineral properties that may be acquired.

The Company does not generate cash flows from operations to fund its activities and therefore relies principally upon the issuance of securities for financing. Future capital requirements will depend on many factors including the Company's ability to execute its business plan. The Company intends to continue relying upon the issuance of securities to finance its future activities but there can be no assurance that such financing will be available on a timely basis under terms acceptable to the Company.

(c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk.

- **Interest rate risk**

The Company's cash and cash equivalents consist primarily of cash held in bank accounts or in a brokerage account. Due to the short-term nature of this financial instrument, fluctuations in market rates do not have a significant impact on estimated fair value as of September 30, 2023. The Company manages interest rate risk by maintaining an investment policy that focuses primarily on preservation of capital and liquidity. Accordingly, the Company is not subject to interest rate risk.

9. RISK MANAGEMENT, CAPITAL MANAGEMENT AND FINANCIAL INSTRUMENTS (cont'd)**(c) Market risk**

- Foreign currency risk

During the period ended September 30, 2023 the Company was not exposed to material foreign currency risk.

- Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk, foreign currency risk or commodity price risk. The Company's marketable securities are exposed to other price risk.

Financial assets and liabilities that are recognized on the statement of financial position at fair value can be classified in a hierarchy that is based on the significance of the inputs used in making the measurements.

The levels in the hierarchy are:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The Company's financial assets include cash and is classified as Level 1. The carrying value of these instruments approximates their fair values due to the relatively short periods of maturity of these instruments.

The Company's financial assets measured at fair values through profit or loss are as follows:

September 30, 2023	Level 1	Level 2	Level 3
	\$	\$	\$
Marketable securities	88,728	-	30,001

June 30, 2023	Level 1	Level 2	Level 3
	\$	\$	\$
Marketable securities	88,960	-	30,001

10. INCOME TAXES*Flow-through*

Flow-through common shares require the Company to spend an amount equivalent to the proceeds of the issued flow-through common shares on Canadian qualifying exploration expenditures. The Company may be required to indemnify the holders of such shares for any tax and other costs payable by them in the event the Company has not made the required exploration expenditures.

10. INCOME TAXES (cont'd)

During the year ended June 30, 2023, the Company received \$1,202,000 from the issuance of flow-through shares. These amounts will not be available to the Company for future deduction from taxable income. The Company renounced \$1,202,000 to the subscribers. A flow-through premium of \$246,692 was recognized initially, with \$195,240 remaining at September 30, 2023 and \$12,253 was recognized as other income. As at September 30, 2023, the Company has a commitment to incur \$934,412 in exploration expenditures by December 31, 2023.

11. SUBSEQUENT EVENTS

Subsequent to September 30, 2023

On October 18, 2023, the Company received approval from the TSX Venture Exchange with respect to the option agreement of the Baie Verte Area as disclosed in Note 6.

On November 2, 2023, the Company cancelled 250,000 common shares and 250,000 share purchase warrants resulting in a reduction of share subscription receivable of \$27,500.

On November 20, 2023, the Company issued 500,000 common shares pursuant to the exercise of warrants, for cash proceeds of \$25,000.

On December 20, 2023, the Company issued 2,166,667 units for cash proceeds of \$65,000. Each unit consists of one common share and one common share purchase warrant exercisable at \$0.05 for a period of twenty-four months from the date of issue.

On December 29, 2023, the Company announced the re-pricing of 6,666,665 outstanding share purchase warrants with an expiry date of January 14, 2024, from \$0.20 per share to \$0.12 per share, and to extend the term of the warrants an additional twenty-four months to January 14, 2026. The transaction is subject to TSXV approval.
