

Metallis Launches 2021 Exploration Program with Extensive ZTEM Survey over Kirkham

VANCOUVER, BC, June 22, 2021 /CNW/ - **Metallis Resources Inc.** (TSXV: MTS) (OTCQB: MTLFF) (FSE: 0CVM) (the "Company" or "Metallis") reports that its 2021 exploration season is now underway with the commencement of its previously announced ([See News April 7, 2021](#)) property wide Z-Axis Tipper Electromagnetic survey ("ZTEM" or "the Survey") at its 100%-owned Kirkham Property (the "Property"). The Property is situated in the prolific Eskay Camp of the Golden Triangle in northwestern British Columbia, a district known worldwide for the past producing Eskay Creek and Snip gold mines, Seabridge's KSM porphyry deposits and Pretium's producing Brucejack gold mine.

Metallis' CEO Fiore Aliperti stated, "This is an incredibly exciting day for the Metallis technical team as it marks the start of our most aggressive exploration program to date at our Kirkham Property. The team has worked non-stop over the past two months developing both our ground and drilling programs, a real collaborative effort by all our technical minds." He went on to add, "The first members of the team have arrived at the camp, and soon we expect to announce details of the upcoming drill program."

The Survey, being conducted by Geotech Ltd., comprises a total of 846 line-kms and is designed to cover most of the 106 sq. km Property. Additionally, this survey will extend a short distance onto adjacent lands held by Garibaldi Resources Corp. to the north and Eskay Mining Corp. to the east ([Click here to view map](#)). Survey data will be transmitted daily for analysis by Company Geophysicist Dr. Jules Lajoie, who will provide guidance on initial interpretations. ZTEM™ is ideal for mapping deeply buried, porphyry hosted and structurally controlled targets. Preliminary results from the Survey will be utilized to help further refine the 2021 drill program due to start in the coming weeks.

Qualified Person

David Dupre, P.Geo, Vice President - Exploration and the Qualified Person, as defined by National Instrument 43-101, has reviewed, and approved the technical information contained in this release.

About the Kirkham Property

The wholly owned 106 sq. km Kirkham Property is located about 65 km north of Stewart, B.C., in the heart of the Golden Triangle's prolific Eskay Camp. The Property is prospective for multiple mineral deposit types and is located along a strategic geological boundary – the "Red-line" exposed on the western margin of the Eskay Rift system in the Golden Triangle, northwestern British Columbia.

The Kirkham Property is contiguous to Garibaldi Resources Corp.'s E&L Nickel Mountain Project in the north and Eskay Mining Corp. to the east. The property is within 12 km of the Eskay Creek mine and within 12 – 20 km of Seabridge Gold's KSM deposits and Pretium Resources' Brucejack mine.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This Press Release may contain statements which constitute 'forward-looking' statements, including statements regarding the plans, intentions, beliefs and current expectations of the Company, its directors, or its officers with respect to the future business activities and operating performance of the Company. The words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "estimate", "expect" and similar expressions, as they relate to the Company, or its management, are intended to identify such forward-looking statements. Investors are cautioned that any such forward-looking statements are not guarantees of future business activities or performance and involve risks and uncertainties, and that the Company's future business activities may differ materially from those in the forward-looking statements because of various factors. Such risks, uncertainties and factors are described in the periodic filings with the Canadian securities' regulatory authorities, including quarterly and annual Management's Discussion and Analysis, which may be viewed on SEDAR at www.sedar.com. Should one or more of these risks or uncertainties materialize, or should assumptions underlying the forward-looking statements prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated, or expected.

Although the Company has attempted to identify important risks, uncertainties and factors which could cause actual results to differ materially, there may be others that cause results not to be as intended, planned, anticipated, believed, estimated, or expected. The Company does not intend, and does not assume any obligation, to update these forward-looking statements.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release. The TSX-V Stock Exchange has neither approved nor disapproved the contents of this news release.
