

MIDNIGHT SUN MINING CORP.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE THREE MONTHS ENDED MARCH 31, 2022**

As at May 27, 2022

MIDNIGHT SUN MINING CORP.
MANAGEMENT DISCUSSION AND ANALYSIS
For the Three-Month Period Ended March 31, 2022

1. INTRODUCTION

The following management's discussion and analysis ("MD&A") of Midnight Sun Mining Corp. has been prepared as of May 27, 2022. This MD&A should be read in conjunction with the condensed consolidated interim financial statements ("Financial Statements") of Midnight Sun Mining Corp. and the notes thereto for the period ended March 31, 2022, and the audited consolidated financial statements for the year ended December 31, 2021, which have been prepared using accounting policies consistent with International Financial Reporting Standards ("IFRS"). The Financial Statements have been prepared using the accrual basis of accounting except for cash flow information. All figures are expressed in Canadian dollars unless otherwise indicated.

Management is responsible for the preparation and integrity of the Financial Statements, including the maintenance of appropriate information systems, procedures and internal controls. Management is also responsible for ensuring that information disclosed externally, including the financial statements and MD&A, is complete and reliable.

Description of Business

Midnight Sun Mining Corp. (the "Company" or "Midnight Sun") was incorporated on April 11, 2007 pursuant to the Business Corporations Act of British Columbia. The Company's principal business activity is acquiring, exploring and evaluating mineral properties and joint venturing or developing these properties further or disposing of them when the evaluation is complete. At March 31, 2022, the Company was in the exploration stage of activity on its jointly held exploration licenses in Zambia, and the Financial Statements include the accounts of its subsidiaries Midnight Sun Mining Zambia Limited ("MSM Zambia"), a company incorporated on October 29, 2013 under the laws of Zambia as well as Midnight Sun One Co. and Midnight Sun Two Co., two companies incorporated in 2018 under the laws of the British Virgin Islands. The Company has consolidated the operations of MSM Zambia since its incorporation.

2. HIGHLIGHTS & SUBSEQUENT EVENTS

Highlights for and subsequent to the Three-Month Period Ended March 31, 2022

- Subsequent to the Period ended March 31, 2022, the Company extended the exercise period of a total of 7,940,185 share purchase warrants, all of which are exercisable at \$0.25 per common share for an additional 12- months period, and the new expiry dates will be May 25, 2023.
- Subsequent to the period ended March 31, 2022, the Company extended the maturity of two related party loans with a balance of \$164,774 at March 31, 2022 from February 9, 2022 to December 31, 2022. All other terms remained the same.
- During the period ended March 31, 2022, the Company entered into an agreement with Red Sea Resources, whereby it increased the amount advanced to \$1,268,099 and renegotiated the instrument as a convertible debenture, maturing on January 11, 2023 and convertible at \$0.15 per common share. The convertible debenture includes interest of \$63,030 owing at the time of repayment.
- During the period ended March 31, 2022, the Company announced listing its common shares to trade on the OTCQB under the symbol "MDNGF". The listing is expected to provide greater

MIDNIGHT SUN MINING CORP.
MANAGEMENT DISCUSSION AND ANALYSIS
For the Three-Month Period Ended March 31, 2022

liquidity and a better trading experience to the U.S shareholders. Trading on the OTCQB began on February 9th, 2022.

3. EXPLORATION AND EVALUATION ASSETS

60% Option Agreement

Pursuant to an option agreement (the “Option”) dated July 30, 2013, the Company acquired a 60% interest in two mineral prospecting licenses 21509-HQ-LEL and 12124-HQ-LPL, the Solwezi Licenses, which are held by subsidiary of Kam Chuen, Zambian Highlight Mining Investment Limited (“ZHMIL”). To earn the 60% interest in the Solwezi Licences Midnight Sun issued a total of 15,333,333 common shares (issued - valued at \$4,106,667) to Kam Chuen and incurred a total of \$3,666,667 in qualifying expenditures on the Solwezi Licenses. The Company received the 60% interest in ZHLMIL during the year ended December 31, 2019.

Under the Option, Midnight Sun was the operator responsible for managing all exploration and administration of the Solwezi Licenses and the Company has continued in this role since earning the 60% interest.

Solwezi Licenses - Zambia

The Solwezi Licenses cover a total area of 506 square kilometres in the Zambian Copperbelt and are located approximately 15 kilometres from the producing Kansanshi copper/gold mine and roughly 450 kilometres northwest of the Zambian capital of Lusaka.

On March 1, 2017, the Acting Chief Registrar of Mining Rights issued the license 21509-HQ-LEL which will be in effect for a period of 4 years with the option for future renewals providing the license is maintained in accordance with the contained terms and the Mines and Minerals Development Act, 2015. On February 28, 2021, license 21509-HQ-LEL was renewed for a further 3 year period. In doing so, the Company was required to relinquish 50% of the license area. The relinquished 50% has been granted to Rio Tinto Exploration Zambia Limited as license 28816-HQ-LEL and is held on behalf of the Company as per the terms of the Earn-In and Joint Venture Agreement between Rio Tinto and Midnight Sun.

On November 30, 2018, the Zambian Mining Cadastre issued a renewal of prospecting license 12124-HQ-LPL as large-scale exploration license, 12124-HQ-LEL, having an expiration date of December 23, 2021. This renewal was the final renewal period available to ZHLMIL. In accordance with the Mines and Minerals Development Act, 2015, for a period of 12 months, ZHLMIL is precluded from owning the same license area which expired. In order to preserve the license area, Rio Tinto formed a new corporation, Solwezi Metals Exploration Ltd., to apply for a new License over the same area. The relationship between Solwezi Metals Exploration Ltd. and Midnight Sun is governed by the terms of the Earn-In and Joint Venture Agreement between Rio Tinto and Midnight Sun. Solwezi Metals Exploration Ltd.’s application was accepted by the Zambian Mining Cadastre on November 23, 2021 and has since been validated and is currently pending final approval at the next Mining Licenses Committee meeting. There is no guarantee a new license will be granted to the Company or an affiliated entity.

Subsequent to the issuance of the shares, in response to a complaint lodged by the non-controlling shareholders, the Patents and Companies Registration Agency (“PACRA”) reversed the Company’s additional holding of 20.65%. The Company believes that this reversal was not in compliance with the laws of Zambia or ZHLMIL’s articles of association and disputed the action made by PACRA. Following a ruling in the Company’s favour, PACRA returned the shares to the Company on June 17, 2021. On the

MIDNIGHT SUN MINING CORP.
MANAGEMENT DISCUSSION AND ANALYSIS
For the Three-Month Period Ended March 31, 2022

acquisition of the additional 20.65% interest in the ZHMIL, the Company recognized a decrease to the non-controlling interest of \$1,587,043 with a corresponding reduction in deficit.

Exploration Property - Expenditures

As at March 31, 2022, the Company had funded the following expenditures on the Solwezi Licenses:

Site and project expenditures	31-Dec-21	Additions	31-Mar-22
Acquisition costs	\$ 9,961,348	\$ -	\$ 9,961,348
Assays	326,119	-	326,119
Diamond drilling	3,043,326	-	3,043,326
Field expenses	1,212,272	-	1,212,272
General & administration	871,418	17,944	889,362
Geological consulting	1,187,606	16,715	1,204,321
License	260,469	-	260,469
Travel and accommodation	709,705	-	709,705
Total operations funded	\$ 17,572,263	\$ 34,659	\$ 17,606,922

The following table presents the Company's mineral properties on a property-by-property basis for the two most recent financial years.

	Solwezi	Total
Balance, December 31, 2020	\$ 17,747,742	17,747,742
Exploration expenditures	139,741	139,741
Option payments received	(315,220)	(315,220)
Total additions during period	(175,479)	(175,479)
Balance, December 31, 2021	\$ 17,572,263	\$ 17,572,263
Exploration expenditures	34,659	34,659
Option payments received	-	-
Total additions during period	34,659	34,659
Balance, March 31, 2022	\$ 17,606,922	17,606,922

Exploration Property – Activities

The main deposit types being targeted by exploration on the Solwezi Licenses are; Stratiform-type deposits, a common model for many copper deposits within the Zambian Copperbelt, and Hydrothermal-type copper mineralization as found at the nearby Kansanshi Mine.

During the year ended December 31, 2020, the Company's Earn-In partner Rio Tinto commenced its initial work program on the Solwezi Project.

Rio Tinto's 2020 exploration work focused on strengthening their geological understanding of the Solwezi Licences. Emphasis was placed on identifying and modelling the geology of the Kazhiba Dome which underlies the 22 Zone, where an overturned Upper Plate and upright facing Lower Plate are separated by a mafic breccia. This geology appears similar to what is observed at the Kansanshi Mine. The work completed during this program included:

MIDNIGHT SUN MINING CORP.
MANAGEMENT DISCUSSION AND ANALYSIS
For the Three-Month Period Ended March 31, 2022

- The reanalysis of previous air core drill samples over the Kazhiba Dome and adjacent areas;
- 129 air core drill holes drilled on a 500 metre x 500 metre grid over the entire Kazhiba Dome;
- Six stratigraphic diamond holes, totalling 2,060 metres, designed to test the Lower Plate of the Kazhiba Dome for mineralisation;
- The air core programme which included 29 air core holes tracking an audio-frequency magnetotelluric geophysical line towards Basement and tested a mineral occurrence at the Gameno (formerly Kifubwe) Prospect;
- The reanalysis of previous soil samples; and
- A 250 metre x 250 metre infill geochemical soil sampling grid.

Rio Tinto's 2021 exploration program has been completed and the Company is expecting complete results and interpretation by mid-June 2022.

Richard Mazur, P.Geo., Director of the Company, a Qualified Person under NI 43-101, has reviewed the information contained herein.

4. SUMMARY OF QUARTERLY RESULTS

The tables below present's selected financial data for the Company's eight most recently completed quarters, all information was prepared in accordance with IFRS.

	Mar 31 2022 \$	Dec 31 2021 \$	Sept 30 2021 \$	June 30 2021 \$
Financial results

Shareholders' equity	19,622,585	19,535,914	19,066,289	19,165,942

All exploration expenditures relate to work done on the Solwezi Licenses. Net losses for all periods reflect general and administrative costs including legal and accounting.

MIDNIGHT SUN MINING CORP.
MANAGEMENT DISCUSSION AND ANALYSIS
For the Three-Month Period Ended March 31, 2022

5. DISCUSSION OF OPERATIONS

The following discussions address some of the reasons for variations in the quarterly numbers, but as is typical with junior exploration and mining companies there can be significant fluctuation from quarter to quarter. Quarterly results can vary greatly depending on whether the Company is in an active exploration phase or has granted stock options. Activity levels are primarily dependent on the success of the Company's ongoing exploration and evaluation work and the Company's ability to raise funds through equity issuances. The granting of stock options can cause a material variation in net loss on a quarterly basis due to the resulting share-based payment charges which can be significant.

Overall Performance & Results of Operations

Three Month Period Ended March 31, 2022.

The Company's loss for the three months ended March 31, 2022, was \$203,361, or \$0.00 per share, as compared to a loss of \$184,678, or \$0.00 per share for the three months ended March 31, 2021. The change was largely related to increase to consulting fees, audit accruals, and regulatory fees associated with the Company's listing to the OTCQB.

Significant expenses during the three-month period ended March 31, 2022 consisted of accounting and audit fees, \$19,000 (2021: \$12,000), consulting fees, \$17,348 (2021: \$4,000), investor and shareholder relations, \$35,805 (2021: \$33,853), legal fees, \$13,197 (2021: \$10,430), office services and miscellaneous, \$20,889 (2021: \$14,340), regulatory and transfer agent fees, \$20,203 (2021: \$9,155), share-based payments, \$1,292 (2021: \$2,149), and wages and benefits, \$84,482 (2021: \$81,276).

6. LIQUIDITY AND CAPITAL RESOURCES

As at March 31, 2022, the Company had \$1,984,625 in cash. The Company does not have cash flow from operations due to it being an exploration stage company; therefore, financings have been the sole source of funds. At March 31, 2022, the Company had a working capital of \$1,919,903. In the opinion of management this working capital is sufficient to support the Company's 2023 general administrative and corporate operating requirements, but the Company will need to rely in the future on further financings for continued exploration and evaluation activities.

Liquidity Outlook

In order to finance the Company's exploration programs and to cover administrative and overhead expenses, the Company raises money through the sale of equity, from the exercise of convertible securities and from optioning its exploration and evaluation assets. Many factors influence the Company's ability to raise funds, including the health of the resource market, the climate for mineral exploration investment, the Company's track record, and the experience and calibre of its management. Actual funding requirements may vary from those planned due to several factors, including the progress of exploration activities.

Management is encouraged by improving equity markets for mineral exploration programs and anticipates seeking additional sources of funding prior to the end of the fiscal year. Given volatility in equity markets, global economic uncertainty, cost pressures and results of exploration activities there can be no certainty equity funding will be available to the Company or if available funding will be on acceptable terms. Management believes it will be able to raise equity capital as required but recognizes that there will be risks which may be beyond its control.

MIDNIGHT SUN MINING CORP.
MANAGEMENT DISCUSSION AND ANALYSIS
For the Three-Month Period Ended March 31, 2022

Capital Resources

The Company believes it has sufficient capital to cover its administrative overhead expenses for the next twelve months. For the year ended December 31, 2021, the Company's exploration and evaluation expenditures was satisfied through exploration activities completed by Rio Tinto, as part of the initial work program and stage 1 activities as defined by the Earn-in Agreement. To continue exploring the Solwezi Licenses without the participation of Rio Tinto, Midnight Sun may be required to raise additional capital, and if capital is not available the Company will have to delay some planned exploration expenditures.

7. TRANSACTIONS WITH RELATED PARTIES

The Company's related parties at March 31, 2022 consist of 8 officers and directors (and their related companies).

Name of Related Party	Position at Sept 30, 2020	Nature of transaction
Allan J. Fabbro	Director & CEO	Director
Fengjie Huang	Director(Zambian subsidiary)	Management services
Mathew Mackenzie	Secretary	Corporate secretary
Richard J. Mazur	Director	Director
Wayne Moorhouse	Director	Director
Brett Richards/Richards Enterprises Inc.	Director	Director
Robert A. Sibthorpe / 069426 BC Ltd	VP Exploration & Director	Management services
Alastair Brownlow / Red Fern Consulting Ltd.	CFO	Management services

As at March 31, 2022, \$4,318 (December 31, 2021 - \$66,298) is due to officers, directors, or companies with a director in common for cash advances, unpaid geological consulting fees, unpaid wages and bonuses and unpaid expenses.

Investments

During the year ended December 31, 2020, the Company purchased 2,500,000 common shares of Red Sea Resources Ltd. ("Red Sea") at a price of \$0.01 per common share for a total of \$25,000. Red Sea, a private company, has common officers and directors as the Company and is in the process of identifying and acquiring exploration and evaluation properties in Egypt. During the year ended December 31, 2020, the Company was granted an additional 800,000 common shares of Red Sea valued at \$0.05 per share for a total of 40,000 as a financing fee on the issuance of a USD \$650,000 loan. During the year ended December 31, 2021, the Company was granted an additional 200,000 common shares of Red Sea, valued at \$0.10 per common share on the advance of an additional USD \$100,000 loan.

As at March 31, 2022, the investments were valued at \$0.10 (2021 - \$0.10) per common share for a total value of \$350,000 (December 31, 2021 - \$350,000).

Loans and Debenture Receivable

During the year ended December 31, 2020, the Company issued a promissory note to Red Sea in the amount of USD \$650,000 without interest, payable on demand. During the year ended December 31, 2021, the Company extended an additional USD \$108,990 to Red Sea, resulting in a total loan of USD 750,000 outstanding (\$962,248). During the year ended December 31, 2021, the Company has taken a full allowance for doubtful accounts of \$962,248 on the loan balance.

MIDNIGHT SUN MINING CORP.
MANAGEMENT DISCUSSION AND ANALYSIS
For the Three-Month Period Ended March 31, 2022

During the period ended March 31, 2022, the Company entered into an agreement whereby it increased the amount advanced to \$1,268,099 and renegotiated the instrument as a convertible debenture, maturing on January 11, 2023, and convertible at \$0.15 per common share. The convertible debenture includes interest of \$63,030 owing at the time of repayment. During the period ended March 31, 2022, the Company recognized interest income of \$13,642 (2021 - \$nil on the debenture).

During the year ended December 31, 2021, the Company issued loans to officers of the Company in the amount of \$173,333. The loans are unsecured, bear interest at 3% per annum, and mature on February 9, 2022. Subsequent to the period ended March 31, 2022, the Company entered into an amending agreement to extend the maturity of these loans to December 31, 2022. During the period ended March 31, 2022, the Company recognized interest income of \$1,282 (2021 - \$nil) on the loans. During the period ended March 31, 2021, repayments of \$11,935 were made on the loans.

A reconciliation of the Company's loans receivable as at March 31, 2022 and December 31, 2021 is as follows:

	Mar 31, 2022	Dec 31, 2021
Opening balance	\$ 175,427	\$ 830,778
Additions	303,885	308,615
Interest accrued	14,924	2,094
Allowance for bad debt	-	(962,248)
Foreign exchange	(11,935)	(3,812)
	\$ 482,301	\$ 175,427

8. KEY MANAGEMENT COMPENSATION

Compensation paid or accrued to key management and/or their related companies during the three-months ended March 31, 2022, and 2021 is as follows:

	For the Year Ended	
Nature of Expenditure	2022	March 31, 2021
Wages and benefits	\$ 78,500	\$ 71,400
Consulting fees	23,348	12,000
Total	\$ 101,848	\$ 83,400

Key management consists of those individuals having authority and responsibility for, directly or indirectly, planning, directing, and controlling the activities of the Company. Wages are paid to the Company's CEO, Corporate Secretary and Directors and Consulting fees are amounts paid to the a consulting firm of which the Company's CFO is an associate.

All the above payments and accruals were made in the normal course of operations and have been valued here and in the Financial Statements at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

9. OFF-BALANCE SHEET ARRANGEMENTS

The Company has no off-balance sheet arrangements.

MIDNIGHT SUN MINING CORP.
MANAGEMENT DISCUSSION AND ANALYSIS
For the Three-Month Period Ended March 31, 2022

10. PROPOSED TRANSACTIONS

The Company does not currently have any proposed transactions other than the transactions discussed in this MD&A; however, the Company will continue to review potential property acquisitions in addition to conducting exploration work on its properties.

11. CHANGES IN ACCOUNTING POLICY

There were no changes to accounting policies for the period ended March 31, 2022.

12. FINANCIAL INSTRUMENTS AND RELATED RISKS

The Board, through the Audit Committee, is responsible for identifying the principal risks facing the Company and ensuring that appropriate risk management systems are developed and implemented. The Company manages its exposure to financial risks, including liquidity risk, foreign exchange rate risk, interest rate risk and credit risk in accordance with its risk management framework.

Financial Instruments

Financial assets

The Company classified its financial assets in the following categories: at fair value through profit and loss (“FVTPL”), at fair value through other comprehensive income (FVTOCI), or at amortized cost. The determination of the classification of financial assets is made at initial recognition. Equity instruments that are held for trading (including all equity derivative instruments) are classified as FVTPL; for other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI.

The Company’s accounting policy for each of the categories is as follows:

Financial assets at FVTPL: Financial assets carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the statement of (loss) income. Realized and unrealized gains and losses arising from changes in the fair value of financial assets held at FVTPL are included in the statement of operations and comprehensive loss in the period.

Financial assets at FVTOCI: Financial assets carried at FVTOCI are recorded at fair value and transaction costs are expensed in the statement of operations and comprehensive loss. Realized and unrealized gains and losses arising from changes in fair value of the financial assets held at FVTOCI are included in other comprehensive (loss) income in the period.

Investments in equity instruments at FVTOCI are initially recognized at fair value plus transaction costs. Subsequently they are measured at fair value, with gains and losses arising from changes in fair value recognized in other comprehensive (loss) income as they arise.

Financial assets at amortized cost: A financial asset is measured at amortized cost if the objective of the business model is to hold the financial asset for the collection of contractual cash flows, and the asset’s contractual cash flows are comprised solely of payments of principal and interest. They are classified as current assets or non-current assets based on their maturity date and are initially recognized at fair value and subsequently carried at amortized cost less any impairment.

MIDNIGHT SUN MINING CORP.
MANAGEMENT DISCUSSION AND ANALYSIS
For the Three-Month Period Ended March 31, 2022

Impairment of financial assets at amortized cost: The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost.

The following table shows the classification of the Company's financial assets under IFRS 9:

Financial asset	IFRS 9 Classification
Cash	Amortized cost
Advances and deposits	Amortized cost
Short-term investments	FVTPL
Loan receivable	Amortized cost
Receivables	Amortized cost

Financial liabilities

The Company classifies its financial liabilities into one of two categories, depending on the purpose for which the liability was incurred. The Company's accounting policy for each category is as follows:

Fair value through profit or loss – This category comprises derivatives or liabilities acquired or incurred principally for the purpose of selling or repurchasing in the near term. They are carried in the statement of financial position at fair value with changes in fair value recognized in the statement of operations and comprehensive loss.

Other financial liabilities - This category includes accounts payable and accrued liabilities which are recognized at amortized cost using the effective interest method.

Transaction costs in respect of financial instruments at fair value through profit or loss are recognized in the statement of operations and comprehensive losses immediately, while transaction costs associated with all other financial instruments are included in the initial measurement of the financial instrument.

The following table shows the classification of the Company's financial liabilities under IFRS 9:

Financial liability	IFRS 9 Classification
Accounts payable and accrued liabilities	Other financial liabilities
Due to related parties	Other financial liabilities
Loan payable	Other financial liabilities

The carrying value of receivables, loan receivable, short-term investments, accounts payable and accrued liabilities, loan payable, and amounts due to related parties approximated their fair value because of the short-term nature of these instruments.

Related Risks

Interest rate risk

The Company has non-material exposure at March 31, 2022 and December 31, 2021 to interest rate risk through its financial instruments.

Currency Risk

Throughout the period ended March 31, 2022, the majority of the Company's cash was held in Canadian dollars, the Company's functional and reporting currency. The Company is exposed to currency risk due to

MIDNIGHT SUN MINING CORP.
MANAGEMENT DISCUSSION AND ANALYSIS
For the Three-Month Period Ended March 31, 2022

accounts payable denominated in US Dollars. A 1% change in the foreign exchange rate between the Canadian and US Dollar would not result in a material fluctuation in the net loss for the period.

Credit risk

The Company has some cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by Canadian financial institutions with which it keeps its bank accounts and management believes the risk of loss to be remote. The Company also has \$13,823 held with a major financial institution in Zambia. Management believes the risk of loss to be remote.

Receivables consist of goods and services tax due from the Government of Canada in the amount of \$8,452. The Company also holds a \$1,344,711 (December 31, 2021 - \$962,248) convertible debenture from a related party, bearing interest of 4.75% and payable on January 11, 2023, and \$164,774 (December 31, 2021 - \$175,427) from officers and directors bearing interest at 3% per annum and repayable on December 31, 2022. The Company assesses expected credit losses based upon current credit information and during the year ended December 31, 2021, the Company took an allowance for doubtful accounts on the entire loan receivable from a related party of \$962,248. To assess credit risk on the loans to officers and directors, the Company assesses maturity date and ability to make payments and has not assessed a significant risk of collection.

Liquidity Risk

The Company attempts to manage liquidity risk by maintaining sufficient cash balances. Liquidity requirements are managed based on expected cash flows to ensure that there is sufficient capital in order to meet short-term obligations. As at March 31, 2022, the Company had \$1,984,625 cash (December 31, 2021 - \$2,564,905) and current liabilities of \$130,398 (December 31, 2021 - \$171,955).

Finance Risk

The Company has no source of operating cash flow and no assurance that additional funding will be available to it for further exploration and development of its projects when required. Although the Company has been successful in the past in obtaining financing through the sale of equity securities or joint ventures, there can be no assurance that the Company will be able to obtain adequate financing in the future or that the terms of such financing will be favorable. Failure to obtain such additional financing could result in the delay or indefinite postponement of further exploration and development of its properties.

13. RISKS AND UNCERTAINTIES

See the Company's MD&A for the year ended December 31, 2021 for disclosure of risks and uncertainties.

14. COMMITMENTS

Other than obligations disclosed in the Financial Statements and elsewhere in this MD&A the Company does not have any commitments.

15. NATURE OF SECURITIES

The purchase of the Company's securities involves a high degree of risk and should be undertaken only by investors whose financial resources are sufficient to enable them to assume such risks. The Company's securities should not be purchased by persons who cannot afford the possibility of the loss of their entire investment. Furthermore, an investment in the Company's securities should not constitute a major portion of an investor's portfolio.

17. ADDITIONAL DISCLOSURE FOR VENTURE ISSUERS

Additional disclosure concerning Midnight Sun's general and administrative expenses and exploration and evaluation assets expenditures is provided in the Company's Financial Statements. These Financial Statements are available on SEDAR at www.sedar.com.

18. APPROVAL

The Board of Directors oversees management's responsibility for financial reporting and internal control systems through an Audit Committee. This Committee meets periodically with management and annually with the independent auditors to review the scope and results of the annual audit and to review the financial statements and related financial reporting and internal control matters before the financial statements are approved by the Board of Directors and submitted to the shareholders of the Company. The Board of Directors of Midnight Sun have approved the financial statements and the disclosure contained in this MD&A. A copy of this MD&A will be provided to anyone who requests it.

19. FORWARD LOOKING INFORMATION

Forward-looking statements relate to future events or future performance and reflect management's expectations or beliefs regarding future events and include, but are not limited to, statements with respect to the estimation of mineral reserves and resources, the realization of mineral reserve estimates, the timing and amount of estimated future production, costs of production, capital expenditures, success of operations, environmental risks, permitting risks, unanticipated reclamation expenses, title disputes or claims and limitations on insurance coverage. In certain cases, forward-looking statements can be identified by the use of words such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved" or the negative of these terms or comparable terminology. By their very nature forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, risks related to actual results of current exploration activities; changes in project parameters as plans continue to be refined; future prices of resources; possible variations in ore reserves, grade or recovery rates; accidents, labour disputes and other risks of the mining industry; delays in obtaining governmental approvals or financing or in the completion of development or construction activities; as well as those factors detailed from time to time in the Company's interim and annual financial statements which are filed and available for review on SEDAR at www.sedar.com. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.

20. ADDITIONAL INFORMATION

Additional information is available on SEDAR at www.sedar.com.
