Water Ways' Subsidiary Receives Order for a Smart Irrigation System From a Large Flower Nursery in Ontario

NOT FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES OR DISSEMINATION IN THE UNITED STATES

TORONTO, Oct. 24, 2023 -- Water Ways Technologies Inc. (TSXV: WWT) (FRA: WWT) ("**Water Ways**" or the "**Company**"), a global provider of Israeli-based agriculture technology, providing water irrigation solutions to agricultural producers, announces that its wholly owned Canadian subsidiary, Heartnut Grove WWT Inc.("**HGWWT** "), based in Mt. Brydges Ontario, received an order for a smart irrigation system from a large flower nursery located in Ontario. The project covers an area of 4.5 hectares of Peonies being grown on sandy soil, which require low flow rate with small emitter spacing, to avoid drain and leaching of water and fertilizers to the lower level of the soil.

HGWWT will provide a smart drip irrigation system, fully automated by a radio frequency control system, a fertigation station and automatic filtration systems, to ensure water and nutrients availability.

The C$77,000 is expected to be supplied to the client in the fourth quarter of fiscal 2023.

Ohad Haber the Company's Chairman and CEO commented: "*This is the first time we are delivering a smart irrigation system to a flower nursery in Canada, After the successful implementation of the system we expect other nurseries in Canada to follow. Furthermore, I wish to advise our shareholders that our business continues as normal despite the current war in Israel."*

About Water Ways Technologies
Water Ways Technologies Inc., through its subsidiaries, is a global provider of Israeli-based agriculture technology, providing water irrigation solutions to agricultural producers. Water Ways Technologies competes in the global irrigation water systems market with a focus on developing solutions with commercial applications in the micro and precision irrigation segments of the overall market. At present, Water Ways Technologies' main revenue streams are derived from the following business units: (i) Projects Business Unit; and (ii) Component and Equipment Sales Unit. Water Ways Technologies is capitalizing on the opportunities presented by micro and smart irrigation, while also making a positive mark on society by making these technologies more widely available, especially in developing markets such as Africa and Latin America and developed markets such as China and Canada. Water Ways Technologies irrigation projects include vineyards, Cotton fields, Apple and Orange orchards, Blueberry, Medical Cannabis growers, fresh produce cooling rooms and more, in over fifteen countries.
