INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF CF ENERGY CORP.

(incorporated in Canada with limited liability)

Opinion

We have audited the consolidated financial statements of CF Energy Corp. (the "Company") set out on pages 6 to 98, which comprise the consolidated statements of financial position as at December 31, 2025 and 2024, and the consolidated statements of income or loss, comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including material accounting policy information (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025 and 2024, and its financial performance and its cash flows for the years then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB").

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF CF ENERGY CORP. - continued (incorporated in Canada with limited liability)

Key audit matter

A key audit matter is a matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements for the year ended December 31, 2025. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Key audit matter	How our audit addressed the key audit matter
<i>Revenue Recognition of pipeline installation and connection — Refer to Notes 4 and 5 to the financial statements</i> We identified the recognition of revenue from pipeline installation and connection as a key audit matter due to its quantitative significance to the consolidated statements of profit or loss and other comprehensive income and significant estimates involved in the recognition of revenue. As disclosed in note 4 to the consolidated financial statements, revenue from pipeline installation and connection are measured based on the input method, which is to recognise revenue on the basis of the Company's efforts or inputs to the satisfaction of a performance obligation relative to the total expected costs to the satisfaction of that performance obligation. The Company recognised revenue of RMB122,108,000 from pipeline installation and connection during the year ended December 31, 2025. As set out in note 4 to the consolidated financial statements, significant estimates are applied in recognising contract revenue and profit of pipeline installation and connection that are based on the input method, which is to recognise revenue on the basis of the Company's efforts or inputs to the satisfaction of a performance obligation relative to the total expected costs to the satisfaction of that performance obligation. The construction costs which mainly comprise sub-contracting charges and costs of materials that are estimated by the management on the basis of quotations from time to time provided by the major contractors/suppliers/vendors involved and the experience of the management.	Our procedures in relation to the revenue recognition of pipeline installation and connection included: • Obtained an understanding over the Company's controls related to the recognition of pipeline installation and connection revenue; • Discussed with management with respect to the recognition basis and evaluated the appropriateness and consistency of the revenue recognition method applied; • Selected contracts with customers on a sample basis and performed the following: - Verified the contract revenue by comparing to customer agreement; - For projects completed during the year, obtained the certificate of completion, and verified that the remaining revenue has been captured; - Verified the mathematical accuracy of the percentage of completion by reference to the proportion of the contract costs incurred for the work performed to date over the estimated total contract costs; - Tested the accuracy and occurrence of costs incurred to date by comparing to supporting documents, and evaluated whether the costs were properly included in the amount of costs incurred to date; - Conducted retrospective review on the accuracy of the budget costs over the uncompleted projects as of year end date.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF CF ENERGY CORP. - continued (incorporated in Canada with limited liability)

Other Matter

The financial statements of the Company for the year ended December 31, 2024 were audited by another auditor who expressed an unmodified opinion on those statements on April 28, 2025.

Other Information

Management is responsible for the other information. The other information comprises Management's Discussion and Analysis.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards as issued by the IASB, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF CF ENERGY CORP. - continued (incorporated in Canada with limited liability)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements - continued

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Company as a basis for forming an opinion on the financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF CF ENERGY CORP. - continued
(incorporated in Canada with limited liability)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements - continued

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Patrick Wong.

Notes:

- (a) Contributed surplus comprises capital contribution from shareholders and share-based compensation reserve.
- (b) Statutory surplus reserve represents the statutory surplus reserve fund attributable to the Group set up by the subsidiaries in the People's Republic of China (the "PRC"). According to the relevant PRC regulations, the subsidiaries in the PRC are required to appropriate 10% of net profit as reported in the statutory financial statements to the statutory surplus reserve fund, and the statutory surplus reserve fund may be used for making up losses, if any, and increasing registered capital. The maximum amount appropriate to the statutory surplus reserve fund is 50% of the registered capital of the respective PRC subsidiaries. The statutory surplus reserve is not distributable.
- (c) Other reserve as of January 1, 2024 represents the difference between the carrying amount of the non-controlling interest of Hainan EDF Huapu Smart Mobility Co., Ltd. ("EDF Huapu SM") and the consideration for acquisition of 30% equity interest in EDF Huapu SM from a non-controlling shareholder.

The accompanying notes are an integral part of the consolidated financial statements.

CF ENERGY CORP.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

1. GENERAL INFORMATION

CF Energy Corp. (the "Company") is a public limited company originally incorporated under the Canada Business Corporations Act on May 4, 2006 until it changed its incorporation jurisdiction to British Columbia on June 18, 2018 under the Business Corporations Act (British Columbia). Its shares are listed on the TSX Venture Exchange. The registered office of the Company is located at Suite 2600, Three Bentall Center, P.O. BOX 49314, 595 Burrard Street, Vancouver, British Columbia, V7X 1L3, Canada and the head office of the Company is located at Room 602, 6th Floor, 15 Allstate Parkway, Markham, Ontario, L3R 5B4, Canada. The principal operations of the Company's business are in the PRC. Its ultimate controlling party is the estate of Mr. Huajun Lin ("Mr. Lin"), who was also an officer and director of the Company until he resigned from such positions with effect from February 22, 2019.

The Company is an investment holding company. The principal activities of the Company and its subsidiaries (the "Group") are engaged in the distribution of natural gas and sustainable energy utilisation for industrial, commercial and residential users as well as electric vehicle battery swap services in the PRC.

The consolidated financial statements are presented in Renminbi ("RMB").

2. APPLICATION OF AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRS Accounting Standard")

Amendments to IFRS Accounting Standard that are mandatorily effective for the current year

The Group applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2025. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Lack of exchangeability – Amendments to IAS 21

For annual reporting periods beginning on or after 1 January 2025, *Lack of Exchangeability – Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates* specifies how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments did not have a material impact on the Group's financial statements.

2. APPLICATION OF AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRS Accounting Standard") - continued

New and amendments to IFRS Accounting Standard in issue but not yet effective

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's financial statements are disclosed below. The Group intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

IFRS 18 Presentation and Disclosure in Financial Statements

In April 2024, the IASB issued IFRS 18, which replaces IAS 1 Presentation of Financial Statements. IFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Furthermore, entities are required to classify all income and expenses within the statement of profit or loss into one of five categories: operating, investing, financing, income taxes and discontinued operations, whereof the first three are new.

The standard requires disclosure of newly defined management-defined performance measures, subtotals of income and expenses, and it also includes new requirements for aggregation and disaggregation of financial information based on the identified 'roles' of the primary financial statements (PFS) and the notes.

In addition, narrow-scope amendments have been made to IAS 7 Statement of Cash Flows, which include changing the starting point for determining cash flows from operations under the indirect method, from 'profit or loss' to 'operating profit or loss' and removing the optionality around classification of cash flows from dividends and interest. In addition, there are consequential amendments to several other standards.

IFRS 18, and the amendments to the other standards, are effective for reporting periods beginning on or after 1 January 2027, but earlier application is permitted and must be disclosed. IFRS 18 will apply retrospectively.

The Group is currently working to identify all impacts the amendments will have on the primary financial statements and notes to the financial statements.

IFRS 19 Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued IFRS 19, which allows eligible entities to elect to apply its reduced disclosure requirements while still applying the recognition, measurement and presentation requirements in other IFRS accounting standards. To be eligible, at the end of the reporting period, an entity must be a subsidiary as defined in IFRS 10, cannot have public accountability and must have a parent (ultimate or intermediate) that prepares consolidated financial statements, available for public use, which comply with IFRS accounting standards.

IFRS 19 will become effective for reporting periods beginning on or after 1 January 2027, with early application permitted.

As the Group's equity instruments are publicly traded, it is not eligible to elect to apply IFRS 19.

2. APPLICATION OF AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRS Accounting Standard") - continued

New and amendments to IFRS Accounting Standard in issue but not yet effective - continued

Amendments to the Classification and Measurement of Financial Instruments—Amendments to IFRS 9 and IFRS 7

In May 2024, the IASB issued Amendments to IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments (the Amendments). The Amendments include:

- A clarification that a financial liability is derecognised on the ‘settlement date’ and the introduction of an accounting policy choice (if specific conditions are met) to derecognise financial liabilities settled using an electronic payment system before the settlement date
- Additional guidance on how the contractual cash flows for financial assets with environmental, social and corporate governance (ESG) and similar features should be assessed
- Clarifications on what constitute ‘non-recourse features’ and what are the characteristics of contractually linked instruments
- The introduction of disclosures for financial instruments with contingent features and additional disclosure requirements for equity instruments classified at fair value through other comprehensive income (OCI)

The Amendments are effective for annual periods starting on or after 1 January 2026 with early adoption permitted for classification of financial assets and related disclosures only. The Group does not anticipate that the amendments will have a material effect on the Group’s financial statements.

Annual Improvements to IFRS Accounting Standards - Volume 11

In July 2024, the IASB issued nine narrow scope amendments as part of its periodic maintenance of IFRS accounting standards. The amendments include clarifications, simplifications, corrections or changes to improve consistency in IFRS 1 First-time Adoption of International Financial Reporting Standards, IFRS 7 Financial instruments: Disclosure and its accompanying Guidance on implementing IFRS 7, IFRS 9 Financial Instruments, IFRS 10 Consolidated Financial Statements and IAS 7 Statements of Cash Flows.

The amendments will be effective for reporting periods beginning on or after 1 January 2026. Earlier application is permitted and must be disclosed.

The amendments are not expected to have a material impact on the Group’s financial statements.

2. APPLICATION OF AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRS Accounting Standard") - continued

New and amendments to IFRS Accounting Standard in issue but not yet effective - continued

Contracts Referencing Nature-dependent Electricity – Amendments to IFRS 9 and IFRS 7

In December 2024, the IASB issued Amendments to IFRS 9 and IFRS 7 - Contracts Referencing Nature-dependent Electricity. The amendments apply only to contracts that reference nature-dependent electricity; the amendments:

- Clarify the application of the ‘own-use’ requirements for in-scope contracts
- Amend the designation requirements for a hedged item in a cash flow hedging relationship for in-scope contracts
- Add new disclosure requirements to enable investors to understand the effect of these contracts on a company’s financial performance and cash flows

The amendments will take effect for annual reporting periods starting on or after 1 January 2026. Early adoption is allowed, but it must be disclosed. The amendments concerning the own-use exception are to be applied retrospectively, while the hedge accounting amendments should be applied prospectively to new hedging relationships designated from the initial application date. Additionally, the IFRS 7 disclosure amendments must be implemented alongside the IFRS 9 amendments. If an entity does not restate comparative information, it cannot present comparative disclosures.

The Group does not expect that the amendments will have a material impact on its financial statements.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION

3.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with IFRS Accounting Standard issued by the IASB.

At December 31, 2025, the Group's current liabilities exceeded its current assets by RMB 279,563,000. In view of these circumstances, management of the Group has given consideration to the future liquidity and performance of the Group and its available sources of finance in assessing whether the Group will have sufficient financial resources to continue as a going concern. Management is satisfied that the Group will have sufficient financial resources to meet its financial obligations including the capital commitments as disclosed in note 39. Taking into account the Group's cash flow projection, including the term facility, the Group's ability to renew or refinance the banking facilities upon maturity and the Group's future capital expenditure in respect of its non-cancellable capital commitments, management considers that it has sufficient working capital to meet in full its financial obligations as they fall due for at least the next twelve months from the end of the reporting period and accordingly, the consolidated financial statements have been prepared on a going concern basis. No significant judgements were involved in reaching the conclusion to prepare the consolidated financial statements on a going concern basis as there are no significant doubts about going concern.

The consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2 *Share-based Payment*, leasing transactions that are within the scope of IFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in IAS 2 *Inventories* or value in use in IAS 36 *Impairment of Assets*.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for asset or liability.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statements of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Changes in the Group's interests in existing subsidiaries

Changes in the Group's interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's relevant components of equity and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries, including re-attribution of relevant reserves between the Group and the non-controlling interests according to the Group's and the non-controlling interests' proportionate interests.

Any difference between the amount by which the non-controlling interests are adjusted, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

CF ENERGY CORP.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Basis of consolidation - continued

Changes in the Group's interests in existing subsidiaries - continued

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interests (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable IFRS Accounting Standard). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9 *Financial Instruments* or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see the accounting policy above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or group of cash-generating units) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of cash-generating units).

Investments in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Investments in associates - continued

The results and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting. The financial statements of associates used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate is initially recognised in the consolidated statements of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. Changes in net assets of the associate/joint venture other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of an associate or joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognizing its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in the statements of profit or loss in the period in which the investment is acquired.

The Group assesses whether there is an objective evidence that the interest in an associate may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When the Group ceases to have significant influence over an associate, it is accounted for as a disposal of the entire interest in the investee with a resulting gain or loss being recognised in profit or loss.

When a group entity transacts with an associate of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group's financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

CF ENERGY CORP.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Non-current assets held for sale

Non-current assets (and disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

When the Group is committed to a sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale when the criteria described above are met, regardless of whether the Group will retain a non-controlling interest in the relevant subsidiary after the sale.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell which continue to be measured in accordance with the accounting policies as set out in respective sections.

Revenue from contracts with customers

Information about the Group's accounting policies relating to revenue from contracts with customers is provided in Note 5.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or arising from business combinations on or after the date of initial application, the Group assesses whether a contract is or contains a lease based on the definition under IFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Non-lease components are separated from lease component on the basis of their relative stand-alone prices.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases of staff quarters that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Right-of-use assets

The cost of right-of-use assets includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Leases - continued

The Group as a lessee - continued

Right-of-use assets - continued

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets a separate line item on the consolidated statement of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under IFRS 9 *Financial Instruments* ("IFRS 9") and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

CF ENERGY CORP.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Leases - continued

The Group as a lessee - continued

Lease liabilities - continued

Variable lease payments that reflect changes in market rental rates are initially measured using the market rental rates as at the commencement date. Variable lease payments that do not depend on an index or a rate are not included in the measurement of lease liabilities and right-of-use assets, and are recognised as expense in the period in which the event or condition that triggers the payment occurs.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchange prevailing on the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the year which they arise.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

Any specific borrowing that remain outstanding after the related asset is ready for its intended use or sale is included in the general borrowing pool for calculation of capitalization rate on general borrowings. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognised in profit or loss in the year in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised in the consolidated statements of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under "other income".

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Employee benefits

Retirement benefit costs

Payments to the state-managed retirement benefit schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

Short-term and other long-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another IFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date. Any changes in the liabilities' carrying amounts resulting from service cost, interest and remeasurements are recognised in the statements of profit or loss except to the extent that another IFRS requires or permits their inclusion in the cost of an asset.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit/loss before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of each reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

CF ENERGY CORP.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Taxation - continued

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period which the liability is settled or the asset is realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 *Income Taxes* requirements to the leasing transaction as a whole. Temporary differences relating to right-of-use assets and lease liabilities are assessed on a net basis. Excess of depreciation on right-of-use assets over the lease payments for the principal portion of lease liabilities resulting in net deductible temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in the statements of profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively. When current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Property and equipment

Property and equipment are tangible assets held for use in the production or supply of goods or services, or for administrative purposes (other than construction-in-progress as described below). Property and equipment are stated in the consolidated statements of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Property and equipment (including buildings, pipelines and equipment) in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and, for qualifying assets, borrowing costs capitalized in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Property and equipment - continued

Ownership interests in leasehold land and building

When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition.

To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "right-of-use assets" (upon application of IFRS 16) or "prepaid lease payments" (before application of IFRS 16) in the consolidated statement of financial position. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Depreciation is recognised so as to write off the cost of assets other than properties under construction in progress less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at costs less accumulated amortization and any accumulated impairment losses. Amortization for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less any subsequent accumulated impairment losses.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 **Material accounting policy information** - continued

Intangible assets - continued

Intangible assets acquired in a business combination

Intangible assets acquired in a business combination are recognised separately from goodwill and are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination with finite useful lives are reported at costs less accumulated amortisation and any accumulated impairment losses/ revalued amounts, being their fair value at the date of the revaluation less subsequent accumulated amortisation and any accumulated impairment losses, on the same basis as intangible assets that are acquired separately. Intangible assets acquired in a business combination with indefinite useful lives are carried at cost less any subsequent accumulated impairment losses.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Impairment on property and equipment, right-of-use assets, intangible assets other than goodwill

At the end of the reporting period, the Group reviews the carrying amounts of its property and equipment, right-of-use assets, intangible assets with finite useful lives to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any). Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that they may be impaired.

The recoverable amount of property and equipment, right-of-use assets, and intangible assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In addition, the Group assesses whether there is indication that corporate assets may be impaired. If such indication exists, corporate assets are also allocated to individual cash-generating units, when a reasonable and consistent basis of allocation can be identified, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

3.2 Material accounting policy information - continued

Impairment on property and equipment, right-of-use assets, intangible assets other than goodwill – continued

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount under another standard, in which case the impairment loss is treated as a revaluation decrease under that standard.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount under another standard, in which case the reversal of the impairment loss is treated as a revaluation increase under that standard.

Inventories

Inventories are stated at the lower of cost and net realizable value. Cost of inventories are determined on a weighted average cost method. Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with IFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortized cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortized cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income ("FVTOCI"):

- the financial asset is held within a business model whose objective is achieved by both selling and collecting contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL, except that at the date of initial application IFRS 9/initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which IFRS 3 *Business Combinations* applies.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Financial instruments - continued

Financial assets - continued

Classification and subsequent measurement of financial assets - continued

A financial asset is held as held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortized cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) Amortized cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortized cost and debt instruments/receivables subsequently measured at FVTOCI. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortized cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit impaired.

(ii) Equity instruments designated as at FVTOCI

Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the FVTOCI reserve; and are not subject to impairment assessment. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, and will continue to be held in the FVTOCI reserve.

Dividends from these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the other income line item in profit or loss.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Financial instruments - continued

Financial assets - continued

Classification and subsequent measurement of financial assets - continued

(iii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortized cost or FVTOCI or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset and is included in the "fair value change on derivative instrument" line item.

Impairment of financial assets and contract assets subject to impairment under IFRS 9

The Group performs impairment assessment under expected credit loss ("ECL") model on financial assets (including equity instrument at fair value through other comprehensive income, trade receivables, other receivables and deposits, contract assets, amounts due from related parties and non-controlling interests of subsidiaries, fixed term bank deposits, restricted bank deposits and bank balances and cash) which are subject to impairment under IFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessments are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables and contract assets. The ECL on these assets are assessed collectively using a provision matrix with appropriate groupings.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Financial instruments - continued

Financial assets - continued

Impairment of financial assets and contract assets subject to impairment under IFRS 9 - continued

(i) Significant increase in credit risk - continued

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; or
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Financial instruments - continued

Financial assets - continued

Impairment of financial assets and contract assets subject to impairment under IFRS 9 - continued

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- (e) the disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience, adjusted for forward looking information that is available without undue cost or effort.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Financial instruments - continued

Financial assets - continued

Impairment of financial assets and contract assets subject to impairment under IFRS 9 - continued

(v) Measurement and recognition of ECL - continued

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Lifetime ECL for certain trade receivables and contract assets are considered on a collective basis taking into consideration past due information and relevant credit information such as forward looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortized cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables, other receivables and contract assets where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset measured at amortized cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 **Material accounting policy information** - continued

Financial instruments - continued

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified either as financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities at amortized cost

Financial liabilities at amortized cost including trade and other payables, dividend payable to non-controlling interest of a subsidiary, short-term bank borrowings, long-term debts, other borrowings and lease liabilities are subsequently measured at amortized cost, using the effective interest method.

CF ENERGY CORP.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION - continued

3.2 Material accounting policy information - continued

Financial instruments - continued

Financial liabilities and equity - continued

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Derivative financial instruments

Derivatives are initially recognised at fair value at the date when derivative contracts are entered into and are subsequently remeasured to their fair value at the end of the reporting period. The resulting gain or loss is recognised in profit or loss.

4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the management of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY - continued

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Revenue recognition

The Group applies input method in estimating the performance obligations satisfied of IFRS 15. The Group recognises contract revenue and profit of pipeline installation and connection based on the input method, which is to recognise revenue on the basis of the Group's efforts or inputs to the satisfaction of a performance obligation relative to the total expected costs to the satisfaction of that performance obligation. Construction costs which mainly comprise sub-contracting charges and costs of materials are estimated by the management on the basis of quotations from time to time provided by the major contractors/suppliers/vendors involved and the experience of the management. Management of the Company needs to estimate future costs to completion for each of the pipeline installation and connection contracts. For the year ended December 31, 2025, pipeline installation and connection revenue is RMB122,108,000 (2024: RMB190,358,000).

Provision of ECL for trade receivables, contract assets and other receivables

The Group uses a provision matrix to calculate ECL for trade receivables and contract assets. The provision rates are based on internal credit ratings as groupings of various debtors that have similar credit risk characteristics. The provision matrix is based on the Group's historical default rates taking into consideration of reasonable and supportable forward-looking information that is available without undue costs or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered.

For other receivables, the directors of the Company make periodic individual assessment on the recoverability of other receivables based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade receivables, contract assets and other receivables are disclosed in notes 23, 24, 25 and 41 (b).

4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION
UNCERTAINTY - continued

Impairment of property and equipment, right-of-use assets and intangible assets

Property and equipment, right-of-use assets and intangible assets are carried at cost less accumulated depreciation and impairment, if any. In determining whether an asset is impaired or the event previously causing the impairment no longer exists, the management of the Group has to exercise judgement and make assumptions, particularly when assessing: (1) whether an event has occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value in use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (3) the appropriate key assumptions to be applied in estimating the value in use included in the cash flow projections and an appropriate discount rate. When it is not possible to estimate the recoverable amount of an individual asset (including right-of-use assets), the Group estimates the recoverable amount of the cash-generating-unit to which the assets belong, including allocation of corporate assets when a reasonable and consistent basis of allocation can be established, otherwise recoverable amount is determined at the smallest group of cash generating units, for which the relevant corporate assets have been allocated. The key assumptions used by management in setting the financial budgets were forecast sales growth rates, operating profits and cash conversion. These assumptions are forecast based on historical experience. Details of the impairment of property and equipment, right-of-use assets and intangible assets are disclosed in Notes 16,17 and 19.

5. REVENUE - continued

(ii) Performance obligations for contracts with customers

a) Revenue from natural gas supply

The Group supplies gas to residential, commercial and industrial consumers in the PRC. The Group receives integrated circuit cards ("IC cards") deposits from residential customers in advance before they consume the natural gas and this will give rise to contract liabilities. Monthly invoices will be issued to industrial and commercial customers based on the actual usage and the price of gas. Revenue from natural gas supply is recognised at a point in time when the customers consume the natural gas.

b) Revenue from natural gas pipeline installation and connection

The Group provides natural gas pipeline installation and connection under contracts with customers. Such contracts are entered into before the contracting services begin.

The services are mainly recognised as a performance obligation satisfied over time when the Group creates or enhances an asset that the customer controls as the asset is created or enhanced. Revenue from natural gas pipeline connection is recognised based on the input method, which is to recognise revenue on the basis of the Group's efforts or inputs to the satisfaction of a performance obligation relative to the total expected costs to the satisfaction of that performance obligation.

The Group's natural gas pipeline installation and connection contracts include payment schedules which require stage payments over the construction/installation period once certain specified milestones are reached. The Group requires certain customers to provide upfront deposits ranging from 30% to 70% of total contract amount, when the Group receives a deposit before construction commences, this will give rise to contract liabilities at the start of a contract, until the revenue recognised on the specific contract equals to or exceeds the amount of the deposits.

A contract asset, net of contract liability related to the same contract, is recognised over the period in which the construction/installation services are performed, representing the Group's right to consideration for the services performed because the rights are conditioned on the Group's future performance in achieving specified milestones. The contract assets are transferred to trade receivables when the rights become unconditional.

c) Revenue from heating/cooling power generation and supply

The Group uses multiple clean energy sources to generate and supply heating and cooling to its customers. Revenue from power generation and supply is recognised at a point in time when the customers consume the heating and/or cooling power.

CF ENERGY CORP.

5. REVENUE - continued

(ii) Performance obligations for contracts with customers - continued

d) Revenue from electric vehicle battery swapping services

The Group also provides battery swapping services to its customers including companies who operates passenger transportation business through its owned electric vehicles and other users of electric vehicles, which provides the customers with convenient "recharging" experience by swapping the customers' batteries for another one. The battery swapping services is in substance a supply of battery power. Revenue from supply of battery power represents the fair value of the consideration received or receivable for power sold via swapped battery. Revenue is earned and recognised when the swapping is completed.

(iii) Transaction price allocated to remaining performance obligations for contracts with customers

The transaction price allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) as at December 31, 2025 and 2024 and the expected timing of recognizing revenue are as follows:

	Pipeline installation and connection	
	<u>2025</u>	<u>2024</u>
	RMB'000	RMB'000
Within one year	103,674	95,320
More than one year but not more than two years	9,927	13,310
More than two years	28,830	25,630
	<u>142,431</u>	<u>134,260</u>

Contracts for gas distribution services typically have terms in which the Group bills a fixed price for each gas volume used by the customers on a monthly basis. The Group recognises revenue according to gas consumption by customers.

6. OPERATING SEGMENTS

Information is reported to the Chief Executive Officer of the Company, being the chief operating decision maker ("CODM"), for the purposes of resource allocation and assessment of each segment performance.

The CODM reviews operating results and financial information for each sub-group of operating companies separately. Accordingly, each sub-group of operating companies in the PRC is identified as an operating segment.

CF ENERGY CORP.

6. OPERATING SEGMENTS - continued

Specifically, the Group's reportable segments under IFRS 8 *Operating Segments* are as follows:

- (a) Gas distribution utility which includes gas sales, and pipeline installation and connection
 - (i) provides gas pipeline installation and connection services and delivers natural gas to residential, commercial and industrial customers through its pipeline networks and associated facilities in Sanya City, Hainan Province, the PRC;
 - (ii) transmits of natural gas via the Group's pipeline networks for its customers in Zhaoqing City, Guangdong Province, the PRC.
- (b) Integrated smart energy
 - (i) uses multiple clean energy sources, including solar, hydro, electricity, and natural gas (CCHP/Co-Gen) to supply cooling, heating, as well as hot water to its customers in the Haitang Bay area of Sanya City, Hainan Province, the PRC;
 - (ii) supplies heat and power via the Group's pipeline networks to its customers in Meishan City, Sichuan Province, the PRC.
- (c) Smart mobility
 - (i) operates electric vehicle ("EV") battery swap business in Sanya City and Haikou City, Hainan Province and Zhuhai City, Guangdong Province, the PRC.

The CNG vehicles refueling business within Gas distribution utility operating segment was discontinued for the years ended December 31, 2025 and 2024. The segment information reported below excluded the results of these discontinued operations, which are described in more detail in note 12.

CF ENERGY CORP.

6. OPERATING SEGMENTS - continued

Segments revenues and results

The following is an analysis of Group's revenue and results from continuing operations by reportable segments:

For the year ended December 31, 2025

Continuing operations

	Gas distribution utility RMB'000	Integrated smart energy RMB'000	Smart mobility RMB'000	Consolidated RMB'000
Segment revenue	451,405	30,616	10,191	492,212
Inter-segment revenue	(80,189)	-	(105)	(80,294)
Revenue from external customers	<u>371,216</u>	<u>30,616</u>	<u>10,086</u>	<u>411,918</u>
Segment profit (loss)	<u>59,797</u>	<u>(21,896)</u>	<u>(6,686)</u>	<u>31,215</u>
Share of results of associates				12,565
Unallocated other income				317
Unallocated corporate expenses				(13,325)
Profit before tax from continuing operations				<u>30,772</u>

For the year ended December 31, 2024

Continuing operations

	Gas distribution utility RMB'000	Integrated smart energy RMB'000	Smart mobility RMB'000	Consolidated RMB'000
Segment revenue	551,764	28,321	13,858	593,943
Inter-segment revenue	(72,958)	-	(1,010)	(73,968)
Revenue from external customers	<u>478,806</u>	<u>28,321</u>	<u>12,848</u>	<u>519,975</u>
Segment profit (loss)	<u>75,974</u>	<u>(22,539)</u>	<u>(8,017)</u>	<u>45,418</u>
Share of results of associates				13,922
Unallocated other income				241
Unallocated corporate expenses				(17,175)
Profit before tax from continuing operations				<u>42,406</u>

The accounting policies of the operating segments are the same as the Group's accounting policies described in note 3.

CF ENERGY CORP.

6. OPERATING SEGMENTS - continued

Segment assets and liabilities

The following is an analysis of the Group's assets and liabilities by reportable segments:

For the year ended December 31, 2025

	Gas distribution <u>utility</u> RMB'000	Integrated smart <u>energy</u> RMB'000	Smart <u>mobility</u> RMB'000	<u>Total</u> RMB'000
Segment assets				
Total assets for continuing operations	753,927	395,247	37,712	1,186,886
Unallocated assets for continuing operations (i)				86,469
				<u><u>1,273,355</u></u>
Consolidated assets				
Segment liabilities				
Total liabilities for continuing operations	511,452	315,547	22,166	849,165
Unallocated liabilities for continuing operations				660
				<u><u>849,825</u></u>
Consolidated liabilities				

For the year ended December 31, 2024

	Gas distribution <u>utility</u> RMB'000	Integrated smart <u>energy</u> RMB'000	Smart <u>mobility</u> RMB'000	<u>Total</u> RMB'000
Segment assets				
Total assets for continuing operations	788,314	406,986	49,342	1,244,642
Unallocated assets for continuing operations (i)				98,219
				<u><u>1,342,861</u></u>
Consolidated assets				
Segment liabilities				
Total liabilities for continuing operations	572,778	323,339	29,094	925,211
Unallocated liabilities for continuing operations				1,680
				<u><u>926,891</u></u>
Consolidated liabilities				

For the purposes of monitoring segment performance and allocating resources between segments:

- (i) all assets are allocated to operating segments other than interests in associates, amounts due from related parties, equity instruments at fair value through other comprehensive income for general management use and other corporate assets.

11. INCOME TAX EXPENSE

Continuing operations

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Current tax:		
PRC Enterprise Income Tax ("EIT")	14,006	23,338
PRC withholding EIT	764	2,396
	<u>14,770</u>	<u>25,734</u>
Over provision in prior year	-	(175)
	<u>14,770</u>	<u>25,559</u>
Deferred tax (note 36)	1,397	(96)
	<u>16,167</u>	<u>25,463</u>

The Company was incorporated in Canada and is therefore subject to Canadian federal and Ontario statutory income tax at a rate of 26.5% (2024: 26.5%) on assessable profits in Canada during the reporting period.

A subsidiary, Hainan Energy Ltd., was incorporated in the British Virgin Islands and tax exempted under the laws of the British Virgin Islands.

Under the Law of the PRC on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% during the reporting period (2024: 25%).

The income tax expense for the year can be reconciled to the profit before tax as follows:

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Profit before tax	<u>30,772</u>	<u>42,406</u>
Tax at Canadian federal and Ontario statutory income tax rate of 26.5%	8,155	11,238
Tax effect of expenses not deductible for tax purposes	1,680	3,556
Effect of difference in tax rates of entities operating in other jurisdictions	(1,664)	(2,532)
Tax effect of tax losses and deductible temporary differences not recognised	6,247	11,567
Over provision in prior year	-	(175)
PRC withholding EIT	764	2,396
Deferred tax on undistributed earnings in the PRC	47	(132)
Others	938	(455)
Income tax expense for the year	<u>16,167</u>	<u>25,463</u>

12. DISCONTINUED OPERATIONS

Upon the realignment of its future business strategies with major focus on the development of clean energy solutions with high growth potential, including the integrated smart energy and electric vehicle battery swap, the Group made the first move into the EV battery swap business beginning from 2020. As the business and operating model of Hebei Riheng Clean Energy Co., Ltd., or Riheng no longer aligns with the Group's new business focus and growth expectations, in the best interests of the Group, management of the Company decided to gradually terminate the operation of Riheng. Up to the first quarter of 2021, management determined to dispose of all of Riheng's operations and considered Riheng as a discontinued operation. Negotiations with several interested parties have subsequently taken place. The assets and liabilities attributable to Riheng, which are expected to be sold within twelve months, were accordingly classified as a disposal group held for sale and were separately presented in the consolidated statement of financial position as set out below. The results of Riheng in the consolidated statement of profit or loss and other comprehensive income were presented separately as discontinued operation.

Due to the unexpected impact of Covid-19 in 2022, both parties extended the period to complete the sale as mentioned above beyond one year. Considering the delay of the disposal of Riheng's operations was beyond the Company's control and the Company remains committed to its plan to the disposal, the assets and liabilities attributable to Riheng continued to be classified as a disposal group held for sale and were separately presented in the consolidated statement of financial position as at December 31, 2022. Accordingly, the profit or loss of Riheng in the consolidated statement of profit or loss and other comprehensive income was presented as a discontinued operation for the year ended December 31, 2022. The disposal of Riheng's operations was completed in 2023.

On September 8, 2023, operation of the CNG vehicle refueling station in Sanya City, Hainan of Sanya Changfeng Clean Energy Co., Ltd. ("Clean Energy"), a wholly-owned subsidiary of the Group was forced to suspend operation. The suspension of operation was under the notice from the government authority advising Clean Energy that the location of the CNG vehicle refueling station was too close to the intended location for the underground construction of certain government property as their continuing operation no longer met the safety regulation requirements.

In October 2023, upon the realignment of its future business strategies with major focus on the development of clean energy solutions with high growth potential and the continuous reduction in consumption of CNG caused by the common usage of EV taxis, the Group considered the operation of the CNG vehicle refueling station in Changsha City, Hunan of Hunan CNPC Energy Co., Ltd. ("Hunan CF CNPC"), a non wholly-owned subsidiary of the Group no longer aligns with the Group's new business focus and growth expectations.

After careful consideration, management decided that it would be in the best interest of the Group to permanently close down both refueling stations in 2023. The operation of CNG vehicle refueling station of Clean Energy and Hunan CF CNPC were abandoned during the year ended December 31, 2023. Accordingly, the profit or loss of Clean Energy and Hunan CF CNPC in the consolidated statement of profit or loss and other comprehensive income, including the comparative figures, are presented as discontinued operation for each of the reporting period.

As the operations of Clean Energy and Hunan CF CNPC were abandoned with no sales plans for the years ended December 31, 2025 and 2024, the assets and liabilities attributable to Clean Energy and Hunan CF CNPC are not classified as held for sale.

There was no acquisition or disposal of partial interest of subsidiaries during the year ended December 31, 2025 and 2024.

CF ENERGY CORP.

15. EARNINGS PER SHARE

From continuing and discontinued operations

The calculation of the basic and diluted earnings per share from continuing and discontinued operations attributable to owners of the Company is based on the following data:

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
<u>Earnings</u>		
Profit for the purpose of basic earnings per share	20,222	24,469
Profit for the purpose of dilutive earnings per share	20,222	24,469
<u>Number of shares</u>		
Weighted average number of shares for the purpose of basic earnings per share	65,885,155	65,885,155
Effect of dilutive potential shares: Share options	-	-
Weighted average number of common shares for the purpose of diluted earnings per share	65,885,155	65,885,155
Basic earnings per share (note)	RMB0.31	RMB0.37
	CAD0.06	CAD0.07
Diluted earnings per share (note)	RMB0.31	RMB0.37
	CAD0.06	CAD0.07

Note: The CAD figures presented above are shown for reference only and have been arrived at based on the exchange rate of RMB1.0000 to CAD 0.1944 for the year ended December 31, 2025 and RMB1.0000 to CAD0.1903 for the year ended December 31, 2024, being the average exchange rate that prevailed during the respective years.

The computation of diluted earnings per share did not assume the exercise of certain share options of the Company because the exercise price of those options was higher than the average market price for the shares for both 2025 and 2024 years.

CF ENERGY CORP.

15. EARNINGS PER SHARE - continued

From discontinued operations

Basic and dilutive losses per share for the discontinued operations is RMB0.00 per share (2024: loss per share of RMB0.00), based on the loss for the year attribute to owners of the Company from the discontinued operations of approximately RMB431,000 (2024: the discontinued operations of approximately RMB277,000) and the denominators detailed above for both basic and diluted earnings per share.

For continuing operations

The calculation of the basic and diluted earnings per share from continuing operations attributable to owners of the Company is based on the following data:

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
<u>Earnings</u>		
Profit for the year attributable to owners of the Company	20,222	24,469
Less:		
Loss for the year from discontinued operations attributable to owners of the Company	<u>(431)</u>	<u>(277)</u>

At December 31, 2024	165,303	447,887	2,798	83,199	6,017	180,773	885,977

The above items of property and equipment, other than construction in progress, after taking into account their estimated residual value, are depreciated on a straight-line basis at the following useful life:

Buildings	30 - 35 years
Pipelines	30 - 35 years
Motor vehicles	3 - 10 years
Furniture and equipment	3 - 20 years
Leasehold improvements	9 - 18 years

The Group has pledged certain pipelines and related equipment with a net book value of approximately RMB315,336,000 (2024: RMB311,449,000) to a bank to secure the RMB97,870,000 (2024: RMB130,100,000) long-term debts granted to the Group.

CF ENERGY CORP.

16. PROPERTY AND EQUIPMENT - continued

Impairment assessment

During the year ended December 31, 2024, certain pipelines of Hainan Hengtai Energy Co., Ltd. become wholly obsolete and idle. The management of the Group concluded there was indication for impairment and conducted impairment assessment on these assets with carrying amounts of RMB1,075,000. The recoverable amounts of these assets have been determined based on their value in use and accordingly an impairment loss of RMB1,075,000 was recorded during the year ended 31 December 2024.

The Group estimates the recoverable amounts of the property and equipment, right-of-use assets and other intangible assets with finite useful lives based on higher of fair value less costs of disposal and value in use. Apart from the pipelines of Hainan Hengtai Energy Co., Ltd. which have been fully impaired, the residual carrying amount of the relevant assets does not exceed the recoverable amount based on value in use and no impairment has been recognised as of 31 December 2025.

17. RIGHT-OF-USE ASSETS

	<u>Leasehold properties</u> RMB'000	<u>Leased lands</u> RMB'000	<u>Total</u> RMB'000
As at December 31, 2025

CF ENERGY CORP.

17. RIGHT-OF-USE ASSETS - continued

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Expense relating to short-term leases	627	434
Expense relating to leases of low-value assets, excluding short-term leases of low value assets	190	49
Total cash outflow for lease	5,305	1,785
Additions to right-of-use assets	3,786	1,682

Note: Amounts include depreciation of right-of-use assets eliminated resulting from early termination of lease contracts.

For both years, the Group leases various offices and staff quarters for its operations. Lease contracts are entered into for fixed terms of 1 to 11 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

In addition, the Group also leases land in the PRC for gas utility distribution and gas stations. Other than a land lease in Hunan province, the land leases are usually prepaid upfront. Terms of the land leases are 50 years.

The Group regularly entered into short-term leases for staff quarters. As at December 31, 2025, the portfolio of short-term leases is similar to the portfolio of short-term leases recognized and disclosed above, to which the short-term lease expense amounted to RMB627,000 (2024: RMB434,000).

As at December 31, 2025, four pieces of leased land amounting to RMB72,076,000 (2024: RMB25,755,000) have been pledged as security for the Group's borrowing.

Sale and leaseback transactions – seller-lessee

To better manage the Group's capital structure and financing needs, the Group entered into a sale and leaseback arrangement in relation to EV battery swap station and related equipment lease for a term of 5 years. This legal transfer does not satisfy the requirements of IFRS 15 to be accounted for as a sale of the machinery and raised RMB11,640,000 in 2023 for the borrowings in respect of this sale and leaseback arrangement.

Details of the lease maturity analysis of lease liabilities are set out in note 34 and note 41(b).

18. GOODWILL

	Acquisition of <u>EDF CF</u> RMB'000	Acquisition of <u>Beihai Company</u> RMB'000	<u>Total</u> RMB'000
COST			
At 1 January 2024 and December 31, 2024 and 2025	<u>1,635</u>	<u>617</u>	<u>2,252</u>
CARRYING VALUE			
At December 31, 2024 and 2025	<u>1,635</u>	<u>617</u>	<u>2,252</u>

Notes:

- (i) On December 26, 2019, the Group entered into an agreement with EDF China to inject additional capital in EDF CF, a former 50% joint venture of the Group, amounting to RMB24,000,000. Following the completion of the capital injection, the Group holds 70% of equity interest in EDF CF and it became a non wholly-owned subsidiary of the Group. Goodwill arising on the acquisition of 20% of equity interest in EDF CF was RMB1,635,000.
- (ii) In October 2022, Hunan CNPC New Energy Investment Co., Ltd ("Hunan CNPC NEI"), a non-wholly owned subsidiary of the Group entered into an agreement with a third party to acquire 70% equity interest in Beihai Brighton Road New Energy Ltd. ("Beihai Company") in which the Group beneficially own 42% of the equity interest with a cash consideration of RMB1,239,000. The Group accounted for this acquisition as business combination and recognized a goodwill amounting to RMB617,000 resulted from the acquisition.

No deferred tax liability was recognised for the taxable temporary differences arises from the initial recognition of goodwill.

None of the goodwill arising on these acquisitions is expected to be deductible for tax purposes.

The Group tests goodwill annually for impairment, or more frequently if there are indications that goodwill might be impaired.

The recoverable amount as a cash-generating unit is determined based on a value in use calculation which uses cash flow projections based on financial budgets and a pre-tax discount rate. The key assumptions used by management in setting the financial budgets were forecast sales growth rates, operating profits and cash conversion. These assumptions are forecast based on historical experience. During the year ended December 31, 2025, management of the Group determines that there is no impairment on the goodwill arising on acquisition of subsidiaries.

21. EQUITY INSTRUMENTS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
- Unlisted equity investments	<u>1,219</u>	<u>7,497</u>

In September 2020, the Group entered into an agreement to invest RMB2,000,000 for 2.0% of the total equity shares of Hainan Shanglian Investment Co., Ltd.* (海南商联投资有限公司) (“Shanglian”). The Group made initial capital injection of RMB500,000 in 2020 and sequential injections of RMB505,200 and RMB213,700 in 2021 and 2022, respectively. As of December 31, 2025, the fair value of the 2.0% equity interest in Shanglian was RMB1,219,000 (2024: RMB1,219,000).

In January 2021, the Group entered into two separate agreements to acquire approximately 3.43% in aggregate of the total equity shares of Beijing Taisheng Tiancheng Technology Co., Ltd.* (北京泰盛天成科技有限公司) (“Bejing Taisheng”), previously as Blue Valley Smart Energy (Beijing) Technology Co., Ltd.* (蓝谷智慧(北京)能源科技有限公司) (“Blue Valley”), a privately held EV battery technology development and service company in the PRC. Total consideration of RMB14,670,000 was paid and business registration of share transfer was completed in May 2021.

The above unlisted equity investments represent the Group’s equity interest in private entities incorporated in the PRC. The directors of the Company have elected to designate these investments in equity instruments as FVTOCI as they believe that the Group will hold these investments for medium to long-term strategic purposes.

Due to strategic adjustments and continued losses, Beijing Taisheng has undergone significant internal restructuring in 2025. Beijing Taisheng ceased production of EV battery swap stations and the provision of energy storage in 2025. Based on the preliminary assessment, the Group believes that the fair value of this investment has significantly declined, and the recoverable amount of this equity investment is expected to be zero.

As of December 31, 2025, the fair value of the 3.43% equity interest in Beijing Taisheng was RMB nil (2024: RMB6,278,000), resulting in the recognition of an unrealized loss of RMB6,278,000 (2024: RMB55,000) and a written back of deferred tax assets of RMB46,000 recognized in 2022 against revaluation reserve in the other comprehensive income as of December 31, 2025.

* The English name of the company is for identification purpose only.

CF ENERGY CORP.

22. INVENTORIES

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Construction materials	4,725	4,225
Natural gas for sale	602	949
	<u>5,327</u>	<u>5,174</u>

As at December 31, 2025, no inventories (2024: nil) were written down to the lower of cost and the net realizable value. No reversal of any write down were recorded during the year ended December 31, 2025 (2024: nil).

23. CONTRACT ASSETS

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Contract assets from pipeline construction works	27,976	30,575
Less: Allowance for credit losses	(134)	(600)
	<u>27,842</u>	<u>29,975</u>

As at January 1, 2024, contract assets amounted to RMB20,454,000.

The contract assets primarily relate to the Group's right to consideration for work completed and not billed because the rights are conditioned on the Group's future performance. The contract assets are transferred to trade receivables when the rights become unconditional.

Typical payment terms which impact on the amount of contract assets recognised are as follows:

Construction contracts of pipeline construction works

The Group's construction contracts include payment schedules which require stage payments over the construction period once certain specified milestones are reached. The Group requires certain customers to provide upfront deposits ranging from 30% to 70% of total contract amount as part of its credit risk management policies. The Group typically transfer the contract assets to trade receivables when the performance obligation of the construction works satisfied.

The Group classifies these contract assets as current because the Group expects to realize them in its normal operating cycle.

As at December 31, 2025, contract assets amounting to RMB 27,842,000 (2024: RMB29,975,000) have been pledged as security for the Group's borrowing.

Details of the impairment assessment are set out in note 41(b).

CF ENERGY CORP.

24. TRADE RECEIVABLES

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Trade receivables		
- Gas sales	42,148	36,935
- Pipeline installation and connection	29,400	34,138
	<u>71,548</u>	<u>71,073</u>
Less: Allowance for credit losses	<u>(7,806)</u>	<u>(5,565)</u>
	<u>63,742</u>	<u>65,508</u>

As at January 1, 2024, trade receivables from contracts with customers amounted to RMB55,666,000.

As at December 31, 2025, trade receivables amounting to RMB56,522,000 (2024: RMB63,728,000) have been pledged as security for the Group's borrowing.

Details of impairment assessment of trade receivables are set out in note 41(b).

25. OTHER RECEIVABLES, PREPAID EXPENSES AND DEPOSITS

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Pipeline relocation receivables (note)	15,279	15,082
Prepayments for gas purchase	3,458	1,533
Prepayments for property and equipment	4,934	2,342
Rental deposits	271	485
VAT recoverable	17,919	18,533
Other prepayments and deposits	4,262	7,209
	<u>46,123</u>	<u>45,184</u>
Less: impairment loss recognised	<u>(556)</u>	<u>(192)</u>
	<u>45,567</u>	<u>44,992</u>
Analyzed for reporting purposes as follows:		
- Current assets	40,130	42,005
- Non-current assets	5,437	2,987
	<u>45,567</u>	<u>44,992</u>

Note: The balance represents compensation from local government for cost of construction of new pipelines incurred as a result of a notified relocation of gas pipelines for complying with the revised city plan. The Group expects RMB14,827,000 (2024: RMB14,630,000) would be compensated by the local government in 2026 with the remaining balance of RMB452,000 (2024: RMB452,000) to be received beyond 2026.

Details of impairment assessment of other receivables and deposits are set out in note 41(b).

26. DERIVATIVE FINANCIAL INSTRUMENT

In 2007, Mr. Lin, advanced loans in the aggregate amount of RMB40,000,000 to the Group pursuant to a subordination and forbearance agreement dated April 27, 2007 (the "Subordination and Forbearance Agreement"). On May 25, 2017, the Group entered into a loan discharge agreement with Mr. Lin ("Loan Discharge Agreement") to repay an aggregate amount of RMB36,000,000 and the Group's obligation stated in the Subordination and Forbearance Agreement, has been fully discharged. Accordingly, the remaining RMB4,000,000 was recognized as shareholder's contribution.

In addition, the Loan Discharge Agreement provided that if the Initial Public Offering ("IPO") was not completed by June 28, 2019, the Group shall have the right for a period of 90 days following June 28, 2019 to require Mr. Lin, directly or indirectly, to subscribe for common shares of the Company on the TSX Venture Exchange, in the amount of RMB36,000,000 or its CAD equivalent (the "Investment"). The subscription price for such common shares was the volume-weighted average price of the common shares of the Company in the period of 30 calendar days preceding June 28, 2019 on the TSX Venture Exchange.

The IPO was not completed by June 28, 2019. On July 26, 2019, the Company announced that the Board determined to exercise the Company's option pursuant to the Loan Discharge Agreement to require the estate of Mr. Lin (the "Estate") to subscribe for an aggregate amount of CAD6,862,000 (approximately RMB36,000,000) in common shares of the Company at a price of CAD0.68 per common share. Following the subscription, based on the prevailing exchange rate of June 28, 2019, the number of shares to be issued is 10,090,568. The management of the Company considered that the share subscription is a forward contract.

On June 21, 2021, the Company together with CF China filed a contract dispute case (the "Claim") against the Estate in the Sanya Intermediate People's Court, Sanya City, Hainan Province, China (the "Sanya Court") to enforce the execution of the Loan Discharge Agreement and the Investment. The Sanya Court declined to take jurisdiction over the dispute. The Company appealed from that decision to the Hainan Provincial High People's Court, which dismissed the Company's appeal on September 5, 2022. The Company applied for a retrial on the basis of new evidence, and this application was rejected on February 24, 2023. On October 30, 2023, the Company filed the Claim in the Sanya Suburban People's Court, Sanya City. The Claim was dismissed by the Sanya Suburban People's Court on December 7, 2023.

A beneficiary of the Estate (Mingfei He) applied to the court in China for distribution of certain funds from the Estate. The court approved the distribution of funds to Mingfei He and other beneficiaries. The Company is exploring its options, if any, to compel the return of all funds distributed to the beneficiaries of the Estate so that the Estate can comply with the Loan Discharge Agreement. If no reasonable options are available to the Company, the Company will cease to pursue enforcement of the Loan Discharge Agreement.

26. DERIVATIVE FINANCIAL INSTRUMENT - continued

Notices were sent to the four beneficiaries of the Estate to notify them that the Company previously exercised its option pursuant to the Loan Discharge Agreement and that the Company expected the beneficiaries of the Estate to cause the Estate to comply. Not all beneficiaries of the Estate (the “Dissentient Beneficiaries”), however, have agreed to honor the Investment. The Company has taken into further consideration of the above events in the estimate of fair value of the derivative assets, and considered that these events have undermined the availability of the funds within the Estate, which cast significant doubt as to the fulfillment of the obligations by the Dissentient Beneficiaries under the Loan Discharge Agreement to honor the forward contract. Accordingly, the valuation of the derivative assets as of December 31, 2024 has been determined based on the probability of collection of the funds to honor the Investment which is estimated to be low, and the amount has been fully written down.

In 2024, the counsel representing a shareholder of the Company (the “Petitioning Shareholder”) commenced a petition to the Supreme Court of British Columbia (the “Supreme Court”) (the “Petition”) for leave to prosecute the claim under the Loan Discharge Agreement in the Ontario Superior Court of Justice in the name and on behalf of the Company against the Estate of Mr. Lin. Having sought advice from its legal counsel, the Company considered it appropriate to oppose against the petition and the petition is now pending hearing by the Supreme Court.

In March 2026, the Petition was heard and the Supreme Court allowed the Petitioning Shareholder to proceed with the claim on behalf of the Company. The special committee of the independent Directors is actively reviewing its legal options with its legal counsel. For the avoidance of doubt, the Company would like to emphasize and wishes its shareholders to note that, while reviewing the Petition and in arriving at its decision, the Supreme Court did not identify or make findings of any wrongdoings against the Company or its Board of Directors.

27. BANK BALANCES AND CASH/FIXED TERM BANK DEPOSITS/RESTRICTED BANK DEPOSITS

Bank balances, fixed term bank deposits and restricted bank deposits carried market interest rates which ranged from 0.01% to 1.35% per annum as at December 31, 2025 (2024: 0.01% to 1.35%).

Details of impairment assessment of bank balances and cash, and fixed term bank deposits are set out in note 41(b).

CF ENERGY CORP.

28. TRADE AND OTHER PAYABLES

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Trade and construction payables	35,067	50,070
Payable on property and equipment acquisition	90,940	101,906
Accrued wages and staff benefits	4,872	4,348
Accrued audit fee	1,220	1,088
Other tax payables	1,367	1,051
Temporary receipt for pipeline relocation	13,356	11,847
Other payables and accrued expenses	10,437	13,647
	<u>157,259</u>	<u>183,957</u>

The average credit period on purchase of natural gas and construction payable to construct pipelines ranges from 5 to 30 days. The Group has financial risk management policies in place to ensure that all payables are settled within the credit time frame.

29. RELATED PARTY BALANCES/TRANSACTIONS DISCLOSURE

During the year, the Group entered into the following transactions with related party:

Transaction

<u>Name of related party</u>	<u>Relationship party</u>	<u>Nature of transactions</u>	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Pingxiang Xinao CF	Associate	Purchase of gas appliances	-	33
Ann Lin	Chief Executive	Rental expenses	-	230

The following balances were outstanding from related parties at the end of the reporting period:

Balances

<u>Name of related parties</u>	<u>Relationship</u>	<u>Terms</u>	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Pingxiang Xinao CF	Associate	Non-trade, unsecured and non-interest bearing (note 1)	11,000	11,000
Sichuan Xiangshu	Associate	Non-trade, unsecured and non-interest bearing	320	320
			<u>11,320</u>	<u>11,320</u>
Directors	Directors	Unsecured and non-interest bearing (note 2)	63	(37)

CF ENERGY CORP.

29. RELATED PARTY BALANCES/TRANSACTIONS DISCLOSURE - continued

Note 1: The balance represents a loan of RMB11,000,000 to Pingxiang Xinao CF plus interest accrued at 4.35% per annum until October 16, 2019 when the Group entered a supplemental agreement with Pingxiang Xinao CF to waive accruing interest from October 17, 2019 and onwards. As at 31 December 2025, the outstanding balance is not expected to be repaid within 12 months and therefore the amount is classified as non-current asset.

Note 2: The balance as at December 31, 2025 represented staff advances to a member of management for business purpose. Such advances were fully reimbursed in the first quarter of 2026.

Details of impairment assessment of the respective amounts due from related parties and non-controlling interests of a subsidiary are set out in note 41(b).

Compensation of key management personnel

The remuneration of directors and other members of key management of the Group during the reporting period are as follows:

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Short-term benefits	<u>3,783</u>	<u>3,576</u>

The remuneration of directors and key executives is determined by the remuneration committee having regard to the performance of individuals of the Group and market trends.

30. AMOUNTS DUE FROM NON-CONTROLLING INTERESTS OF A SUBSIDIARY

The balance represents the loan to Sichuan Tianzhiyuan Energy Technology Limited as unsettled capital injected into Meishan Hengtai Tianzhiyuan Energy Co., Ltd. bearing interest at 5.88% per annum amounted to RMB2,766,000 (2024: RMB2,649,000). In the opinion of the management of the Company, the outstanding balance is not expected to be repaid within 12 months after the end of reporting period and therefore the amount is classified as non-current asset.

31. CONTRACT LIABILITIES

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Commenced pipeline installation and connection projects	54,265	47,714
Receipts in advance from customers		
- Pipeline installation and connection projects prior to commencement	18,724	16,702
- Natural gas sales and others	<u>51,985</u>	<u>46,709</u>
	<u>124,974</u>	<u>111,125</u>

As at January 1, 2024, contract liabilities amounting to RMB117,730,000.

During the year ended December 31, 2025, RMB 38,635,000 (2024: RMB33,470,000) and RMB 22,863,000 (2024: RMB31,528,000) of carried-forward contract liabilities arose from natural gas sales and pipeline installation and connection projects has been recognised as revenue, respectively.

32. SHORT-TERM BANK BORROWINGS

The Group's short-term bank borrowings comprise:

<u>Lenders</u>	<u>Secured/ unsecured</u>	<u>Contractual interest rate</u>	<u>Effective interest rate</u>		<u>Carrying amount</u>		<u>Notes</u>

34. LEASE LIABILITIES

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Lease liabilities payable:		
Within one year	689	1,033
Within a period of more than one year but not more than two years	227	554
Within a period of more than two years but not more than five years	49	94
	<u>965</u>	<u>1,681</u>
Less: Amount due for settlement within 12 months shown Under current liabilities	<u>(689)</u>	<u>(1,033)</u>
Amount due for settlement after 12 months shown under non-current liabilities	<u>276</u>	<u>648</u>

The weighted average incremental borrowing rates applied to lease liabilities is 3.61% (2024: 3.91%).

35. DEFERRED INCOME - GOVERNMENT GRANTS

The Group received RMB5,269,000, RMB2,553,000, RMB12,110,000, RMB9,244,000 and RMB30,800,000 and RMB2,898,000 in government grants to fund the construction of certain items of property and equipment for the Group's operation in Sanya City in 2012, 2019, 2020, 2022, 2023 and 2024, respectively. These government grants were recognized as a long-term liability and will be recognized in the consolidated statement of profit or loss on the same basis as depreciation of the related property and equipment over the expected useful lives of the relevant assets. As of December 31, 2025, all of the property and equipment are ready for use and RMB2,046,000 (2024: RMB1,935,000) is recognized as other income. As at December 31, 2025, the government grants of RMB52,645,000 (2024: RMB54,691,000) was recognized as a non-current liability.

36. DEFERRED TAX LIABILITIES

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Deferred tax liabilities	<u>9,793</u>	<u>8,396</u>

36. DEFERRED TAX LIABILITIES - continued

The following are the major deferred tax liabilities recognised and movements thereon during the current and prior year:

	Property and equipment RMB'000	Accrued receivables on gas sales RMB'000	Receipts in advance and deferred income RMB'000	Withholding tax on undistributed earnings RMB'000	Intangible assets RMB'000 (Restated)	Right-of-use assets RMB'000 (Restated)	Lease liabilities RMB'000	Right-of-use assets and lease liabilities RMB'000	Total RMB'000
At January 1, 2024	14,369	1,073	(8,679)	432	533	1,119	(777)	-	8,070
(Credit) charge to profit or loss	207	22	82	132	(22)	(452)	357	-	326
At December 31, 2024	14,576	1,095	(8,597)	564	511	667	(420)	-	8,396
(Credit) charge to profit or loss	706	59	944	(47)	(217)	(227)	179	-	1,397
At December 31, 2025	15,282	1,154	(7,653)	517	294	440	(241)	-	9,793

Under EIT law of the PRC, withholding tax is imposed on dividends declared in respect of profits earned by the PRC subsidiaries from January 1, 2008 onwards. Deferred taxation has not been provided in respect of temporary differences attributable to retained earnings of the PRC subsidiaries amounting to RMB685,198,000 at December 31, 2025 (2024: RMB606,156,000), as the Group is able to control the timing of the reversal of the temporary differences.

At the end of the reporting period, the Group has the following unused tax losses and deductible temporary differences available for offset against future profits:

	2025 RMB'000	2024 RMB'000
Loss carried forward	345,805	275,498
Deductible temporary differences	3,578	5,523
	<u>349,383</u>	<u>281,021</u>

Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available against which the Group can utilize the benefits therefrom. Included in unrecognised tax losses are losses of approximately RMB345,805,000 (2024: RMB275,498,000) with expiry dates as disclosed in the following table. Other losses may be carried forward indefinitely.

	2025 RMB'000	2024 RMB'000
2025	-	11,685
2026	17,707	17,707
2027	43,036	43,036
2028	45,689	45,689
2029	37,971	37,971
2030	83,675	-
From 2031 onwards	117,120	118,808
Indefinite	607	602
	<u>345,805</u>	<u>275,498</u>

No shares were repurchased by the Company during each of the two years ended December 31, 2025 and 2024.

38. SHARE-BASED COMPENSATION

Equity-settled share option scheme of the Company:

The share option scheme of the Company (the "Option Scheme") were adopted for the primary purpose of providing incentives or rewards to selected participants for their contribution to the Group and/or to enable the Group to recruit and retain high-calibre employees and attract human resources that are valuable to the Group. Under the Option Scheme, the Board may grant options to eligible participants including employees, senior officers and directors (including executive and non-executive directors) of the Company or any of its subsidiaries, suppliers, consultants and advisers who will contribute or have contributed to the Group to subscribe for shares in the Company.

At the annual general meeting of the Company held on July 26, 2019, the shareholders of the Company approved the resolution for the amendments to the existing Option Scheme from the "fixed" option plan to a "rolling" option plan whereby (i) options can be granted to subscribe for up to a maximum number of shares of the Company equal to 10% of the issued and outstanding shares of the Company from time to time; and (ii) subject to the maximum referred to in (i) above, options granted and exercised can be re-granted under the scheme. The Rolling Option Scheme is subject to annual renewal and approval by shareholders at each annual general meeting of the Company after initial approval and the current plan was subsequently approved by the shareholders of the Company at the annual general meeting of the Company held on October 29, 2020 and December 23, 2021.

There were no additional share options granted during each of the two years ended December 31, 2025.

2020 Option

On December 18, 2020, a total of 1,350,000 share options were granted to directors, management and a consultant. The estimated fair values of the options determined at the date of grant were CAD103,148.

CF ENERGY CORP.

The following table discloses details of specific categories of share options and the movements of the Option Scheme during the respective financial years.

Equity-settled share option scheme of the Company: - continued

New Long-term Incentive Plan of the Company: - continued

The long-term incentive plan (the "LTIP") was approved by the shareholders of the Company on December 23, 2022 for the primary purpose of providing incentives or rewards to selected participants for their contribution to the Group and/or to enable the Group to recruit and retain high-calibre employees that are valuable to the Group. Upon approval, the LTIP superseded and replaced both the Option Scheme and the Award Scheme. Under the LTIP, the Board may grant stock options ("Stock Options"), performance share units ("PSUs"), restricted share units ("RSUs") and deferred share units ("DSUs") to eligible participants including employees, senior officers and directors (including executive and non-executive directors) of the Company or any of its subsidiaries, suppliers, consultants and advisers who will contribute or have contributed to the Group to subscribe for shares in the Company.

The aggregate number of shares to be reserved and set aside for issue upon the exercise or redemption and settlement for all stock options granted under the LTIP, together with all other established security-based compensation arrangements of the Company's (being options and/or awards granted under the Option Scheme, the Award Scheme and the LTIP), shall not exceed 10% of the issued and outstanding shares in issue of the Company at the time of granting the award (on a non-diluted basis). The Stock Options component of the LTIP is an "evergreen" plan, thus if the Company issues additional shares in the future, the number of the shares issuable under the LTIP will increase accordingly.

The LTIP is subject to annual renewal and was renewed at the annual general meeting the Company held on November 17, 2025.

40. CAPITAL RISK MANAGEMENT

The Group considers its capital structure to consist of share capital, contributed surplus, retained earnings, short-term bank borrowings, long-term debts and other borrowings. The Group's objectives are to maintain an effective structure that supports its ability to explore strategic business development opportunities in the PRC and to maintain a flexible capital structure that optimizes the costs of capital at an acceptable risk level. The Group manages its capital structure and makes adjustments to it, based on the funds available to the Group. The Board does not establish quantitative return-on-capital criteria for management, but rather is responsible for overseeing the process undertaken by management to sustain future development of its business.

The Group's strategy is to satisfy its liquidity needs using cash on hand, cash flows generated from operating activities and through credit lines. Revenues, available cash balances, drawdowns on credit lines and long-term bank debts are the Group's principal sources of capital used to pay for operating expenses and capital expenditures in its business.

The Group reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of its operations, is reasonable. The Group monitors its compliance with all of its capital requirements, including financial covenants and non-financial covenants relating to the credit lines and bank loans, as applicable. As at December 31, 2025, the Company was in compliance with all of its covenants.

There were no changes in the Group's approach to capital management during the year ended December 31, 2025.

During the year ended December 31, 2025, nil dividend was declared to the shareholders (2024: nil).

41. FINANCIAL INSTRUMENTS

(a) Categories of financial instruments

	<u>2025</u> RMB'000	<u>2024</u> RMB'000
Financial assets		
Financial assets at amortized cost	177,235	241,396
Equity instruments at FVTOCI	<u>1,219</u>	<u>7,497</u>
Financial liabilities		
Liabilities measured at amortized cost	<u>647,150</u>	<u>731,351</u>

(b) Financial risk management objectives and policies

The Group's major financial instruments include trade receivables, pipeline relocation receivables, other receivables and deposits, amounts due from an associate, directors and non-controlling interests of a subsidiary, fixed term bank deposits, restricted bank deposits, bank balances and cash, equity instruments at FVTOCI, derivative financial instrument, trade and other payables, dividend payable to non-controlling interest of a subsidiary, short-term bank borrowings, long-term debts, lease liabilities and other borrowings. Details of these financial instruments are disclosed in the respective notes. The risks associated with these financial instruments include market risk (foreign exchange risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

Foreign exchange risk

Foreign exchange risk is the risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates. With the majority of the Group's businesses transacted in RMB, the aforesaid currencies are determined as the functional currencies of the Company and its subsidiaries.

The Company and its subsidiaries have foreign currencies included in bank balances and cash and other payables which expose them to foreign currency risk.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

	<u>Liabilities</u>		<u>Assets</u>	
	<u>2025</u> RMB'000	<u>2024</u> RMB'000	<u>2025</u> RMB'000	<u>2024</u> RMB'000
United States Dollars ("US\$")	-	-	467	196
CAD	(296)	(345)	475	3,601
Hong Kong Dollars ("HKD")	<u>(204)</u>	<u>(214)</u>	<u>218</u>	<u>90</u>

41. FINANCIAL INSTRUMENTS - continued

(b) Financial risk management objectives and policies - continued

Market risk – continued***Foreign exchange risk*** – continued*Sensitivity analysis*

The management of the Company considers that the exposure to fluctuations in exchange rate of US\$, CAD and HKD against RMB are not significant and thus no sensitivity analysis is presented.

Interest rate risk

Interest rate risk is the risk that changes in interest rates will affect the Group's income or value of or cash flows related to its financial instruments. The Group is exposed to interest rate risk arising from its bank balances, long-term debts and lease liabilities. The Group's interest rate on its long-term debts are based upon the prescribed lending rate of the PBOC and LPR, which is subject to fluctuation, and may result in an increase or decrease in interest expense. The Group does not use derivative instruments to reduce its exposure to interest rate risk.

By excluding the impact of interest capitalization, 1% increase or decrease in the interest rate would have had the following impact on the Group's profit for the year:

	Impact on profit for the year	
	<u>2025</u>	<u>2024</u>
	RMB'000	RMB'000
Interest rate + 1%	(2,433)	(2,322)
Interest rate - 1%	2,433	2,322

Credit risk and impairment assessment

Credit risk refers to the risk that the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. The Group's credit risk exposures are primarily attributable to trade receivables, contract assets, other receivables and deposits, fixed term bank deposits, bank balances and amounts due from an associate, a director and non-controlling interests of a subsidiary. Other than the security deposits collected from certain customers from gas sales, the Group does not hold any other collateral or other credit enhancements to cover its credit risks associated with its financial assets.

As at December 31, 2025 and 2024, the Group's maximum exposure to credit risk in the event of the counterparties' failure to perform their obligations at December 31, 2025 and 2024, in relation to each class of recognised financial assets is the carrying amount of those financial assets as stated in the consolidated statement of financial position.

The Group does not have any significant concentration of credit risk for trade receivables. Trade receivables consist of a large number of customers and spread across diverse industries and geographical areas.

41. FINANCIAL INSTRUMENTS - continued

(b) Financial risk management objectives and policies - continued

Credit risk and impairment assessment - continued

Trade receivables and contract assets arising from contracts with customers

In order to minimize the credit risk of trade receivables and contract assets, the management of the Group has delegated a team responsible for determination of credit limits and credit approvals. Before accepting any new customer, the Group uses an internal credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. Limits and scoring attributed to customers are reviewed once a year. Other monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. The Group performs impairment assessment under ECL model based on provision matrix. Trade receivables and contract assets are grouped under different provision matrix by nature of products and services based on credit risk characteristics by reference to repayment histories for recurring customers and current past due exposure for the new customers. Impairment losses, net of reversal of RMB1,775,000 (2024: impairment losses, net of reversal of RMB1,458,000) in respect of trade receivables and contract assets is recognised for the year ended December 31, 2025, of which impairment gain, net of reversal of nil (2024: nil) is related to discontinued operations. Details of the quantitative disclosures are set out below in this note.

Bank balances/fixed term bank deposits/restricted bank deposits

The credit risks on bank balances, fixed term bank deposits and restricted bank deposits are limited because the counterparties are banks/financial institutions with high credit ratings assigned by international credit-rating agencies. The Group assessed 12m ECL for bank balances, fixed term bank deposits and restricted bank deposits by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies. Based on the average loss rates, the 12m ECL on bank balances, fixed term bank deposits and restricted bank deposits is considered to be insignificant. No expected credit loss was recognised as the amount involved is insignificant.

Amounts due from an associate and non-controlling interests of a subsidiary

The Group regularly monitors the business performance of the associates and joint venture. The Group's credit risks in these balances are mitigated through the value of the assets held by these entities and the power to participate or jointly control the relevant activities of these entities. The directors of the Company consider that there are no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12m ECL. No expected credit loss was recognised as the amount involved is insignificant.

41. FINANCIAL INSTRUMENTS - continued

(b) Financial risk management objectives and policies - continued

Credit risk and impairment assessment - continued*Other receivables and deposits*

For other receivables and deposits, the directors of the Company make periodic individual assessment on the recoverability of other receivables and deposits based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. The Group provided impairment based on 12m ECL. For the year ended December 31, 2025 and 2024, the Group assessed the ECL for other receivables and deposits and thus impairment loss, net of reversal of RMB367,000 (2024: impairment loss of RMB5,306,000) on other receivables and deposits was recognized.

The Group's internal credit risk grading assessment comprises the following categories:

<u>Internal credit rating</u>	<u>Description</u>	<u>Trade receivables/ contract assets</u>	<u>Other financial assets/other items</u>
Low risk	The counterparty has a low risk of default and does not have any past-due amounts	Lifetime ECL - not credit-impaired	12-month ECL
Normal risk	Debtor frequently repays after due dates but usually settle in full	Lifetime ECL - not credit-impaired	12-month ECL
High risk	There have been significant increases in credit risk since initial recognition through information developed internally or external resources	Lifetime ECL - not credit-impaired	Lifetime ECL - not credit-impaired
Loss	There is evidence indicating the asset is credit-impaired	Lifetime ECL - credit-impaired	Lifetime ECL - credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written off	Amount is written off

Other items								
Contract assets	23	N/A	(note)	Lifetime ECL				
				(Provision Matrix)				
- Low risk					27,842		30,439	
- Normal risk					-		-	
- High risk					134	27,976	136	30,575

Note: For trade receivables and contract assets, the Group has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime ECL. Except for debtors with credit-impaired amounting to RMB2,318,000 (2024: RMB481,000) for the year ended December 31, 2025, the Group determines the expected credit losses on these items by using a provision matrix, grouped by past due status and internal credit rating.

41. FINANCIAL INSTRUMENTS - continued

(b) Financial risk management objectives and policies - continued

Credit risk and impairment assessment - continued*Trade receivables and contract assets*Note (a): collective assessment - debtors' aging (gas sales)

As part of the Group's credit risk management, the Group uses debtors' aging to assess the impairment for its customers in relation to natural gas sales because these customers consist of a large number of small customers with common risk characteristics that are representative of the customers' abilities to pay all amounts due in accordance with the contractual terms. The Group received security deposits from certain customers before the supply of natural gas. The following table provides information about the exposure to credit risk for trade receivables as at December 31, 2025 and 2024 within lifetime ECL (not credit impaired).

Gross carrying amount

	Average loss rate	Trade receivables	
		<u>2025</u>	<u>2024</u>
		RMB'000	RMB'000
Current (not past due)	0.5%	24,911	26,692
1 - 90 days past due	0.5%	10,316	2,705
More than 90 days past due	2.52%	6,921	7,538
		<u>42,148</u>	<u>36,935</u>

Note(b): Provision matrix - internal credit rating (pipeline installation and connection)

The Group applies internal credit rating for its customers in relation to its pipeline connection and construction operation. The following table provides information about the exposure to credit risk for trade receivables and contract assets which are assessed based on provision matrix as at December 31, 2025 and 2024 within lifetime ECL (not credit impaired).

Gross carrying amount

<u>Internal credit rating</u>	Loss rate <u>range</u>	Trade receivables		Contract assets	
		<u>2025</u>	<u>2024</u>	<u>2025</u>	<u>2024</u>

(b) Financial risk management objectives and policies - continued

Credit risk and impairment assessment - continued*Trade receivables and contract assets* - continuedNote(b): Provision matrix - internal credit rating (pipeline installation and connection)
- continued

The estimated loss rates are estimated based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information that is available without undue cost or effort. The grouping is regularly reviewed by management of the Group to ensure relevant information about specific debtors is updated. The contract assets have substantially the same risk characteristics as the trade receivables for the same type of contracts. The Group has therefore concluded that the loss rates for trade receivables are a reasonable approximation of the loss rates for contract assets.

The following table shows the movement in lifetime ECL that has been recognised for trade receivables and contract assets under the simplified approach.

Trade receivables

	Lifetime ECL (not credit- impaired) RMB'000	Lifetime ECL (credit- impaired) RMB'000	Total RMB'000
As at January 1, 2024	4,151	481	4,632

41. FINANCIAL INSTRUMENTS - continued

(b) Financial risk management objectives and policies - continued

Credit risk and impairment assessment - continued

Trade receivables and contract assets - continued

Note(b): Provision matrix - internal credit rating (pipeline installation and connection)
- continued

The Group writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or when the trade receivables are over two years past due, whichever occurs earlier.

Liquidity risk

In management of the liquidity risk, the Group monitors and maintains levels of cash and cash equivalents deemed adequate by management of the Group to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The Group has given considerations to its future performance and cash flow projection through monitoring the utilisation of bank borrowings and ensuring its ability to renew or refinance the banking facilities upon maturity, to meet its financial obligations including the capital commitments.

As at December 31, 2025, the Group had a working capital deficiency of RMB279,563,000. The Group had bank balances and cash of RMB50,732,000 to settle current liabilities of RMB473,209,000. The Group believes that this deficiency can be funded through projected operating cash flows from operations and through securing additional financing from third-party financial institutions.

The contractual maturities of the Group's long-term debts, non-current portion of lease liability and other borrowings are described in notes 33, 34 and 17, respectively. The remaining financial liabilities, consisting of trade and other payables, dividend payable to non-controlling interest of a subsidiary and short-term bank borrowings, the current portion of the long-term debts, lease liability and other borrowings are expected to be realized within one year.

The following tables detail the Group's remaining contractual maturity for its financial liabilities and lease liabilities based on the agreed repayment terms. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. To the extent that interest rates are floating rate, the undiscounted amount is derived from interest rate curve at the end of each reporting period.

45. SUBSEQUENT EVENTS

Haitang Bay Integrated Smart Energy Project Government Grant

EDF CF, which holds the Haitang Bay Integrated Smart Energy Project (the “Haitang Bay Project”), has received the first installment of a grant under the National Development and Reform Commission Low Carbon Investment Grant (the “Grant”) granted out of the national budget for important low carbon projects in China to the sum of RMB 18,400,000 (approx. CAD3.5 million) in March 2026. The Grant, which represents both an incentive grant and a recognition of the project’s status in Hainan as a key low carbon demonstration project, is to be used exclusively in support of the continuing development of the Haitang Bay Project. The second and final installment of the Grant is expected to be the same amount as this first installment, in accordance with the timeline of the project.

Loan Discharge Agreement

The Company announces the recent Supreme Court of British Columbia (the “Supreme Court”) decision regarding a petition by a shareholder of the Company (the “Petitioning Shareholder”) to pursue, in place of the Company, enforcement of the loan discharge agreement for the late Mr. Lin to subscribe for the shares of the Company in the Ontario Superior Court of Justice. While the Supreme Court has granted the Petitioning Shareholder the ability to proceed with an action on behalf of the Company, the Company and the special committee of independent directors are actively reviewing its legal options with its legal counsel. For the avoidance of doubt, the Company would like to emphasize and wishes its shareholders to note that, while reviewing the petition and in arriving at its decision, the Supreme Court did not identify or make findings of any wrongdoings against the Company or its board of directors.

The Company remains focused on protecting shareholder value and will continue to act in the best interests of the Company and all its stakeholders.

Dissolution of an associate company

Sichuan Xiangshu Petrochemical Co., Ltd., an associate company of the Group with effective interest of 23.2%, was dissolved on February 14, 2026.

Short-term bank borrowings and long-term debts

On January 5, 2026 and January 28, 2026, the Group entered into an agreement with the China Everbright Bank, Sanya branch to secure two one-year bank loans in the aggregate amount of RMB30,000,000 with interest at the fixed rate of 3% p.a. The loan is guaranteed by CF Engineering and the Chair of the Group.

On January 9, 2026, the Group entered into an agreement with the China Everbright Bank, Sanya branch to secure one-year bank loan in the amount of RMB20,000,000 with interest at the fixed rate of 3% p.a. The loan is guaranteed by CF China and the Chair of the Group.

On January 12, 2026, the Group entered into an agreement with the Bank of Communications, Sanya branch to secure a one-year bank loan in the amount of RMB2,000,000 with interest at the fixed rate of 3% p.a. The loan is guaranteed by CF China.

On November 29, 2025, the Group entered into an agreement with the Industrial and Commercial Bank of China, Jiangmen branch to secure a bank loan in the amount of RMB45,000,000 with interest at the fixed rate of 3% p.a. First withdrawal of RMB21,548,000 was made in January 2026. The loan is for a period of eight years commencing from the date of first withdrawal. The loan is secured by trade receivables and land use rights of Jiangmen Hupau; guarantees provided by Sanya CF NEI; and pledged equity interests of Jiangmen Huapu held by Sanya CF NEI.
