NEWS RELEASE

RT MINERALS CORP. REPORTS DRILLING HAS COMMENCED AT THE LINK-CATHARINE RLDZ GOLD PROPERTY, KIRKLAND LAKE, ONTARIO

Vancouver, B.C. – November 10, 2021 – RT Minerals Corp. (TSXV: RTM) (OTC Pink: RTMFF) (the "Company" or "RTM") is pleased to announce that drilling has commenced on the Company's 100% optioned Link-Catharine RLDZ gold property, located about twenty-five kilometres southeast of Kirkland Lake, Ontario.

The diamond drilling will test up to three surficial outcrops and intervening strike of the apparent deformation zone (Pacaud fault corridor) that aligns with the three outcrops. These outcrops host variable amounts of green carbonate (fuschite), mafic, and ultramafic ("GCMU") rock assemblages that carry varying amounts of quartz and carbonate veining with sulphides.

In addition, a Three-Dimensional Distributed Array IP geophysical program has been completed on the northern part of the Property. The interpretation of the IP geophysical program is expected within the next week.

The Company plans to drill up to twelve diamond drill holes at an average depth of two hundred metres per hole. The drill holes will target the previously described GCMU outcrops in the subsurface and target two prominent magnetic low signatures targeting "magnetic destruction" previously outlined from historical geophysical surveys. Existing and additional targets (deep transverse faults) will be defined from the current northern 3D – IP survey.

The Company also announces that Mr. Victor Cantore has resigned as Strategic Advisor to the Company. We would like to thank Mr. Cantore for his support and wish him well in his future endeavors.

Qualified Person - Mr. Garry Clark, P.Geo., is the Qualified Person for RTM and he has reviewed and approved the technical content of this press release.

About RT Minerals Corp.
RT Minerals Corp. is a junior exploration company listed on the TSX Venture Exchange under the symbol "RTM" and has 78,694,654 common shares issued and outstanding, of which 19.95 million shares are held in escrow to be released over a three-year period ending July 14, 2024. The Company holds an option to acquire a 100% interest in the Link-Catharine RLDZ gold property comprised of fifteen unpatented single cell mining claims with a total area of 220 hectares in one claim block, which is contiguous to the Company's 100% owned 102 square kilometre Catharine claim block. These properties are located twenty-two kilometres south-southeast of the town of Kirkland Lake, Ontario. The Company also holds a 100% interest in the Norwalk gold property near Wawa, Ontario.
