Debentures

The Debentures were issued pursuant to and are governed by the terms of a trust indenture dated November 12, 2021, between the Company and Computershare Trust Company of Canada as debenture trustee, pursuant to which, among other things:

- (a) the Debentures are unsecured subordinated convertible debentures, due November 30, 2026, and bear interest at a rate of 8.0% annually;
- (b) the principal amount of the Debentures is convertible into common shares at a conversion price of \$5.00 per share (on a post-Consolidation basis) and the interest is not convertible; and

As disclosed in the Company's news release dated March 11, 2025, Antares Capital Management Ltd. ("**Antares**"), a private corporation, has acquired over 67% of the outstanding Debentures and has made an offer to all Debenture holders to acquire their Debentures on the same terms on which it had acquired its Debentures.

The Company has engaged in discussions with Antares to restructure the terms of the Debentures in a mutually acceptable manner and the parties have agreed, subject to the acceptance of the Exchange, to restructure the Debentures as follows:

- (a) the Company proposes to settle the outstanding principal and interest amount under the Debentures through the issuance of common shares at an issue price of \$0.20 per share (the "**Debenture Settlement Shares**"). Should all the holders of the Debentures agree to the proposed settlement it would result in the issuance of up to an aggregate of 40,250,000 Debenture Settlement Shares; and
- (b) all Debenture Settlement Shares will be subject to a contractual restriction on transfer whereby the Debenture Settlement Shares will be restricted from trading for a period of 18 months from their date of issue (the "**Hold Period**"), following which they would be released as to 25% per quarter, such that all Debenture Settlement Shares will be freely tradable after 30 months from their issuance.

Private Placement

The Company will conduct a non-brokered private placement of up to 50,000,000 common shares of the Company at the price of \$0.10 per share (the "**Private Placement**") for gross proceeds of C\$5,000,000.

The Company may pay finders' fees in connection with the Private Placement. The net proceeds from the Private Placement will be used to fund general working capital.

Debt Settlement

Finally, the Company has approached certain creditors with an offer to settle outstanding amounts due in exchange for common shares at a deemed price of \$0.10 per share. To date creditors owed approximately \$280,000 have agreed to the proposed debt settlement which would result in the issuance of approximately 2,800,000 common shares.

Restructuring Fees

In consideration of its assistance in negotiating and implementing the above debt restructuring, the Company has agreed to pay Jaluca Limited (“**Jaluca**”) a finder’s fee equal to 6% of the gross proceeds raised from investors in the Private Placement introduced to the Company by Jaluca, and a fee of 6% of the total amount of Debentures that are converted into shares (collectively the “**Fees**”). The Fees will be satisfied by the issuance of common shares in the capital of the Company at a deemed price of \$0.10 per share. Further the Company has entered into a Financial and Capital Markets Advisory agreement with Jaluca for a term of 12 months, under which it has agreed to pay Jaluca an advisory fee of C\$8,500 per month for a one year term. The above fees are subject to the acceptance of the Exchange.

Certain directors and officers of the Company may acquire securities under the Private Placement and shares for debt settlement in respect of the Promissory Notes. Any such participation would be considered to be a “related party transaction” as defined under Multilateral Instrument 61-101 (“**MI 61-101**”). The transaction will be exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 as neither the fair market value of any shares issued to or the consideration paid by such persons will exceed 25% of the Company's market capitalization.

Completion of each of the above transactions will be subject to the prior approval of the Exchange as well as all other requisite corporate, regulatory and security holder approvals, as applicable. Further, all securities issued pursuant to the debt restructuring program described above will be subject to a minimum hold period of four months and one day from their date of issuance. There can be no assurance that the Company will be successful in completing all or any of the above transactions.

Further updates will be provided as discussions progress.
