1. Business of the Company

Minsud Resources Corp. (the "Company") was incorporated under the Ontario Business Corporations Act on October 11, 2007 and is a publicly listed company on the TSX Venture Exchange under the symbol "MSR". The registered office is located at 340 Richmond Street West, Toronto Ontario.

The Company is principally engaged in the process of exploring its mineral resource properties located in Argentina. To date, the Company has not earned significant revenues and is considered to be in the development stage. The realization of amounts shown for resource properties is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to develop these properties and generate future profitable operations or proceeds of disposition from these properties.

These condensed interim consolidated financial statements include the accounts of the Company, its wholly-owned subsidiary, Minsud Argentina Inc. ("MAI"), and MAI's subsidiary Minera Sud Argentina S.A. ("MSA"), and have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS-IASB") as further discussed in Note 2.

MAI acquired 10,309,400 of the 10,852,000 outstanding common shares of MSA at May 10, 2011, representing a 95% ownership interest in MSA. The Company entered into a put and call option agreement with respect to the remaining 542,600 shares of MSA (representing 5% of the total number of issued and outstanding shares of MSA) which includes an irrevocable covenant to not divest or encumber such shares. The put and call option agreement allows the remaining 542,600 shares of MSA to be exchanged for 790,000 common shares of the Company at the option of either party.

As at March 31, 2017, and December 31, 2016, MAI held 91,951,699 of the 92,494,299 outstanding common shares of MSA, representing an ownership interest of 99.41%. As at March 31, 2017, and December 31, 2016, the 542,600 shares of MSA not owned by MAI represented a non-controlling interest of 0.59%.

2. Basis of Presentation and Going Concern

a) Statement of Compliance

The Company's condensed interim consolidated financial statements have been prepared in accordance with IAS 34, "Interim Financial Reporting". These condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2016, which were prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These condensed interim consolidated financial statements have been prepared following the same accounting policies used in the preparation of the Company's audited consolidated financial statements for the year ended December 31, 2016, and were approved by the Company's Board of Directors on May 30, 2017.

2. Basis of Presentation and Going Concern (continued)

b) Basis of Consolidation

These consolidated financial statements include the accounts of the Company, its wholly-owned subsidiary, MAI, and MAI's subsidiary MSA. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if and only if the Company has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)

- Exposure, or rights, to variable returns from its involvement with the investee, and

- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption, and when the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee

- Rights arising from other contractual arrangement

- The Company's voting rights and potential voting rights

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Company gains control until the date the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Company's accounting policies. All intra-Company assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Company are eliminated in full on consolidation.

2. Basis of Presentation and Going Concern (continued)

c) Going Concern

The Company has not yet established whether its mineral properties contain resources or reserves that are economically recoverable. The recovery of amounts capitalized as mineral properties is dependent upon the discovery of economically recoverable resources or reserves, the ability of the Company to arrange appropriate financing to complete the development of properties, and upon future profitable production, or alternatively, upon the Company's ability to dispose of its interests on an advantageous basis, all of which are uncertain.

The Company's ability to continue as a going concern is dependent upon, but not limited to, its ability to raise financing necessary to fund its exploration programs, maintain its mineral properties concession rights and exploration agreements with purchase options, discharge its liabilities as they become due and generate positive cash flows from operations.

These condensed interim consolidated financial statements are prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of the business for the foreseeable future. There are material uncertainties regarding the Company's ability to continue as a going concern. The Company has not generated revenue from operations. During the period ended March 31, 2017, the Company incurred a net loss of $163,208 (2016 - $139,779) and as of that date, the Company's deficit was $5,743,588 (December 31, 2016 - $5,580,612). As at March 31, 2017, the Company has current assets of $601,758 (December 31, 2016 - $994,847) and current liabilities of $405,672 (December 31, 2016 - $485,695). The Company has working capital of $196,086 as at March 31, 2017 (December 31, 2016 - $509,152).

These condensed interim consolidated financial statements do not give effect to adjustments that may be necessary, should the Company be unable to continue as a going concern. If the going concern assumption is not used then the adjustments required to report the Company's assets and liabilities at liquidation values could be material to these financial statements.

The prices of metals and minerals fluctuate widely and are affected by many factors outside of the Company's control. The prices of metals and minerals and future expectation of such prices have a significant impact on the market sentiment for investment in mining and mineral exploration companies. This in turn may impact the Company's ability to raise equity financing for its long term working capital requirements.

3. Significant Accounting Policies

The accounting policies are consistent with those of the Company's audited consolidated financial statements for the year ended December 31, 2016.

(All Amounts in Canadian Dollars Unless Otherwise Noted)

4. Significant Accounting Judgments, Estimates and Assumptions

The preparation of these condensed interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expenses during the reporting period. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. The most significant judgments, estimates and assumptions include those related to the ability of the Company to continue as a going concern, recoverability of amounts capitalized as mineral properties, determinations as to whether exploration costs are expensed or deferred, the fair value of stock based compensation and warrants, the recognition of deferred tax assets, evaluation of contingencies and determination of the Company's functional currency, and the determination of the functional currency of MSA as not being hyperinflationary. Management has determined that judgments, estimates and assumptions reflected in these condensed interim consolidated financial statements are reasonable.

Brechas Vacas Property

Initial Exploration Agreement

On September 7, 2007, the Company, through its subsidiary MSA, entered into an Exploration Agreement including a Purchase Option (the "Brechas Vacas Agreement") with the owners of the mining properties (the "BV Owners") identified as Proyecto Brechas Vacas, located 35 km from Iglesia in the Chita Valley, in the Province of San Juan, Argentina. Included in the Brechas Vacas properties are the Luis, Luis I and Luis IV mining concessions covering 2,580 hectares.

In exchange for the right to evaluate, prospect and explore the properties, the Company paid to the BV Owners a series of staggered payments totaling US$240,000 ($263,568) within four years of the date of the Brechas Vacas Agreement. In addition to the exploration rights, the BV Owners granted to the Company an irrevocable and exclusive option to purchase a 50% ownership interest in these properties pursuant to certain terms and conditions stated in the Brechas Vacas Agreement.

On September 6, 2011, MSA exercised its option to purchase a 50% ownership interest in these properties for consideration of US$210,000 ($207,748). In order to facilitate this, on December 23, 2011, ownership of the properties was transferred by the BV Owners to the Brechas Vacas Trust. MSA simultaneously acquired a 50% beneficial interest in the Brechas Vacas Trust in exchange for the consideration of US$210,000 in accordance with the terms of the option agreement dated September 7, 2007, and an extension agreement dated November 23, 2011.

Brechas Vacas Property (continued)

Option Agreement Related to the Remaining 50 % Interest of the Brechas Vacas Trust

Simultaneously, the remaining 50% beneficial interest in the Brechas Vacas Trust held by the BV Owners was subject to a new exclusive and irrevocable purchase option agreement (the "Option") granted in favour of MSA. The Option provides MSA with an irrevocable and exclusive right to purchase the remaining 50% beneficial interest in the Brechas Vacas Trust in addition to the exclusive right to evaluate, prospect and explore the Brechas Vacas properties.

On December 19, 2013, MSA and the BV Owners signed an addendum (the "First Addendum") to the Option that extended the period of time in which the Company was to pay the semi-annual staggered payments and also extended the expiration of the Option to December 19, 2019.

On June 24, 2016, MSA and the BV Owners signed a further addendum (the "Second Addendum") re-negotiating the the terms and amounts of the Option as follows:

Chita Property

Initial Exploration Agreement

On September 28, 2006, the Company, through MSA, entered into an Exploration Agreement (the "Chita Agreement") including a Purchase Option to purchase a 100% ownership interest in the mining properties pursuant to certain terms and conditions, with the owners of the mining properties identified as Proyecto Chita, located 30 km from Iglesia, in the Chita Valley, in the Province of San Juan, Argentina. Included in Proyecto Chita are the Chita I, II, III, IV, V and VI mining concessions, as well as the Romina, Lucrecia and Mabel mining concessions covering 3,492 hectares.

Purchase Option

On August 3, 2012, the Company exercised its Purchase Option to acquire a 100% interest in the Chita Property in exchange for a series of cash payments totaling US$420,000. The exercise of the Purchase Option, and the conditions under which the Purchase Option was exercised, were accepted by the owners of the Chita property.

On September 12, 2012, the ownership interest in the Chita Property was transferred to the Company by an assignment of mining concession (Cesion de Manifestaciones de descubrimiento) signed under public notary, which is now registered by the Ministry of Mines in San Juan Province.

In consideration for the transfer of ownership of the Chita Property, the Company is required to pay a total of US$420,000, payable as follows: US$30,000 payable in cash within ten days from the date on which the property owners accepted the Company's offer to exercise the purchase option; US$40,000 payable in cash simultaneously with the execution of the public deed evidencing the transfer of the Chita Property to the Company; and US$350,000 payable in ten semi-annual cash payments of US$35,000 each, the first of which shall be payable six months after the date of execution of the above mentioned public deed. As of the date of these financial statements, the Company has made the first eleven payments totaling US$385,000 ($449,089) and is in compliance with their payment commitments. The remaining payment of US$35,000 ($46,561) has been accrued in the current portion of property acquisition payable.

The payments related to the exercise of the Purchase Option will be made as follows (all amounts are in United States Dollars):

2017 (September 12)	$ 35,000

The financing of the purchase of the Chita property is without recourse against the Company. Should the Company fail to meet the payment obligations noted above, the purchase agreement stipulates that the Company will retain an ownership interest in the Chita Property proportional to the amounts paid versus the total payments required pursuant to the purchase agreement. The purchase agreement requires the residual ownership interest that is proportional to the unpaid amounts, to be transferred to the original owners of the Chita Property.

Minas de Pinto Property

Initial Exploration Agreement

On May 7, 2010, the Company, through MSA, entered into an Exploration Agreement including a Purchase Option (the "Minas de Pinto Agreement") with the owners of the mining properties identified under the name of Proyecto Minas de Pinto, located 30 km from Iglesia, in the Chita Valley in the Province of San Juan, Argentina. Included in Proyecto Minas de Pinto are the Arqueros, San Marcos, Estrellita, Paulita, Paulita II, Pierina II, Pierina III, San Pablo, San Urbano and Rosita II mining concessions covering 2,445 hectares.

Pursuant to the Minas de Pinto Agreement, the owners granted to the Company the irrevocable and exclusive right to evaluate, prospect and explore the properties using any method, and at the Company's sole discretion. In addition to the exploration rights, the owners granted to the Company an irrevocable and exclusive option to purchase a 100% ownership interest in these properties pursuant to certain terms and conditions stated in the Minas de Pinto Agreement.

On September 12, 2012, the first addendum to the Minas de Pinto Agreement was signed to re-structure the payment schedule included in the Minas de Pinto Agreement in light of financial market conditions. Pursuant to the first addendum, in exchange for the right to evaluate, prospect and explore the properties, the Company shall pay to the owners a series of staggered payments totaling US$500,000, with the first payment due May 7, 2013, and the final payment due May 7, 2016 (see the following payment schedule). As at the date of signing the first addendum, the Company had paid US$165,000 ($165,646).

Pursuant to the first addendum of the Minas de Pinto Agreement, if the purchase option relating to the mining properties described above were to be exercised, the Company would be required to make a payment of US$1,335,000 at any time during the life of the agreement, but prior to May 7, 2017.

On November 5, 2013, the Company signed a second addendum to the Minas de Pinto Agreement. Pursuant to the second addendum, the payment of US $75,000 due November 7, 2013 was replaced with a payment of US$37,500 due November 7, 2013, and a payment of US$37,500 due November 7, 2015. The restructured payments are within the terms of the Option Agreement.

The Minas de Pinto Trust

During the year ended December 31, 2014, the Minas de Pinto Owners settled the Minas de Pinto Trust and transferred 100% of the mineral properties governed by the Minas de Pinto agreement to the Minas de Pinto Trust. The Company acquired a 50% interest in the Minas de Pinto Trust for total consideration of US$412,500 with the first payment due upon signing and the final payment due May 7, 2018 (see following schedule).

The financing of the acquisition of the first 50% interest in the Minas de Pinto Trust is an obligation without recourse. Accordingly, if the Company cannot satisfy future payments, it will only result in the Company having to return its interest in the Minas de Pinto Trust back to the former owners of the Minas de Pinto properties. After paying 50 % of the required payments related to the acquisition of the first 50% interest in the Minas de Pinto Trust, the return of the interest would be proportional to any unpaid balance.

Subsequent to March 31, 2017, the Company and the Minas de Pinto Owners signed an addendum to extend the period in which the Company can acquire the remaining 50% beneficial interest by exercising the Option to November 7, 2020.

On November 29, 2011 a new form of stock option plan (the "2011 Plan") was approved by the shareholders at the annual and special meeting of shareholders held that day. The 2011 Plan is a rolling stock option plan. Options to purchase up to 10% of the total number of Company Shares issued and outstanding at the date of any grant are issuable pursuant to the 2011 Plan. The 2011 Plan is a rolling plan as the number of options which may be granted pursuant to the 2011 Plan will increase as the number of the Company's shares, which are issued and outstanding, increases. If an option expires or is otherwise terminated for any reason, the number of the Company's shares in respect of that expired or terminated option shall again be available for the purposes of the 2011 Plan. Pursuant to the policies of the Exchange, the shareholders of the Company are required to approve on a yearly basis stock option plans which have a rolling plan ceiling. Options issued under the 2011 Plan are non-assignable and non-transferable and may be granted for a term not exceeding ten years. The 2011 Plan is administered by the Company's board of directors (the "Board of Directors") or a committee established by the Board of Directors for that purpose (the "Committee"). The 2011 Plan may be amended, subject to applicable regulatory and shareholder approval, or terminated by the Board of Directors or the Committee at any time, but such amendment or termination will not alter the terms or conditions of any option awarded prior to the date of such amendment or termination. Any option outstanding when the 2011 Plan is amended or terminated will remain in effect until it is exercised or expires or is otherwise terminated in accordance with the provisions of the 2011 Plan. The 2011 Plan provides that other terms and conditions, including vesting provisions, may be attached to a particular stock option at the discretion of the Board of Directors or the Committee, provided that, if required by any stock exchange on which the shares of the Company trades, options issued to consultants which provide investor relations activities must vest in stages over not less than 12 months with no more than one-quarter of the options vesting in any three-month period. All option grants are to be evidenced by the execution of an option agreement between the Company and the optionee which shall give effect to the provisions of the 2011 Plan. Options may be granted under the 2011 Plan only to directors, officers, employees and other service providers of the Company subject to the rules and regulations of applicable regulatory authorities and any Canadian stock exchange upon which the Company's shares may be listed or may trade from time to time.
