About VR Game Changerz :: <https://www.facebook.com/gamechangerzvr/>

A few years ago, we tried out one of those \$20 VR goggles and although the concept was cool, the graphics were terrible and the experiences were lacking. Fast forward to last year, we tried an HTC Vive VR headset which changed the way we thought about virtual reality and it became a “game changer” in the world of video games.

We wanted the world to know about the magic of VR and began researching what was out there. We discovered VR arcades were popping up all over the world and the idea of opening one in Prince George was born.

We want to bring a first-class experience to our community with state of the art equipment in a safe, family-friendly environment, offering parties, team building, single and multi-player game play with all that VR has to offer. We’ll be adding a bit

of nostalgia to our Centre called the Retro Room, offering old school pinball and 80's arcade style games.

September 1, 2019 is our opening day goal and we have a lot to achieve before that happens. In the coming weeks, we'll be posting a ton of info so stay tuned and "follow us" through our awesome adventure!
