

Treasury Metals Increases Financing

TSX:TML

TORONTO, Dec. 9, 2016 /CNW/ - Treasury Metals ("Treasury Metals" or the "Company") (TSX: TML) is pleased to announce that due to strong investor demand, the Company has increased its previously announced non-brokered private placement of flow-through common shares from \$2 million in aggregate gross proceeds to \$2.5 million in aggregate gross proceeds (the "Offering"). All other terms and conditions of the Offering remain unchanged from the Company's initial announcement on December 7, 2016.

The \$2.5 million gross proceeds of the Offering will be used for the advancement of the Company's Goliath Gold Project and to expand the successful exploration program including conversion of further underground resources to Indicated category for use in future feasibility level mine design. Additionally, proceeds from the Offering will also allow the Company to advance into the second phase of its current exploration program. The Phase II drilling program will focus on high-priority exploration targets directly to the northeast of the current resource area.

The Offering is expected to close on or about December 21, 2016. Closing of the Offering is subject to receipt of regulatory approvals, including the acceptance of the Offering by the Toronto Stock Exchange. The flow-through common shares issued pursuant to the Offering will be subject to a four-month hold period under applicable securities laws in Canada.

The Company may pay a finder's fee of 6% cash commission to certain parties with respect to services provided in connection with the Offering.

This news release does not constitute an offer to sell or a solicitation of an offer to buy the securities described herein in the United States. The securities described herein have not been and will not be registered under the United States Securities Act of 1933, as amended, and may not be offered or sold in the United States or to the account or benefit of a U.S. person absent an exemption from the registration requirements of such Act.

About Treasury Metals Inc.:

Treasury Metals Inc. is a gold focused exploration and development company with assets in Canada and is listed on the Toronto Stock Exchange ("TSX") under the symbol "TML". Treasury Metals Inc.'s 100% owned Goliath Gold Project in northwestern Ontario is slated to become one of Canada's next producing gold mines. With first-rate infrastructure currently in place and gold mineralization extending to surface, Treasury Metals plans on the initial development of an open pit gold mine to feed a 2,500 per day processing plant with subsequent underground operations in the latter years of the mine life. Treasury Metals is currently in the mine permit process and working towards completion of a feasibility study on the Goliath Gold Project.
