

Tinkerine Studios Manufacturing Facility receives Health Canada Medical Device Establishment License

April 6, 2020 - Tinkerine™ Studios Ltd. (TSXV: TTD) ("Tinkerine" or the "Company") announces that Health Canada has approved the Company's manufacturing facility to manufacture Class 1 medical products that includes the Tinkerine face shield medical device. The receipt of the Medical Device Establishment License allows for the use of Tinkerine Class 1 medical devices in additional locations including hospitals and other medical centers.

Eugene Suyu, Chief Executive Officer states; "We are extremely pleased that our manufacturing facility has received Health Canada licensing and look forward to increasing our production as we add members to our Education Production Consortium and the Manufacturing Production Consortium with companies in Greater Vancouver municipalities. Tinkerine's ability to use Applied Design to solve real world problems in real time is just the start of our Production of Things 2.0 initiative. Our success in delivering solutions owes a great amount of thanks and gratitude to members of the health care community and education professionals."

Tinkerine continues to evaluate additional medical products and devices using our Applied Design expertise. Education and health care members are encouraged to visit our website for additional information on products and for joining our initiatives.
