The Corporation: Napier Ventures Inc.

Business of the Corporation: The Corporation is a CPC. The principal business of the Corporation will be the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Corporation has not commenced commercial operations and has no assets other than a minimum amount of cash. The Corporation has commenced the process of identifying potential acquisitions. To date, the Corporation has not yet identified a company or assets for a potential Qualifying Transaction. Furthermore, the Corporation has not entered into an Agreement in Principle. See “Business of the Corporation - Proposed Operations until Completion of a Qualifying Transaction”.

Offering: A total of 5,000,000 Common Shares are being offered and qualified under this prospectus at a price of \$0.10 per Common Share. In addition, the Corporation will grant to the Agent the Agent’s Warrant to purchase up to 500,000 Common Shares at a price of \$0.10 per Common Share and which may be exercised for a period of 24 months from the day the Common Shares are listed on the Exchange. The Agent’s Warrant is qualified for distribution under this prospectus. This prospectus also qualifies for distribution the Directors’ and Officers’ Options to be granted at the Closing which entitle the holders thereof to purchase an aggregate of 1,499,994 Common Shares at a price of \$0.10 per Common Share and which options may be exercised for a period of 5 years from the date of such grant. See “Plan of Distribution” and “Options to Purchase Securities”.

Use of Proceeds: The total net proceeds to the Corporation, accounting for total cash proceeds raised prior to this Offering and total proceeds of this Offering, net of all Offering expenses, will be approximately \$874,998. The Corporation estimates incurring general and administrative costs until the Completion of the Qualifying Transaction of approximately \$48,000 which will reduce the total net funds available for pursuing a Qualifying Transaction to \$826,998 under the Offering. The net funds available will be used to provide the Corporation with a minimum of funds with which to identify and evaluate assets or businesses, for acquisition with a view to completing a Qualifying Transaction. The Corporation may not have sufficient funds to secure such businesses or assets once identified and evaluated and additional funds may be required. Until Completion of the Qualifying Transaction and except as otherwise provided in the CPC Policy, a maximum of the lesser of 30% of the gross proceeds realized or \$210,000 may be used for purposes other than evaluating businesses or assets. See “Use of Proceeds”, “Business of the Corporation” and “Risk Factors”.

Directors and Management:

Michael Raftery	-	President, Chief Executive Officer, Chief Financial Officer and Director
Donald Scoretz	-	Director
Tunaye Sai	-	Director

Michael Raftery is the Promoter of the Corporation. See “Directors, Officers and Promoter” and “Promoter”.

Escrow Securities:

9,999,960 Common Shares of the Corporation issued at \$0.05 per share, will be deposited in escrow pursuant to the terms of the Escrow Agreement and will be released from escrow in stages over a period of up to three years after the date of the Final Exchange Bulletin. See “Escrowed Securities”.

Risk Factors:

Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation’s business and its present stage of development. The Corporation was only recently incorporated and has no active business or assets other than cash. The Corporation does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction. The Offering is only suitable to investors who are prepared to rely entirely on the directors and management of the Corporation and can afford to risk the loss of their entire investment. The directors and officers of the Corporation will only devote part of their time and attention to the affairs of the Corporation and there are potential conflicts of interest to which some of the directors and officers of the Corporation will be subject in connection with the operations of the Corporation. Assuming completion of the Offering, an investor will suffer an immediate dilution on investment (based on the gross proceeds from this and prior issuances without deduction of selling and related expenses) per Common Share of \$0.033 or 33%. There can be no assurance that an active and liquid market for the Corporation’s Common Shares will develop and an investor may find it difficult to resell the Common Shares. Until Completion of the Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Corporation has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Corporation will be able to identify or complete a suitable Qualifying Transaction.

The Qualifying Transaction may involve the acquisition of a business or assets located outside of Canada. It may therefore be difficult or impossible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and it may not be possible to enforce against such persons or companies judgments obtained in Canadian courts predicated upon the civil liability provisions applicable to securities laws in Canada. See “Business of the Corporation”, “Directors, Officers and Promoters - Conflicts of Interest”, “Capitalization”, “Dilution” and “Risk Factors”.

THE CORPORATION

The Corporation was incorporated on March 6, 2007, by Certificate of Incorporation issued pursuant to the provisions of the *Business Corporations Act* (British Columbia) under the name “Napier Ventures Inc.”

The registered and records office of the Corporation is located at 1000 – 840 Howe Street, Vancouver, British Columbia, V6Z 2M1. The head office of the Corporation is located at 2001 – 837 West Hastings Street, Vancouver, British Columbia, V6C 3N7.

BUSINESS OF THE CORPORATION

Preliminary Expenses

As at December 31, 2008, the Corporation had accrued liabilities and accounts payable for auditing and legal fees in the amount of \$419 and had deferred financing costs of \$26,051. As at March 31, 2008, the Corporation had accrued liabilities and accounts payable for auditing and legal fees in the amount of \$5,798 and had deferred financing costs of \$15,268. Certain of the Offering proceeds will be utilized to satisfy the obligations of the Corporation related to the Offering, including the expenses of its auditor and legal fees, the fees of the Exchange, the Agent’s commission, corporate finance fee and expenses and the fees of the securities regulatory authorities. See “Use of Proceeds”.

Proposed Operations until Completion of a Qualifying Transaction

The Corporation proposes to identify and evaluate businesses and assets with a view to completing a Qualifying Transaction. Any proposed Qualifying Transaction must be accepted by the Exchange and in the case of a Non Arm’s Length Qualifying Transaction is also subject to Majority of the Minority Approval in accordance with the CPC Policy. The Corporation has not conducted commercial operations other than to enter into discussions for the purpose of identifying potential acquisitions or interests. The Corporation currently intends to primarily pursue a Qualifying Transaction in the natural resources, industrial or technology sector but there is no assurance that these will, in fact, be the business sector of a proposed Qualifying Transaction or of the Corporation following the Completion of the Qualifying Transaction.

Until Completion of a Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of businesses or assets with a view to completing a potential Qualifying Transaction. With the consent of the Exchange, this may include the raising of additional funds in order to finance an acquisition. Except as described under “Use of Proceeds - Private Placements for Cash” and “Use of Proceeds - Restrictions on Use of Proceeds”, the funds raised pursuant to this Offering and any subsequent financing will be utilized only for the identification and evaluation of potential Qualifying Transactions and not for any deposit, loan or direct investment in a potential acquisition.

Although the Corporation has commenced the process of identifying potential acquisitions with a view to completing the Qualifying Transaction, the Corporation has not yet entered into an Agreement in Principle.

Method of Financing

The Corporation may use cash, bank financing, the issuance of treasury shares, public debt or equity financing or a combination of these for the purpose of financing its proposed Qualifying Transaction. **A Qualifying Transaction financed by the issue of treasury shares could result in a change in the**

control of the Corporation and may cause the shareholders' interest in the Corporation to be further diluted.

Criteria for a Qualifying Transaction

The Corporation will consider acquisitions of assets or businesses operated or located both inside and outside of Canada, as permitted by the CPC Policy. All potential acquisitions will be screened initially by management of the Corporation to determine their economic viability. Approval of acquisitions will be made by the board of directors. The board of directors will examine proposed acquisitions having regard to sound business fundamentals and utilizing their expertise and experience. The board of directors of the Corporation must approve any proposed Qualifying Transaction. In exercising their powers and discharging their duties in relation to a proposed Qualifying Transaction, the directors will act honestly and in good faith having regard to the best interests of the Corporation and will exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

Filings and Shareholder Approval of the Qualifying Transaction

Upon the Corporation reaching an Agreement in Principle, the Corporation must issue a comprehensive news release, at which time the Exchange generally will halt trading in the Corporation's Common Shares until the filing requirements of the Exchange have been satisfied as set forth under "Business of the Corporation - Trading Halts, Suspensions and Delisting". Within 75 days after issuance of such news release, the Corporation is required to submit for review to the Exchange either an information circular that complies with applicable corporate and securities laws or a filing statement that complies with Exchange requirements. An information circular must be submitted where there is a Non Arm's Length Qualifying Transaction. A filing statement must be submitted where the Qualifying Transaction is not a Non Arm's Length Qualifying Transaction. The information circular or filing statement, as applicable, must contain prospectus level disclosure of the Target Company and the Corporation, assuming Completion of the Qualifying Transaction, and be prepared in accordance with the CPC Policy and Form 3B1 or Form 3B2, as the case may be, of the Exchange. Upon acceptance by the Exchange, the Corporation must then either:

- (a) file the filing statement on SEDAR at least seven business days prior to closing of the Qualifying Transaction, and issue a news release which discloses the scheduled closing date for the Qualifying Transaction as well as the fact that the filing statement is available on SEDAR; or
- (b) mail the information circular and related proxy material to its shareholders in order to obtain the Majority of the Minority Approval of the Qualifying Transaction or other requisite approval, at a meeting of shareholders.

Unless waived by the Exchange, the Corporation will also be required to retain a Sponsor, who must be a Member of the Exchange, and who will be required to submit to the Exchange a Sponsor Report prepared in accordance with the policies of the Exchange. The Corporation will no longer be considered to be a CPC upon the Exchange having issued the Final Exchange Bulletin. The Exchange will generally not issue the Final Exchange Bulletin until the Exchange has received:

- (a) in the case of a Non Arm's Length Qualifying Transaction, confirmation of Majority of Minority Approval of the Qualifying Transaction;
- (b) confirmation of closing of the Qualifying Transaction; and

- (c) all post-meeting or final documentation, as applicable, otherwise required to be filed with the Exchange pursuant to the CPC Policy.

Upon issuance of the Final Exchange Bulletin, the CPC Policy will generally cease to apply, with the exception of the escrow provisions of the CPC Policy and the restrictions in the CPC Policy precluding the Corporation from completing a reverse takeover for a period of one year from the Completion of the Qualifying Transaction.

Minimum Listing Requirements

The Resulting Issuer must satisfy the Exchange's Minimum Listing Requirements for the particular industry sector in either Tier 1 or Tier 2 as prescribed under the applicable policies of the Exchange.

Trading Halts, Suspensions and Delisting

The Exchange will generally halt trading in the Common Shares from the date of the public announcement of an Agreement in Principle until all filing requirements of the Exchange have been satisfied, which includes the submission of a Sponsorship Acknowledgment Form, where the Qualifying Transaction is subject to sponsorship. In addition, personal information forms or, if applicable, declarations, for all individuals who may be directors, senior officers, Promoters, or Insiders of the Resulting Issuer must be filed with the Exchange and any preliminary background searches that the Exchange considers necessary or advisable, must also be completed, before the trading halt will be lifted by the Exchange.

Even if all filing requirements have been satisfied and preliminary background checks completed, the Exchange may continue or reinstate a halt in trading of the Common Shares for public policy reasons including:

- (a) the unacceptable nature of the business of the Resulting Issuer; or
- (b) the number of conditions precedent to, or the nature and number of deficiencies required to be resolved prior to, completion of the Qualifying Transaction, are so significant or numerous as to make it appear to the Exchange that the halt should be reinstated or continued.

A trading halt may also be imposed by the Exchange where the Corporation fails to file the supporting documents relating to the Qualifying Transaction within a period of 75 days after public announcement of the Agreement in Principle or if the Corporation fails to file post-meeting or final documents, as applicable, within the time required. A trading halt may also be imposed if a Sponsor terminates its sponsorship.

The Exchange may suspend from trading or delist the Common Shares of the Corporation where the Exchange has not issued a Final Exchange Bulletin to the Corporation within 24 months of the date of listing. In the event that the Common Shares of the Corporation are delisted by the Exchange, within 90 days from the date of such delisting, the Corporation shall wind up and shall make a pro rata distribution of its remaining assets to its shareholders, unless shareholders, pursuant to a majority vote exclusive of the votes of Non Arm's Length Parties to the Corporation, determine to deal with the Issuer or its remaining assets in some other manner. See "Business of the Corporation - Shareholder Approval of the Qualifying Transaction".

If the Corporation has not completed a Qualifying Transaction within the time frame prescribed by the CPC Policy, it may apply for listing on NEX (the market on which former Exchange and Toronto Stock Exchange Issuers that do not meet the minimum listing requirements for Tier 2 issuers may continue to trade) rather than be delisted. In order to be eligible to list on NEX the Corporation must:

- (a) obtain majority shareholder approval for the transfer to NEX exclusive of the votes of Non Arm's Length Parties of the Corporation; and
- (b) either:
 - (i) cancel all Seed Shares purchased by Non Arm's Length Parties to the Corporation at a discount to the IPO price, in accordance with section 11.2(a) of the CPC Policy, as if the Corporation had delisted from the Exchange, or
 - (ii) subject to majority shareholder approval, cancel an amount of the Seed Shares purchased by Non Arm's Length Parties to the Corporation so that the average cost of the remaining Seed Shares is at least equal to the IPO price.

If the Corporation lists on the NEX, the Corporation must continue to comply with all the requirements and restrictions of the CPC Policy.

Refusal of Qualifying Transaction

The Exchange, in its sole discretion, may not accept a Qualifying Transaction where:

- (a) the Resulting Issuer fails to satisfy the applicable Minimum Listing Requirements of the Exchange;
- (b) the aggregate number of securities of the Resulting Issuer owned, directly or indirectly, by:
 - (i) a Member firm of the Exchange;
 - (ii) registrants, unregistered corporate finance professionals, employee shareholders and partners of such Member firm; and
 - (iii) Associates of any such person,collectively, would exceed 20% of the issued and outstanding securities of the Resulting Issuer;
- (c) the Resulting Issuer will be a financial institution, finance company, finance issuer or mutual fund, as defined in the securities legislation;
- (d) the majority of the directors and senior officers of the Resulting Issuer are not residents of Canada or the United States or are individuals who have not demonstrated positive association as directors or officers with public companies that are subject to a regulatory regime comparable to the companies listed on a Canadian exchange; or
- (e) notwithstanding the definition of a Qualifying Transaction, there is any other reason for denying acceptance of the Qualifying Transaction.

The proceeds from this Offering and any prior sale of Common Shares, after deducting the expenses associated with this Offering, will only be sufficient to identify and evaluate a finite number of assets and businesses, and additional funds may be required to finance any acquisition to which the Corporation may commit.

Permitted Use of Funds

Until the Completion of the Qualifying Transaction and except as otherwise specifically provided by the CPC Policy and described in “Use of Proceeds - Restrictions on Use of Proceeds”, “Use of Proceeds - Private Placements for Cash” and “Use of Proceeds - Prohibited Payments to Non -Arm's Length Parties”, the gross proceeds realized from the sale of all securities issued by the Corporation will be used by the Corporation only to identify and evaluate businesses or assets and obtain shareholder approval for a proposed Qualifying Transaction.

The proceeds may be used for expenses incurred for the preparation of:

A maximum aggregate amount of \$25,000 may also be advanced as a non-refundable deposit, unsecured deposit or advance to a Vendor or Target Company, as the case may be, to preserve assets without the prior acceptance of the Exchange.

Restrictions on Use of Proceeds

Until Completion of a Qualifying Transaction, not more than the lesser of 30% of the gross proceeds from the sale of all securities issued by the Corporation or \$210,000, will be used for purposes other than those described above. For greater certainty, expenditures which are not included as “Permitted Use of Funds”, listed above, include:

No proceeds will be used to acquire or lease a vehicle.

Private Placements for Cash

After the closing of the Offering and until the Completion of the Qualifying Transaction, the Corporation will not issue any securities unless written acceptance of the Exchange is obtained before issuance. Prior to the Completion of the Qualifying Transaction, the Exchange generally will not accept a private placement by the Corporation where the gross proceeds raised from the issuance of securities both prior to and pursuant to the Offering, together with any proceeds anticipated to be raised upon closing of the private placement, will exceed \$2,000,000. The only securities issuable pursuant to such a private placement will be Common Shares. Subject to certain limited exceptions, any Common Shares issued pursuant to the private placement to Non Arm’s Length Parties to the Corporation and to Principals of the Resulting Issuer will be subject to escrow.

Prohibited Payments to Non Arm’s Length Parties

Except as described under “Options to Purchase Securities” and “Use of Proceeds - Restrictions on Use of Proceeds”, the Corporation has not made, and until the Completion of the Qualifying Transaction will not make, any payment of any kind, directly or indirectly, to a Non Arm’s Length Party to the Corporation or a Non Arm’s Length Party to the Qualifying Transaction, or to a Person engaged in investor relations activities, by any means, including:

- (a) remuneration, which includes but is not limited to salaries, consulting fees, management contract fees or directors’ fees, finders’ fees, loans, advances and bonuses; and
- (b) deposits and similar payments.

Further, no such payment will be made on or after the Completion of a Qualifying Transaction if such payment relates to services rendered or obligations incurred prior to or in connection with the Qualifying Transaction.

Notwithstanding the above, the Corporation may reimburse a Non Arm’s Length Party to the Corporation for reasonable expenses for office supplies, office rent and related utilities, equipment leases (excluding vehicle leases), and legal services (provided that neither the lawyer providing the legal services nor any member of the law firm providing the services is a Promoter of the Corporation or in the case of a law firm, no member of the firm owns greater than 10% of the outstanding Common Shares of the Corporation), and the Corporation may also reimburse a Non Arm’s Length Party to the Corporation for reasonable out-of-pocket expenses incurred in pursuing the business of the Corporation described in “Use of Proceeds - Permitted Use of Funds”.

The foregoing restrictions on the use of proceeds and prohibitions on payments to Non Arm's Length Parties and Persons engaged in investor relations activities continue to apply until the Completion of the Qualifying Transaction.

PLAN OF DISTRIBUTION

Agency Agreement and Agent's Compensation

Pursuant to the Agency Agreement, the Corporation has appointed the Agent as its lead agent to offer for sale on a "commercially reasonable efforts" basis to the public 5,000,000 Common Shares, at a price of \$0.10 per Common Share for aggregate gross proceeds of \$500,000, subject to the terms and conditions in the Agency Agreement. The Agent will receive in aggregate a commission of 10% of the aggregate gross proceeds from the sale of the Common Shares. In addition, the Corporation will pay the Agent a corporate finance fee of \$15,000 plus GST, of which \$15,750 has been paid to the Agent as a non-refundable sum and will pay the Agent's legal fees, estimated at \$10,000 plus disbursements and taxes, of which \$5,000 has been paid as a deposit to be applied against such expenses, and any other reasonable expenses of the Agent.

The Corporation has also agreed to grant to the Agent, and any sub-agents, the non-transferable Agent's Warrant which entitles the Agent and any sub-agents to purchase up to 500,000 Common Shares at a price of \$0.10 per Common Share and which may be exercised for a period of 24 months from the day the Common Shares of the Corporation are listed on the Exchange. The Agent's Warrant is qualified under this prospectus for distribution. The Agent intends to sell to the public any Common Shares received by it upon the exercise of the Agent's Warrant. Not more than 50% of the Common Shares received on the exercise of the Agent's Warrant may be sold by the Agent prior to the Completion of the Qualifying Transaction. The remaining 50% may be sold after the Completion of the Qualifying Transaction.

The Agent has agreed to use its "commercially reasonable efforts" to secure subscriptions for the Common Shares offered hereunder on behalf of the Corporation and may make co-brokerage arrangements with other investment dealers at no additional cost to the Corporation. The obligations of the Agent under the Agency Agreement may be terminated at its discretion on the basis of its assessment of the state of financial markets and may also be terminated on the occurrence of certain events as stated in the Agency Agreement.

Commercially Reasonable Efforts Offering and Minimum Distribution

The total Offering is for 5,000,000 Common Shares at a price of \$0.10 per share for total gross proceeds of \$500,000. Under the CPC Policy, no purchaser of Common Shares is permitted to directly or indirectly purchase more than 2% of the total Common Shares in the Offering, or 100,000 Common Shares (\$10,000). In addition, the maximum number of Common Shares that may directly or indirectly be purchased by that purchaser, together with any Associates or Affiliates of that purchaser, is 4% of the total number of Common Shares in the Offering, or 200,000 Common Shares (\$20,000). The funds received from the Offering will be deposited with the Agent, and will not be released until proceeds of \$500,000 have been deposited. If the minimum subscription is not completed within 90 days of the issuance of a receipt for the final prospectus or, if an amendment to the final prospectus has been filed and the principal regulator has issued a receipt for the amendment, within 90 days of the issuance of a receipt for the amendment, all subscription monies will be returned to subscribers without interest or deduction, unless the subscribers have otherwise instructed the Agent. In the event that a receipt for an amendment is issued, the total period of the distribution must not end more than 180 days from the date of the receipt for the final prospectus.

Other Securities Being Distributed

The Corporation also proposes to grant the Directors' and Officers' Options at the Closing of the Offering in accordance with the policies of the Exchange, which options are qualified for distribution pursuant to this prospectus. The Directors' and Officers' Options entitle the holders thereof to purchase an aggregate of 1,499,994 Common Shares at a price of \$0.10 per Common Share and such options may be exercised for a period of 5 years from the date of such grant. See "Plan of Distribution" and "Options to Purchase Securities".

The offering price of the Common Shares hereunder was determined by negotiation between the Corporation and the Agent.

The Exchange has conditionally accepted the listing of the Corporation's Common Shares. Listing will be subject to the Corporation fulfilling all the listing requirements of the Exchange.

As at the date of this prospectus, Napier Ventures Inc. does not have any of its securities listed or quoted, has not applied to list or quote any of its securities, and does not intend to apply to list or quote any of its securities, on the Toronto Stock Exchange, a U.S. marketplace, or a marketplace outside Canada and the United States of America other than the Alternative Investment Market of the London Stock Exchange or the Plus Markets operated by the Plus Markets Group PLC. Any Common Shares issued to any member of the Aggregate Pro Group prior to the date of this prospectus will be held in escrow pursuant to the CPC Policy.

Until Completion of the Qualifying Transaction, the aggregate number of Common Shares permitted to be owned directly or indirectly by the members of the Pro Group is 20% of the issued and outstanding Common Shares of the Corporation exclusive of Common Shares reserved for issuance at a future date. The Exchange will require that any securities issued to the Pro Group in connection with or in contemplation of the Qualifying Transaction will be required to be subject to a four month Exchange hold period and the securities certificate(s) legended accordingly, as prescribed by Exchange Policy 3.2 "Filing Requirements and Continuous Disclosure".

The Agent has advised the Corporation that to the best of its knowledge and belief, no directors, officers, employees or contractors of the Agent or any Associate or Affiliate of the foregoing have subscribed for any Common Shares of the Corporation.

Restrictions on Trading

ESCROWED SECURITIES

An aggregate of 9,999,960 Common Shares issued prior to this Offering (which were issued at a price of \$0.05 per Common Share) and all Common Shares that may be acquired from treasury of the Corporation by Non Arm's Length Parties of the Corporation either under the Offering or otherwise prior to Completion of the Qualifying Transaction and all Common Shares acquired by members of the Aggregate

Pro Group prior to this Offering will be deposited with Computershare Investor Services Inc. (previously defined as the “Trustee”) under the Escrow Agreement.

All Common Shares acquired on exercise of stock options prior to the Completion of a Qualifying Transaction, must also be deposited in escrow and will be subject to escrow until the Final Exchange Bulletin is issued.

In addition, all Common Shares of the Corporation acquired in the secondary market prior to the Completion of a Qualifying Transaction by any Person or Company who becomes a Control Person are required to be deposited in escrow. Subject to certain exemptions permitted by the Exchange, all securities of the Corporation held by Principals of the Resulting Issuer will also be escrowed.

Notwithstanding the foregoing, Common Shares acquired by Principals of the Corporation or Principals of the Resulting Issuer pursuant to a private placement will not be subject to escrow provided that various conditions, as set forth in the CPC Policy, are met. See “Escrowed Securities - Escrowed Securities on Private Placement”.

The following table sets out, as at the date hereof, the number of Common Shares which are held in escrow.

Name and Municipality of Residence of Shareholder	Number of Escrowed Common Shares	Percentage of Common Shares of the Corporation Prior to Giving Effect to the Offering	Percentage of Common Shares of the Corporation After Giving Effect to the Offering ⁽¹⁾
Michael Raftery	3,333,320	33.33%	22.22%
Donald Scoretz	3,333,320	33.33%	22.22%
Tunaye Sai	3,333,320	33.33%	22.22%
Total	9,999,960	100%	66.67%

Notes:

(1) Assuming no Common Shares are purchased by these persons under the Offering.

Where the Common Shares of the Corporation which are required to be held in escrow are held by a non-individual (a “**holding company**”), each holding company pursuant to the Escrow Agreement, has agreed, or will agree, not to carry out any transactions during the currency of the Escrow Agreement which would result in a change of control of the holding company, without the consent of the Exchange. Any holding company must sign an undertaking to the Exchange that, to the extent reasonably possible, it will not permit or authorize any issuance of securities or transfer of securities that could reasonably result in a change of control of the holding company. In addition, the Exchange may require an undertaking from any control person of the holding company not to transfer the shares of that company.

Under the Escrow Agreement, 10% of the escrowed Common Shares will be released from escrow on the issuance of the Final Exchange Bulletin (the “**Initial Release**”) and an additional 15% will be released on the dates 6 months, 12 months, 18 months, 24 months, 30 months and 36 months following the Initial Release.

If the Resulting Issuer meets the Exchange’s Tier 1 Minimum Listing Requirements either at the time the Final Exchange Bulletin is issued or subsequently, the release of the escrowed Common Shares will be accelerated. An accelerated escrow release will not commence until the Resulting Issuer has made

application to the Exchange for listing as a Tier 1 Issuer and the Exchange has issued a bulletin that announces the acceptance for listing of the Resulting Issuer on Tier 1 of the Exchange.

The Exchange's prior consent must be obtained before a transfer within escrow of escrowed Common Shares. Generally, the Exchange will only permit a transfer within escrow to be made to incoming Principals in connection with a proposed Qualifying Transaction.

If a Final Exchange Bulletin is not issued, the escrowed Common Shares will not be released. Under the Escrow Agreement, each Non Arm's Length Party to the Corporation who holds escrowed Common Shares acquired at a price below the Offering price under this prospectus has irrevocably authorized and directed the Trustee to immediately:

- (a) cancel all of those escrowed Common Shares upon the issuance by the Exchange of a bulletin delisting the Common Shares of the Corporation; or
- (b) if the Corporation lists on NEX, either:
 - (i) cancel all Seed Shares purchased by Non Arm's Length Parties to the Corporation at a discount from the IPO price, in accordance with section 11.2(a) of the CPC Policy, or
 - (ii) subject to majority shareholder approval, cancel an amount of the Seed Shares purchased by Non Arm's Length Parties to the Corporation so that the average cost of the remaining Seed Shares is at least equal to the IPO price.

Escrowed Securities on Qualifying Transaction

Generally, if at least 75% of the securities issued pursuant to the Qualifying Transaction are "Value Securities", then all the securities issued to Principals of the Resulting Issuer pursuant to the Qualifying Transaction will be deposited into escrow pursuant to a value security agreement (the "**Value Security Escrow Agreement**"). "Value Securities" are securities issued pursuant to a transaction for which the deemed value of the securities at least equals the value ascribed to the asset, using a valuation method acceptable to the Exchange, or securities that are otherwise determined by the Exchange to be Value Securities and required to be placed in escrow under a Value Security Escrow Agreement. However, if at least 75% of the securities issued pursuant to the Qualifying Transaction are not Value Securities, all securities issued pursuant to the Qualifying Transaction will be deposited into a surplus security escrow agreement (a "**Surplus Security Escrow Agreement**").

The principal distinction between a Value Security Escrow Agreement and a Surplus Security Escrow Agreement is the time period for release of securities from escrow. In the case of a Resulting Issuer that will be a Tier 2 issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for a three year escrow release mechanism with 10% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 15% of the escrowed securities, being releasable every 6 months thereafter until the date which is 36 months after the Final Exchange Bulletin. In the case of a Resulting Issuer that will be a Tier 2 issuer subject to a Surplus Security Escrow Agreement, when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a 3 year escrow release mechanism with 5% of the escrowed securities releasable at the time of the Final Exchange bulletin, 5% on the date which is 6 months after the Final Exchange Bulletin, 10% on each of the dates which are 12 and 18 months after the Final Exchange Bulletin, 15% on each of the dates which are 24 and 30 months after the Final Exchange Bulletin and 40% on the date which is 36 months after the Final Exchange Bulletin.

In the case of a Resulting Issuer that will be a Tier 1 issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for an 18 month escrow release mechanism with 25% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 25% of the escrowed securities being releasable every 6 months thereafter. Corporate Cease Trade Orders or Bankruptcies

Other than as described below, no director, officer, Insider or Promoter or a shareholder holding a sufficient number of securities to affect materially the control of the Corporation is, or within ten years before the date of the prospectus, has been, a director, officer, Insider or Promoter of any other issuer that, while that person was acting in that capacity, was the subject of a cease trade or similar order, or an order that denied such issuer access to any statutory exemptions for a period of more than 30 consecutive days or became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets.

Mr. Raftery was a director of Fourseas Asialink Corporation at the time of the issuance of cease trade orders by the Alberta Securities Commission on October 1, 1998 and by the British Columbia Securities Commission on October 15, 1998 for failure to file required financial statements. Mr. Raftery resigned as a director in April 1999. These cease trade orders remain in effect as at the date of this prospectus.

Penalties or Sanctions

No director, officer, Insider or Promoter of the Corporation, or a shareholder of the Corporation holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation, has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority or has been subject to any other penalties or sanctions imposed by a court or regulatory body or self-regulatory authority that would likely be considered important to a reasonable investor in making an investment decision.

Personal Bankruptcies

No director, officer, Insider or Promoter of the Corporation, or a shareholder of the Corporation holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation, or a personal holding company of any such persons has, within the 10 years before the date of this prospectus, as applicable, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or has been subject to or has instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold such person's assets.

Conflicts of Interest

There are potential conflicts of interest to which the directors, officers, Insiders and Promoters of the Corporation may be subject in connection with the operations of the Corporation. All of the directors, officers, Insiders and Promoters are engaged in and will continue to be engaged in corporations or businesses which may be in competition with the search by the Corporation for businesses or assets in order to close a Qualifying Transaction. Accordingly, situations may arise where the directors, officers, Insiders and Promoters will be in direct competition with the Corporation. Conflicts, if any, will be subject to the procedures and remedies as provided under the *Business Corporations Act* (British Columbia).

Executive Compensation

Except as set out below or otherwise disclosed in this prospectus, prior to Completion of a Qualifying Transaction, no payment of any kind has been made, or will be made, directly or indirectly, by the Corporation to a Non Arm's Length Party to the Corporation or a Non Arm's Length Party to the Qualifying Transaction, or to any person engaged in investor relations activities in respect of the securities of the Corporation or any Resulting Issuer by any means, including:

- (a) remuneration, which includes but is not limited to:
 - (i) salaries;
 - (ii) consulting fees;
 - (iii) management contract fees or directors' fees;
 - (iv) finder's fees;
 - (v) loans, advances, bonuses; and
- (b) deposits and similar payments.

Although the Corporation may reimburse Non Arm's Length Parties for the Corporation's reasonable allocation of rent, secretarial services and other general administrative expenses, at fair market value ("**Permitted Reimbursement**"), there have been no such reimbursements since incorporation. No reimbursement may be made for any payment made to lease or buy a vehicle.

The directors and officers of the Corporation will also be granted the Directors' and Officers' Options. See "Plan of Distribution" and "Options to Purchase Securities".

Following Completion of the Qualifying Transaction, it is anticipated that the Corporation shall pay compensation to its officers. In addition, the directors may be compensated and may be granted incentive stock options, subject to such number of maximum options that can be granted to such directors as set by the policies of the Exchange. However, no payment other than the Permitted Reimbursements, will be made by the Corporation or by any party on behalf of the Corporation, after Completion of the Qualifying Transaction, if the payment relates to services rendered or obligations incurred or in connection with the Qualifying Transaction.

DILUTION

Purchasers of Common Shares under this prospectus will suffer an immediate dilution of \$0.033 per Common Share or 33% on the basis of there being 14,999,960 Common Shares of the Corporation issued and outstanding following completion of this Offering. Dilution has been computed on the basis of total gross proceeds to be raised by this prospectus and from sales of securities prior to the filing of this prospectus, without deduction of commissions or related expenses incurred by the Corporation, as set forth below:

Item	Total Offering (\$)
Gross proceeds of prior share issues	499,998
Gross proceeds of this Offering	500,000
Total gross proceeds after this Offering	999,998
Offering price per share	0.10

Proceeds per share after this Offering	0.067
Dilution per share to subscriber	0.033
Percentage of dilution in relation to offering price	33%

RISK FACTORS

Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation's business and its present stage of development. The following are risk factors associated with the Corporation:

- (a) the Corporation was only recently incorporated, has not commenced commercial operations and has no assets other than cash. It has no history of earnings, and shall not generate earnings or pay dividends until at least after Completion of the Qualifying Transaction;
- (b) investment in the Common Shares offered by this Prospectus is highly speculative given the proposed nature of the Corporation's business and its present stage of development;
- (c) the directors and officers of the Corporation will only devote a portion of their time to the business and affairs of the Corporation and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time. See "Directors, Officers and Promoter - Conflicts of Interest";
- (d) the Corporation is relying solely on its past business success of its directors and officers to identify a Qualifying Transaction of merit. The success of the Corporation is dependent upon the efforts and abilities of its management team. The loss of any member of the management team could have a material adverse effect upon the business and prospects of the Corporation. In such event, the Corporation will seek satisfactory replacements but there can be no guarantee that appropriate personnel may be found.
- (e) assuming completion of the Offering, an investor will suffer an immediate dilution to its investment of \$0.033 per Common Share or 33%;
- (f) there can be no assurance that an active and liquid market for the Corporation's Common Shares will develop and an investor may find it difficult to resell its Common Shares;
- (g) until Completion of a Qualifying Transaction, the Corporation is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions;
- (h) the Corporation has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Corporation will be able to identify a suitable Qualifying Transaction;
- (i) even if a proposed Qualifying Transaction is identified, there can be no assurance that the Corporation will be able to successfully complete the transaction;
- (j) Completion of the Qualifying Transaction is subject to a number of conditions including acceptance by the Exchange and, in the case of a Non Arm's Length Qualifying Transaction, Majority of the Minority Approval;

- (k) unless the shareholder has the right to dissent and be paid fair value in accordance with applicable corporate or other law, a shareholder who votes against a proposed Non Arm's Length Qualifying Transaction for which Majority of the Minority Approval by shareholders has been given, will have no rights of dissent and no entitlement to payment by the Corporation of fair value for the Common Shares;
- (l) upon public announcement of a proposed Qualifying Transaction, trading in the Common Shares of the Corporation will be halted and will remain halted for an indefinite period of time, typically until a Sponsor has been retained and certain preliminary reviews have been conducted. The Common Shares of the Corporation will be reinstated to trading before the Exchange has reviewed the transaction and before the Sponsor has completed its full review. Reinstatement to trading provides no assurance with respect to the merits of the transaction or the likelihood of the Corporation completing the proposed Qualifying Transaction;
- (m) trading in the Common Shares of the Corporation may be halted at other times for other reasons, including for failure by the Corporation to submit documents to the Exchange in the time periods required;
- (n) the Exchange will generally suspend trading in the Corporation's Common Shares or delist the Corporation in the event that the Exchange has not issued a Final Exchange Bulletin within 24 months from the date of listing;
- (o) neither the Exchange nor any securities regulatory authority passes upon the merits of the proposed Qualifying Transaction;
- (p) in the event that management of the Corporation resides outside of Canada or the Corporation identifies a foreign business as a proposed Qualifying Transaction, investors may find it difficult or impossible to effect service of notice to commence legal proceedings upon any management resident outside of Canada or upon the foreign business and may find it difficult or impossible to enforce against such persons, judgments obtained in Canadian courts;
- (q) the Qualifying Transaction may be financed in all or part by the issuance of additional securities by the Corporation and this may result in further dilution to the investor, which dilution may be significant and which may also result in a change of control of the Corporation; and
- (r) subject to prior acceptance by the Exchange, the Corporation may be permitted to loan or advance up to an aggregate of \$250,000 of its proceeds to a target business without requiring shareholder approval and there can be no assurance that the Corporation will be able to recover that loan.

As a result of these factors, this Offering is only suitable to investors who are willing to rely solely on management of the Corporation and who can afford to lose their entire investment. Those investors who are not prepared to do so should not invest in the Common Shares.

Napier Ventures Inc

Notes to the financial statements

March 31, 2008 (Audited) and December 31, 2008 (Unaudited)

1. Nature of operations

Napier Ventures Inc. (the "Company") was incorporated on March 6, 2007 under the laws of the province of British Columbia. The Company is a Capital Pool Company ("CPC") as defined in Policy 2.4 of the TSX Venture Exchange ("Exchange"). As a CPC, the Company's principal business is to identify, evaluate and acquire assets, properties or businesses which would constitute a qualifying transaction ("Qualifying Transaction") in accordance with Policy 2.4 of the Exchange. Such a transaction will be subject to shareholder and regulatory approval.

The Company's continuing operations are dependent upon its ability to identify, evaluate and negotiate a Qualifying Transaction.

2. Significant accounting policies

(a) Basis of presentation

The financial statements of the Company are presented in accordance with Canadian generally accepted accounting principles ("GAAP") and are presented in Canadian dollars.

(b) Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expense during the reporting period. Actual results could differ from those estimates and would impact future results of operations and cash flows.

(c) Deferred financing costs

Costs related to shares not yet issued are recorded as deferred financing costs. These costs will be deferred until the issuance of the shares to which the costs relate, at which time the costs will be charged against the related share capital or charged to operations if the shares are not issued.

(d) Income taxes

Future income taxes are recorded using the asset and liability method whereby future tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective tax bases. Future tax assets and liabilities are measured using the enacted or substantively enacted tax rates expected to apply when the asset is realized or the liability settled. The effect on future tax assets and liabilities of a change in tax rates is recognized in income in the period that substantive enactment or enactment occurs. To the extent that the Company does not consider it more likely than not that a future tax asset will be recovered, it provides a valuation allowance against the excess.

2. Significant accounting policies (continued)

(e) *Financial instruments*

The Company has adopted CICA Handbook Sections 3855, "Financial Instruments - Recognition and Measurement", Section 3862, "Financial Instruments-Disclosure", Section 3863, "Financial Instruments-Presentation" and Section 3856, "Hedges". These new accounting standards provide comprehensive requirements for the recognition and measurement of financial instruments, as well as standards on when and how hedge accounting may be applied. Under Section 3855, financial instruments must be classified into one of five categories: held-for-trading, held-to-maturity, loans and receivables, available-for-sale financial assets, or other financial liabilities. All financial instruments, including derivatives, are measured at the balance sheet date at fair value except for loans and receivables, held-to-maturity investments, and other financial liabilities which are measured at amortized cost. The Company's financial instruments consist of cash, other receivable, and accounts payable. The fair value of these financial instruments approximates their carrying values. It is management's opinion that the Company is not exposed to significant interest or credit risks arising from these financial instruments. The Company does not have derivatives or embedded derivatives. These new sections on financial instrument presentation and disclosure place increased emphasis on disclosures about the nature and extent of risks arising from financial instruments and how the entity manages those risks. The Company has included disclosures recommended by the new Handbook sections in Note 7 to these financial statements.

(f) *Stock-based compensation*

The Company grants stock options to officers, directors, employees and consultants. The Company records all awards made using a fair value method. The fair value of awards to employees and non-employees is determined in the period of granting and expensed over the vesting period. The fair value of options and other stock based awards to employees or consultants, issued or altered in the period, is determined using the Black-Scholes option pricing model.

(g) *Loss per share*

The Company uses the treasury stock method to compute the dilutive effect of options, warrants and similar instruments. Under this method the dilutive effect on loss per share is recognized on the use of the proceeds that could be obtained upon exercise of options, warrants and similar instruments. It assumes that the proceeds would be used to purchase common shares at the average market price during this period. Basic and dilutive loss per common share are calculated using the weighted-average number of common shares outstanding during the period.

(h) *Comprehensive Income*

Section 1530 establishes standards for reporting and displaying comprehensive income. Comprehensive income is defined as the change in equity (net assets) from transactions and other events from non-owner sources. Other comprehensive income is defined as revenues, expenses, gains and losses that, in accordance with primary sources of GAAP, are recognized in comprehensive income, but excluded from net income. This would include holding gains and losses from financial instruments classified as available-for-sale. At December 31, 2008 and March 31, 2008, the Company had no items that would be classified as other comprehensive income.

2. Significant accounting policies (continued)

(i) *Capital Disclosures*

Handbook Section 1535 specifies the disclosure of (i) an entity's objectives, policies and processes for managing capital; (ii) quantitative data about what the entity regards as capital; (iii) whether the entity has not complied with any capital requirements; and (iv) if it has not complied, the consequences of such noncompliance. The Company has included disclosures recommended by the new Handbook section in Note 8 to these financial statements.

(j) *Change in accounting policies*

The Company adopted three new accounting standards effective January 1, 2007: Capital Disclosures (Handbook Section 1535), Financial Instruments – Disclosures (Handbook Section 3862), and Financial Instruments – Presentation (Handbook Section 3863). The Company adopted these standards on January 1, 2007.

(k) *Recent Accounting Pronouncements*

The CICA accounting standards board amended Handbook Section 1400, "General standards of financial statement presentations", to include requirements for management to assess and disclose an entity's ability to continue as a going concern. This section applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2008. The Company does not expect the adoption of this amendment to have a significant impact on its financial statements.

In 2006, the Canadian Accounting Standards Board ("AcSB") published a strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian generally accepted accounting principles with International Financial Reporting Standards ("IFRS") over an expected five year transitional period. In February 2008, the AcSB announced that 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canada's own generally accepted accounting principles. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of January 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ended September 30, 2010. The Company continues to monitor and assess the impact of Canadian GAAP and IFRS.

3. Deferred financing costs

The Company has entered into an engagement letter dated March 3, 2009, with Blackmont Capital Inc. (the "Agent"), who will act on a commercially reasonable efforts basis for the Company's initial public offering ("IPO") of 5,000,000 common shares priced at \$0.10 per common share, for total proceeds of \$500,000. The Agent's commission will be \$50,000 and the Agent will also be granted non-transferable share purchase warrants to purchase up to 500,000 common shares at a price of \$0.10 per common share, expiring 24 months from the listing date of the Company's shares on the Exchange. In addition, the agent will be reimbursed for its expenses, legal fees and disbursements. At December 31, 2008 the Agent has been paid \$5,000 (March 31, 2008: \$5,000) on account of their corporate finance fee of \$15,000 (plus GST), plus an advance of \$15,000 (March 31, 2008: \$5,000) towards expenses which has been recorded in deferred financing fees. An additional \$6,051 (March 31, 2008: \$5,268) in legal fees has been recorded, for a total of \$26,051 (March 31, 2008: \$15,268) in deferred financing costs.

7. Financial Instruments

Financial Risk Management

The Company is exposed in varying degrees to a variety of financial instrument related risks.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its bank accounts, accounts receivable and amounts due to related parties. The Company's bank account is held with a major bank in Canada. As all of the Company's cash is held by one bank in Canada, there is a concentration of credit risk. This risk is managed by using a major bank that is a high credit quality financial institution as determined by rating agencies. In addition, the Company is exposed to credit risk on accounts receivable. This risk is mitigated by a stringent credit policy.

Currency Risk

The Company operates in Canada and is therefore not exposed to significant foreign exchange risk arising from transactions denominated in a foreign currency.

Liquidity Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. The Company achieves this by maintaining sufficient cash and banking facilities.

8. Capital Management

The Company manages its capital in a manner consistent with the risk characteristics of the assets it holds. All sources of financing are analyzed by management and approved by the board of directors.

The Company's objectives when managing capital are:

- a) to safeguard the Company's ability to continue as a going concern;
- b) to facilitate the completion of an initial public offering and Qualifying Transaction.

The Company is meeting its objective of managing capital through its detailed review and performance of due diligence on all potential acquisitions, preparing short-term and long-term cash flow analysis to ensure an adequate amount of liquidity and monthly review of financial results.
