Stans Energy Corp.
Notes to the Consolidated Financial Statements
For the three months ended March 31, 2019 and 2018
(Expressed in Canadian dollars unless otherwise stated)

1. NATURE OF OPERATIONS AND GOING CONCERN

Stans Energy Corp. (the "Company" or "Stans") was incorporated on September 26, 2005 under the laws of the Province of Ontario. Stans Energy Corp. is a resource development company focused on advancing rare and specialty metals properties and processing technologies. Stan's common shares are listed on the TSX Venture Exchange ("TSXV") under the symbol HRE and on the OTCQB market under the symbol HREEF. The head office, principal address and records office of the Company are located at 1 Yonge St., Suite 1011, Toronto, ON, M5E 1E5.

These interim condensed consolidated financial statements ("financial statements") have been prepared on a going concern basis which assumes the Company will continue its exploration and development activities for the foreseeable future and will be able to discharge its liabilities in the normal course of business as they become due. As at March 31, 2019, the Company had an accumulated deficit of \$77,539,093 (March 31, 2018 - \$74,273,973), a working capital deficiency of \$15,511,671 (2018 - \$12,423,879) and cash of \$131,571 (2018 - \$47,953). The Company incurred a loss for the three months ended March 31, 2019 of \$464,022 (2018 - \$1,107,954) and for the three months ended March 31, 2019 used cash in operations of \$235,239 (2018 - \$848,679).

The Company is currently in legal disputes with the government of the Kyrgyz Republic in relation to its mineral properties licenses (see Note 7). There is no assurance that the Company will be successful in its legal disputes with the government of the Kyrgyz Republic.

The Company has no sources of revenue and has experienced losses and negative cash flows from operations since the 2011 fiscal year. The continuation of the Company as a going concern is dependent upon a successful outcome of the legal disputes with the government of the Kyrgyz Republic and/or upon successfully finding additional sources of financing. There is no assurance that the Company will be successful in its disputes with the Kyrgyz Republic or be able to obtain alternative sources of financing. These circumstances indicate the existence of a material uncertainty which may cast significant doubt as to the Company's ability to continue to operate as a going concern.

If the going concern assumption was not appropriate for the Financial Statements, then adjustments may be necessary to the carrying value of assets and liabilities, the reported expenses and the statement of financial position, classifications used, and such adjustments could be material.

On May 21, 2019, the Board of Directors approved the Financial Statements for the three months ended March 31, 2019.

2. BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE WITH IAS 34

These Financial Statements form part of the period covered by the Company's International Financial Reporting Standards ("IFRS") annual consolidated financial statements. These Financial Statements have been prepared in accordance with IAS 34 - *Interim Financial Reporting* and on the basis of IFRS standards and interpretations expected to be effective as at the Company's IFRS annual reporting date, December 31, 2019.

These Financial Statements do not contain all the disclosures required by IFRS for annual financial statements and should be read in conjunction with the Company's audited annual consolidated financial statements for the year ended December 31, 2018 prepared in accordance with International Accounting Standards as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC") in effect as of March 31, 2019.

In the opinion of management, all adjustments considered necessary for fair presentation have been included in these Financial Statements. Operating results for the three months ended March 31, 2019 may not be indicative of the results that may be expected for the year ending December 31, 2019. Certain comparative figures included in the statement of cash flows have been reclassified to comply with the basis of presentation.

3. SIGNIFICANT ACCOUNTING POLICIES

(a) Principles of consolidation

These Financial Statements include the accounts of Stans and its subsidiaries. Subsidiaries are entities controlled by the Company. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Subsidiaries are included in the financial statements from the date control is obtained until the date control ceases. Where the Company's interest in a subsidiary is less than 100%, the Company recognizes non-controlling interests. All intercompany balances, transactions, income, expenses, profits and losses, including unrealized gains and losses have been eliminated on consolidation. Stans and all of its subsidiaries have a reporting date of December 31.

The following companies have been consolidated within these Financial Statements:

Company Subsidiaries	Property location	% of ownership and voting rights	Principal activity	Functional currency
Stans Energy Corp.	Canada	n/a	Corporate and holding	CAD
Kutisay Mining LLC	Kyrgyz Republic	100%	Exploration	USD
Kashka REE Plant Ltd.	Kyrgyz Republic	100%	Extraction	USD
SevAmRus CJSC	Russian Federation	100%	Research	RUB

On May 29, 2017 Kutisay Mining LLC and Stans Energy KG LLC, the two wholly-owned subsidiaries of Stans Energy Corp., were merged after approval by Stans Energy Corp. board of directors. The merger was an absorption-type merger between Kutisay Mining LLC which as the surviving company absorbed Stans Energy KG LLC.

On June 4, 2018, a non-controlling shareholder transferred its 1% share in SevAmRus CJSC to Stans Energy Corp. for no consideration. On September 30, 2018, SevAmRus CJSC transferred its 1% share in Didym Inc. to Stans Energy Corp. for no consideration.

On January 28, 2019, Stans sold Didym Inc. for no consideration.

4. ACCOUNTING CHANGES AND RECENT ACCOUNTING PRONOUNCEMENTS

New Standards and Interpretations issued and adopted

At the date of authorization of these Financial Statements for the period ended March 31, 2019, the following standards which are applicable to the Corporation were issued.

IFRS 16, Leases

On January 13, 2016 the IASB issued IFRS 16, Leases. The new standard is effective for annual periods beginning on or after January 1, 2019. Earlier application is permitted for entities that apply IFRS 15 Revenue from Contracts with Customers at or before the date of initial adoption of IFRS 16. IFRS 16 will replace IAS 17 Leases. This standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The Company adopted IFRS 16 in its financial statements for the annual period beginning on January 1, 2019.

IFRIC 23 – Uncertainty over Income Tax Treatments

On June 7, 2017, the IASB issued IFRIC Interpretation 23 Uncertainty over Income Tax Treatments. The

(Expressed in Canadian dollars unless otherwise stated)

Interpretation provides guidance on the accounting for current and deferred tax liabilities and assets in circumstances in which there is uncertainty over income tax treatments. The Interpretation is applicable for annual periods beginning on or after January 1, 2019. Earlier application is permitted. The Company adopted the Interpretation in its financial statements for the annual period beginning on January 1, 2019. The Company does not expect the Interpretation to have a material impact on the financial statements.

5. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and reported amounts of expenses during the reporting period. The areas involving significant judgment and estimates have been set out in Note 5 of the Company's annual audited consolidated financial statements for the year ended December 31, 2018. Certain comparative figures included in the statement of cash flows have been reclassified to comply with the basis of presentation.

6. SEGMENTED INFORMATION

As at March 31, 2019 and December 31, 2018 the Company's assets were located in the following countries:

	March 31, 2019	December 31, 2018
Assets		
Canada	\$ 126,405	\$ 104,549
Kyrgyz Republic	48,637	53,113

Kyrgyz Republic	71,259	239,564
Russian Federation	47,007	75,434
Total	\$464,022	\$3,908,603

7. LEGAL PROCEEDINGS AND IMPAIRMENT

In June 2012, a committee of the Kyrgyz Parliament demanded that Stans' Licence Agreement for Kutessay II be cancelled. During the year ended December 31, 2013, the Kyrgyz State Prosecutor's Office initiated legal proceedings against the Company to revoke the mineral property licenses awarded to Stans by a government agency through an auction process held in 2009.

In March 2014, the Inter District court of Bishkek ruled in favour of the Kyrgyz State Prosecutor's Office. Stans appealed this decision in various courts in the Kyrgyz Republic and in 2015 the Kyrgyz Supreme Court dismissed Stans' appeal. Consequently, Stans has no right for further appeal in the Kyrgyz Republic.

In October 2013, Stans commenced arbitration against the Kyrgyz Republic in connection with the legal proceeding initiated by the Kyrgyz Republic in the Arbitration Court at the Moscow Chamber of Commerce and Industry ('the MCCI Tribunal'). In June 2014, the MCCI Tribunal awarded Stans US\$118 million as a recovery of damages from the Kyrgyz Republic. This award was subsequently challenged by the Kyrgyz Republic in the courts of the Russian Federation, and in January 2016, the Supreme Court of the Russian Federation in its final decision upheld the May 2015 ruling of a lower court to set aside the MCCI Tribunal award.

Stans Energy Corp.
Notes to the Consolidated Financial Statements
For the three months ended March 31, 2019 and 2018
(Expressed in Canadian dollars unless otherwise stated)

In May 2015 Stans commenced an arbitration against the Kyrgyz Republic under the 1976 rules of the United Nations Commission on International Trade Law ('the UNCITRAL Rules') claiming damages arising from the Kyrgyz Republic's wrongful conduct toward the Company's investments in Kyrgyzstan that culminated in the termination of the mining licenses for Kutessay II and Kalesay. Stans and the Kyrgyz Republic subsequently agreed that this arbitration ('the UNCITRAL Arbitration') would be administered by the secretariat of the Permanent Court of Arbitration in the Hague with a judicial seat in London, England. After a Tribunal was appointed in the UNCITRAL Arbitration, Stans filed a statement of claim on January 29, 2016 claiming US \$219 million in damages and interest from the Kyrgyz Republic. The Tribunal in the UNCITRAL Arbitration subsequently decided that the proceedings would be bifurcated into a jurisdictional phase and a merits phase. After the exchange of written pleadings on jurisdictional issues, a hearing on the jurisdictional issues took place on September 23, 2016.

On January 25, 2017, the UNCITRAL Tribunal unanimously rejected the Kyrgyz Republic's preliminary jurisdictional objections and then allowed for adjudication of the merits of the UNCITRAL Arbitration.

Subsequent to the jurisdictional ruling by the UNCITRAL Tribunal, the Kyrgyz Republic has initiated a claim with the High Court of Justice, Queen's Bench Division of the Commercial Court, London, England ("the English Court") to set aside the jurisdictional award of the Tribunal in favor of Stans. This hearing was held on July 24 to 25, 2017.

On October 13, 2017 a judgement was issued by the English Court in the proceedings initiated by the Kyrgyz Republic to set aside the award on jurisdictional objections rendered by the Arbitral Tribunal on January 25, 2017 ("the Award") in the UNCITRAL Arbitration. In that ruling the English Court ruled in favour of Stans Energy and the Kyrgyz Republic was also ordered to pay US\$222,242. Pursuant to the order the Kyrgyz Republic is to pay Stans costs associated with the claim, with such costs being subject to a detailed assessment if not agreed upon. The Kyrgyz Republic has not complied with the order and the Company has started detailed assessment proceedings in UK Courts to enforce the award and the Company has initiated Detailed Assessment proceedings in the UK Courts to enforce the payment of the award.

A hearing on the merits was held by the Tribunal on April 9 to 13, 2018. Following the hearing, the Tribunal issued the Request for two Post-hearing Briefings which were concluded by the parties by August 17, 2018. The costs submissions have been completed by the parties by November 2, 2018.

The Company has not recorded any potential benefit in these Financial Statements related to the UNCITRAL Arbitration and any ultimate future benefit will only be recognized when it is received.

Due to the above legal proceeding which resulted in Stans being unable to explore and develop its mineral properties and identify a feasible alternate source of rare earth elements that could be processed at the Kashka Rare Earth Processing Facility, the Company during the year ended December 31, 2013 recorded an impairment and wrote off its mineral interests and its Plant in the Kyrgyz Republic.

8. LOAN

In June 2015, the Company entered into a Litigation Financing Agreement ('the Agreement') with a subsidiary of the Calunius Litigation Risk Fund 2 LP ("the Financer").

The advances received under the Agreement have been accounted for as a non-monetary liability within the financial statements. In connection with the terms of the advances the Company does not have a present obligation to repay the amounts until such time as the litigation has been settled or an event of default has occurred. Any non-reciprocal benefits received by the Company will be recognized by the Company when the terms of the Agreement are satisfied. As the amounts represent income received in advance, the Company is accounting for the advances in a manner similar to deferred revenue whereby the amounts recognized on the statement of financial position are converted to the functional currency of the Company on the date of receipt of the advance and are not re-measured at the period end exchange rates.

Under the terms of the Agreement, the Financer has agreed to assist in the financing of the Company's legal

Stans Energy Corp.

(Expressed in Canadian dollars unless otherwise stated)

costs and to provide financing toward continuing corporate overhead costs, in relation to the international arbitration proceedings against the Kyrgyz Republic. As at March 31, 2019 the amount of \$9,890,093 (as at December 31, 2018 - \$9,890,093) was financed under the Agreement.

The Financer's fee under the Agreement becomes payable upon a final settlement of the arbitration claim and the value of the Financer's fee is dependent upon a number of variables, including the amounts advanced under the Agreement and the length of time taken to reach a settlement. The Agreement also provides that the amount of the Financer's fee, which includes amounts advanced, shall not exceed the amount of the aggregate proceeds of the arbitration claim. To the extent that the Company is not successful in the arbitration claim, the Company will not have to repay any amounts which were provided by the Financer.

On March 23, 2018, the Company entered into a new litigation finance agreement ("new Agreement") with new funders: Gillham LLC and Lucille Investments LLC, to obtain additional incremental funding of Stans' legal costs, including related corporate overhead costs and to continue with the international arbitration proceedings against the Kyrgyz Republic on a non-recourse basis.

Under the terms of the new Agreement, the Company has given certain warranties and non-financial covenants to the funder. The funding is secured by all real and personal property of the Company as collateral. In consideration for the provision of arbitration financing, Stans has agreed to pay to the funder a portion of any final settlement of the arbitration claim against the Defendant (the "Funder's Fee"). The Funder's Fee shall only become payable upon a final settlement of the arbitration claim and the value of the Funder's Fee is dependent upon a number of variables including the value of any settlement and the length of time taken to reach a settlement. The agreement also provides that the amount of the Funder's Fee, which includes amounts advanced, shall not exceed the amount of the aggregate proceeds of the arbitration claim under any circumstances. Entitlement to returns on amounts advanced is on a priority basis that is *pari passu* with the rights of the pre-existing source of litigation financing to receive payment and/or distribution.

On March 19, 2019 the Company signed an addendum to the New Agreement with the funders for incremental financing for operating and legal proceedings.

As at March 31, 2019 the amount of \$4,682,011 was financed under the new Agreement.

9. SHARE CAPITAL

(v) On March 22, 2019, the Company issued 1,900,000 shares at a price \$0.05 per common share to settle Director's fees accrued for the period 2014-2018 in the amount of \$95,000 with Directors.

(b) Warrants

On certain issuances of common shares, the Company grants warrants entitling the holder to acquire additional common shares of the Company, and the Company also grants warrants as consideration for services associated with the placement of such common share issues.

The following table provides the details of changes in the number of outstanding common share purchase warrants:

	Number #	Value \$
Balance, December 31, 2017	8,490,000	\$ 206,967

11. CAPITAL MANAGEMENT

The Company's objective when managing capital is to maintain its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders. The Company includes equity, comprised of issued common shares, contributed surplus, share purchase warrants, accumulated other comprehensive income and deficit and loan financing in the definition of capital. Management adjusts the capital structure as necessary in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management team to sustain the future development of the business.

As at March 31, 2019, total assets less accounts payable and accrued liabilities was negative \$939,567 (March 31, 2018 – negative \$2,407,669). The Company raised litigation financing in June 2015, which was increased during the period ended March 31, 2019. There were no other changes to the Company's approach to capital management during the period ended March 31, 2019.

12. FINANCIAL RISK MANAGEMENT

Credit risk

Credit risk relates to cash and cash equivalents and HST receivable and arises from the possibility that any counterparty to an instrument fails to perform. The Company thoroughly examines the various financial risks to which it is exposed and assesses the impact and likelihood of those risks. Where material, these risks are reviewed and monitored by the Board of Directors. As at March 31, 2019, the Company's maximum exposure to credit risk was the carrying value of cash and cash equivalents, and HST receivable.

The Company has no significant concentration of credit risk arising from operations. The Company's cash and short-term investments are either on deposit with one of highly rated banking groups in Canada or invested in guaranteed investment certificates issued by one of highly rated Canadian banking groups. HST receivables consist of sales tax receivable from government authorities in Canada.

Liquidity risk

The Company's exposure to liquidity risk is dependent on its ability to raise funds to meet purchase commitments and to sustain operations. The Company controls its liquidity risk by managing working capital and cash flows by litigation or alternative sources of financing. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at March 31, 2019, the Company had a cash balance of \$130,571 (2018 - \$46,953) and short term investments of \$1,000 (2018 - \$1,000) to settle current liabilities of \$15,704,590 (2018 - \$12,555,069). All of the Company's financial liabilities with the exception of the litigation funding received, have contractual maturities of less than 12 months and are subject to normal trade terms. During the period ended December 31, 2018, the Company raised additional capital for total gross cash proceeds of \$165,000, less \$63,000 cash advances received from directors of the Company in 2017 (Note 13). Refer to Note 1 for the liquidity risk related to going concern.

Market risk

a) Interest Rate Risk

The Company's current policy is to invest excess cash in investment grade short-term deposit certificates issued by banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of the banks. The Company does not have any interest bearing debt.

b) Foreign Currency Risk

In the normal course of operations, the Company is exposed to currency risk due to business transactions in

(Expressed in Canadian dollars unless otherwise stated)

foreign countries. Transactions related to the Company's exploration and acquisition activities are mainly denominated in United States dollars ("USD") and some in Kyrgystani SOM and Russian Rubles. Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in the foreign exchange rate. The Company has not entered into any derivative contracts to manage this risk. Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars ("CAD") at the period-end exchange rates. As at March 31, 2019, the CAD equivalent of the Company's foreign financial instruments, primarily denominated in USD, is as follows:

	Canadian Dollar March 31, 2019	Canadian Dollar December 31, 2018
Cash	\$ 118,683	\$ 71,433
Other receivables	19,677	32,845
	138,360	104,278
Accounts payable and accrued liabilities	(596,397)	(511,092)
Net liabilities exposure	\$ (458,037)	\$ (406,814)

Based on the above net exposures at March 31, 2019, a 10% depreciation or appreciation of the above currencies against the CAD dollar would result in an increase or decrease, respectively, in net loss by \$41,630 (December 31, 2018 - \$38,572).

13. RELATED PARTY TRANSACTIONS
