About Destiny Media Technologies, Inc.

Destiny Media Technologies provides services that enable content owners to securely display and distribute their audio and video content digitally through the internet. The Company's two major services are Clipstream® and Play MPE®. Clipstream (www.clipstream.com) is an automated high availability self service hosting service built around a proprietary Javascript playback system. This approach, which is protected by two dozen pending and granted patents is much more secure and flexible than standard video approaches. Play MPE® (www.plaympe.com) provides a standardized method to securely and cost effectively distributes pre-release music to radio stations and other music industry professionals, before it is ready for sale. It is protected by granted security and watermark patents. More information can be found at www.dsnny.com.
