**NOTICE OF ANNUAL GENERAL MEETING
OF SHAREHOLDERS**

**TO BE HELD ON
JUNE 25, 2026**

May 13, 2026

This Management Information Circular and the accompanying materials require your immediate attention. If you are in doubt as to how to deal with these documents or the matters to which they refer, please consult a professional advisor.

Letter to Shareholders

Dear Shareholders,

The past year, and into 2026, marked a significant period of transformation for the Company, highlighted by the successful commissioning of the hard rock expansion at Bomboré and the acquisition of the Casa Berardi gold mine and a portfolio of exploration properties in Québec. These developments represent an important step towards the Company's to becoming a future diversified intermediate gold producer.

The hard rock expansion at Bomboré was successfully commissioned in December 2025, with commercial production achieved shortly after year-end. The expanded operation is expected to drive a meaningful increase in gold production in 2026 and beyond through the processing of hard rock reserves, supporting strong free cash flow and earnings.

Casa Berardi provides immediate production, a skilled operating team and meaningful exploration potential in a Tier 1 jurisdiction. The associated exploration properties expand the Company's land position and create additional opportunities to generate value over time. Together, these assets enhance operational scale, geographic diversification and future growth.

The acquisition was completed over several months and required a substantial effort from management and the Special Committee of the Board across due diligence, negotiation, financing and execution. Its successful completion reflects the depth of experience within our team and a disciplined approach to evaluating and executing strategic opportunities.

During the year, the Company also strengthened its capital markets profile and expanded its investor base. The Company completed a secondary listing on the ASX on August 8, 2025, and was subsequently included in the VanEck Junior Gold Miners (GDXJ) exchange-traded fund effective March 20, 2026, increasing visibility with global investors.

Operationally, the Bomboré mine produced 110,014 ounces of gold in 2025 which led to record operating cashflow as the mine benefitted from record gold prices and unhedged sales.

Looking ahead, the integration of Casa Berardi, the expanded operations at Bomboré and the exploration at the Company's operating mines are key priorities. The Board and management remain focused on delivering sustainable performance, maintaining a strong balance sheet and creating long-term value for shareholders.

On behalf of the Board, we extend our sincere thanks to our employees, contractors, partners, the communities where we operate, and our shareholders for their continued support and confidence in the Company.

Sincerely,

"Sean Harvey"

Sean Harvey

Questions at the Meeting

Registered Shareholders and duly appointed proxyholders (including Beneficial Shareholders who have appointed themselves or third party proxyholders) who attend the Meeting virtually and have properly followed the instructions in this Circular to vote virtually at the Meeting will have an opportunity to ask questions at the Meeting on each resolution as it is being considered at the Meeting and during the question period at the end. Should any such Shareholder or proxyholder wish to ask a question, the Shareholder or proxyholder should access the Q&A tab, type your question into the box on the screen and then press send. The Chair of the Meeting will also reserve time at the Meeting for management to answer questions from registered Shareholders and duly appointed proxyholders and guests that attend the Meeting. All submitted questions will be moderated before being sent to the Chair of the Meeting. Questions can be submitted at any time during the Meeting up until the Chair of the Meeting closes the question period. It is anticipated that Shareholders will have substantially the same opportunity to ask questions on matters of business before the Meeting as in past years when the annual meeting of Shareholders was held in person, provided that such Shareholders have properly followed the instructions in this Circular to participate in the Meeting and remain connected to the internet at all relevant times. A replay of the Meeting will be available after the Meeting on the Company's website at www.orezone.com.

GENERAL PROXY INFORMATION

The general proxy information set out below applies to holders of the Company's Shares.

For Information on how CDI Holders can receive Meeting materials and submit voting instructions, see "CDI Holders on the ASX" below.

Solicitation of Proxies

This solicitation will be made primarily by sending proxy materials to Shareholders by mail and, in relation to the delivery of this Circular, by posting this Circular on the internet at www.envisionreports.com/Orezone2026 and under Orezone's profile on SEDAR+ at www.sedarplus.com pursuant to the notice-and-access procedures under applicable Canadian securities laws. See "Notice and Access" below for further information. Proxies may also be solicited personally, by advertisement, by telephone, by directors, officers or employees of the Company or by any other means management may deem necessary. The cost of solicitation

will be borne by Orezone and is expected to be nominal. Copies of the Company's current annual information form ("AIF") as well as the consolidated financial statements of the Company for the years ended December 31, 2025 and 2024, together with the auditor's report thereon and the related management's discussion and analysis, are available at www.orezone.com and on the Company's SEDAR+ profile at www.sedarplus.com and on www.envisionreports.com/Orezone2026.

Voting Process

Shareholders and duly appointed persons (who need not be a Shareholder) named in the duly completed, dated and signed form of proxy (the "**Proxyholders**") may virtually attend the Meeting using an internet connected device. The Meeting platform will be supported across browsers and devices that are running the most updated version of the applicable software plugins.

Shareholders and duly appointed Proxyholders attending the Meeting online must remain connected to the internet at all times during the Meeting in order to vote when balloting commences. It is the Shareholder's and duly appointed Proxyholder's responsibility to ensure that they remain connected for the duration of the Meeting. Registered Shareholders and duly appointed Proxyholders wishing to attend the Meeting online should allow ample time to check in. Online check-in will begin one hour prior to the Meeting.

Orezone's transfer agent, Computershare, counts and tabulates the proxies and the votes.

The voting process differs depending on whether the Shareholder is a registered Shareholder or a non-registered Shareholder. A Shareholder is a registered Shareholder if he, she or it holds Shares registered in his, her or its name. A Shareholder is a non-registered Shareholder if he, she or it holds Shares that are registered in the name of an intermediary (such as a bank, trust company, securities dealer or broker, or director or administrator of a self-administered RRSP, RRIF, RESP, TFSA, each as defined in the *Income Tax Act* (Canada), or similar plan) or a depositary (such as CDS Clearing and Depositary Services Inc.) of which the intermediary is a participant.

Registered Shareholders

If you are a registered Shareholder, you may vote before or at the Meeting. All Shareholders are strongly encouraged to vote before the Meeting.

Registered Shareholders Voting before the Meeting

Before the Meeting, a registered Shareholder may vote by submitting a proxy in any of the ways set out below:

- **On the Internet:** A registered Shareholder can complete a proxy by visiting www.investorvote.com and click "Submit". You will need to provide your 15-digit control number located on the form of proxy.
- **By Telephone:** A registered Shareholder can complete the proxy by telephone by calling the number located on the form of proxy. You will need to provide your 15-digit control number which is located on the form of proxy.
- **By Mail or Hand Delivery:** A registered Shareholder can complete the proxy and deliver it by mail to Computershare Investor Services Inc., 320 Bay Street, 14th Floor, Toronto, ON, M5H 4A6.

Forms of proxy must be received as soon as possible by Computershare, and, in any event, not later than 2:00 p.m. on June 23, 2026 Pacific Time, or if the Meeting is adjourned or postponed, no less than 48 hours (excluding Saturdays, Sundays and holidays in the Province of British Columbia) immediately before the beginning of any reconvened Meeting (the "**Proxy Deadline**").

Notwithstanding the specified Proxy Deadline for the deposit of completed, dated and signed forms of proxy, the Company reserves the right to accept late proxies, and the Chair of the Meeting may waive the Proxy Deadline with or without notice if he or she deems it advisable to do so. However, the Company and the Chair of the Meeting are under no obligation to accept or reject any particular late form of proxy or waive the Proxy Deadline.

Registered Shareholders and Duly Appointed Proxyholders Voting at the Meeting

Registered Shareholders and duly appointed Proxyholders wishing to attend and to vote virtually at the Meeting should not

complete or return the form of proxy and should instead follow these steps:

- Log into meetnow.global/MYDSQDG at least 15 minutes before the Meeting starts. You should allow ample time to check into the Meeting and to complete the related procedures.
 - For registered Shareholders, select “Shareholder” and enter your 15-digit control number (on your proxy form).
 - For duly appointed Proxyholders, select “Invitation” and enter the Invite Code that Computershare provided such Proxyholder via email shortly after the meeting cut-off. Failure to register the Proxyholder will result in the Proxyholder not receiving the Invite Code from Computershare that is required in order to attend and vote at the Meeting.

Registered Shareholders who currently plan to attend the Meeting should consider voting their Shares in advance so that their vote will be counted if they later decide not to attend the Meeting. Registered Shareholders should note that if they participate and vote on any matter at the Meeting, they will revoke any previously submitted proxy. Orezone encourages all Shareholders to vote their Shares in advance of the Meeting.

Non-Registered Shareholders

The following information is of significant importance to Shareholders who do not hold Shares in their own name. Non-registered Shareholders should note that the only proxies that can be recognized and acted upon at the Meeting are those deposited by registered Shareholders (those whose names appear on the records of the Company as the registered holders of Shares) or as set out in the following disclosure.

If Shares are listed in an account statement provided to a Shareholder by a broker, then in almost all cases those Shares will not be registered in the Shareholder’s name on the records of the Company. Such Shares will more likely be registered under the names of the Shareholder’s broker or an agent of that broker (an “**intermediary**”). In Canada, the vast majority of common shares are registered under the name CDS & Co., which is the registration name for The Canadian Depositary for Securities Limited which acts as nominee for many Canadian brokerage firms.

Intermediaries are required to seek voting instructions from non-registered Shareholders in advance of meetings of shareholders. Every intermediary has its own mailing procedures and provides its own return instruction.

There are two kinds of non-registered Shareholders, namely those who object to their name being made known to the issuer of securities which they own (called “**Objecting Beneficial Owners**”) and those who do not object (called “**Non-Objecting Beneficial Owners**”).

If you are a non-registered Shareholder, you received shareholder meeting materials and a voting instruction form from your intermediary or its agent, and your intermediary is required to seek your instructions as to the manner in which to exercise the voting rights attached to your Shares. The Company is paying for intermediaries to deliver to Objecting Beneficial Owners and Non-Objecting Beneficial Owners a notice of availability of the proxy materials for the Meeting and, as applicable, a form of proxy or a voting instruction form (the “**Notice Package**”). The voting instruction form that is sent to a non-registered Shareholder by the intermediary or its agent should contain an explanation as to how you can exercise the voting rights attached to your Shares, including how to attend and vote directly at the Meeting. Please provide your voting instructions to your intermediary as specified in the enclosed voting instruction form.

In all cases, non-registered Shareholders should follow the instructions of their intermediary carefully to ensure that their Shares are voted at the Meeting.

Non-Registered Shareholders Voting Before the Meeting

Non-registered Shareholders who wish to vote before the Meeting may vote by any of the following means:

- **On the Internet:** A non-registered Shareholder can go to the website indicated on his, her or its voting instruction form and follow the instructions on the screen. The Shareholder will need the control number found on his, her or its voting instruction form.

- **By Telephone:** A non-registered Shareholder can call the number located on such Shareholder's voting instruction form, if any. The Shareholder will need the control number found on his, her or its voting instruction form.
- **By Mail:** A non-registered Shareholder can complete the voting instruction form as directed and return it to the Shareholder by the applicable cut-off date and time.

Non-Registered Shareholders Voting at the Meeting

Non-registered Shareholders wishing to attend and to vote at the Meeting online or appoint a person (who need not be a Shareholder) to attend and act on such Shareholders' behalf should instead follow these steps:

- Ahead of the Meeting, appoint yourself or the desired person to act on your behalf as a Proxyholder. This step is necessary because Orezone and its transfer agent, Computershare, may not have a record of the non-registered Shareholders and as a result, may not have knowledge of your shareholdings or entitlement to vote, unless you appoint yourself or the desired person to act on your behalf as a Proxyholder. In most cases, the non-registered Shareholder can appoint themselves as Proxyholder by filling in his, her or its name in the space provided for designating a proxy on the voting instruction form sent by such Shareholder's intermediary or the intermediary's agent, as applicable, and following the execution and return instructions provided by such Shareholder's intermediary or intermediary's agent, as applicable. It is not necessary to otherwise complete the voting instruction form, as the Shareholder will be voting at the Meeting.
- Ahead of the Meeting, register with Computershare. A non-registered Shareholder must register themselves or the appointed Proxyholder with Computershare by visiting www.computershare.com/Orezone and completing the registration procedure on or before the Proxy Deadline. Computershare will ask for the non-registered Shareholder's or appointed proxyholder's contact information and will send such Shareholder or appointed Proxyholder an Invite Code via email shortly after the Proxy Deadline. **Failure to register the Proxyholder will result in the Proxyholder not receiving the Invite Code from Computershare that is required in order to participate and vote at the Meeting.**
- On the date of the Meeting, log into meetnow.global/MYDSQDG at least 15 minutes before the Meeting starts. You should allow ample time to check into the Meeting and to complete the related procedures.
- Then, select "Invitation" and enter the Invite Code received via email.

Notwithstanding the foregoing, non-registered Shareholders located in the United States that wish to attend and vote at the Meeting generally must first obtain a valid legal proxy from their intermediary and will have to submit such legal proxy to Computershare at 320 Bay Street, 14th Floor Toronto, ON M5H 4A6 or email at uslegalproxy@computershare.com, and must be labelled "Legal Proxy". For further details, a Shareholder should contact his, her or its intermediary directly. Additionally, requests for registration from non-registered Shareholders located in the United States that wish to attend and vote at the Meeting online must register their appointment with Computershare by visiting www.computershare.com/Orezone on or before June 23, 2026 at 2:00 p.m. Pacific Time. Once such legal proxy is deposited with Computershare in accordance with these instructions, such Shareholder should receive from Computershare a Invite Code via email shortly after this deadline and may then proceed with following instructions above.

If you are a non-registered Shareholder and received a voting instruction form from your intermediary, you will need to give your voting instructions to your intermediary, so you should allow sufficient time for your intermediary to receive them. Each intermediary has its own deadline, so non-registered Shareholders will need to follow the instructions on the voting instruction form.

Appointment of Proxyholders

Signing a form of proxy gives authority to the individuals named in the form of proxy, namely Sean Harvey, Chair of the Board of Directors (the "**Board**"), Patrick Downey, President & CEO, Peter Tam, EVP & CFO and Ryan Goodman SVP & General Counsel. These individuals will vote **FOR** each of the matters to be acted upon at the Meeting. **If you are a Shareholder entitled to vote at the Meeting, you have the right to appoint a person other than the persons designated in the form of proxy, who need not be a Shareholder, to attend and act for you and on your behalf at the Meeting. You may do so by inserting the full name of that other person in the blank space provided in the form of proxy, and dating and submitting the form of proxy.**

If you appoint a Proxyholder other than the above noted individuals, please make sure they are aware of such appointment and ensure they will attend the Meeting in order for your vote to count. Registering a Proxyholder is an additional step Shareholders will need to complete after submitting a form of proxy or voting instruction form. Failure to register a Proxyholder will result in the Proxyholder not receiving a control number or username to participate in the Meeting. **To register a Proxyholder, Shareholders must (i) visit www.computershare.com/Orezone no later than 2:00 p.m. Pacific Time on June 23, 2026**, and complete the registration procedures, or if the Meeting is adjourned or postponed, no less than 48 hours (excluding Saturdays, Sundays and holidays in the Province of British Columbia) immediately before the beginning of any reconvened Meeting, provide Computershare with their Proxyholder's contact information so that Computershare may provide the proxyholder with a username via email. After the procedure for registering the Proxyholder is complete, Computershare will provide the Proxyholder by email with a username. Without a control number or username, Proxyholders will not be able to vote online at the Meeting.

If your Shares are registered in more than one name, all registered persons must sign the form of proxy. If your Shares are registered in a company's name or any name other than your own, you may be required to provide documents proving your authorization to sign the form of proxy for that company or name. For any questions about the proper supporting documents, contact Computershare before submitting your form of proxy.

Voting by Proxyholder

The Proxyholder will vote for or against or withhold from voting the Shares represented thereby in accordance with your instructions on any ballot that may be called for. If you specify a choice with respect to any matter to be acted upon, your Shares will be voted accordingly.

If no voting instructions are given, then your Proxyholder may vote your Shares as he or she sees fit.

If you appoint the proxyholders named on the form(s) of proxy, who are representatives of Orezone, and do not specify how they should vote your Shares, then your Shares will be voted FOR each of the matters referred to in the form(s) of proxy.

The form of proxy confers discretionary authority on the Proxyholders with respect to any amendments or variations of the matters identified in this Circular or any other matters which may properly come before the Meeting. As of the date of this Circular, management is not aware of any such amendment, variation or other business that may come before the Meeting. **If, however, such amendments, variations or other matters do properly come before the Meeting or any adjournment or postponement thereof, the Shares represented by the form of proxy will be voted at the discretion of the Proxyholder.**

Proxies returned by intermediaries as "non-votes" on behalf of Shares held in the name of such intermediary, because the beneficial Shareholder has not provided voting instructions and the intermediary does not have the discretion to vote such Shares, will be treated as present for purposes of determining a quorum but will not be counted as having been voted in respect of any such matter. As a result, such proxies will have no effect on the outcome of the vote.

Revocation of Proxies

If a registered Shareholder has submitted a proxy, such Shareholder may revoke it (a) by an instrument in writing executed by the Shareholder or such Shareholder's personal representative authorized in writing or if the Shareholder is a corporation under its corporate seal or by an officer or attorney thereof, duly authorized, indicating the capacity under which such officer or attorney is signing and deposit with Computershare as described above not later than 2:00 p.m. Pacific Time on June 23, 2026, which is the second last business day preceding the date of the Meeting at which the proxy is to be used, (b) by a duly executed and deposited proxy as provided herein bearing a later date or time than the date or time of the proxy being revoked, or (c) as permitted by law. Registered Shareholders may also attend and vote virtually at the Meeting, and if they do so, any voting instructions they previously gave for their Shares will be revoked and disregarded.

A revocation of a form of proxy will not affect a matter on which a vote is taken before the revocation.

Only registered Shareholders have the right to revoke a proxy in the above manner. Non-registered Shareholders who wish to change their voting instructions must, in sufficient time in advance of the Meeting, contact their broker or agent in order to revoke their voting instructions and/or provide new voting instructions.

Notice and Access

Reporting issuers, such as the Company, have the option of using the notice-and-access procedures (“**Notice and Access**”) adopted by the Canadian Securities Administrators (“**CSA**”) for the delivery of management information circulars and proxy-related materials to their securityholders by providing their securityholders with notice of their availability and access to these documents online.

As permitted by the CSA and pursuant to an exemption from the management proxy solicitation requirement received from the Director appointed under the *Canada Business Corporations Act* (the “**CBCA**”), Orezone has adopted Notice and Access for this Meeting because it allows for the reduction of printed paper materials. Notice and Access is consistent with Orezone’s philosophy towards sustainable growth and will reduce costs associated with Shareholder meetings. Instead of mailing the Circular to Shareholders, Orezone has posted this Circular on the Company’s website at www.orezone.com, on its SEDAR+ profile at www.sedarplus.com and Computershare’s website at www.envisionreports.com/Orezone2026.

With respect to registered Shareholders, Orezone has sent, through its transfer agent, the Notice Package to all registered Shareholders informing them that this Circular is available online and explaining how this Circular may be accessed.

With respect to non-registered Shareholders, Orezone has distributed copies of the Notice Package to the clearing agencies and intermediaries or their agents who are required to forward to you the Notice Package and seek your instructions as to the manner in which to exercise the voting rights attached to your Shares. Orezone has agreed to pay for intermediaries to deliver to Non-Objecting Beneficial Owners and Objecting Beneficial Owners the proxy-related materials and the relevant voting instruction forms.

In accordance with applicable securities laws and the CBCA, Orezone set the Record Date at least 40 days before the Meeting and also filed a form of notification of the Record Date and the date of the Meeting on SEDAR+ at least 25 days before the Record Date.

All references to websites are for your information only. The information contained or linked through any website is not part of, and is not incorporated by reference into, this Circular.

For the Meeting, Orezone is using Notice and Access for both registered and non-registered Shareholders. Neither registered nor non-registered Shareholders will receive a paper copy of this Circular. Shareholders may obtain paper copies of the Meeting materials free of charge by following the instructions provided in the Notice Package. Shareholders may request paper copies of the Meeting materials for up to one year from the date that this Circular was filed on SEDAR+. In order to receive paper copies of the Meeting materials in advance of the deadline for submission of voting instructions and the date of the Meeting, your request must be received by Computershare by 2:00 p.m. Pacific Time on June 11, 2026. Please note that if you request a paper copy of the Meeting materials, you will not receive a new form of proxy or voting instruction form, and therefore you should retain the forms included in the Notice Package in order to vote.

Registered Shareholders with questions about Notice and Access can call Computershare toll-free at 1-866-964-0492 or www.computershare.com/noticeandaccess.

Non-registered Shareholders with questions about Notice and Access should contact their intermediary sufficiently ahead of the Meeting.

The foregoing summary of the Advance Notice Provisions is qualified in its entirety by the full text of such provisions contained in the Company’s by-laws. Pursuant to the Company’s by-laws, a Shareholder wishing to nominate an individual to be a director, other than pursuant to a requisition of a meeting made pursuant to the CBCA or a shareholder proposal made pursuant to the provisions of the CBCA, is required to comply with the advance notice provisions in the by-laws (“**Advance Notice Provisions**”) that provides that, in the case of an annual meeting of shareholders, such as the Meeting, notice to the Company must be made not less than thirty (30) days nor more than sixty-five (65) days prior to the date of the meeting of shareholders; provided, however, that in the event the meeting is to be held on a date that is less than fifty (50) days after the date on which the first public announcement of the date of the annual meeting was made, notice may be made not later than the close of business on the tenth (10th) day following such public announcement. The foregoing is merely a summary of the Advance Notice Provisions

in the Company's by-laws, is not comprehensive and is qualified by the full text of such provisions. As at the date hereof, no director nominations have been made by Shareholders in connection with the Meeting under the terms of the Advance Notice Provisions.

BUSINESS OF THE MEETING

Financial Statements

The audited financial statements of the Company as at and for the fiscal year ended December 31, 2025, together with the auditors' report thereon, and the accompanying management's discussion and analysis, are filed on SEDAR+ at www.sedarplus.com, on the Company's website at www.orezone.com and on www.envisionreports.com/Orezone2026. The financial statements will be placed before the Shareholders at the Meeting.

Election of the Directors

The Board currently consists of seven directors and the Board has fixed the number of directors following the Meeting at six. Each director elected will hold office until the next annual general meeting or until a successor is duly elected or appointed, unless his or her office is vacated earlier in accordance with the by-laws of the Company.

As part of the Company's Board renewal process, Mr. Conway will not stand for re-election at the upcoming Meeting. Mr. Conway has served on the Board since October 2014 and has been instrumental in key milestones in the Company's development, including the financing and construction of the Bomboré oxide and hard rock plants and the acquisition of the Casa Berardi mine. The Board extends its sincere appreciation to Mr. Conway for his leadership and significant contributions over his tenure.

The Company intends to augment the Board in due course with a director with extensive operating experience, including in underground mining, to strengthen operational oversight and support the Company's next phase of growth and future opportunities.

Management does not contemplate that any nominee will be unable or unwilling to serve as a director, but if that should occur for any reason prior to the Meeting, the persons designated in the enclosed form of proxy have the authority to vote for another nominee at their discretion.

No proposed director is being nominated pursuant to any arrangement or understanding between the Company, the proposed director and any other person or company.

On August 31, 2022, amendments to the CBCA came into force which impact how directors of CBCA corporations, such as the Company, are elected. As a result of the amendments, directors are not considered elected unless they receive more votes in favour than against at an uncontested meeting. The TSX has indicated that these amendments satisfy its requirement for majority voting and, accordingly, the Company repealed its majority voting policy as it is no longer necessary. At the Meeting, a nominee will only be elected if the votes cast in their favour represent a majority of the votes cast with respect to that nominee, and shareholders may vote for or against the election of each nominee.

For information regarding each of the director nominees, please see "Information Regarding the Board and the Director Nominees".

Unless otherwise instructed, the persons named in the accompanying proxy form or voting instruction form intend to vote FOR the election of the nominees as set forth in the accompanying proxy form or voting instruction form.

Appointment of Auditors

Management of the Company proposes that Deloitte LLP ("**Deloitte**") be appointed as auditors of the Company until the close of the next annual general meeting of Shareholders, and that the directors be authorized to fix their remuneration. Deloitte was initially appointed as auditors of the Company for the fiscal year ended December 31, 2009.

Unless otherwise instructed, the persons named in the accompanying proxy intend to vote FOR the appointment of Deloitte as auditors of the Company, and FOR authorizing the Board to fix their remuneration.

Deloitte will hold office until the close of the next annual general meeting of Shareholders or until their successors are appointed.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES AND DIVERSITY REQUIREMENTS

The following provides information with respect to the disclosure set forth in National Instrument 58-101 – *Disclosure of Corporate Governance Practices* and Section 172.1(1) of the CBCA.

The Board believes its governance practices are appropriate for the Company's size, stage of development and operational complexity, and are consistent with the expectations of institutional investors and applicable regulatory requirements.

Assuming all of the proposed nominees are elected as directors at the Meeting, it is anticipated that the Board committees will be reconstituted as follows:

- Audit Committee – Rob Doyle (Chair), Tara Hassan and Julian Babarczy
- Corporate Governance, Nominating and Compensation Committee – Sean Harvey (Chair), Rob Doyle and Kate Harcourt

Corporate Cease Trade Orders, Bankruptcies, Penalties or Sanctions

Except as noted below, Item 7.2 of Form 51-102F5 *Information Circular* is not applicable.

Mr. Harvey was a director of Victoria Gold Corp. until his resignation on August 13, 2024. Victoria Gold Corp. was placed into receivership by the Yukon Government on August 14, 2024 pursuant to an order of the Ontario Superior Court of Justice (Commercial List).

Mr. Babarczy remains a director of the private Australian media-technology company Oovvuu Pty Ltd, which was placed into liquidation in May 2022 after being unable to secure additional funding to support the company's growth. Oovvuu Pty Ltd aimed to build a curated news video content ecosystem for the global online publishing industry. However, it faced slower-than-expected customer acquisition during a period when raising capital for private companies in Australia proved particularly difficult. Despite financial support from the directors, the decision was ultimately made to close the business due to its lack of commercial traction.

Director Independence

The Board considers a director to be independent if the director meets the definition of independence set forth in National Instrument 52-110 *Audit Committees* and if the director has no direct or indirect material relationship with the Company which, in the view of the Board, could reasonably be perceived to materially interfere with the exercise of the director's independent judgement. The Chair of the Board is independent and the current Board is comprised of a majority of independent directors. For Canadian purposes, only Patrick Downey, the President and Chief Executive Officer of the Company, is not considered independent.

Assuming that all the proposed nominees are elected as directors at the Meeting, the Board will be composed of a majority of independent directors and, for Canadian purposes, only Mr. Downey would not be considered independent.

In making the foregoing determinations, the circumstances of each director have been examined in relation to a number of factors, including discussions with each director and a review of the resumes of the directors and the corporate relationships and other directorships held by each of them.

The Board facilitates its independent supervision over management of the Company by holding quarterly and periodic meetings of the Board to approve various matters where appropriate and discuss the business and operations of the Company. The Board has free access to the Company's external auditor and to any of the Company's executive officers. Directors are expected to attend Board meetings and meetings of committees on which they serve and to spend the time needed and meet as frequently as necessary to properly discharge their responsibilities. Every Board or committee meeting includes an in-camera session without non-independent directors and members of management present. From January 1, 2026 to the date of this Circular, the Company has held four Board meetings, each of which included an in-camera session without non-independent directors or management present.

Position Descriptions

The Company has adopted written position descriptions for the Chair of the Board and the Chief Executive Officer. Position Descriptions are further noted in each charter of the committees and are available on the Company's website.

Board Mandate

The Board has adopted a Board Mandate. Please see Schedule “B” for the written text of the Board Mandate.

Orientation and Continuing Education

Pursuant to the Board Mandate, the Board will maintain a formal program for the orientation and onboarding of new directors to assist them in understanding the Company’s business, operations, governance framework, and their responsibilities as directors of a publicly listed entity. This program may include briefings from senior management, access to key corporate documents and policies, and meetings with other directors and committee chairs.

In addition, the Board shall periodically assess whether there is a need for existing directors to undertake ongoing professional development to ensure they maintain the necessary skills, knowledge, and understanding to fulfill their duties effectively and to stay current with evolving governance, legal, and industry developments. Mr. Ryan Goodman, SVP & General Counsel of the Company, ensures the Company is compliant with Canadian corporate and securities laws, as well as the policies of the TSX and ASX.

Code of Business Conduct and Ethics

The Company’s Code of Business Conduct and Ethics (the “**Code**”) can be viewed on the Company’s website or a copy can be obtained by contacting the Company. Each employee is provided a copy of the Code and must read and sign the Code upon commencement with the Company and thereafter on a yearly basis. The Board encourages and promotes an overall culture of ethical business conduct by promoting compliance with applicable laws, rules and regulations in all jurisdictions in which the Company conducts business; providing guidance to directors, officers and employees to help them recognize and deal with ethical issues; promoting a culture of open communication, honesty and accountability; and ensuring awareness of disciplinary action for violations of ethical business conduct.

The Company has also instituted a whistleblower policy and a whistleblower reporting mechanism through an independent third-party provider whereby concerns can be reported anonymously online or via a toll-free number. The whistleblower policy is distributed to employees and can be viewed on the Company’s website and the whistleblower reporting mechanism is communicated through posters at the Company’s operations.

Any director or officer that has a material interest in a transaction or agreement that is being considered by the Company is required to declare a conflict of interest and is excluded from voting and from the decision-making process with respect to that issue.

Nomination of Directors

The Company’s Corporate Governance, Nominating and Compensation Committee (the “**CGNC Committee**”) is comprised entirely of independent directors. A primary function of the CGNC Committee is the recruiting and reviewing potential nominees for directors of the Company to ensure appropriate skill and experience levels. The CGNC Committee provides its recommendation to the Board and the Board reviews and, if found acceptable, approves the recommendation.

The CGNC Committee assesses potential Board candidates to fill perceived needs on the Board for required skills, expertise, independence and other factors. Members of the Board and representatives of the mining industry are consulted for possible candidates.

Compensation Consultant

A primary function of the CGNC Committee is to assist the Board in determining the appropriate level of compensation to pay the Chief Executive Officer, Chief Financial Officer, other executive officers and directors. For a detailed discussion of the steps taken to determine compensation for the directors and executive officers, please see “Statement of Executive Compensation” and “Statement of Director Compensation” in the Circular.

The CGNC Committee pre-approves all consultant mandates related to executive and director compensation, as well as the associated fees for such mandates. The following table sets out the fees paid by the Company to compensation consultants for services related to determining and structuring compensation for any of the Company’s directors and executive officers during the two most recently completed financial years:

Consultant	Financial Year Ending December 31	Executive Compensation Related Fees	All Other Fees
Lane Caputo Compensation Inc.	2025	\$34,500	-
-	2024	-	-

Board Assessments

The Board, its committees and its individual directors are assessed regularly, and at a minimum on an annual basis, as to their effectiveness and contribution. The Board, with the assistance of the CGNC Committee, monitors, assesses and reviews the performance and effectiveness of the Board and its individual directors. Assessments are determined by examining a number of factors, including attendance at and participation at meetings, meeting preparedness, ability to communicate ideas clearly and overall contribution to effective Board performance.

In early 2026, the Board completed a skills matrix and questionnaire to identify and evaluate the competencies and skills of the members based on the individual experience and background of each director. The skills matrix is reviewed and updated each year based on self-assessment by each director whereby each director is asked to rate their experience and background in a variety of key subject areas. This data is compiled into a matrix representing the broad skills of the current directors. This matrix is maintained to identify areas for strengthening the Board, if any, and address them through the recruitment of new members.

Overall, the Board is viewed as effective and well-composed, with a strong foundation of skills and a constructive, well-functioning relationship with management. Feedback was largely centered on ensuring that Board processes continue to scale alongside the Company's growth and increasing operational complexity. Directors noted the benefit of increasing in-person meetings. As the Company advances across multiple jurisdictions, continued Board oversight will support the effective execution of its growth strategy while maintaining the Company's current high level of performance.

As noted above, the Company intends to augment the Board in due course with a director with extensive operating experience, including in underground mining, to strengthen operational oversight and support the Company's next phase of growth and future opportunities.

Diversity Disclosure

The Company recognizes that a workforce made up of individuals with a diverse mix of skills, experience, perspectives, backgrounds and characteristics leads to a more robust understanding of opportunities, issues and risks, and to stronger decision-making. The Company is committed to a merit-based system for the composition of its Board, management, and workforce within a diverse and inclusive culture that solicits multiple perspectives and views free of bias and discrimination.

The Company recognizes the benefits of having diversity on the Board and in senior management. Diversity is important to ensure that members of the Board and management possess the necessary range of perspectives, experience and expertise required to achieve the Company's objectives.

Diversity means all the varied characteristics that make individuals unique from one another. It includes, but is not limited to, characteristics such as gender, education, religion, ethnicity, race, nationality, culture, language, aboriginal status, age, disability and other characteristics.

The Company's Diversity Policy provides a basic framework within which the Company will consider the principles of diversity when recruiting, developing and appointing the senior management team and Board members, with the goal of having talented, knowledgeable persons with diverse experience, backgrounds and perspectives guiding the Company.

The Diversity Policy includes requirements for the Board to establish measurable objectives for achieving diversity, with the objective to reach a level of 30% of women in leadership positions throughout the organisation, and 30% for identification and nomination of women to the Board with a commitment to maintain a minimum of two women on the Board at all times. The Company will undertake a multi-pronged approach to achieving a more diverse composition which may include providing training and education to all employees and Board members in the areas of diversity, equality and inclusion. The Board will review the

Company's progress in meeting these objectives and the effectiveness of these objectives each year.

In addition to gender diversity, the Company also considers other forms of diversity in terms of Designated Groups (as defined under the *Employment Equity Act* (Canada)) such as Indigenous peoples, persons with disabilities and members of visible minorities. As of the date of this Circular, the Board did not have any directors or NEOs (as defined herein) that are members of a visible minority.

As of the date of this Circular, the Company has two female directors and no other women, Indigenous peoples, persons with disabilities, or members of visible minorities on the Board or as an executive officer. The Company does however have female representation in management positions at corporate (including at the VP level), the Casa Berardi mine and the Bomboré mine. Of the proposed six nominees for directors of the Company, two are females, representing 33% of the proposed nominees.

As of the March 31, 2026:

- at Bomboré, female representation was 12.9% at the management level and 9.3% across the total employee workforce
- at Casa Berardi, female representation was 16.6% at the management level and 12.0% across the total employee workforce.

A copy of the Diversity Policy is available on the Company's website.

Term Limits

The Company has not adopted term limits for the directors or other mechanisms of Board renewal other than each director is required to be re-elected yearly. The Company anticipates that appropriate levels of turnover to continue through the normal processes in the future. Rather than instituting a policy of defining fixed terms or mandatory retirement for directors, the CGNC Committee will continue ongoing reviews of performance of the Board as a whole, as well as individual performance.

STATEMENT OF EXECUTIVE COMPENSATION

Repositioning Orezone – Key Accomplishments

During 2025 and into 2026, the Company delivered several important milestones that reflect both disciplined execution and a clear focus on long-term growth.

Liquidity and Investor Base. The Company successfully completed a secondary listing on the ASX on August 8, 2025, broadening the Company's investor base and further strengthening its capital markets profile. Effective March 20, 2026, the Company was included in the VanEck Junior Gold Miners (GDXJ) exchange-traded fund, marking an important step in increasing the Company's visibility among global investors.

Operationally. Operationally, the Company completed construction of the 2.5 Mtpa stage 1 hard rock expansion at Bomboré on time and on budget with first gold declared on December 15, 2025 and commercial production declared on January 16, 2026. At the same time, the Company's exploration programs continued to deliver encouraging results, including the confirmation of down-plunge continuity of high-grade zones beneath existing resource pits and the identification of several near-surface extensions at Bomboré.

Transformative Acquisition. The Company completed the acquisition of the Casa Berardi gold mine and a portfolio of exploration assets in Quebec. This strategic and transformational transaction establishes the Company in a Tier 1 jurisdiction and positions Orezone as a diversified, multi-asset producer with increased scale, production and free cash flow.

Orezone's strategic rationale for the acquisition of Casa Berardi includes:

- Transforms the Company into a diversified gold producer with operations in a top-tier mining jurisdiction
- Delivers immediate scale and increased gold production, strengthening the Company's leverage to the gold price
- Establishes a robust growth pipeline through Casa Berardi's established resource and reserve base, and significant exploration upside across a 37 km mineralized corridor
- Creates a multi-asset portfolio that reduces single-asset risk and positions the Company for sustained value creation
- Enhanced capital markets presence through increased size and jurisdictional diversification, and potential re-rating of valuation multiples
- Aligns with the Company's ESG commitment by adding an operation with a strong health, safety, and environmental track record
- Opportunity for the Company's experienced technical and operational team in collaboration with site management to unlock meaningful value through sustained investment in exploration and development.

The acquisition of Casa Berardi was structured to minimize equity dilution to Orezone shareholders by leveraging on the Company's cash holdings and expected strong free cash flow generation from its two operating mines.

Compensation Discussion and Analysis

The following Compensation Discussion and Analysis describes the Company's executive compensation philosophy, programs and decisions for the fiscal year ended December 31, 2025 (the **"2025 Fiscal Year"**). It is intended to provide shareholders with a clear understanding of how the Company compensates its executive officers and how compensation outcomes are aligned with Company performance and shareholder interests.

For the 2025 Fiscal Year, the Company's named executive officers ("**NEOs**") were:

- Patrick Downey, President & CEO
- Peter Tam, EVP & CFO
- Ryan Goodman, SVP & General Counsel
- Kevin MacKenzie, SVP Corporate Development
- Dale Tweed, VP Engineering

Setting Executive Compensation and Compensation Governance

The Company's CGNC Committee is comprised of independent members of the Board: Joe Conway (Chair), Sean Harvey and Tara Hassan. Each member of the CGNC Committee has been in a senior leadership position in various organizations, and in those capacities obtained direct experience relevant to executive compensation and have the skills and experience that enable the CGNC Committee to make decisions on the suitability of the Company's compensation policies and practices.

The CGNC Committee meets at least twice per year, or more frequently as required and may also pass written resolutions as needed. The CGNC Committee held four meetings during the 2025 Fiscal Year and has met two times in 2026. The CGNC Committee's primary functions with respect to executive compensation are to:

- assist the Board in determining the appropriate level of compensation to pay the NEOs and directors
- review and approve the executive compensation disclosure included in the management information circulars.

The CGNC Committee is granted open access to information about the Company that is necessary or desirable to fulfill its duties.

Objectives of the Company's Compensation Program

The Company operates the Casa Berardi gold mine in Quebec, Canada and the Bomboré gold mine in Burkina Faso, West Africa. Management of the Company has specialized skill and knowledge that are required in the exploration for minerals, and in the subsequent development, construction and operation of a mine. These include specialized geological, engineering, and related technical skills.

The Company's compensation program is designed to:

- attract and retain qualified executives with the experience required to operate and grow a multi-asset mining business
- align executive compensation with Company performance and shareholder returns
- provide a significant portion of compensation that is "at-risk" and linked to measurable performance outcomes.

Compensation decisions are based on a combination of Company performance, individual performance, market practices and the need to retain an experienced management team capable of executing the Company's strategy.

The Company believes the elements of the Company's compensation program is consistent with that of its Peer Group (discussed below). The compensation of the executive officers is based, in substantial part, on industry compensation practices (including the level of expertise of the officer, length of service to the Company, responsibilities related to the position and the individual's performance), trends in the mining industry and achievement of the Company's objectives. Compensation is also influenced by the need to retain and provide continuity of an experienced management team who can and will travel to places such as Burkina Faso to help ensure that the Company's business plan and corporate objectives can be achieved with respect to the Bomboré operations.

For the 2025 Fiscal Year, the CGNC Committee considered that the Company's compensation program should be balanced between reasonable annual compensation and short and long-term compensation tied to performance of the Company as a whole and individual performance based on Key Performance Indicators (further discussed below).

Elements of the Company's Compensation Program

The Company's compensation program is comprised of base salary, annual incentive compensation, long-term incentive awards and benefit plans. The CGNC Committee reviews each component of compensation (other than the benefit plans which is standard for its Canadian employees) for each executive officer and makes compensation recommendations to the Board. In evaluating each executive officer, the CGNC Committee considers among other things, the recommendations of the CEO. The Board reviews the recommendations and has complete discretion over the final amount and composition of each executive officer's compensation.

Component	Objective / Rationale	
Base Salary	The primary element of the Company's compensation program is base salary. The Company's view is that a competitive base salary is a necessary element for attracting and retaining qualified executive officers. The amount of base salary payable to an executive officer is determined primarily by the level of responsibility and the importance of the position to the Company, and the range of salaries offered by comparable companies in a similar stage of development within the mining industry. Base salaries are reviewed annually by the CGNC Committee and recommendations are put forth to the Board.	FIXED Compensation
Annual Incentive Compensation	An annual incentive is a discretionary short-term variable element of compensation that may reward an individual for corporate and/or individual performance. The CEO presents recommendations to the CGNC Committee with respect to bonuses to be awarded to the executive officers (including himself) and to the other employees of the Company. The CGNC Committee evaluates this utilizing the overall objective assessment process described in this "Statement of Executive Compensation" section. The CGNC Committee then makes a determination of the bonuses to be awarded in respect of the past year and recommends such determination to the Board. For the 2025 Fiscal Year, the CGNC Committee established a formal set of benchmarks or performance criteria to be met for a NEO to be awarded any amount as an annual incentive compensation. Please see "Compensation Policies and Benchmarking" and "Key Performance Indicators and Additional Requirements."	AT RISK Compensation
Long-Term Incentive Awards	The grant of stock options ("Options"), restricted share units ("RSUs") and performance share units ("PSUs") to employees is determined by the Board from recommendations made by the CGNC Committee. The executive officers also play a role in that they recommend to the CGNC Committee the long-term incentive awards for non-executive employees. Individual grants are determined by an assessment of the individual's current and expected future performance, level of responsibilities, the importance of his or her position and contribution to the Company, and previous grants and exercise prices for options. For a summary of the Option Plan, RSU Plan and PSU Plan, please see Schedule "A".	AT RISK Compensation
Benefit Plans	The Company provides a benefit package to help ensure the health of its employees. In order to remain competitive in the labour market and to be able to retain and recruit qualified employees, and to assist employees with their retirement savings, the Company has a retirement savings contribution plan whereby the Company will make an annual retirement contribution equal to 5.0% of an employee's annual salary in the previous calendar year up to an individual maximum of \$15,000 per year.	FIXED Compensation

No pension or retirement compensation plans, including defined contribution plans, have been instituted by the Company for its NEOs and none are proposed at this time.

Compensation Policies and Benchmarking

The following are key highlights of the Company's executive compensation plan that are in place to ensure good corporate governance.

Item	Description
Review of Compensation Risks	A misalignment between the Company's vision and corporate objectives and employee performance and decision-making can be a significant risk. To date, the Company has not identified any risks arising from the Company's compensation policies and practices that are reasonably likely to have an adverse material effect on the Company. The executive team, CGNC Committee and Board regularly reviews the Company's compensation policies and

	practices to manage ongoing motivation and retention and market competitiveness, as well as to encourage responsible and thoughtful decision making by employees that is focused and aligned with the efforts and priorities of the Company and its corporate objectives.												
Independent Advice on Compensation Levels and Practices	In late 2025, the CGNC Committee engaged Lane Caputo Compensation Inc. (“Lane Caputo”), a compensation consulting firm, to provide an independent, third-party analysis of the compensation levels and practices for the Company’s senior executive team as well as the compensation for the Board. Lane Caputo was also engaged by the CGNC Committee In late 2023, the first full year after achieving commercial production at the Bomboré mine. Consistent with the Company’s objective of aligning executive compensation with performance and shareholder experience, Lane Caputo recommended a compensation strategy that targets fixed compensation at the median of the market, with short- and long-term incentive opportunities designed to deliver above-market total direct compensation in the event of strong corporate, individual and share price performance. The Company did not inform Lane Caputo of the then-pending potential acquisition of the Casa Berardi mine and exploration properties, which may have been expected to positively influence its assessment.												
Peer Group	Standard compensation methodology involves benchmarking compensation practices against a group of companies of similar size with relevant operations in the same regional geography. The resulting peer group then represents a realistic market against which to define the Company’s compensation strategy. Compensation structure is strongly influenced by many factors including but not limited to, industry, development stages, size (market capitalization, enterprise value, production volumes and annual revenues), geographical similarity of operations and headquarter location of the corporate office. To reflect the Company’s current size and stage of development, the peer group used in the review completed by Lane Caputo included the following companies which the Company used as its benchmark for the 2025 Fiscal Year: <table><tr><td>Allied Gold Corp.</td><td>K92 Mining Inc.</td><td>Resolute Mining Ltd.</td></tr><tr><td>Assante Gold Corp.</td><td>Lucara Diamond Corp.</td><td>TRX Gold Corp.</td></tr><tr><td>Aya Gold & Silver Inc.</td><td>Montage Gold Corp.</td><td>West African Resources Ltd.</td></tr><tr><td>Galiano Gold Inc.</td><td>Orla Mining Ltd.</td><td></td></tr></table>	Allied Gold Corp. Assante Gold Corp.	Lucara Diamond Corp.	TRX Gold Corp.											
Aya Gold & Silver Inc.	Montage Gold Corp.	West African Resources Ltd.											
Galiano Gold Inc.	Orla Mining Ltd.												
Relevant Performance Metrics	The performance metrics and expected performance levels for the annual incentive plan are reviewed on an annual basis to ensure the metrics and expected performance focus the NEOs on relevant activities for the business and align payouts to positive performance for the Company’s shareholders. For the 2025 Fiscal Year, this included: • Operational Execution, including production and cost execution at the Bomboré mine • Growth Initiatives, including delivery of the hard rock plant on time and on budget, other projects, exploration success and listing on the ASX • Relative Total Shareholder Return, including share price performance • Health, Safety, Environment and Community metrics												
At-Risk Pay	A significant portion of a NEOs compensation is related to at-risk pay including the use of share-based awards to align compensation to the share performance and as such a NEOs compensation may increase and decrease in alignment with the total shareholder return. To further align compensation to the Company’s share performance, the Company adopted a PSU Plan in 2025 which is a non-equity incentive plan. The PSU Plan uses metrics such as total shareholder return relative to the performance of a junior gold index and includes a three-year cliff vesting schedule. Please see Schedule “A” for a summary of the PSU Plan.												

Item	Description												
Burn Rate	The Company's low annual burn rate reflects a disciplined approach to equity compensation, aligning with shareholders' interests by minimizing dilution and preserving long-term value. The burn rate for all equity-based compensation plans including directors and all employees of the Company for the 2025 Fiscal Year was 1.3%. Please see "Securities Authorized for Issuance".												
Anti-hedging	To mitigate compensation policies and practices that could encourage a NEO or individual to take inappropriate or excessive risks, rewards are subject to the approval of the Board. In addition, all employees of the Company are also subject to the Company's Code of Business Conduct and Ethics which has been adopted by the Board and signed by each employee on a yearly basis. Under the terms of the Company's insider trading policy, directors, officers, employees and other insiders are prohibited from directly or indirectly entering into any transaction or arrangement involving Company securities or any interest in equity participation plans that is designed to, or could reasonably be expected to, limit, hedge or offset the economic risk of ownership or participation. This includes, without limitation, the use of derivatives or other financial instruments, such as prepaid variable forwards, equity swaps, collars, exchange funds or similar arrangements. The prohibition applies to all Company securities and all interests granted under any equity participation plan, whether acquired under such plans or otherwise, and whether vested or unvested, and extends to any arrangement that has the effect of reducing or eliminating exposure to changes in the market value of such securities or interests.												
Clawback Policy	The Company's executive compensation clawback policy provides for the right of the Company to recover short and long-term compensation from any executive officer of the Company that has engaged in fraud, theft, embezzlement, serious misconduct or negligence that contributes to the requirement for a material restatement of the Company's financial results in order to comply with applicable securities laws.												
Share Ownership Policy	The Company's share ownership policy sets forth the Company's share ownership guidelines to further enhance alignment of the interests of non-executive directors and executive officers of the Company with the Company's shareholders. <table> <tr> <th>Position and</th><th>Multiple</th></tr> <tr> <td>• Chief Executive Officer:</td><td>3 times annual base salary</td></tr> <tr> <td>• Chief Financial Officer:</td><td>2 times annual base salary</td></tr> <tr> <td>• Chief Operating Officer:</td><td>1 times annual base salary</td></tr> <tr> <td>• Senior Vice-President:</td><td>1 times annual base salary</td></tr> <tr> <td>• Vice-President:</td><td>1 times annual base salary</td></tr> </table> Share ownership includes Shares as well as RSUs, which are valued based on their acquisition cost and grant date value, as applicable. Executive officers are required to meet these ownership requirements within three years of the policy's effective date or, for new appointees, within three years of their appointment. Once the applicable ownership level has been achieved, individuals are not required to increase their holdings solely due to fluctuations in share price; however, increases in compensation will result in a corresponding increase in the ownership requirement, to be achieved within three years. Key Performance Indicators and Additional Requirements

For the 2025 Fiscal Year, executive management in consultation with the CGNC Committee, developed criteria applicable to various elements of executive compensation including performance metrics with respect to short-term (“STIP”) and long-term (“LTIP”) incentive plans that have been used by the Company.

These metrics included threshold, target and maximum amounts for incentives and were based on key performance indicators (“KPIs”) as further discussed below.

Position	Threshold	Target	Maximum
CEO	100%	130%	150%
Other C-level executives	80%	110%	130%
SVP level executives	70%	100%	120%
VP level executives	60%	90%	110%

The specific KPIs and associated weightings used to determine each NEO’s STIP and LTIP for the 2025 Fiscal Year, as reviewed and approved by the Board in early 2025 upon recommendation of the CGNC Committee, are set out below.

For the 2025 Fiscal Year, the Board approved a structured performance framework comprising KPIs across the following categories:

- Operational execution
- Growth initiatives
- Total shareholder return
- Health, safety, environment and community (“HSEC”)

Each KPI was assessed relative to target performance and assigned a score, generally ranging from below 1.0 (below target) to above 1.0 (above target). The weighted scores across all KPIs were aggregated to determine an overall corporate performance factor, which was then used to inform annual incentive compensation outcomes.

KPI’s and Weight	Target	Performance Summary	KPI Score
Operational Execution			
Production 20%	Achieve 2025 gold production guidance of between 115,000 – 130,000 ounces of gold	In 2025, the Company produced 110,014 ounces of gold. Gold production was slightly below guidance primarily as a result of lower-than-forecasted production from the new hard rock circuit mainly due to lower head grade during commissioning. Hard rock grades mined were below plan as a result of adjusted mine sequencing from the intermittent availability of explosives in Burkina Faso.	Score: 0.8 Adjusted Weight 16.0%
All-in Sustaining Costs	Achieve AISC per gold ounce sold of between US\$1,400 – \$1,500/oz	AISC per gold ounce sold was within the revised guidance. Original guidance for AISC was exceeded primarily from higher royalties linked to higher realized gold prices, new	Score: 0.9 Adjusted Weight 18.0%

Growth Initiatives			
Hard Rock Expansion 20%	Deliver the hard rock plant on time and on budget	The stage 1 construction of the hard rock plant expansion was completed as planned with first gold poured on December 15, 2025 and commercial production declared on January 16, 2026 following a consecutive 30-day period over which plant throughput exceeded nameplate by 7% with process recovery consistent with design. Exploration Success 2.5%	Expand known resources envelopes and test new high-grade targets	2025 exploration drilling at Bomboré was successful on multiple fronts: - Confirmed down plunge continuity of high-grade zones beneath resource pits (basis to extend pits further to depth and increase life-of-mine at Bomboré) - Identified several significant near-surface deposit strike extensions (basis to increase oxide inventory) - New discoveries in both hanging wall and footwall, deposit model paradigm shift (opened up the exploration model, significantly expanding the project's prospectivity).	Score: 1.0 Adjusted Weight 2.5%
ASX 2.5%	List the Company on the ASX by Q3-2025	The Company successfully listed on the ASX in August 2025. The ASX listing broadened the Company's investor base into the Australian mining market and enhanced the Company's capital markets profile and trading liquidity. The initial public offering was strongly supported by a number of leading Australian institutional funds, who continue to be significant and supportive shareholders.	Score: 1.2 Adjusted Weight 3.5%
Other Growth Projects 5%	Permanent Back-Up Diesel Power Plant	The new diesel power plant was successfully commissioned in December 2025 as back-up to the grid to meet the 18MW to 20MW load demand of the oxide plant and the stage 1 hard rock plant. The new back-up power plant consists of ten new Caterpillar diesel gensets.	Score: 1.0 Weight 5.0%
	TSF Footprint Expansion – Cell 2	Expansion of the TSF footprint southwards into Cell 2 commenced in 2025 with progress tracking to completion in 2026. Cell 2 will be a fully lined facility with underdrainage installed to improve water recovery and storage capacity. Cell 2 will cover the ultimate TSF footprint and is designed to ensure annual lifts will provide sufficient storage of tailings generated each year by the combined oxide and hard rock operations.	
	RAP Phase IV	Construction of the main MV2 and BV2 resettlement communities were completed as planned during 2025 with the start of the BV2 site extension in October 2025 as part of Phase IV RAP. Cost underruns were achieved on RAP construction activities from tight supervision and greater use of local contractors. Continued community support remains strong.

Total Shareholder Return			
Relative Total Shareholder Return 10%	Year over Year share price increase that is 0% to 10% above the Peer Group.	For the year ended December 31, 2025, Orezone delivered a total shareholder return of 177%, significantly outperforming the Peer Group average of 135% (excluding Orezone), representing a positive share price movement that was 42% ahead of the Peer Group average.	Score: 1.5 Adjusted Weight 15.0%
Health, Safety, Environment and Community			
HSEC 20%	Based on performance across health, safety, environmental, and community objectives.	- The Company had one Lost Time Injury ("LTI"). Despite the Company's otherwise strong safety performance, a fatal incident occurred in May 2025 at the hard rock expansion construction site involving a contractor in a vehicle-related accident. - Total Recordable Injury Frequency Rate = 0.36. - Environmental incidents decreased in 2025 compared to 2024. The majority of incidents were insignificant or minor in nature. One environmental incident that was classified higher than minor occurred during the year; the incident was promptly contained and remediated, with no lasting environmental impact. - The Company maintained strong community support at Bomboré. - The Company released its Sustainability Report for the year ended December 31, 2024. In light of the LTI, the CGNC Committee applied downward discretion in determining the final KPI payout, while also taking into account the overall improvement in safety performance and reduction in incident frequency.	Score: 0.5 Adjusted Weight 10.0%
Total			92.0% out of 100%

The CGNC Committee assesses overall performance by applying the weighted KPI scores described above to determine an aggregate performance factor. This factor is then applied to each NEO's target annual incentive opportunity to determine the final payout, subject to the Committee's overall discretion and the Board's final approval.

For the 2025 Fiscal Year, the aggregate weighted performance resulted in an overall corporate performance factor below target (92% versus 100%), primarily reflecting the outcomes in health, safety and environmental performance.

Acquisition of Casa Berardi and a Portfolio of Exploration Properties

The following commentary reflects the CGNC Committee's recommendation to the Board and the Board's subsequent approval. In its review, the Board considered management's performance in connection with the acquisition of the Casa Berardi mine and the exploration properties in Quebec, which was executed over the fourth quarter of 2025 and the first quarter of 2026 and required significant management effort across due diligence, negotiation, financing and closing, particularly in the context of a rising gold price environment.

In determining 2025 short-term incentive outcomes, the Board concluded that annual bonuses should remain aligned with the pre-established corporate and individual performance objectives, including appropriate recognition of transaction-related milestones achieved during 2025 in accordance with the approved performance framework. In doing so, the Board emphasized the importance of maintaining the integrity and discipline of the annual incentive structure.

In recognition of the significant effort in conducting due diligence and negotiating a binding term sheet including the associated gold stream financing, the Board approved a separate discretionary award outside of the annual incentive framework to ensure

that annual incentive outcomes remained aligned with pre-established objectives.

2026 Target Objectives

The Company's 2026 target corporate objectives remain preliminary, as KPIs for Casa Berardi are currently under development. The 2026 KPIs are expected to follow a similar structure to the 2025 framework, with additional objectives reflecting Casa Berardi and the Quebec exploration properties.

Performance Graph

The graph below compares the percentage change in the Company's total shareholder return on a \$100 investment in common shares to the total return of S&P/TSX Global Gold Index and the VanEck Junior Gold Miners ETF for a five-year period commencing January 1, 2021 and ending December 31, 2025.

	Initial Investment	2021	2022	2023	2024	2025
Orezone Gold Corporation	\$100	\$109	\$115	\$77	\$58	\$161
S&P/TSX Global Gold Index	\$100	\$95	\$92	\$97	\$117	\$287
VanEck Junior Gold Miners ETF	\$100	\$77	\$67	\$72	\$81	\$224

As described above, the CGNC Committee considers a range of factors in determining NEO compensation, including share performance, which is incorporated into the Company's KPIs. A significant portion of NEO compensation is at-risk and includes share-based awards intended to align compensation with total shareholder return.

Notwithstanding the positive share price appreciation in 2025 and the Company's achievement of significant operational milestones in 2025, including the successful construction and ramp-up of the stage 1 hard rock expansion in 2025 with first gold on December 15, 2025, the Company's share performance over the period reflects a combination of operational execution and external market factors. While broader gold equity indices and ETFs, including the VanEck Junior Gold Miners ETF, benefited from diversified exposure across multiple jurisdictions, the Company's share price on the TSX has reflected a jurisdictional discount applied by the North American market to a single-asset producer operating in Burkina Faso.

Limited liquidity on the TSX has also impacted the Company's share price performance, contributing to periods of heightened volatility and constrained trading activity.

In response, in late 2024 the Company undertook a review of strategic alternatives to enhance its capital markets profile and trading liquidity, including a listing on the ASX. On August 6, 2025, the Company completed its ASX initial public offering and commenced trading on the ASX on August 8, 2025. The offering was well supported by large established institutional and retail investors, and initial trading volumes were strong. Trading volumes and share prices were subsequently impacted by specific conditions affecting companies operating in Burkina Faso, including increased investor sensitivity to jurisdictional risk and uncertainty regarding government's increased ownership in mining projects. Although the Company confirmed with the Ministry of Mines that the Burkina Faso State has no intention to acquire an additional ownership interest in the Bomboré mine, trading

volumes on the ASX took some time to recover but have since increased.

Following the Company's announcement on January 26, 2026 of a definitive agreement to acquire the Casa Berardi mine and a portfolio of exploration properties in Québec, trading volumes on the TSX increased significantly and have remained elevated through closing of the transaction on March 25, 2026 and as of the date of this Circular.

With the addition of a Canadian asset and diversification into a Tier 1 jurisdiction, the Company expects improved market attention, enhanced liquidity and broader investor participation, which may support a re-rating of its share price over time.

Under the terms of the employment agreements with the NEOs, no compensation other than compensation earned prior to the date of termination is payable by the Company in the event the employment agreement is terminated for just cause or voluntarily terminated. If the Company terminates the employment without cause, or in the event of a change of control, the NEO is entitled to receive a lump sum amount equal to:

For the purposes of the employment agreements, a “change of control” means: (i) any change in the holding of the Shares in the capital of the Company as a result of which an entity or group of entities acting jointly or in concert (whether by means of a shareholder agreement or otherwise) or entities associated or affiliated with any such entity or group within the meaning of the CBCA, other than the employee and his or her respective associates becomes the owner, legal or beneficial, directly or indirectly, of 40% or more of the Shares in the capital of the Company or exercises control or direction over 40% or more of the Shares in the capital of the Company; or (ii) a sale, lease or other disposition of all or substantially all of the property or assets of the Company (other than to an affiliate which assumes all of the obligations of the Company to the employee including the assumption of the employment agreement); or (iii) a reorganisation, amalgamation or merger (or plan of arrangement in connection with any of the foregoing), not approved by the Board, other than solely involving the Company and one or more of

its affiliates, with respect to which substantially all of the persons who were the beneficial owners of the Shares in the capital of the Company immediately prior to such reorganisation, amalgamation, merger or plan of arrangement do not, following any such event, beneficially own, directly or indirectly, more than 40% of the aggregate voting power of all outstanding equity Shares of the Company; or (iv) a change in the composition of the Board which occurs at a single meeting of the Shareholders or upon the execution of a Shareholder's resolution, such that individuals who are members of the Board immediately prior to such meeting or resolution cease to constitute a majority of the Board, without the Board, as constituted immediately prior to such meeting or resolution, having approved of such change.

STATEMENT OF DIRECTOR COMPENSATION

The primary objective of the Company's director compensation program is to attract and retain qualified individuals to serve on the Board and to incentivize the directors to contribute effectively to the strategic direction and oversight of the Company. The Company's director compensation program is designed to align the interests of the Company with those of Shareholders, ensuring that directors are motivated to act in the best interests of the Company and its stakeholders.

The Company maintains a flat-fee compensation program consisting of an annual retainer (a cash incentive and a non-cash incentive) and additional compensation for being the Chair of the Board, or a Chair or member of a Board committee. No additional fees are paid to directors for attendance at Board or committee meetings or any other meetings and no travel per diems or compensation for travel time are provided.

Directors' fees are recommended by the CGNC Committee based on input from Lane Caputo, a review of prevailing market conditions and a comparison to companies with similar lines of business, market capitalization and public stock exchange listings. This recommendation is then subject to the approval of the Board.

For the 2025 Fiscal Year, annual compensation for directors who are not NEOs consisted of a cash retainer and a non-cash retainer, both of which remained unchanged from 2024.

Board Membership and Committees	Cash Retainer (C\$)	Non-Cash Retainer (C\$)
Member: cash retainer and non-cash incentive	75,000	120,000
Chair: additional cash retainer and non-cash incentive	55,000	30,000
Audit Committee Chair: additional cash retainer	16,000	-
Committee Chair: additional cash retainer (other than the Audit Committee)	12,500	-
Committee Member: additional cash retainer	5,000	-

For the 2025 Fiscal Year, the non-cash incentive awarded consisted of deferred share units ("DSUs"). In previous years the non-cash incentive was split between DSUs and stock options. The DSU's fully vest on the date of grant however the DSUs can only be exercised when the individual ceases to be a director of the Company. The number of DSU's issued are determined in accordance with the DSU Plan. The Board believes that inclusion of 'at-risk' compensation promotes the objectives of director retention and alignment with long-term shareholders.

Directors are also reimbursed for out-of-pocket expenses incurred for Company purposes.

Special Committee – Acquisition of Casa Berardi and Portfolio of Exploration Properties

In connection with the acquisition of Casa Berardi and the portfolio of exploration properties located in Quebec (the "Properties"), the Board established a special committee of the Board (the "Special Committee") consisting of Messrs. Conway (Chair), Harvey and Doyle. The Special Committee was mandated to review, consider and evaluate the proposed acquisition of the Properties, including the structure of the transaction and any related financing arrangements, such as the gold stream financing with Franco-Nevada Corporation, and to consider any alternative transactions, as well as to make recommendations to the Board. Each member of the Special Committee received \$30,000, and the Chair received an additional \$5,000, in recognition of the significant additional time and effort required in connection with the evaluation and execution of the transaction.

Following the Special Committee's review and deliberations, and after considering such factors as it deemed relevant, including

the terms and conditions of the definitive agreements, the anticipated benefits and risks of the transactions, available strategic alternatives, the potential impact on stakeholders, and the advice, reports and opinions of BMO Nesbitt Burns Inc., as financial advisor, and other professional advisors, the Special Committee unanimously recommended that the Board approve the transaction.

Performance share Unit Plan

A summary of the material terms of the PSU Plan follows, which is qualified in its entirety by reference to the text of the PSU Plan, a copy of which is available on the Company's website at www.orezone.com (the Company will, upon request from a Shareholder, provide a copy of the PSU Plan). PSUs are cash-settled and do not result in the issuance of Shares.

Subject to the satisfaction of the Performance Criteria (defined below) over the Performance Period (defined below), the PSUs will be cash-settled by the Company shortly after vesting. With respect to the outstanding PSUs as of December 31, 2025, the Performance Criteria to be satisfied during the Performance Period is as follows:

The number of PSUs that will vest upon satisfaction of the Performance Criteria is linked to the Company's relative total shareholder return ("TSR") over a three-year performance period from January 1, 2025 to December 31, 2027 (the "**Performance Period**") as compared to the performance of the VanEck Junior Gold Miners ETF ("**GDXJ**") over this same period. The TSR will be calculated according to the following formula:

$$\frac{(\text{Share Price at end of Performance Period} - \text{Share Price at start of Performance Period}) + \text{Dividends}}{\text{Share Price at start of Performance Period}}$$

The potential PSU vesting ranges from a minimum of 0% to a maximum of 200% (the "**PSU Performance Multiplier**") of the initial PSU grant, based on the TSR performance comparison, adjusted for any dividends, over the Performance Period. The PSU Performance Multiplier will be determined as follows:

Performance Levels	Comparative TSR against GDXJ Returns over Performance Period	PSU Performance Multiplier ^{1, 2, 3}
Below threshold	Company TSR underperforms GDXJ by more than 25%	0%
Threshold	Company TSR underperforms GDXJ returns by 25%	50%
Target	Company TSR matches GDXJ returns	100%
Maximum	Company TSR overperforms GDXJ by 50%	200%

1. The PSU Performance Multiplier is capped at 100% if the Company's TSR during the Performance Period is negative, regardless of the Company's relative performance to the GDXJ.
2. The number of PSU's that will vest on the vesting date will be the number of PSU's scheduled to vest on such vesting date multiplied by the PSU Performance Multiplier. PSUs granted will only vest at the end of the Performance Period.
3. The payouts will be straight-line interpolated to determine the PSU Performance Multiplier if performance achieved falls between the threshold and maximum performance levels.

The PSU Plan utilises the comparative performance of the GDXJ. The GDXJ is a US-listed exchange-traded fund, which seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the MVIS® Global Junior Gold Miners Index, intended to track the overall performance of small-capitalisation companies primarily involved in mining for gold and/or silver. The GDXJ is widely used as a benchmark for junior gold mining equities and is one of the largest global ETFs focused on this segment of the mining industry.

The PSU Plan includes the following provisions:

- (a) The PSU Plan is intended to advance the interests of the Company by incentivising its officers, employees and consultants to participate in the success of the Company over the medium term, thereby aligning their interests with Shareholders by increasing their proprietary interest in the Company and encouraging them to remain associated with the Company.
- (b) The PSU Plan provides that PSUs shall be granted to employees or, subject to certain conditions, consultants of the Company or a related entity of the Company ("**Eligible PSU Person**") and provided that in each case, the Eligible PSU Person is an Eligible PSU Person at the time of the grant.
- (c) To determine the vesting of the PSUs under the PSU Plan, the Board will establish certain specified criteria set out in the applicable PSU agreements that may include criteria based on the Eligible PSU Person's personal performance and the Company's financial performance and achievement of corporate goals and strategic initiatives ("**Performance Criteria**"). The Board will establish the period of time which any Performance Criteria and any other conditions under the applicable PSU agreements are to be measured and by which the vesting of the PSU is determined. Once the applicable performance period has ended, the Board will assess the Eligible PSU Person's performance in light of the Performance Criteria and determine the number of PSUs that vested under the applicable PSU agreement. Please see the above Performance Criteria for the PSUs granted in 2025.
- (d) Under the PSU Plan, vested PSUs are paid out on the redemption date (which for Canadian taxpayers shall not exceed December 15th on the third calendar year following the grant date of the PSU) and the Eligible PSU Person shall receive a

cash payment equal to the fair market value of such vested PSUs as of the redemption date. The fair market value is the volume weighted average trading price per Share on the TSX for the last five trading days ending immediately before that date.

- (e) Subject to the discretion of the Board, if any Eligible PSU Person ceases to be an Eligible PSU Person, for any reason, other than for cause or death, he or she may be entitled to redeem any outstanding PSUs on the redemption date, to the extent such PSU had vested prior to ceasing to be an Eligible PSU Person. In the event of termination with cause all outstanding PSUs, whether or not vested, and any and all rights to a payment with respect to such PSUs shall be forfeited and cancelled effective as at the termination date. In the event of the death of an Eligible PSU Person, the Eligible PSU Person's estate shall be entitled to have any outstanding PSUs redeemed on the redemption date applicable to the PSU to the extent such PSU had vested on the date of the Eligible PSU Person's death and had not yet been redeemed and paid in accordance with its terms.
- (f) PSUs are non-assignable and non-transferable other than by will or by the laws governing the devolution of property in the event of death of the Eligible PSU Person.
- (g) In the event of a Change in Control (as defined in the PSU Plan), the Board may accelerate the dates upon which any or all outstanding PSUs shall vest and be redeemed, without regard to whether the Performance Criteria was met and without regard to whether such PSUs have otherwise vested in accordance with their terms. Such acceleration may or may not be conditional upon completion of the Change in Control event.

6. Directors' Remuneration and Expenses

Directors' remuneration is fixed by the Board upon the recommendation of the Corporate Governance, Compensation and Nomination Committee. The Directors are also entitled to be reimbursed for reasonable traveling and other expenses properly incurred by them in attending meetings of the Board or any committee thereof or in connection with their services as Directors.

7. Board Meeting Process

The powers of the Board may be exercised at a meeting for which proper notice has been given and at which a quorum is present or, in appropriate circumstances, by a unanimous consent resolution signed by all directors.

- (a) *Meetings:* Quarterly meetings of the directors will be called by the Corporate Secretary unless otherwise directed by the Board. Additional meetings will be called as circumstances require. Any director may call a meeting of the Board at any time.
- (b) *Notice of Meeting:* Reasonable notice of the time and place of each meeting shall be given by email or other

electronic means. A notice of meeting of directors need not specify the purpose of or the business to be transacted at the meeting except where the *Canada Business Corporations Act* requires such purpose of business to be specified.

- (c) *Quorum*: The quorum for the transaction of business at any meeting of the Board shall be a majority of directors or such other number of directors as the Board may from time to time determine according to the Articles of the Company.
- (d) *Voting*: At all meetings of the Board every resolution shall be decided by a majority of votes cast on the resolution. In case of any equality of votes, the Chair of the meeting does not have a second casting vote.
- (e) *Order of Business*: The Board shall endeavor to conduct its business effectively and efficiently. Accordingly, it shall be normal procedure to provide directors with the agenda and materials at least five business days ahead of time in order that they may arrive at the meeting fully prepared.
- (f) *Minutes of the meetings*: A secretary shall be named for each Board and committee meeting and minutes will be circulated at least one week before the next meeting. Minutes of the committee meetings will be given to each Board member.

8. Management

While this mandate primarily outlines the responsibilities and duties of the Board, the Company recognizes the importance of clearly delineating the responsibilities of management in support of effective governance. To that end, the Board may periodically review and consider whether the responsibilities of management should be set out more fulsomely in this Mandate or in a complementary document.

The principal role of the CEO is to take overall supervisory and managerial responsibility for the day-to-day operations of the Company's business. The CEO will manage the Company in an effective and efficient way to fulfil the priorities, goals and objectives as determined by the Board in the context of the Company's strategic plans and budgets.

The CEO reports directly to the Board. All other senior executive officers of the Company report to the CEO or as otherwise directed by the CEO, and are responsible for the execution of their respective duties under the CEO's leadership and direction.

The Board from time-to-time delegates to senior management the authority to enter into transactions, such as financial transactions, subject to specified limits as set forth in the DOA Policy. Investments and other expenditures above the specified limits in the DOA Policy, and material transactions outside the ordinary course of business, are reviewed by and are subject to the prior approval of the Board. This delegation of authority includes, but not limited to, the responsibility for:

- (a) Developing and recommending to the Board the Company's strategic plans, annual operating and capital budgets, and key corporate policies.
- (b) Managing the Company's business and affairs in accordance with the Company's objectives, applicable laws, regulations, internal policies, and ethical standards.
- (c) Identifying and managing the principal business risks facing the Company and establishing appropriate systems to manage and monitor those risks.
- (d) Ensuring the accuracy and integrity of the Company's financial reporting, internal controls, and disclosure controls.
- (e) Providing timely, accurate, and complete information to the Board and its Committees to enable them to effectively carry out their oversight responsibilities.
- (f) Reporting to the Board on the performance of the Company, material developments, and any other matters that may significantly affect the Company or its stakeholders.

- (g) Ensuring appropriate succession planning and development of executive leadership.
