About Alterra Power Corp.

Alterra Power Corp. is a leading global renewable energy company, operating five power plants totaling 553 MW of generation capacity, including British Columbia's largest run-of-river hydro facility and largest wind farm, and two geothermal facilities in Iceland. Alterra owns a 247 MW share of this capacity, generating over 1,250 GWh of clean power annually. Alterra has an extensive portfolio of exploration and development projects and a skilled international team of developers, explorers, builders and operators to support its growth plans. Alterra also has two new projects under construction:

- Shannon – 204 MW wind project located in Clay County Texas; expected to be in operation by Q4 2015 or Q1 2016; 50% owned by Alterra
- Jimmie Creek – 62 MW run-of-river hydro project adjacent to the existing Toba Montrose facility; expected to be in operation by Q3 2016; 51% owned by Alterra

Upon completion of these two projects Alterra will operate seven power plants totaling 819 MW of capacity and will own a 381 MW share of this capacity, generating over 1,700 GWh of clean power annually. Alterra has an extensive portfolio of exploration and development

projects and a skilled international team of developers, explorers, builders and operators to support its growth plans.

The company trades on the Toronto Stock Exchange under the symbol AXY and OTC in the United States as MGMXF.
