(the “**Agent**”) to act as Agent for the Company for the sale of the Common Shares under this preliminary prospectus (the “**Prospectus**”) on a commercially reasonable efforts basis. The Offering is subject to a minimum subscription of 2,000,000 Common Shares for total gross proceeds to the Company of \$200,000. The offering price of the Common Shares was determined by negotiation between the Company and the Agent. All funds received from subscriptions for the Common Shares will be held by the Agent, pursuant to the terms of the Agency Agreement. If the minimum subscription is not raised within 90 days of the issuance of a receipt for the final prospectus or such other time as may be consented to by persons or companies who subscribed within that period, all subscription monies will be returned to subscribers without interest or deduction, unless the subscribers have otherwise instructed the Agent. See “Plan of Distribution”.

As at the date of this Prospectus, the Company does not have any of its securities listed or quoted, has not applied to list or quote any of its securities and does not intend to apply to list or quote any of its securities on the Toronto Stock Exchange, a U.S. marketplace, or a marketplace outside of Canada and the United States of America, other than the Alternative Investment Market of the London Stock Exchange or the PLUS market operated by the PLUS Markets Group plc.

There is currently no market for the Company’s securities. The Company has applied to list its Common Shares on the Exchange. Listing is subject to the Company fulfilling all of the listing requirements of the Exchange.

Other than the initial distribution of the Common Shares pursuant to this Prospectus, the grant of the Agent’s Warrants and the grant of options to the directors, officers and consultants of the Company, trading in all securities of the Company is prohibited during the period between the date a receipt for this Prospectus is issued by the securities commission that is designated the principal regulator pursuant to National Policy 11-202 *Process for Prospectus Reviews in Multiple Jurisdictions* and the time the

Common Shares are listed for trading except, subject to the prior acceptance of the Exchange, where appropriate registration and prospectus exemptions are available under securities legislation or where the applicable securities regulatory authorities grant a discretionary order.

INVESTMENT IN THE COMMON SHARES OFFERED BY THIS PROSPECTUS IS HIGHLY SPECULATIVE due to the nature of the Company's business and its present stage of development. The Company was only recently incorporated, owns no assets (other than cash) and has not conducted active business operations. The Company has not entered into an Agreement in Principle, as that term is defined in the CPC Policy. The Company has no history of earnings and has not paid any dividends as of the date hereof. It is unlikely that the Company will generate earnings or pay dividends in the immediate or foreseeable future. The business objective of the Company is to identify and evaluate assets or businesses with a view to completing a Qualifying Transaction. There is no assurance that the Company will identify assets or businesses that warrant acquisition, in whole or in part. Even if assets or businesses are identified and the acquisition of the same or an interest therein is determined to be in the best interests of the Company, the Company may not be able to finance the acquisition with its existing resources and additional funds may be required to complete the transaction, and the Company may not be able to obtain additional financing. There can be no assurance that the Company will successfully complete any Qualifying Transaction. If the Company issues shares from its treasury to finance an acquisition, control of the Company may change and purchasers of Common Shares hereunder may suffer further dilution of their investment. The net proceeds generated from the Offering, after deducting associated costs, will be sufficient to identify and evaluate a limited number of opportunities. The officers and directors of the Company are not expected to devote their full time and attention to the business and affairs of the Company. The Company may be required to compete with others in its efforts to identify suitable assets or businesses for acquisition. **THIS OFFERING IS SUITABLE ONLY TO THOSE INVESTORS WHO ARE PREPARED TO RISK THE LOSS OF THEIR ENTIRE INVESTMENT. See "Risk Factors".**

Pursuant to the CPC Policy, no purchaser of the Common Shares is permitted to directly or indirectly purchase more than 2% (or 40,000 Common Shares) of the total number of Common Shares offered under this Prospectus. In addition, the maximum number of Common Shares that may directly or indirectly be purchased by that purchaser, together with any Associates or Affiliates (as such terms are defined herein) of that purchaser, is 4% (or 80,000 Common Shares) of the total number of Common Shares offered under this Prospectus.

Subscriptions will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. It is expected that certificates evidencing the Common Shares in definitive form will be available for delivery on the completion of the Offering.

The Common Shares are offered by the Agent, as Agent of the Company, on a "commercially reasonable efforts" basis, subject to prior sale, if, as and when issued and

delivered by the Company and accepted in accordance with the conditions referred to under the heading “Plan of Distribution” and subject to the approval of certain legal matters on behalf of the Company by Armstrong Simpson, Barristers & Solicitors, Vancouver, British Columbia, and on behalf of the Agent by McCullough O’Connor Irwin LLP, Vancouver, British Columbia.

No person is authorized to provide any information or to make any representation in connection with the Offering other than as contained in this Prospectus.

The Company was incorporated under the BCBCA on February 13, 2007. The Company is a capital pool company pursuant to the policies of the Exchange. Initially, the principal business of the Company will be the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Company has not commenced commercial operations and has no assets other than a minimum amount of cash. See "Business of the Company".

The Company will pay the Agent a commission of 10% of the gross proceeds of the Offering, a Work Fee of \$10,000 plus GST and will reimburse the Agent for its expenses, including legal fees and disbursements incurred pursuant to the Offering (of which \$5,000 has been advanced). In addition, on completion of the Offering, the Company will grant to the Agent, Agent's Warrants to purchase up to 200,000 Common Shares at a price of \$0.10 per Common Share which will be exercisable for a period of 24 months from the date the Common Shares commence trading on the Exchange. The distribution of the Agent's Warrants is also qualified under this Prospectus. See "Plan of Distribution".

The Company also intends to grant options to purchase a total of 1,200,000 Common Shares to the current directors, officers and consultants of the Company, all of which options are qualified for distribution under this Prospectus. See "Options to Purchase Securities".

Use of Proceeds

The estimated net proceeds to the Company from the sale of the Common Shares, after deducting estimated expenses and costs relating to the Offering including listing fees, the Agent's Commission, the Agent's Work Fee, the Agent's expenses, legal fees and audit expenses, will be \$125,000. The net proceeds of the Offering, together with gross proceeds from the sale of Common Shares of the Company prior to the Offering in the amount of \$750,000, will be used to provide the Company with a minimum of funds with which to identify and evaluate assets or businesses for acquisition with a view to completing a Qualifying Transaction. The Company may not have sufficient funds to secure such businesses or assets once identified and evaluated and additional funds may be required. Until Completion of the Qualifying Transaction and except as otherwise provided in the CPC Policy, a maximum of the lesser of 30% of the gross proceeds

realized from the sale of all securities issued by the Company or \$210,000 may be used for purposes other than evaluating businesses or assets. Until Completion of the Qualifying Transaction, neither the Company nor any party on behalf of the Company will engage the services of any person to provide investor relation activities or market making services. See "Use of Proceeds".

Dilution has been computed on the basis of total gross proceeds to be raised by this Prospectus and from sales of securities prior to filing this Prospectus, without deduction of commissions or related expenses incurred by the Company.

Escrowed Securities

8,575,000 of the issued and outstanding Common Shares of the Company, being 10,000,000 Common Shares, will be deposited in escrow pursuant to the terms of the Escrow Agreement, as herein defined, and will be released from escrow in stages over a period of three years after the date of the Final Exchange Bulletin. See "Escrowed Securities".

Risk Factors

An investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Company's business and its present stage of development. The

Company was only recently incorporated and has no active business or assets other than cash. It does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction. The Offering is only suitable to investors who are prepared to rely entirely on the directors and management of the Company and can afford to risk the loss of their entire investment. The directors and officers of the Company will only devote part of their time and attention to the affairs of the Company and there are potential conflicts of interest to which some of the directors and officers of the Company will be subject in connection with the operations of the Company. Assuming completion of the Offering, an investor will suffer an immediate dilution on investment of 21% or \$0.021 per Common Share. There can be no assurance that an active and liquid market for the Company's Common Shares will develop and an investor may find it difficult to resell the Common Shares. Until Completion of the Qualifying Transaction, the Company will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Company has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Company will be able to identify or complete a suitable Qualifying Transaction.

The Qualifying Transaction may involve the acquisition of a business or assets located outside of Canada. It may therefore be difficult or impossible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and it may not be possible to enforce against such persons or companies judgments obtained in Canadian courts predicated upon the civil liability provisions applicable to securities laws in Canada. See "Business of the Company", "Risk Factors", "Conflicts of Interest", and "Dilution".

CORPORATE STRUCTURE

The Company was incorporated under the British Columbia *Business Corporations Act* on February 13, 2007, as “Doxa Resources Ltd.” On January 28, 2009, the Company changed its name to “Doxa Energy Ltd.” The head office of the Company is located at Suite 2060-777 Hornby Street, Vancouver, British Columbia, V6Z 1S4, and the registered and records office of the Company is located at Suite 2080, 777 Hornby Street, Vancouver, British Columbia, V6Z 1S4.

The Company does not have any subsidiaries.

BUSINESS OF THE COMPANY

Preliminary Expenses

The Company has raised \$250,000 through the issuance of 5,000,000 Common Shares at a price of \$0.05 per Common Share and \$500,000 through the issuance of 5,000,000 Common Shares at a price of \$0.10 per Common Share (see “Description of Securities Offered - Share Capital”). To date, the Company has had no operations. The Company has incurred expenses to April 30, 2009 in the aggregate amount of \$17,126 in respect of legal, audit and administrative fees. Since April 30, 2009, the Company has incurred expenses amounting to approximately \$5,230, in respect of deposits paid to the agent and bank fees. Certain of the proceeds from the Offering may be utilized to satisfy the obligations of the Company relating to the Offering, including fees for its auditors, legal counsel and the Agent’s legal counsel and fees of the Exchange and securities commissions. See “Use of Proceeds”.

Proposed Operations until Completion of a Qualifying Transaction

To date, the Company has not conducted commercial operations and does not own any assets, other than cash, and has not entered into an Agreement in Principle (as identified in the CPC Policy). The Company proposes to identify and evaluate businesses and assets with a view to completing a Qualifying Transaction. Any proposed Qualifying Transaction must be accepted by the Exchange and in the case of a Non Arm’s Length Qualifying Transaction, is also subject to Majority of the Minority Approval in accordance with the CPC Policy. The Company does not have business operations or assets other than seed capital and the Company has not entered into an Agreement in Principle for the acquisition of an asset or business at this time. The Company currently intends to pursue a Qualifying Transaction in the natural resources sector, but there is no assurance that this will, in fact, be the business sector of a proposed Qualifying Transaction or of the Company following Completion of the Qualifying Transaction.

Until Completion of a Qualifying Transaction, the Company will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a potential Qualifying Transaction. With the consent of the Exchange, this may include the raising of additional funds in order to finance an acquisition. Except as

described under “Use of Proceeds - Restrictions on Use of Proceeds”, the funds raised pursuant to the Offering and any subsequent financing will be utilized only for the identification and evaluation of potential Qualifying Transactions and not for any deposit, loan or direct investment in a potential acquisition.

Although the Company has commenced the process of identifying potential acquisitions with a view to completing a Qualifying Transaction, the Corporation has not yet entered into an Agreement in Principle.

Method of Financing Acquisitions or Participation

The Company may use cash, bank financing, issuance of treasury shares, private or public financing of debt or equity, or a combination of these, for the purpose of financing its proposed Qualifying Transaction. **A Qualifying Transaction financed by the issue of treasury shares could result in a change in the control of the Company and may cause the shareholders’ interest in the Company to be further diluted.** See “Use of Proceeds - Private Placements for Cash” and “Risk Factors”.

Criteria for Acquisitions

The Company proposes to identify acquisitions of interests in assets or businesses through discussions with various business associates and contacts of the Company’s officers and directors. Once a prospective acquisition target has been identified and evaluated, the Company will proceed to negotiate the terms upon which it may acquire an interest in the asset or business. The approval of the board of directors of the Company is required for any proposed Qualifying Transaction identified by the Company. In exercising their powers and discharging their duties in relation to a proposed Qualifying Transaction, the directors will act honestly and in good faith with a view to the best interests of the Company and will exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

The board of directors, in considering whether to approve the terms of an acquisition, is expected to consider, among other criteria, the following:

- (a) the projected rate of return on the proposed investment and the risk of loss;
- (b) the prospects for growth, having regard to existing or potential market share;
- (c) the skill of the management team, either as it exists or as it may be supplemented as a consequence of the acquisition; and
- (d) basic financial considerations including the overall cost of the acquisition and the prospects of obtaining the debt or equity financing necessary to complete the acquisition.

Filings and Shareholders Approval of a Non Arm's Length Qualifying Transaction

Upon the Company reaching an Agreement in Principle, the Company must issue a comprehensive news release, at which time the Exchange generally will halt trading in the Company's Common Shares until the filing requirements of the Exchange have been satisfied as set forth under "Business of the Company - Trading Halts, Suspensions and Delisting". Within 75 days after issuance of such news release, the Company shall be required to submit for review to the Exchange either an information circular that complies with applicable corporate and securities laws or a filing statement that complies with Exchange requirements. An information circular must be submitted where there is a Non Arm's Length Qualifying Transaction or where shareholder approval is otherwise required. A filing statement must be submitted where the Qualifying Transaction is not a Non Arm's Length Qualifying Transaction or where shareholder approval is not otherwise required. The information circular or filing statement, as applicable, must contain prospectus level disclosure of the Target Company and the Company, assuming Completion of the Qualifying Transaction, and be prepared in accordance with the CPC Policy and Form 3B1/Form 3B2. Upon acceptance by the Exchange, the Company must then either:

- (a) file the filing statement on SEDAR at least seven business days prior to closing of the Qualifying Transaction, and issue a news release which discloses the scheduled closing date for the Qualifying Transaction as well as the fact that the filing statement is available on SEDAR, or
- (b) mail the information circular and related proxy material to its shareholders in order to obtain the Majority of the Minority Approval of the Qualifying Transaction or other requisite approval, at a meeting of shareholders.

Unless waived by the Exchange, the Company will also be required to retain a Sponsor, who must be a member of the Exchange, and who will be required to submit to the Exchange a Sponsor Report prepared in accordance with the Policies of the Exchange. The Company will no longer be considered to be a CPC upon the Exchange having issued the Final Exchange Bulletin. The Exchange will generally not issue the Final Exchange Bulletin until the Exchange has received:

- (i) in the case of a Non Arm's Length Qualifying Transaction, confirmation of Majority of Minority Approval of the Qualifying Transaction;
- (ii) confirmation of closing of the Qualifying Transaction; and
- (iii) all post-meeting or final documentation, as applicable, otherwise required to be filed with the Exchange pursuant to the CPC Policy.

Upon issuance of the Final Exchange Bulletin, the CPC Policy will generally cease to apply, with the exception of the escrow provisions of the CPC Policy and the restrictions

in the CPC Policy precluding the Company from completing a reverse take-over for a period of one year from the Completion of the Qualifying Transaction.

Minimum Listing Requirements

The Resulting Issuer must satisfy the Exchange's Minimum Listing Requirements for the particular industry sector in either Tier 1 or Tier 2 as prescribed under the applicable policies of the Exchange.

Trading Halts, Suspension and Delisting

The Exchange will generally halt trading in the Company's Common Shares from the date of the public announcement of an Agreement in Principle until all filing requirements of the Exchange have been satisfied. If the Qualifying Transaction is subject to sponsorship, the submission to the Exchange is required to include a Sponsorship Acknowledgment Form pursuant to the CPC Policy, which form is to be submitted to the Exchange in connection with the execution of a sponsorship agreement between a sponsor and the Company. In addition, personal information forms, or, if applicable, declarations, for all individuals who may be directors, senior officers, Promoters, or Insiders of the Resulting Issuer must be filed with the Exchange and any preliminary background searches that the Exchange considers necessary or advisable, must also be completed, before the trading halt will be lifted by the Exchange.

Even if all filing requirements have been satisfied and preliminary background checks completed, the Exchange may continue or reinstate a halt in trading of the Company's Common Shares for public policy reasons including:

- (a) the unacceptable nature of the business of the Resulting Issuer, or
- (b) the number of conditions precedent to, or the nature and number of deficiencies required to be resolved prior to, Completion of the Qualifying Transaction, are so significant or numerous as to make it appear to the Exchange that the halt should be reinstated or continued.

A trading halt may also be imposed by the Exchange where the Company fails to file the supporting documents relating to the Qualifying Transaction within a period of 75 days after public announcement of the Agreement in Principle or if the CPC fails to file post-meeting or final documents as applicable, within the time required. A trading halt may also be imposed if a Sponsor terminates its sponsorship.

The Exchange may suspend from trading or delist the Common Shares of the Company where the Exchange has not issued a Final Exchange Bulletin to the CPC within 24 months of the date of listing. In the event that the Company's Common Shares are delisted by the Exchange, within 90 days from the date of such delisting, the Company shall wind up and shall make a pro rata distribution of its remaining assets to its shareholders, unless shareholders, pursuant to a majority vote exclusive of the votes of

Non-Arm's Length Parties to the Company determine to deal with the remaining assets in some other manner.

If the Company does not complete a Qualifying Transaction within 24 months of the date of listing, it may apply for listing on NEX rather than be delisted. In order to be eligible to list on NEX, the Company must:

- (a) either: (i) cancel all escrowed Common Shares purchased by Non-Arm's Length Parties to the Company at a discount to the Offering price, in accordance with section 11.2(a) of CPC Policy, as if the Company had delisted from the Exchange, or (ii) subject to majority shareholder approval, cancel the escrowed Common Shares purchased by Non-Arm's Length Parties to Company so that the average cost of the remaining seed shares is at least equal to the Offering Price; and
- (b) obtain majority shareholder approval for the transfer to NEX, exclusive of the votes of Non-Arm's Length Parties of the Company.

If the Company lists the Common Shares on NEX it must continue to comply with all requirements and restrictions of the CPC Policy.

Refusal of Qualifying Transaction

The Exchange, in its sole discretion, may not accept a Qualifying Transaction where:

- (a) the Resulting Issuer fails to satisfy the applicable Minimum Listing Requirements of the Exchange upon Completion of the Qualifying Transaction;
- (b) the aggregate number of securities of the Resulting Issuer upon Completion of the Qualifying Transaction owned, directly or indirectly, by:
 - (i) a member firm of the Exchange;
 - (ii) registrants, unregistered corporate finance professionals, employee shareholders and partners of such member firm; and
 - (iii) Associates of any such person,collectively, would exceed 20% of the issued and outstanding securities of the Resulting Issuer upon Completion of the Qualifying Transaction;
- (c) the Resulting Issuer will be a financial institution, finance company, finance issuer or mutual fund, as defined in the securities legislation;
- (d) the majority of the directors and senior officers of the Resulting Issuer are not residents of Canada or the United States or are individuals who have not demonstrated positive association as directors or officers with public companies

that are subject to a regulatory regime comparable to the companies listed on a Canadian exchange; or

- (e) notwithstanding the definition of a Qualifying Transaction, there is any other reason for denying acceptance of the Qualifying Transaction.

USE OF PROCEEDS

Proceeds and Principal Purposes

The gross proceeds received by the Company from the sale of Common Shares prior to the date of this Prospectus totaled \$750,000. These proceeds were raised by the issuance of 5,000,000 Common Shares at a subscription price of \$0.05 per Common Share and 5,000,000 Common Shares at a subscription price of \$0.10 per Common Share. The Company incurred no costs in connection with raising these proceeds. The gross proceeds to be received by the Company from the Offering will be \$200,000. The costs incurred with respect to the proceeds raised from the Offering, including legal, accounting, printing and regulatory fees, the Agent's legal fees and expenses, the Agent's Commission and the Agent's Work Fee, are estimated by the Company to be approximately \$75,000. The Company estimates that it will have a total of \$875,000 available from the prior sale of its Common Shares and from the sale of Common Shares pursuant to the Offering.

The following table indicates the principal uses to which the Company proposes to use the total funds available to it upon the completion of the Offering:

Cash proceeds raised prior to the Offering ⁽¹⁾	\$750,000
Expenses and costs relating to raising the cash proceeds prior to the Offering	Nil
Cash proceeds to be raised pursuant to the Offering ⁽²⁾	\$200,000
Expenses and costs relating to the Offering, including listing fees, Agent's Commission, Work Fee, legal fees and expenses, and the Company's legal fees and audit expenses ⁽³⁾	(<u>\$75,000</u>)
Total estimated funds available on completion of the Offering	<u>\$875,000</u>
Funds available for identifying and evaluating assets or business prospects ⁽⁴⁾	\$851,000
Estimated general and administrative expenses until Completion of a Qualifying Transaction	<u>\$24,000</u>
Total Funds Available	<u>\$875,000</u>

⁽¹⁾ See "Prior Sales".

⁽²⁾ In the event the Agent fully exercises the Agent's Warrants and the directors and officers exercise their options, there will be available to the Company a maximum of an additional \$140,000 which will be

added to the working capital of the Company. There is no assurance that any of these Agent's Warrants or options will be exercised. See "Options to Purchase Securities".

- (3) Approximately \$22,356 has been incurred to date, which includes a \$5,000 deposit on account of the Agent's expenses, legal fees, audit fees and other expenses.
- (4) In the event the Company enters into an Agreement in Principle prior to spending the entire \$851,000 on identifying and evaluating assets or businesses, the remaining funds may be used to finance or partially finance the acquisition of Significant Assets or for working capital after Completion of the Qualifying Transaction.

Until required for the Company's purposes, the proceeds from this Offering and the prior sale of Common Shares, after deducting the expenses associated with this Offering, will only be invested in securities of, or those guaranteed by, the Government of Canada or any Province or territory of Canada or the Government of the United States of America, in certificates of deposit or interest-bearing accounts of Canadian chartered banks, trust companies or credit unions.

The proceeds from this Offering and the prior sale of Common Shares, after deducting the expenses associated with this Offering, will only be sufficient to identify and evaluate a finite number of assets and businesses, and additional funds may be required to finance any acquisition to which the Company may commit. See "Business of the Company - Method of Financing Acquisitions or Participation" and "Risk Factors".

Permitted Use of Funds

Until the Completion of the Qualifying Transaction and except as otherwise specifically provided by the CPC Policy and described in "Use of Proceeds - Restrictions on Use of Proceeds", "Use of Proceeds - Private Placements for Cash," and "Use of Proceeds - Prohibited Payments to Non Arm's Length Parties", the gross proceeds realized from the sale of all securities issued by the Company will be used by the Company only to identify and evaluate businesses or assets and obtain shareholder approval for a proposed Qualifying Transaction.

The proceeds may be used for expenses incurred for the preparation of:

- (a) valuations or appraisals;
- (b) business plans;
- (c) feasibility studies and technical assessments;
- (d) sponsorship reports;
- (e) engineering or geological reports;
- (f) financial statements, including audited financial statements;
- (g) fees for legal and accounting services; and
- (h) Agent's fees, costs and commissions.

relating to the identification and evaluation of assets or businesses and, in the case of a Non Arm's Length Qualifying Transaction, obtaining shareholder approval for the Company's proposed Qualifying Transaction.

In addition, with the prior acceptance of the Exchange, up to an aggregate of \$225,000 may be advanced as a refundable deposit or secured loan by the Company to a Vendor or Target Company, as the case may be, for a proposed arm's length Qualifying Transaction that has been publicly announced at least 15 days prior to the date of such advance, provided that due diligence with respect to the Qualifying Transaction is well underway and either a Sponsor has been engaged or sponsorship has been waived. A maximum aggregate amount of \$25,000 may also be advanced as a non-refundable deposit, unsecured deposit or advance to a Vendor or Target Company, as the case may be, to preserve assets without the prior acceptance of the Exchange.

Restrictions on Use of Proceeds

Until completion of a Qualifying Transaction, not more than the lesser of 30% of the gross proceeds from the sale of all securities issued by the Company or \$210,000 will be used for purposes other than those described above. For greater certainty, expenditures which are not included as "Permitted Use of Funds", listed above, include:

- (a) listing and filing fees (including SEDAR fees);
- (b) other costs for the issuance of securities, (including legal, accounting and audit expenses) relating to the preparation and filing of this Prospectus; and
- (c) administrative and general expenses of the Company, including:

Additionally, no proceeds will be used to acquire or lease a vehicle.

Private Placements for Cash

After the closing of the Offering and until the Completion of the Qualifying Transaction, the Company will not issue any securities unless written acceptance of the Exchange is obtained before issuance. Prior to the Completion of the Qualifying Transaction, the Exchange generally will not accept a private placement by the Company where the gross

proceeds raised from the issuance of securities both prior to and pursuant to the Offering, together with any proceeds anticipated to be raised upon closing of the private placement, will exceed \$2,000,000. The only securities issuable pursuant to such a private placement will be Common Shares. Subject to certain limited exceptions, any Common Shares issued pursuant to the private placement to Non Arm's Length Parties to the Company and to Principals of the Resulting Issuer will be subject to escrow.

Prohibited Payments to Non Arm's Length Parties

Except as described under "Options to Purchase Securities" and "Use of Proceeds - Restrictions on Use of Proceeds", the Company has not made, and until the Completion of the Qualifying Transaction will not make, any payment of any kind, directly or indirectly, to a Non Arm's Length Party to the Company or a Non Arm's Length Party to the Qualifying Transaction, or to a person engaged in investor relations activities, by any means, including:

- (a) remuneration, which includes but is not limited to salaries, consulting fees, management contract fees or directors' fees, finders' fees, loans, advances and bonuses, and
- (b) deposits and similar payments.

Further, no such payment will be made on or after the completion of a Qualifying Transaction if such payment relates to services rendered or obligations incurred prior to or in connection with the Qualifying Transaction.

Notwithstanding the above, the Company may reimburse a Non Arm's Length Party to the Company for reasonable expenses for office supplies, office rent and related utilities, equipment leases (excluding vehicle leases), and legal services (provided that neither the lawyer providing the legal services nor any member of the law firm providing the services is a promoter of the Company or in the case of a law firm, no member of the firm, owns greater than 10% of the outstanding Common Shares of the Company), and the Company may also reimburse a Non Arm's Length Party to the Company for reasonable out-of-pocket expenses incurred in pursuing the business of the Company described in "Use of Proceeds - Permitted Use of Funds".

The foregoing restrictions on the use of proceeds and prohibitions on payments to Non Arm's Length Parties and persons engaged in investor relations activities continue to apply until Completion of the Qualifying Transaction.

While in escrow, the escrow shares may not be sold, assigned, hypothecated, transferred within escrow or otherwise dealt with in any manner without the consent of the Exchange. The Common Shares under escrow may be transferred or transmitted upon the bankruptcy or death of a shareholder to his or her trustee in bankruptcy or personal representatives, as the case may be, however subject to the restrictions in the Escrow Agreement in the case of bankruptcy. Unless transferred, transmitted or cancelled pursuant to the Escrow Agreement, the shareholder may retain the shares, subject to the terms and conditions of the Escrow Agreement.

All Common Shares acquired upon exercise of stock options prior to the completion of a Qualifying Transaction, must also be deposited in escrow and will be subject to escrow until the Exchange issues the Final Exchange Bulletin.

In addition, all Common Shares of the Company acquired in the secondary market prior to the completion of a Qualifying Transaction by any Person who becomes a Control Person are required to be deposited in escrow. Subject to certain exemptions permitted by the Exchange, all securities of the Company held by Principals of the Company upon completion of a Qualifying Transaction will also be subject to escrow restrictions.

Notwithstanding the foregoing, Common Shares acquired by Principals of the Company or Principals of the Resulting Issuer pursuant to a private placement will not be escrowed provided that various conditions, as set forth in the CPC Policy, are met. See "Escrowed Securities on Private Placement".

⁽¹⁾ Common Shares subject to the Escrow Agreement will be released pro rata to the shareholders as to 10% upon issuance of the Final Exchange Bulletin and as to the remainder in six equal tranches of 15% every six months thereafter for a period of 36 months.

⁽²⁾ Assuming none of these Persons purchases any Common Shares under the Offering.

⁽³⁾ A private company of which John D. Harvison and his family are the sole shareholders.

⁽⁴⁾ Member of the Aggregate Pro Group.

⁽⁵⁾ A private company of which Chan Buckland, a member of the Aggregate Pro Group, is the controlling shareholder.

Where the Common Shares of the Company which are required to be held in escrow are held by a non-individual (a “holding company”), each holding company pursuant to the Escrow Agreement, has agreed, or will agree, not to carry out any transactions during the currency of the Escrow Agreement which would result in a change of control of the holding company, without the consent of the Exchange. Any holding company must sign an undertaking to the Exchange that, to the extent reasonably possible, it will not permit or authorize any issuance of securities or transfer of securities could reasonably result in a change of control of the holding company. In addition, the Exchange may

require an undertaking from any control person of the holding company not to transfer the shares of that company.

Under the Escrow Agreement, 10% of the escrowed Common Shares will be released from escrow on the issuance of the Final Exchange Bulletin (the “Initial Release”) and an additional 15% will be released on the dates 6 months, 12 months, 18 months, 24 months, 30 months and 36 months following the Initial Release.

If the Resulting Issuer meets the Exchange’s Tier 1 Minimum Listing Requirements either at the time the Final Exchange Bulletin is issued or subsequently thereafter, the release of the escrowed Common Shares will be accelerated. An accelerated escrow release will not commence until the Resulting Issuer has made application to the Exchange for listing as a Tier 1 issuer and the Exchange has issued a bulletin that announces the acceptance for listing of the Company on Tier 1 of the Exchange.

The Exchange’s prior consent must be obtained before a transfer within escrow of escrowed Common Shares. Generally, the Exchange will only permit a transfer within escrow to be made to incoming Principals in connection with a proposed Qualifying Transaction.

If the Exchange does not issue the Final Exchange Bulletin, the escrowed Common Shares will not be released. Under the Escrow Agreement, each Non Arm’s Length Party to the Company who holds escrowed Common Shares acquired at a price below the offering price under this Prospectus has irrevocably authorized and directed the Escrow Agent to immediately:

- (a) cancel all of those escrowed Common Shares upon the issuance by the Exchange of a bulletin delisting the Common Shares of the Company; or
- (b) if the Company lists on NEX, either:
 - (i) cancel all seed shares purchased by Non-Arm’s Length Parties to the CPC at a discount from the IPO price, in accordance with section 11.2(a) of *TSX Venture Policy 2.4-Capital Pool Companies*, or
 - (ii) subject to majority shareholder approval, cancel an amount of seed shares purchased by Non-Arm’s Length Parties to the CPC so that the average cost of the remaining seed shares is at least equal to the IPO price.

Escrowed Securities on Qualifying Transaction

Generally, if at least 75% of the securities issued pursuant to the Qualifying Transaction are “Value Securities” (as defined below), then all of the securities issued to Principals of the Resulting Issuer, pursuant to the Qualifying Transaction, will be deposited into escrow pursuant to a value security agreement (the “**Value Security Escrow Agreement**”). “Value Securities” are securities issued pursuant to a transaction, for

which the deemed value of the securities at least equals the value ascribed to the asset, using a valuation method acceptable to the Exchange, or securities that are otherwise determined by the Exchange to be value securities and required to be placed in escrow under a Value Security Escrow Agreement. However, if at least 75% of the securities issued pursuant to the Qualifying Transaction are not Value Securities, all securities issued pursuant to the Qualifying Transaction will be deposited into a surplus security escrow agreement (a **“Surplus Security Escrow Agreement”**).

The principal distinction between a Value Security Escrow Agreement and a Surplus Security Escrow Agreement is the time period for release of securities from escrow. In the case of a company that will be a Tier 2 issuer on Completion of the Qualifying Transaction, the Value Security Escrow Agreement provides for a three year escrow release mechanism with 10% of the escrowed securities being releasable when the Final Exchange Bulletin is issued, and 15% of the escrowed securities being releasable every six months thereafter, on each of the 6, 12, 18, 24, 30 and 36 month anniversaries of the Completion of the Qualifying Transaction. In the case of a company that will be a Tier 2 issuer when the Exchange issues its Final Exchange Bulletin, the Surplus Security Escrow Agreement provides for a six year escrow release mechanism with:

- (a) 5% of the escrowed securities being releasable in six month intervals on each of the 6, 12, 18 and 24 month anniversaries of the Completion of the Qualifying Transaction; and
- (b) 10% of the escrowed securities being releasable in six month intervals on each of the 30, 36, 42, 48, 54, 60, 66 and 72 months after the Completion of the Qualifying Transaction.

In the case of a company that will be a Tier 1 issuer on Completion of the Qualifying Transaction, the Value Security Escrow Agreement provides for an 18 month escrow release mechanism with 25% of the escrowed securities being releasable at the time of Completion of the Qualifying Transaction, with 25% of the escrowed securities being releasable every six months thereafter. In the case of a company that will be a Tier 1 issuer on Completion of the Qualifying Transaction, the Surplus Security Escrow Agreement provides for a three-year escrow release mechanism with:

- (a) 10% of the escrowed securities being releasable upon Completion of the Qualifying Transaction; and
- (b) 15% of the escrowed securities being releasable in six month intervals on each of the 6, 12, 18, 24, 30 and 36 months after Completion of the Qualifying Transaction.

Escrowed Securities on Private Placement

Securities issued pursuant to a private placement to current Principals of the Company and the Principals of the Resulting Issuer upon Completion of the Qualifying Transaction will generally be exempt from escrow requirements where:

- (a) the private placement is announced at least five trading days after the news release announcing the Agreement in Principle for acquisition by the Resulting Issuer of Significant Assets and the pricing for the financing is at not less than the discounted market price, as determined in accordance with the policies of the Exchange; or
- (b) the private placement is announced concurrently with the Agreement in Principle and:
 - (i) at least 75% of the proceeds from the private placement is not from current principals of the Company and/or the principals of the Resulting Issuer;
 - (ii) if subscribers, other than current principals of the Company and/or the principals of the Resulting Issuer, will obtain securities subject to hold periods, then in addition to any resale restrictions under applicable securities legislation, any securities issued to such principals will be subject to a four month hold period; and
 - (iii) none of the proceeds of the private placement are allocated to pay compensation or to settle indebtedness owing to current Principals of the Resulting Issuer.

obligations to the other companies in respect of which they act as directors and officers. Discharge by the directors and officers of their obligations to the Company may result in a breach of their obligations to the other companies, and in certain circumstances this could expose the Company to liability to those companies. Similarly, discharge by the directors and officers of their obligations to the other companies could result in a breach of their obligation to act in the best interests of the Company. Such conflicting legal obligations may expose the Company to liability to others and impair its ability to achieve its business objectives. Conflicts will be subject to the procedures and remedies as provided for under the BCBCA.

EXECUTIVE COMPENSATION

Except as set out below and otherwise disclosed in this Prospectus, prior to completion of a Qualifying Transaction, no payment of any kind has been made, or will be made, directly or indirectly, by the Company to a Non Arm's Length Party to the Company or a Non Arm's Length Party to the Qualifying Transaction, or to any person engaged in investor relations activities in respect of the securities of the Company or Resulting Issuer by any means, including:

- (a) remuneration, which includes but is not limited to:
 - (i) salaries;
 - (ii) consulting fees;
 - (iii) management contract fees or directors' fees;
 - (iv) finders fees;
 - (v) loans, advances, bonuses; and
- (b) deposits and similar payments.

However, the Company may reimburse Non Arm's Length Parties for the Company's reasonable allocation of rent, secretarial services and other general administrative expenses, at fair market value ("Permitted Reimbursements"). No reimbursement may be made for any payment made to lease or buy a vehicle.

The directors, officers and consultants of the Company will be granted stock options. See "Options to Purchase Securities".

Following Completion of the Qualifying Transaction, the Resulting Issuer may pay remuneration to its directors and officers if the Resulting Issuer is able to do so. No remuneration is anticipated to be paid to directors in their capacity as directors in the foreseeable future. However, no payment other than the Permitted Reimbursements will be made by the Resulting Issuer or by any party on behalf of the Resulting Issuer, after Completion of the Qualifying Transaction, if the payment relates to services rendered or

obligations incurred or in connection with the Qualifying Transaction. See “Use of Proceeds”.

PROMOTERS

The Company has no promoters other than G. Arnold Armstrong, who serves as a director of the Company. Mr. Armstrong is also the Co-Chairman of the Board of Directors of the Company and the Corporate Secretary of the Company. See “Directors, Officers and Promoters”.

DILUTION

Purchasers of Common Shares under this Prospectus will suffer an immediate dilution of 21% or \$0.021 per Common Share on the basis of there being 12,000,000 Common Shares of the Company issued and outstanding following completion of the Offering. Dilution has been computed on the basis of total gross proceeds to be raised by this Prospectus and from sales of securities prior to filing this Prospectus, without deduction of commissions or related expenses incurred by the Company.

RISK FACTORS

Investment in the Common Shares involves a high degree of risk, and investors should not invest unless they can afford to lose their entire investment. In addition to the other information contained in this Prospectus, prospective investors should consider carefully the following factors before making a decision to purchase Common Shares:

- (a) the Company was only recently incorporated, has not commenced commercial operations and has no assets other than cash. It has no history of earnings, and shall not generate earnings or pay dividends until at least after Completion of the Qualifying Transaction;
- (b) investment in the Common Shares offered by the Prospectus is highly speculative given the proposed nature of the Company’s business and its present stage of development;
- (c) the directors and officers of the Company will only devote a portion of their time to the business and affairs of the Company and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time;
- (d) assuming completion of the Offering, an investor will suffer an immediate dilution on investment of 21% or \$0.021 per Common Share;
- (e) there can be no assurance that an active and liquid market for the Company’s Common Shares will develop and an investor may find it difficult to resell its Common Shares;

- (f) until Completion of a Qualifying Transaction, the Company is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions;
- (g) the Company has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Company will be able to identify a suitable Qualifying Transaction;
- (h) even if a proposed Qualifying Transaction is identified, there can be no assurance that the Company will be able to successfully complete the transaction;
- (i) Completion of a Qualifying Transaction is subject to a number of conditions including acceptance by the Exchange and, in the case of a Non-Arm's Length Qualifying Transaction, Majority of the Minority Approval;
- (j) unless the shareholder has the right to dissent and be paid fair value in accordance with applicable corporate or other law, a shareholder who votes against a proposed Qualifying Transaction for which Majority of the Minority Approval by shareholders has been given, will have no rights of dissent and no entitlement to payment by the Company of fair value for the Common Shares;
- (k) upon public announcement of a proposed Qualifying Transaction, trading in the Common Shares of the Company will be halted and will remain halted for an indefinite period of time, typically until a Sponsor has been retained and certain preliminary reviews have been conducted. The Common Shares of the Company will be reinstated to trading before the Exchange has reviewed the transaction and before the Sponsor has completed its full review. Reinstatement to trading provides no assurance with respect to the merits of the transaction or the likelihood of the Company completing the proposed Qualifying Transaction;
- (l) trading in the Common Shares of the Company may be halted at other times for other reasons, including for failure by the Company to submit documents to the Exchange in the time periods required;
- (m) the Exchange will generally suspend trading in the Company's Common Shares or delist the Company in the event that the Exchange has not issued a Final Exchange Bulletin within 24 months from the date of listing;
- (n) neither the Exchange nor any securities regulatory authority passes upon the merits of the proposed Qualifying Transaction;
- (o) in the event that management of the Company resides outside of Canada or the Company identifies a foreign business as a proposed Qualifying Transaction, investors may find it difficult or impossible to effect service or notice to commence legal proceedings upon any management resident outside of Canada or upon the foreign business and may find it difficult or impossible to enforce against such persons, judgments obtained in Canadian courts;

- (p) the Qualifying Transaction may be financed in all or part by the issuance of additional securities by the Company and this may result in further dilution to the investor, which dilution may be significant and which may also result in a change of control of the Company; and
- (q) subject to prior Exchange acceptance, the Company may be permitted to loan or advance up to an aggregate of \$250,000 of its proceeds to a target business without requiring shareholder approval and there can be no assurance that the Company will be able to recover that loan.

As a result of these factors, this Offering is only suitable to investors who are willing to rely solely on management of the Company and who can afford to lose their entire investment. Those investors who are not prepared to do so should not invest in the Common Shares.

Notes to the Financial Statements

**120-Day Period Ended April 30, 2009, Year Ended December 31, 2008 and
Initial 322-Day Period Ended December 31, 2007**

1. NATURE AND CONTINUANCE OF OPERATIONS

Doxa Resources Ltd. (the "Company") was incorporated under the *Business Corporations Act* of British Columbia on February 13, 2007. It intends to make an application to have its common shares listed and called for trading on the TSX Venture Exchange ("TSX-V"). The principal business of the Company is to identify, evaluate and then acquire an interest in a business or assets (the "Qualifying Transaction") within 24 months from the date the Company's common shares are listed for trading on the TSX-V. Upon listing, the Company will be classified as a capital pool corporation ("CPC") as defined in TSX-V Policy 2.4.

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The financial statements do not include any adjustment to assets and liabilities should the Company be unable to continue in existence or complete its Qualifying Transaction within the required period.

The Company's continuing operations as intended are dependent upon its ability to identify, evaluate and negotiate an acquisition of, participation in, or interest in properties, assets or businesses. Such an acquisition will be subject to regulatory approval and may be subject to shareholder approval. When the Company completes its Qualifying Transaction, additional funding may be required.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Use of estimates

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates include accrued liabilities and the determination of valuation allowance for future tax assets. While management believes the estimates are reasonable, actual results could differ from these estimates and could impact future results of operations and cash flows.

(b) Loss per share

Basic earnings per share is calculated using the weighted average number of common shares outstanding during the period. The Company uses the treasury stock method to compute the dilutive effect of options, warrants and similar instruments. Under this method the dilutive effect on earnings per share is calculated presuming the exercise of outstanding options, warrants and similar instruments. It assumes that the proceeds of such exercise would be used to repurchase common shares at the average market price during the period. However, the calculation of diluted loss per share excludes the effects of various conversions and exercise of options and warrants that would be anti-dilutive.

Shares held in escrow, other than where their release is subject to the passage of time, are not included in the calculation of the weighted average number of common shares outstanding.

DOXA ENERGY LTD.

Notes to the Financial Statements

**120-Day Period Ended April 30, 2009, Year Ended December 31, 2008 and
Initial 322-Day Period Ended December 31, 2007**

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Income taxes

The Company follows the asset and liability method of accounting for income taxes. Under this method, future tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis, and losses carried forward. Future tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on future tax assets and liabilities of a change in tax rates is recognized in operations in the period in which the change is enacted or substantially assured. The amount of future income tax assets is limited to the amount of the benefit that is more likely than not to be realized.

(d) Stock-based compensation

The Company accounts for stock-based compensation expense using the fair value based method with respect to all stock-based payments to directors, employees and non-employees, including awards that are direct awards of stock and call for settlement in cash or other assets, or stock appreciation rights that call for settlement by the issuance of equity instruments. For directors and employees, the fair value of the options is measured at the date of grant. For non-employees, the fair value of the options is measured on the earlier of the date at which the counterparty performance is completed or the date the performance commitment is reached or the date at which the equity instruments are granted if they are fully vested and non-forfeitable. Under this standard, stock-based payments are recorded as an expense over the vesting period or when the awards or rights are granted, with a corresponding increase to contributed surplus under shareholders' equity. When stock options are exercised, the corresponding fair value is transferred from contributed surplus to capital stock.

(e) Financial instruments and comprehensive income

All financial instruments are classified as one of the following: held-to-maturity, loans and receivables, held-for-trading, available-for-sale or other financial liabilities. Financial assets and liabilities held-for-trading are measured at fair value with gains and losses recognized in net income. Financial assets held-to-maturity, loans and receivables, and other financial liabilities are measured at amortized cost using the effective interest method. Available-for-sale instruments are measured at fair value with unrealized gains and losses recognized in other comprehensive income (loss) and reported in shareholders' equity. Any financial instrument may be designated as held-for-trading upon initial recognition.

Transaction costs that are directly attributable to the acquisition or issue of financial instruments that are classified as other than held-for-trading, which are expensed as incurred, are included in the initial carrying value of such instruments.

DOXA ENERGY LTD.

Notes to the Financial Statements

**120-Day Period Ended April 30, 2009, Year Ended December 31, 2008 and
Initial 322-Day Period Ended December 31, 2007**

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Financial instruments and comprehensive income (Continued)

Comprehensive income (loss) is the overall change in the net assets of the Company for the period, other than changes attributed to transactions with shareholders. It is made up of net income and other comprehensive income. Other comprehensive income includes gains or losses, which GAAP requires to be recognized in a period, but excluded from net income for that period. The Company has no items affecting comprehensive income in any prior period. Accordingly, net loss equals comprehensive loss.

(f) New accounting standards

Effective January 1, 2008, the Company adopted the following standards of the Canadian Institute of Chartered Accountants ("CICA") Handbook:

(i) Capital Disclosures

Section 1535 specifies the disclosure of: (i) an entity's objectives, policies and procedures for managing capital; (ii) quantitative data about what the entity regards as capital; (iii) whether the entity has complied with any capital requirements; and (iv) if it has not complied, the consequences of such non-compliance.

As a result of the adoption of this standard, additional disclosure on the Company's capital management strategy have been included in Note 6.

(ii) Financial Instruments – Disclosures and Financial Instruments – Presentation

Section 3862, "Financial Instruments – Disclosures" Section 3863, "Financial Instruments – Presentation" replace Handbook Section 3861, "Financial Instruments – Disclosures and Presentation", revising its disclosure requirements, and carrying forward its presentation requirements. These new sections place increased emphasis on disclosures about the nature and extent of risks arising from financial instruments and how the entity manages those risks.

Section 3862 specifies disclosures that enable users to evaluate: (i) the significance of financial instruments for the entity's financial position and performance; and (ii) the nature and extent of risks arising from financial instruments to which the entity is exposed and how the entity manages those risks.

As a result of the adoption of these standards, additional disclosures on the risks of certain financial instruments have been included in Note 3.

(f) New accounting standards

(iii) Going Concern

In June 2007, the CICA amended Section 1400, "General Standards of Financial Statement Presentation", which requires management to make an assessment of the Company's ability to continue as a going concern. When financial statements are not prepared on a going concern basis, that fact shall be disclosed together with the basis on which the financial statements are prepared and the reason why the company is not considered a going concern. The Company adopted this policy on January 1, 2008 with no significant effect on these financial statements.

(g) Future accounting change

International Financial Reporting Standards ("IFRS")

In 2006, the Canadian Accounting Standards Board ("AcSB") published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five year transitional period. In February 2008, the AcSB announced that 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canada's own GAAP. The effective date for the Company is for interim and annual financial statements relating to the Company's fiscal years beginning on or after January 1, 2011. The transition date of January 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ended December 31, 2010. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

3. FINANCIAL INSTRUMENTS

(a) Fair value

The Company classified its cash as held-for-trading, and accounts payable and accrued liabilities as other financial liabilities.

The carrying values of cash and accounts payable and accrued liabilities approximate their fair values due to the short-term maturity of these financial instruments.

The Company's risk exposure and the impact on the Company's financial instruments are summarized below:

(b) Interest rate risk

The Company is not exposed to significant interest rate risk.

DOXA ENERGY LTD.**Notes to the Financial Statements****120-Day Period Ended April 30, 2009, Year Ended December 31, 2008 and
Initial 322-Day Period Ended December 31, 2007****3. FINANCIAL INSTRUMENTS (Continued)****(c) Credit risk**

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's cash is exposed to credit risk. Management considers credit risk on cash to be immaterial because the counterparties are highly rated Canadian banks.

(d) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in obtaining funds to meet its commitments. The Company's approach to managing liquidity risk is to provide reasonable assurance that it will have sufficient funds to meet liabilities when due. The Company manages its liquidity risk by forecasting cash flows required by operations and anticipated investing and financing activities. At April 30, 2009, the Company had cash of \$718,944 available to meet short-term business requirements and current liabilities of \$10,080. All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

4. CAPITAL STOCK (Continued)**(b) Issued and outstanding (Continued)**

On April 27, 2009, the Company issued 5,000,000 founders' common shares at \$0.05 each for gross proceeds of \$250,000. The common shares are subject to an escrow agreement and may not be transferred without the consent of the TSX-V. The escrow agreement provides, among other things, that 10% of such shares will be released from escrow upon the completion of the Qualifying Transaction, and 15% of such shares will be released every six months thereafter. These shares have been excluded from the weighted average number of shares outstanding as they are contingently returnable if the Company does not complete a Qualifying Transaction.

On April 30, 2009, the Company closed a non-brokered private placement of 4,762,500 common shares at \$0.10 each for gross proceeds of \$476,250. 3,337,500 of these shares are subject to an escrow agreement as described above.

5. INCOME TAXES

The components of future income tax assets are as follows:

	April 30, 2009	December 31, 2008	December 31, 2007
Future income tax assets			
Non-capital loss carry-forwards	\$ 4,453	\$ -	\$ -
Valuation allowance	(4,453)	-	-
Net future income tax assets	\$ -	\$ -	\$ -

The valuation allowance reflects the Company's estimate that the tax assets more likely than not will not be realized.

The reconciliation of income tax provision computed at statutory rates to the reported income tax provision is as follows:

	120-Day Period Ended April 30, 2009	Year Ended December 31, 2008	Initial 322-Day Period Ended December 31, 2007

5. INCOME TAXES (Continued)

The Company has available for deduction against future taxable income non-capital losses of \$17,126, which will expire in 2029. Future tax benefits that may arise as a result of these non-capital losses have not been recognized in these financial statements and have been offset by a valuation allowance due to the uncertainty of their realization.

6. CAPITAL MANAGEMENT

The Company is actively looking to acquire an interest in a business or assets and this involves a high degree of risk. The Company has not determined whether it will be successful in its endeavours and, therefore, does not generate cash flows from operations. The Company's primary source of funds comes from the issuance of capital stock. The Company does not use other sources of financing that require fixed payments of interest and principal due to lack of cash flow from current operations and is not subject to any externally imposed capital requirements.

The Company defines its capital as shareholders' equity. Capital requirements are driven by the Company's general operations. To effectively manage the Company's capital requirements, the Company monitors expenses and overhead to ensure costs and commitments are being paid.

Although the Company has been successful at raising funds in the past through the issuance of capital stock, it is uncertain whether it will continue this financing due to uncertain economic conditions. The Company believes that it has sufficient funds to fund its working capital for the coming year.

There have been no changes to the Company's approach to capital management during the year.
