About GreenStar

GreenStar operates two main divisions, agricultural and food processing. The agricultural division is involved in the cultivation and harvesting of agricultural products such as fresh fruit and vegetables, for sale either directly as fresh fruit and vegetables or canned, and sold overseas and domestically. The food processing division is primarily involved in the processing of canned food, which includes canned tomato paste, canned boiled bamboo shoots, canned oranges, canned peaches and various other types of fruits and vegetables.

GreenStar has been operating for over 19 years. Through the application of science and technology in production, quality control and assurance, and business operations and management, GreenStar has focused on maintaining product and reputational excellence with a high standard of food quality. Key assets include a well established management team, modern production facilities, and a close partnership with local farmers.

GreenStar Agricultural Corporation is listed on the TSX Venture Exchange under the symbol “GRE”.
