FOR IMMEDIATE RELEASE

December 1, 2015

Discovery Ventures Inc. mobilizes equipment to start Willa Mine Project

Discovery Ventures Inc. (TSX-V: DVN) (FSE: ODV) (OTCQX: DTVMF) ("**Discovery**") is pleased to announce it has commenced mobilization of surface equipment to rebuild the road access to the 1025 and 1125 portals.

This work will be done to meet the Ministry of Mines standards provided in the 10,000 ton bulk sample permit issued in October, 2015. Two excavators, a Cat bulldozer and a rock truck will be use to complete the program.

Apart from the road work which should be completed by mid-January 2016. The Company will be rebuilding the landings for both portals and provide new water discharge lines that will be installed to provide for a proper mine water management program. A new settling pond system that will meet environmental codes will be developed on site. A B.C. based Environmental Consultant Company will be providing services to provide best practices in the waste water management program.

All area around the portal entrances will be cleared to provide a safe area to collar the portals, which is anticipated to commence in approximately two weeks.

"These programs are yet another example of the Company's commitment to advancing the Willa Max Gold Project rapidly towards full development. Our objective is to be British Columbia's next gold mine and to meet that goal it is imperative that the Company initiates these programs to keep within our timelines for full production," commented Discovery's CEO Dan Omeniuk.

About Discovery

Discovery Ventures Inc. is a gold, copper and silver mining company focused on the exploration and development of its WillaMAX project that is located in the Kootenay region of British Columbia. The company holds a 100% interest in four mineral properties in B.C., and is currently active in the development of its Willa Property. Discovery's newly acquired Max Mine and Milling facility is located 132 km north of the Willa Project site.

On behalf of the Board of Directors,

"Dan Omeniuk"
