About MX Gold

MX Gold is a junior mining company focused on the exploration and development of advanced projects located in Mexico and British Columbia, Canada. The company's primary focus, is the Magistral del Oro tailings project located 392 km SW of Chihuahua and includes a fully permitted, 500 tonnes-per-day dynamic cyanide countercurrent system plant constructed in 2013, which is currently being expanded to 1,000 tonnes-per day. The Company also owns 50% of the IDS Project, which includes a fully permitted smelter that was completed in 2014 for a throughput capacity of 50 tonnes per day. The smelter was built to receive and process material from small-scale miners across the state of Durango and beyond.

MX Gold Corp. is also focused on the exploration, development and mining of advanced projects located in British Columbia and Mexico. The Company's primary focus in British Columbia is its high-grade Willa gold and copper project located 12 kilometers south of Silverton, B.C. In 2015, MX Gold Corp. completed the accretive acquisition of the Willa project and the Max Molybdenum Mine and Mill Complex. The Willa mine is located 135 kilometers south of the Max Mill. MX Gold Corp. can also elect to reopen the Max Molybdenum mining operation once world Moly prices improve. For updates on the Magistral Project please visit our website. www.mxgoldcorp.com
