The Directors' and Officers' Options entitle the holders to purchase an aggregate of 700,000 Common Shares at a price of \$0.10 per Common Share and such options may be exercised for a period of 5 years from the date on which the Common Shares are listed on the Exchange. The Corporation has neither a history of earnings nor has it paid any dividends and it is unlikely to generate earnings or pay dividends in the immediate or foreseeable future. The Corporation's ability to generate earnings and pay dividends will be dependent on the completion of a Qualifying Transaction. The proposed business of the Corporation involves a high degree of risk and there is no assurance that the Corporation will identify a suitable business or property to acquire. The directors and officers of the Corporation will only be devoting a portion of their time to the affairs to the Corporation. Potential conflicts of interest may result from the ordinary course of business of the Corporation and of the directors and officers of the Corporation. See "Business of the Corporation, "Directors and Officers", "Use of Proceeds", "Conflicts of Interest", and "Risk Factors".

In the event the Corporation identifies and completes the acquisition of a business or assets outside of Canada, it may be difficult or impossible to effect service or notice to commence legal proceedings upon any directors, officers or experts located outside of Canada. It may not be possible to enforce against such persons or the Corporation, judgments obtained in Canadian courts predicated upon the civil liability provisions of applicable securities laws in Canada. PROSPECTUS SUMMARY

The following is a summary of the principal features of this distribution and should be read together with the more detailed information and financial data and statements contained elsewhere in this prospectus.

The Corporation: Metron Capital Corp.

Business of the Corporation: The Corporation is a CPC. The principal business of the Corporation will be the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Corporation has not commenced commercial operations and has no assets other than a minimum amount of cash. The Corporation has commenced the process of identifying potential acquisitions. To date, the Corporation has not yet identified a Company or assets for a potential Qualifying Transaction. Furthermore, the Corporation has not entered into an Agreement in Principle. See “Business of the Corporation - Proposed Operations until Completion of a Qualifying Transaction”.

Offering: A total of 5,000,000 Common Shares are being offered and qualified under this prospectus at a price of \$0.10 per Common Share. In addition, the Corporation will grant to the Agent and any sub-agents non-transferable warrants to purchase up to 500,000 Common Shares at a price of \$0.10 per Common Share and which may be exercised for a period of 24 months from the day the Common Shares are listed on the Exchange. The Agent’s Warrants are qualified for distribution under this prospectus. This prospectus also qualifies for distribution the Directors’ and Officers’ Options to be granted at the Closing which entitle the holders to purchase an aggregate of 700,000 Common Shares at a price of \$0.10 per Common Share and which options may be exercised for a period of five years from the date on which the Common Shares are listed on the Exchange. See “Plan of Distribution” and “Options to Purchase Securities”.

Use of Proceeds: The total net proceeds to the Corporation, accounting for total cash proceeds raised prior to this Offering and total proceeds of this Offering, net of all Offering expenses, will be approximately \$485,000. The Corporation estimates incurring general and administrative costs until the Completion of the Qualifying Transaction of approximately \$40,000 which will reduce the total net funds available for pursuing a Qualifying Transaction to \$445,000. The net funds available will be used to provide the Corporation with a minimum of funds with which to identify and evaluate assets or businesses for acquisition with a view to completing a Qualifying Transaction. The Corporation may not have sufficient funds to secure such businesses or assets once identified and evaluated and additional funds may be required. Until Completion of the Qualifying Transaction and except as otherwise provided in the CPC Policy, a maximum of the lesser of 30% of the gross proceeds realized or \$210,000 may be used for purposes other than evaluating businesses or assets. See “Use of Proceeds”.

Directors and Management:

- | | | |
|----------------|---|---|
| Daniel O'Brien | - | President, Chief Executive Officer, Secretary, and Director |
| Robert Helina | - | Chief Financial Officer and Director |
| John Carswell | - | Director |

Robert Helina is the Promoter of the Corporation. See "Directors, Officers and Promoter" and "Promoter".

Escrow Securities:

All of the currently issued and outstanding Common Shares of the Corporation, being 2,000,000 Common Shares issued at \$0.05 per share, will be deposited in escrow pursuant to the terms of the Escrow Agreement and will be released from escrow in stages over a period of up to three years after the date of the Final Exchange Bulletin. See "Escrowed Securities".

Risk Factors:

Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation's business and its present stage of development. The Corporation was only recently incorporated and has no active business or assets other than cash. The Corporation does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction. The Offering is only suitable to investors who are prepared to rely entirely on the directors and management of the Corporation and can afford to risk the loss of their entire investment. The directors and officers of the Corporation will only devote part of their time and attention to the affairs of the Corporation and there are potential conflicts of interest to which some of the directors and officers of the Corporation will be subject in connection with the operations of the Corporation. Assuming completion of the Offering, an investor will suffer an immediate dilution on investment (based on the gross proceeds from this and prior issuances without deduction of selling and related expenses) per Common Share of \$0.014 or 14%. There can be no assurance that an active and liquid market for the Corporation's Common Shares will develop and an investor may find it difficult to resell the Common Shares. Until Completion of the Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Corporation has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Corporation will be able to identify or complete a suitable Qualifying Transaction.

The Qualifying Transaction may involve the acquisition of a business or assets located outside of Canada. It may therefore be difficult or impossible to affect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and it may not be possible to enforce against such Persons or Companies judgments obtained in Canadian courts predicated upon the civil liability provisions applicable to securities laws in Canada. See "Business of the Corporation", "Directors, Officers and Promoters - Conflicts of Interest", "Capitalization", "Dilution" and "Risk Factors".

THE CORPORATION

The Corporation was incorporated on March 4, 2008, by Certificate of Incorporation issued pursuant to the provisions of the *Business Corporations Act* (British Columbia) under the name “Great Banks Ventures Ltd.” On September 22, 2008, the Corporation changed its name to “Metron Capital Corp.”

The registered and records office of the Corporation is located at Suite 908 – 938 Howe Street, Vancouver, British Columbia, V6Z 1N9. The head office of the Corporation is located at Suite 262, 505-8840 210th Street, Langley, British Columbia, V1M 2Y2.

BUSINESS OF THE CORPORATION

Preliminary Expenses

As at May 31, 2009, the Corporation had incurred or accrued liabilities for accounting, administrative, incorporation, investor relations, filing fees and legal fees in the amount of \$46,681. Certain of the Offering proceeds will be utilized to satisfy the obligations of the Corporation related to the Offering, including the expenses of its auditor and legal fees, the fees of the Exchange, the Agent’s commission, corporate finance fee, legal fees and expenses and the fees of the securities regulatory authorities. See “Use of Proceeds”.

Proposed Operations until Completion of a Qualifying Transaction

The Corporation proposes to identify and evaluate businesses and assets with a view to completing a Qualifying Transaction. Any proposed Qualifying Transaction must be accepted by the Exchange and in the case of a Non Arm’s Length Qualifying Transaction, the transaction is also subject to Majority of the Minority Approval in accordance with the CPC Policy. The Corporation has not conducted commercial operations other than to enter into discussions for the purpose of identifying potential acquisitions or interests. The Corporation currently intends to primarily pursue a Qualifying Transaction in the natural resources or industrial sector but there is no assurance that these will, in fact, be the business sectors of a proposed Qualifying Transaction or of the Corporation following the Completion of the Qualifying Transaction.

Until Completion of a Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of businesses or assets with a view to completing a potential Qualifying Transaction. With the consent of the Exchange, this may include the raising of additional funds in order to finance an acquisition. Except as described under “Use of Proceeds - Private Placements for Cash” and “Use of Proceeds - Restrictions on Use of Proceeds”, the funds raised pursuant to this Offering and any subsequent financing will be utilized only for the identification and evaluation of potential Qualifying Transactions and not for any deposit, loan or direct investment in a potential acquisition.

Although the Corporation has commenced the process of identifying potential acquisitions with a view to completing the Qualifying Transaction, the Corporation has not yet entered into an Agreement in Principle.

Method of Financing

The Corporation may use cash, bank financing, the issuance of treasury shares, public debt or equity financing or a combination of these for the purpose of financing its proposed Qualifying Transaction. **A Qualifying Transaction financed by the issue of treasury shares could result in a change in the**

control of the Corporation and may cause the shareholders' interest in the Corporation to be further diluted.

Criteria for a Qualifying Transaction

The Corporation will consider acquisitions of assets or businesses operated or located both inside and outside of Canada, as permitted by the CPC Policy. All potential acquisitions will be screened initially by management of the Corporation to determine their economic viability. Approval of acquisitions will be made by the board of directors. The board of directors will examine proposed acquisitions having regard to sound business fundamentals, utilizing the expertise and experience of the directors. The board of directors of the Corporation must approve any proposed Qualifying Transaction. In exercising their powers and discharging their duties in relation to a proposed Qualifying Transaction, the directors will act honestly and in good faith with a view to the best interests of the Corporation and will exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

Filings and Shareholder Approval of a Non Arm's Length Qualifying Transaction

Upon the Corporation reaching an Agreement in Principle, the Corporation must issue a comprehensive news release, at which time the Exchange generally will halt trading in the Corporation's Common Shares until the filing requirements of the Exchange have been satisfied as set forth under "Business of the Corporation - Trading Halts, Suspensions and Delisting". Within 75 days after issuance of such news release, the Corporation is required to submit for review to the Exchange either an information circular that complies with applicable corporate and securities laws or a filing statement that complies with Exchange requirements. An information circular must be submitted where there is a Non Arm's Length Qualifying Transaction. A filing statement must be submitted where the Qualifying Transaction is not a Non Arm's Length Qualifying Transaction. The information circular or filing statement, as applicable, must contain prospectus level disclosure of the Target Company and the Corporation, assuming Completion of the Qualifying Transaction, and be prepared in accordance with the CPC Policy and Form 3B1 or Form 3B2, as the case may be, of the Exchange. Upon acceptance by the Exchange, the Corporation must then either:

- (a) file the filing statement on SEDAR at least seven business days prior to closing of the Qualifying Transaction, and issue a news release which discloses the scheduled closing date for the Qualifying Transaction as well as the fact that the filing statement is available on SEDAR; or
- (b) mail the information circular and related proxy material to its shareholders in order to obtain the Majority of the Minority Approval of the Qualifying Transaction or other requisite approval, at a meeting of shareholders.

Unless waived by the Exchange, the Corporation will also be required to retain a Sponsor, who must be a Member of the Exchange, and who will be required to submit to the Exchange a Sponsor Report prepared in accordance with the policies of the Exchange. The Corporation will no longer be considered to be a CPC upon the Exchange having issued the Final Exchange Bulletin. The Exchange will generally not issue the Final Exchange Bulletin until the Exchange has received:

- (a) in the case of a Non Arm's Length Qualifying Transaction, confirmation of Majority of Minority Approval of the Qualifying Transaction;
- (b) confirmation of closing of the Qualifying Transaction; and

- (c) all post-meeting or final documentation, as applicable, otherwise required to be filed with the Exchange pursuant to the CPC Policy.

Upon issuance of the Final Exchange Bulletin, the CPC Policy will generally cease to apply, with the exception of the escrow provisions of the CPC Policy and the restrictions in the CPC Policy precluding the Corporation from completing a reverse takeover for a period of one year from the Completion of the Qualifying Transaction.

Minimum Listing Requirements

The Resulting Issuer must satisfy the Exchange's Minimum Listing Requirements for the particular industry sector in either Tier 1 or Tier 2 as prescribed under the applicable policies of the Exchange.

Trading Halts, Suspensions and Delisting

The Exchange will generally halt trading in the Common Shares from the date of the public announcement of an Agreement in Principle until all filing requirements of the Exchange have been satisfied, which includes the submission of a Sponsorship Acknowledgment Form, where the Qualifying Transaction is subject to sponsorship. In addition, personal information forms or, if applicable, declarations, for all individuals who may be directors, senior officers, Promoters, or Insiders of the Resulting Issuer must be filed with the Exchange and any preliminary background searches that the Exchange considers necessary or advisable, must also be completed, before the trading halt will be lifted by the Exchange.

Even if all filing requirements have been satisfied and preliminary background checks completed, the Exchange may continue or reinstate a halt in trading of the Common Shares for public policy reasons including:

- (a) the unacceptable nature of the business of the Resulting Issuer; or
- (b) the number of conditions precedent to, or the nature and number of deficiencies required to be resolved prior to, completion of the Qualifying Transaction, are so significant or numerous as to make it appear to the Exchange that the halt should be reinstated or continued.

A trading halt may also be imposed by the Exchange where the Corporation fails to file the supporting documents relating to the Qualifying Transaction within a period of 75 days after public announcement of the Agreement in Principle or if the Corporation fails to file post-meeting or final documents, as applicable, within the time required. A trading halt may also be imposed if a Sponsor terminates its sponsorship.

The Exchange may suspend from trading or delist the Common Shares of the Corporation where the Exchange has not issued a Final Exchange Bulletin to the Corporation within 24 months of the date of listing. In the event that the Common Shares of the Corporation are delisted by the Exchange, within 90 days from the date of such delisting, the Corporation shall wind up and shall make a pro rata distribution of its remaining assets to its shareholders, unless shareholders, pursuant to a majority vote exclusive of the votes of Non Arm's Length Parties to the Corporation, determine to deal with the Issuer or its remaining assets in some other manner.

If the Corporation has not completed a Qualifying Transaction within the time frame prescribed by the CPC Policy, it may apply for listing on NEX (the market on which former Exchange and Toronto Stock

Exchange Issuers that do not meet the Minimum Listing Requirements for Tier 2 issuers may continue to trade) rather than be delisted. In order to be eligible to list on NEX the Corporation must:

- (a) obtain majority shareholder approval for the transfer to NEX exclusive of the votes of Non Arm's Length Parties of the Corporation; and
- (b) either:
 - (i) cancel all Seed Shares purchased by Non Arm's Length Parties to the Corporation at a discount to the IPO price, in accordance with section 14.13 of the CPC Policy, as if the Corporation had delisted from the Exchange, or
 - (ii) subject to majority shareholder approval, cancel an amount of the Seed Shares purchased by Non Arm's Length Parties to the Corporation so that the average cost of the remaining Seed Shares is at least equal to the IPO price.

If the Corporation lists on the NEX, the Corporation must continue to comply with all the requirements and restrictions of the CPC Policy.

Refusal of Qualifying Transaction

The Exchange, in its sole discretion, may not accept a Qualifying Transaction where:

- (a) the Resulting Issuer fails to satisfy the applicable Minimum Listing Requirements of the Exchange;
- (b) the aggregate number of securities of the Resulting Issuer owned, directly or indirectly, by:
 - (i) a Member firm of the Exchange;
 - (ii) registrants, unregistered corporate finance professionals, employee shareholders and partners of such Member firm; and
 - (iii) Associates of any such Person,collectively, would exceed 20% of the issued and outstanding securities of the Resulting Issuer;
- (c) the Resulting Issuer will be a financial institution, finance company, finance issuer or mutual fund, as defined in the securities legislation;
- (d) the majority of the directors and senior officers of the Resulting Issuer are not residents of Canada or the United States or are individuals who have not demonstrated positive association as directors or officers with public companies that are subject to a regulatory regime comparable to the companies listed on a Canadian exchange; or
- (e) notwithstanding the definition of a Qualifying Transaction, there is any other reason for denying acceptance of the Qualifying Transaction.

Total	2,000,000	100%	28.57%

Notes:

- (1) On an undiluted basis, assuming no Common Shares are purchased by these persons under the Offering and assuming no exercise of the Directors' and Officers' Options or the Agent's Warrants.
- (2) 0822305 B.C. Ltd. is a private company owned and controlled by Robert Helina, the Chief Financial Officer and a Director of the Corporation.

Where the Common Shares of the Corporation which are required to be held in escrow are held by a non-individual (a "**holding company**"), each holding company pursuant to the Escrow Agreement, has agreed, or will agree, not to carry out any transactions during the currency of the Escrow Agreement which would result in a change of control of the holding company, without the consent of the Exchange. Any holding company must sign an undertaking to the Exchange that, to the extent reasonably possible, it will not permit or authorize any issuance of securities or transfer of securities that could reasonably result in a change of control of the holding company. In addition, the Exchange may require an undertaking from any control person of the holding company not to transfer the shares of that company.

Under the Escrow Agreement, 10% of the escrowed Common Shares will be released from escrow on the issuance of the Final Exchange Bulletin (the "**Initial Release**") and an additional 15% will be released on the dates 6 months, 12 months, 18 months, 24 months, 30 months and 36 months following the Initial Release.

If the Resulting Issuer meets the Exchange's Tier 1 Minimum Listing Requirements either at the time the Final Exchange Bulletin is issued or subsequently, the release of the escrowed Common Shares will be accelerated. An accelerated escrow release will not commence until the Resulting Issuer has made application to the Exchange for listing as a Tier 1 Issuer and the Exchange has issued a bulletin that announces the acceptance for listing of the Resulting Issuer on Tier 1 of the Exchange.

The Exchange's prior consent must be obtained before a transfer within escrow of escrowed Common Shares. Generally, the Exchange will only permit a transfer within escrow to be made to incoming Principals in connection with a proposed Qualifying Transaction.

If a Final Exchange Bulletin is not issued, the escrowed Common Shares will not be released. Under the Escrow Agreement, each Non Arm's Length Party to the Corporation who holds escrowed Common Shares acquired at a price below the Offering price under this prospectus has irrevocably authorized and directed the Trustee to immediately:

- (a) cancel all of those escrowed Common Shares upon the issuance by the Exchange of a bulletin delisting the Common Shares of the Corporation; or
- (b) if the Corporation lists on NEX, either:
 - (i) cancel all Seed Shares purchased by Non Arm's Length Parties to the Corporation at a discount from the IPO price, in accordance with section 11.2(a) of the CPC Policy, or
 - (ii) subject to majority shareholder approval, cancel an amount of the Seed Shares purchased by Non Arm's Length Parties to the Corporation so that the average cost of the remaining Seed Shares is at least equal to the IPO price.

Escrowed Securities on Qualifying Transaction

Generally, if at least 75% of the securities issued pursuant to the Qualifying Transaction are "Value Securities", then all the securities issued to Principals of the Resulting Issuer pursuant to the Qualifying

Transaction will be deposited into escrow pursuant to a value security agreement (the “**Value Security Escrow Agreement**”). “Value Securities” are securities issued pursuant to a transaction for which the deemed value of the securities at least equals the value ascribed to the asset, using a valuation method acceptable to the Exchange, or securities that are otherwise determined by the Exchange to be Value Securities and required to be placed in escrow under a Value Security Escrow Agreement. However, if at least 75% of the securities issued pursuant to the Qualifying Transaction are not Value Securities, all securities issued pursuant to the Qualifying Transaction will be deposited into a surplus security escrow agreement (a “**Surplus Security Escrow Agreement**”).

The principal distinction between a Value Security Escrow Agreement and a Surplus Security Escrow Agreement is the time period for release of securities from escrow. In the case of a Resulting Issuer that will be a Tier 2 issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for a three year escrow release mechanism with 10% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 15% of the escrowed securities being releasable every 6 months thereafter until the date which is 36 months after the Final Exchange Bulletin. In the case of a Resulting Issuer that will be a Tier 2 issuer subject to a Surplus Security Escrow Agreement, when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a 3 year escrow release mechanism with 5% of the escrowed securities releasable at the time of the Final Exchange Bulletin, 5% on the date which is 6 months after the Final Exchange Bulletin, 10% on each of the dates which are 12 and 18 months after the Final Exchange Bulletin, 15% on each of the dates which are 24 and 30 months after the Final Exchange Bulletin and 40% on the date which is 36 months after the Final Exchange Bulletin.

In the case of a Resulting Issuer that will be a Tier 1 issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for an 18 month escrow release mechanism with 25% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 25% of the escrowed securities being releasable every 6 months thereafter. In the case of a Resulting Issuer that will be a Tier 1 issuer when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a three year escrow release mechanism with 10% of the escrowed securities being releasable upon the issuance of the Final Exchange Bulletin, 20% on the date which is 6 months after the Final Exchange Bulletin, 30 % on the date which is 12 months after the Final Exchange Bulletin and 40% on the date which is 18 months after the Final Exchange Bulletin.

Securities issued pursuant to a private placement to Principals of the Corporation and the proposed Resulting Issuer will generally be exempt from escrow requirements where:

- (a) the private placement is announced at least five trading days after the news release announcing the Agreement in Principle and the pricing for the financing is at not less than the discounted market price, as determined in accordance with the Policies of the Exchange; or
- (b) the private placement is announced concurrently with the Agreement in Principle and
 - (i) at least 75% of the proceeds from the private placement are not from Principals of the Corporation or the proposed Resulting Issuer,
 - (ii) if subscribers, other than Principals of the Corporation or the proposed Resulting Issuer, will obtain securities subject to hold periods, then in addition to any resale restrictions under applicable securities legislation, any securities issued to such Principals will be subject to a four month hold period, and

- (iii) none of the proceeds of the private placement are allocated to pay compensation or to settle indebtedness owing to Principals of the Resulting Issuer.

No director, officer, Insider or Promoter of the Corporation, or a shareholder of the Corporation holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation, has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority or has been subject to any other penalties or sanctions imposed by a court or regulatory body or self-regulatory authority that would likely be considered important to a reasonable investor in making an investment decision.

Personal Bankruptcies

No director, officer, Insider or Promoter of the Corporation, or a shareholder of the Corporation holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation, or a personal holding company of any such persons has, within the 10 years before the date of this prospectus, as applicable, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or has been subject to or has instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold such person's assets.

All of the directors, officers, Insiders and Promoters are engaged in and will continue to be engaged in corporations or businesses which may be in competition with the search by the Corporation for businesses or assets in order to close a Qualifying Transaction. Accordingly, situations may arise where the directors, officers, Insiders and Promoters will be in direct competition with the Corporation. Conflicts, if any, will be subject to the procedures and remedies as provided under the *Business Corporations Act* (British Columbia).

Executive Compensation

Except as set out below or otherwise disclosed in this prospectus, prior to Completion of a Qualifying Transaction, no payment of any kind has been made, or will be made, directly or indirectly, by the Corporation to a Non Arm's Length Party to the Corporation or a Non Arm's Length Party to the Qualifying Transaction, or to any person engaged in investor relations activities in respect of the securities of the Corporation or any Resulting Issuer by any means, including:

- (a) remuneration, which includes but is not limited to:
 - (i) salaries;
 - (ii) consulting fees;
 - (iii) management contract fees or directors' fees;
 - (iv) finder's fees;
 - (v) loans, advances, bonuses; and
- (b) deposits and similar payments.

Although the Corporation may reimburse Non Arm's Length Parties for the Corporation's reasonable allocation of rent, secretarial services and other general administrative expenses, at fair market value ("**Permitted Reimbursement**"), there have been no such reimbursements since incorporation. No reimbursement may be made for any payment made to lease or buy a vehicle.

The directors and officers of the Corporation will also be granted the Directors' and Officers' Options. See "Plan of Distribution" and "Options to Purchase Securities".

Following Completion of the Qualifying Transaction, it is anticipated that the Corporation shall pay compensation to its officers. However, no payment other than the Permitted Reimbursements will be made by the Corporation or by any party on behalf of the Corporation, after Completion of the Qualifying Transaction, if the payment relates to services rendered or obligations incurred or in connection with the Qualifying Transaction.

DILUTION

Purchasers of Common Shares under this prospectus will suffer an immediate dilution of \$0.014 per Common Share or 14% on the basis of there being 7,000,000 Common Shares of the Corporation issued and outstanding following completion of this Offering. Dilution has been computed on the basis of total gross proceeds to be raised by this prospectus and from sales of securities prior to the filing of this prospectus, without deduction of commissions or related expenses incurred by the Corporation, as set forth below:

Item	Total Offering (\$)
Gross proceeds of prior share issues	100,000
Gross proceeds of this Offering	500,000
Total gross proceeds after this Offering	600,000
Offering price per share	0.10
Proceeds per share after this Offering	0.086
Dilution per share to subscriber	0.014
Percentage of dilution in relation to offering price	14%

RISK FACTORS

Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation's business and its present stage of development. The following are risk factors associated with the Corporation:

- (a) the Corporation was only recently incorporated, has not commenced commercial operations and has no assets other than cash. It has no history of earnings, and shall not generate earnings or pay dividends until at least after Completion of the Qualifying Transaction;
- (b) investment in the Common Shares offered by this prospectus is highly speculative given the proposed nature of the Corporation's business and its present stage of development;
- (c) the directors and officers of the Corporation will only devote a portion of their time to the business and affairs of the Corporation and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time. See "Directors, Officers and Promoter - Conflicts of Interest";
- (d) assuming completion of the Offering, an investor will suffer an immediate dilution to its investment of \$0.014 per Common Share or 14%;
- (e) there can be no assurance that an active and liquid market for the Corporation's Common Shares will develop and an investor may find it difficult to resell its Common Shares;
- (f) until Completion of a Qualifying Transaction, the Corporation is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions;

- (g) the Corporation has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Corporation will be able to identify a suitable Qualifying Transaction;
- (h) even if a proposed Qualifying Transaction is identified, there can be no assurance that the Corporation will be able to successfully complete the transaction;
- (i) Completion of the Qualifying Transaction is subject to a number of conditions including acceptance by the Exchange and, in the case of a Non Arm's Length Qualifying Transaction, Majority of the Minority Approval;
- (j) unless the shareholder has the right to dissent and be paid fair value in accordance with applicable corporate or other law, a shareholder who votes against a proposed Non Arm's Length Qualifying Transaction for which Majority of the Minority Approval by shareholders has been given, will have no rights of dissent and no entitlement to payment by the Corporation of fair value for the Common Shares;
- (k) upon public announcement of a proposed Qualifying Transaction, trading in the Common Shares of the Corporation will be halted and will remain halted for an indefinite period of time, typically until a Sponsor has been retained and certain preliminary reviews have been conducted. The Common Shares of the Corporation will be reinstated to trading before the Exchange has reviewed the transaction and before the Sponsor has completed its full review. Reinstatement to trading provides no assurance with respect to the merits of the transaction or the likelihood of the Corporation completing the proposed Qualifying Transaction;
- (l) trading in the Common Shares of the Corporation may be halted at other times for other reasons, including for failure by the Corporation to submit documents to the Exchange in the time periods required;
- (m) the Exchange will generally suspend trading in the Corporation's Common Shares or delist the Corporation in the event that the Exchange has not issued a Final Exchange Bulletin within 24 months from the date of listing;
- (n) neither the Exchange nor any securities regulatory authority passes upon the merits of the proposed Qualifying Transaction;
- (o) in the event that management of the Corporation resides outside of Canada or the Corporation identifies a foreign business as a proposed Qualifying Transaction, investors may find it difficult or impossible to effect service of notice to commence legal proceedings upon any management resident outside of Canada or upon the foreign business and may find it difficult or impossible to enforce against such persons, judgments obtained in Canadian courts;
- (p) the Qualifying Transaction may be financed in all or part by the issuance of additional securities by the Corporation and this may result in further dilution to the investor, which dilution may be significant and which may also result in a change of control of the Corporation; and
- (q) subject to prior acceptance by the Exchange, the Corporation may be permitted to loan or advance up to an aggregate of \$250,000 of its proceeds to a target business without

requiring shareholder approval and there can be no assurance that the Corporation will be able to recover that loan.

As a result of these factors, this Offering is only suitable to investors who are willing to rely solely on management of the Corporation and who can afford to lose their entire investment. Those investors who are not prepared to do so should not invest in the Common Shares.

Metron Capital Corp. ("Company") was incorporated under the laws of the Province of British Columbia on March 4, 2008 and is classified as a Capital Pool Corporation as defined in the TSX Venture Exchange (the "Exchange") Policy 2.4. The principal business of the Company is to identify and evaluate opportunities for the acquisition of an interest in assets or business, and, once identified, to negotiate an acquisition or participation within 24 months of listing on the Exchange. The Company has not commenced operations at the balance sheet date.

The Company is a development stage enterprise, as defined in AcG-11, "Enterprises in the Development Stage" of the Canadian Institute of Chartered Accountants Handbook. The Company is devoting all of its present efforts to financial planning, raising capital, securing and establishing a new business and its planned principle operations have not commenced. Accordingly, no revenue has been derived during the organization period.

These financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to commence profitable operations in the future.

During the period ended May 31, 2009, the Company experienced operating losses and the operations of the Company have been primarily funded by the issuance of share capital. Continued operations are dependent on the Company's ability to complete public equity financing or generate profitable operations in the future.

b) Share Option Plan

As of March 4, 2008 the Company adopted the standard of the CICA Handbook, *Stock-Based Compensation and Other Stock-Based Payments*, which has been applied prospectively. All stock-based awards made to non-employees and employees are recognized and measured using the fair value based method at the date of grant. The Company uses the Black-Scholes model to estimate fair value.

c) Foreign Currency Translation

The Company's functional and reporting currency is the Canadian dollar. The Company uses the temporal method of foreign currency translation. Under the temporal method, foreign currency monetary assets and liabilities are translated into Canadian dollars at the exchange rates prevailing at the balance sheet date. currency transactions are translated at the Canadian dollar rate prevailing on the transaction dates. Foreign exchange gains and losses are included in the determination of earnings.

d) Earnings (Loss) Per Share

Basic earnings (loss) per share are computed using the weighted average number of common shares outstanding during the period. Diluted earnings (loss) per share amounts are calculated giving effect to the potential dilution that would occur if securities or other contracts to issue common shares were exercised or converted to common shares using the treasury stock method. The treasury stock method assumes that proceeds received from the exercise of stock options and warrants are used to redeem common shares at the prevailing market value.

e) Use of Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying disclosures. Although these estimates are based on management's best knowledge of current events and actions the company may undertake in the future, actual results may differ from the estimates.

f) Revenue Recognition

Revenue recognized in the accounts when title and risk passes to the buyer, collection is reasonably assured and the price is reasonably determinable.

g) Income Taxes

The provision for income taxes is based on the liability method. Future taxes arise from the recognition of the tax consequences of temporary differences by applying enacted or substantively enacted tax rates applicable to future years to differences between the financial statement carrying amounts and the tax bases of certain assets and liabilities. The Company records a valuation allowance against any portion of those future income tax assets that it believes will, more likely than not, fail to be realized.

h) Financial instruments – Recognition and Measurement – Section 3855

Financial assets and liabilities are initially recognized at fair value on settlement date and are subsequently measured based on their classification as held-for-trading, held-to-maturity, loans and receivables, available-for-sale, or other financial liabilities. Transaction costs are expensed when incurred. Regular sales of financial instruments are recognized at settlement date.

i) Held-for-trading

Financial assets and financial liabilities that are purchased and incurred with the intention of generating profits in the near term are classified as held-for-trading. Any financial instrument can be designated as held for trading as long as its fair value can be reliably measured. These instruments are measured at fair value with subsequent changes in fair value included in earnings.

The company has classified cash and cash equivalents as held-for-trading, which accordingly are carried at their fair values. Held-for-trading assets are not subject to significant credit, foreign exchange or interest rate risk.

Any gains and losses arising from the sale of held-to-maturity financial assets are included in earnings.

Currently, the company has no held-to-maturity financial assets.

iii) Loans and receivables

Items classified as loans and receivables are measured at amortized cost using the effective interest method. Any gains or losses on the realization of loans and receivables are included in earnings.

Available-for-sale assets are those financial assets that are not classified as held-for-trading, held-to-maturity or loans or receivables, and are carried at fair value. In addition, as a result of this new standard, exiting Section 3250, Surplus, has been replaced with new Section 3251, Equity. The components of comprehensive income are recorded in the statement of Other Comprehensive Income ("OCI") until recognized in the statement of income. Accumulated Other Comprehensive Income ("AOCI") is included in

5. Recent Accounting Pronouncements

This Section details recent accounting pronouncements that impact these and future financial statements.

a) International Financial Reporting Standards ("IFRS")

In 2006, the Canadian Accounting Standards Board ("AcSB") published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five year transitional period. In February 2008 the AcSB announced that 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canada's own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of January 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ended December 31, 2010. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

b) Goodwill and Intangible Assets

The Accounting Standards Board has also issued a new Section 3064, Goodwill and Intangible Assets, to replace current Section 3062, Goodwill and Other Intangible Assets. The new section establishes revised standards for recognizing, measuring, presenting and disclosing goodwill and intangible assets. CICA 3064 is effective for fiscal years beginning on or after October 1, 2008 and will be adopted by the Company for the year ending May 31, 2010.

6. Related Party Transactions

7. Fair Value of Financial Instruments:

Determination of Fair Value -

The fair value of a financial instrument on initial recognition is normally the transaction price, ie: the fair value of the consideration given or received. Subsequent to initial recognition, the fair values of financial instruments measured at fair value are determined by using valuation techniques which utilize observable market inputs. These include comparison with similar instruments where market observable prices exist and discounted cash flow analysis.

Methods and Assumptions -

The Company currently calculates fair values based on the following method of valuation and assumptions:

Financial Instruments Whose Carrying Value Approximate Fair Value -

For certain financial assets and financial liabilities that are short-term in nature or contain variable rate features, fair value is based on the appropriate prevailing interest rates and/or credit curves. The fair value of cash resources and accounts payables is considered to be equal to carrying value.

	2009		2008	
	Carrying Fair Value	Carrying Value	Fair Value	Carrying Value
Financial Assets -				
Cash and current accounts (Held-for-trading)	\$ 48,843	\$ 48,843	\$13,514	\$13,514
Liabilities -				
Accounts payables (Other financial liabilities)	10,878	10,878	\$6,572	\$6,572

Management validates that the estimates of fair value are reasonable using a consistent application of valuation methodology over a period of time and the controls and processes in place.

Total interest income and expense calculated using the effective interest rate method for financial assets and financial liabilities that have not been classified as held-for-trading are nil.

8 Public Offering
