NOMAD VENTURES RECEIVES SAND AND GRAVEL PERMIT FROM THE BC MINISTRY OF ENERGY AND MINES

Vancouver BC, Canada: Nomad Ventures Inc. (the “Company”) is very pleased to announce the receipt of their Sand and Gravel Permit for the St. Vincent Bay Quarry, located in the Sunshine Coast, British Columbia. This permit is granted by the BC Ministry of Energy and Mines and indicates the Provincial Government’s approval of Nomad’s Work System and Reclamation Plan as prepared and submitted by the Company on April 23, 2014.

The permit entitles the Company to commence operations on the property as a commercial sand, gravel and granite quarry.

A reclamation bond has been posted by the Company and has been accepted by the Ministry of Energy and Mines as part of this approval process.

The Sand and Gravel Permit allows the Company to begin production operations at the quarry. Nomad Ventures will begin by clearing and stripping the mine footprint (raw material source area) in preparation for sand, gravel and quarried stone extraction and processing.

The Company is very pleased with the successful accomplishment of this significant milestone and looks forward to beginning work on the property as soon as equipment and crews can be mobilized.

Delivery of aggregate product to customers will begin as soon as the site is prepared and the mandated official notifications are made to local communities and the Ministry of Energy and Mines.

The commencement of production on the St. Vincent Bay Property will not be based on a feasibility study of mineral reserves demonstrating economic and technical viability and therefore there is increased uncertainty and risk of failure associated with this production decision. Production will be subject to the Company obtaining sales contracts for the purchase of sand, gravel and/or quarried stone product. The Company is actively pursuing sales contracts for its products.

James H. Place, P.Geo., a Director of the company and a Qualified Person as defined in NI43-101, has reviewed and approved the scientific and technical content of this news release.

On behalf of the Board of Directors,

“Brent Forgeron”

President
Nomad Ventures Inc.
