

**Form 51-102F3
Material Change Report**

Item 1: Name and Address of Company

Indigo Exploration Inc.
Suite 880 – 580 Hornby Street
Vancouver, BC V6C 3B6

Item 2: Date of Material Change

February 25, 2020

Item 3: News Release

News Release dated February 25, 2020 disseminated via Newsfile Corp.

Item 4: Summary of Material Change

On February 25, 2020 the Company announced that it has regained the Lati permit under a new name Lati 2 in Burkina Faso, West Africa. The 180.5 square kilometre permit lies in central Burkina Faso about 150 km west by road from the capital of Ouagadougou.

Item 5: Full Description of Material Change

On February 25, 2020 the Company announced that it has regained the Lati permit under a new name Lati 2 in Burkina Faso, West Africa. The 180.5 square kilometre permit lies in central Burkina Faso about 150 km west by road from the capital of Ouagadougou.

In 2012, the Company conducted a reverse circulation drill program which identified a 2.5 kilometre long trend of wide (100m), low-grade gold mineralization.

The permit area has extensive artisanal working over a large surface area. At the time of the 2012 drilling, the collective surface area where artisanal workers had continuously panned the surface was 1.5 square kilometres.

Company crews revisited the area recently and mapped the collective surface area of artisanal panning, which has now doubled in surface area to 3 square kilometres, indicated the present of gold there. One new significant area of surface panning is 3 kilometres long by 800 metres wide, which has not been drill tested. This untested area is underlain by mafic volcanics in contact with a granite. The Company plans to evaluate this untested area with detailed soil sampling in order to prioritize drill testing.

Item 6: Reliance on subsection 7.1(2) or (3) of National Instrument 51-102

N/A

Item 7: Omitted Information

N/A

Item 8: Executive Officer

Paul S. Cowley
President, CEO and Director
Tel: (604) 340-7711

Item 9: Date of Report

February 25, 2020
