Notes to the Condensed Interim Consolidated Financial Statements

Three and six months ended March 31, 2020 and 2019

(Unaudited - Expressed in Canadian dollars)

1 ORGANIZATION AND NATURE OF OPERATIONS

Indigo Exploration Inc. (“the Company”) is in the business of the acquisition, exploration and evaluation of mineral properties, and either joint venturing or developing these properties further or disposing of them when the evaluation is completed. The Company is listed for trading on the TSX Venture Exchange under the symbol “IXI”. The Company is in the exploration stage and has interests in properties located in Burkina Faso, West Africa. The Company’s corporate head office is located at Suite 880 – 580 Hornby Street, Vancouver, British Columbia, Canada.

On May 5, 2020, the Company consolidated its issued and outstanding common shares on the basis of 6 pre-consolidation shares for one post-consolidation share (the “Consolidation”). All references to share and per share amounts in these condensed interim financial statements have been retroactively restated to reflect the Consolidation (Note 8).

2 BASIS OF PRESENTATION

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The condensed interim consolidated financial statements should be read in conjunction with the annual audited consolidated financial statements for the year ended September 30, 2019, which have been prepared in accordance with IFRS as issued by the IASB.

The Company uses the same accounting policies and methods of computation as in the annual audited consolidated financial statements for the year ended September 30, 2019.

These financial statements were approved by the board of directors on May 28, 2020.

3 ACCOUNTING STANDARDS

i) NEW ACCOUNTING STANDARDS EFFECTIVE FOR THE FIRST TIME

IFRS 16 - Leases. On January 13, 2016, the IASB published a new standard, IFRS 16, Leases. The new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Under the new standard, a lessee recognizes a right-of-use asset and a lease liability. The right-of-use asset is treated similarly to other non-financial assets and depreciated accordingly. The liability accrues interest. This will typically produce a front-loaded expense profile (whereas operating leases under IAS 17 would typically have had straight-line expenses).

The Company did not restate prior periods as there was no impact at the date of initial application. The adoption of IFRS 16 resulted in no impact to the opening accumulated deficit nor to the opening balance of accumulated comprehensive income on October 1, 2019.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

There have been no revisions to the nature of judgments and amount of changes in estimates of amounts reported in the Company’s September 30, 2019 annual consolidated financial statements other than the removal of the Going Concern note disclosure as the Company subsequently to March 31, 2020 completed a private placement.
