

CERTIFICATE of AUTHOR

I, Isobel K. Wolfson, *P. Geo.* do hereby certify that:

1. I currently reside in Grand Falls-Windsor, Newfoundland and Labrador and I am currently a self-employed independent geological consultant under contract to Mercator Geological Service Limited.
2. I am a graduate of Dalhousie University of Halifax, Nova Scotia with an M.Sc. degree in Geology (1983). I am a graduate of Queen's University of Kingston, Ontario with a B.Sc. degree in Geological Sciences (1980).
3. I am: a registered member in good standing with the Association of Professional Engineers and Geoscientists of Newfoundland and Labrador (member number 04557); a registered member in good standing with the Association of Professional Engineers and Geoscientists of British Columbia (licence number 25894), and; a member in good standing with the Australian Institute of Geoscientists (membership number 2665).
4. I have been employed as a geologist in the mining and mineral exploration industry for over 25 years since my graduation from university.
5. I have relevant work experience in similar VMS deposits having worked as a mine geologist at the Matabi and Lyon Lake underground base metal mines in northwestern Ontario (Noranda Minerals Inc.), worked as a mine geologist at the Geco underground base metal mine in northwestern Ontario (Noranda Minerals Inc.), worked as mine geologist at the Duck Pond underground base metal mine in central Newfoundland (currently owned by Teck) and worked as a project and senior geologist at the various underground copper mines at Mt. Isa (MIM, now X-Strata); hydrothermally-altered breccias in calcareous siltstones.
6. I have read the definition of “qualified person” set out in National Instrument 43-101 (“NI 43-101”) and certify that by reason of my education, affiliation with a professional association (as defined in NI 43-101) and past relevant work experience, I fulfill the requirements to be a “qualified person” for the purposes of NI 43-101.
7. I am in part responsible for the preparation of Sections 5.0, 8.0, 14.0, 18.0 and 19.0 of the technical report entitled:

Technical Report on the Rambler Property,
Newfoundland, Canada.
Licence 9060M
for GoGold Resources Inc.
564,570mE
5,528,070mN
Effective Date: June 14, 2010

8. I have not had prior involvement with the property that is the subject of the Technical Report.
9. I am independent of the issuer, however, I have been employed as a Consultant to Celtic Minerals Inc. from whom the majority of my income is derived in the last three years. I am therefore not independent applying all the tests in Section 1.4 of National Instrument 43-101.
10. I visited the GoGold Rambler Property area on January 30, 2010, and June 3, 2010 at which time I visited the former Rambler Main Mine site, East Mine site and Big Rambler Pond Mine site and viewed outcrop mineralization and drill core that is the subject of this report.
11. To the best of my knowledge, information and belief, the Technical Report sections that I prepared contain all scientific and technical information that is required to be disclosed to make those sections of the technical report not misleading.
12. I have read National Instrument 43-101 and Form 43-101F1, and believe that this Technical Report has been prepared in compliance with that instrument and form.

Dated this 14th Day of June, 2010,

“Original signed and sealed by”

Isobel Wolfson, M.Sc., P. Geo.
