NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

As at and for the three and nine months ended September 30, 2020.

(Tabular amounts expressed in thousands of Canadian dollars, except where otherwise noted)

1. NATURE OF BUSINESS

Athabasca Oil Corporation ("Athabasca" or the "Company") is an exploration and production company developing Light and Thermal Oil resource plays in the Western Canadian Sedimentary Basin in Alberta, Canada. Athabasca was incorporated on August 23, 2006, under the laws governing the Province of Alberta. The domicile of the Company is 1200, 215 - 9th Avenue SW, Calgary, Alberta. The Company is publicly traded on the Toronto Stock Exchange ("TSX") under the symbol "ATH". These unaudited condensed interim consolidated financial statements ("consolidated financial statements") were authorized for issue by the Board of Directors on November 4, 2020.

2. BASIS OF PRESENTATION

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") using International Accounting Standard ("IAS") 34: *Interim Financial Reporting*. These consolidated financial statements have been prepared on a historical cost basis, except for financial instruments which are measured at their estimated fair value. They do not contain all disclosures required by IFRS for annual financial statements and, accordingly, should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2019. The consolidated financial statements have been prepared using the same accounting policies and methods as the consolidated financial statements for the year ended December 31, 2019. There were no changes to the Company's operating segments during the period.

In March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. Global commodity prices declined significantly due to a reduction in oil demand as countries around the world, including Canada, enacted emergency measures to combat the spread of the virus. In the second quarter and throughout the third quarter of 2020, economies started to reopen leading to a partial recovery and stabilization in oil prices. The significant impacts of the COVID-19 pandemic on Athabasca include:

- declines in revenue and cash flows as a result of the collapse in commodity prices and resulting reductions in production levels;
- reduced capital program for 2020 which is not expected to impact production capability levels this year however further reductions to capital programs could have negative effects on future production levels;
- declines in commodity prices, revenue and cash flows leading to impairment charges (Note 7) and increased risk of onerous contracts related to committed fixed cost contracts;
- increased risk of non-payment of accounts receivable and customer defaults; and
- non-producing asset expenses and restructuring charges related to the suspension of the Hangingstone operations (Notes 15 and 17).

Estimates and judgements made by management in the preparation of the consolidated financial statements are subject to a higher degree of measurement uncertainty during this volatile period.

3. CAPITAL-CARRY RECEIVABLE

In 2016, Athabasca entered into a joint venture to advance development of its Light Oil assets. The joint venture resulted in Athabasca holding an operated 70% working interest in its Greater Placid assets and a non-operated 30% working interest in its Greater Kaybob assets. As part of the transaction consideration, Athabasca recognized \$219.0 million (undiscounted) in the form of a capital-carry receivable in Greater Kaybob, whereby the joint venture partner committed to funding 75% of Athabasca's share of development capital for a five year period.

The capital-carry receivable was based on management's best estimate of the present value of the expected timing of the recovery of the remaining receivable. The timing of the recovery was dependent on the amount of capital expenditures in the Greater Kaybob area, which is governed by the joint development agreement between the parties.

The following table reconciles the change in the capital-carry receivable:

As at	September 30, 2020	December 31, 2019
CAPITAL-CARRY RECEIVABLE, BEGINNING OF PERIOD	\$ 22,602	\$ 79,116
Recovery of capital-carry through capital expenditures	(22,740)	(58,934)
Revisions in expected timing of future capital expenditures	—	(529)
Time value of money accretion	138	2,949
CAPITAL-CARRY RECEIVABLE, END OF PERIOD - DISCOUNTED	\$ —	\$ 22,602
CAPITAL-CARRY RECEIVABLE, END OF PERIOD - UNDISCOUNTED	\$ —	\$ 22,740

4. INVENTORY

As at	September 30, 2020	December 31, 2019
Product inventory	\$ 19,756	\$ 32,524
Warehouse inventory	10,405	9,908
TOTAL	\$ 30,161	\$ 42,432

5. RISK MANAGEMENT CONTRACTS

Under the Company's commodity risk management program, Athabasca may utilize financial and/or physical delivery contracts to fix the commodity price associated with a portion of its future production in order to manage its exposure to fluctuations in commodity prices.

Financial commodity risk management contracts are valued on the consolidated balance sheet by multiplying the contractual volumes by the differential between the anticipated market price (i.e. forecasted strip price) and the contractual fixed price at each future settlement date. The corresponding change in the asset or liability is recognized as an unrealized gain or loss in net income (loss). As the commodity derivatives are unwound (i.e. settled in cash), Athabasca recognizes a corresponding realized gain or loss in net income (loss). Physical delivery contracts are not considered financial instruments and therefore, no asset or liability is recognized on the consolidated balance sheet.

Athabasca is also exposed to foreign exchange risk on the principal and interest components of its US dollar denominated 2022 Notes and may utilize financial contracts to reduce its exposure to foreign currency risk. As at September 30, 2020, no foreign exchange risk management contracts were in place.

Financial commodity risk management contracts

As at September 30, 2020, the following financial commodity risk management contracts were in place:

Instrument	Period	Volume	C\$ Average Price/bbl ⁽¹⁾	US\$ Average Price/bbl ⁽¹⁾
<u>Sales contracts</u>				
WTI fixed price swaps	October - December 2020	3,000 bbl/d	\$ 73.40	\$ 55.03
WTI collar	October - December 2020	8,900 bbl/d	\$ 53.12 - 60.83	\$ 39.82 - 45.61
WTI three way collar	October - December 2020	6,000 bbl/d	\$ 66.14 74.48 81.15	\$ 49.58 55.83 60.83
WTI/WCS differential swaps	October - December 2020	19,900 bbl/d	\$ (22.57)	\$ (16.92)
WTI collar	January - March 2021	11,000 bbl/d	\$ 53.23 - 60.87	\$ 39.90 - 45.63
WTI/WCS differential swaps	January - March 2021	16,000 bbl/d	\$ (19.34)	\$ (14.50)
WTI call options ⁽²⁾	April - December 2021	8,900 bbl/d	\$ 73.36	\$ 55.00
<u>Purchase contracts</u>				
C5+ fixed price swaps	October - December 2020	1,000 bbl/d	\$ 54.69	\$ 41.00
AECO fixed price swaps	January - December 2021	1,500 GJ/d	\$ 2.73	\$ 2.04

(1) The implied C\$ or US\$ Average Price/bbl, as applicable, was calculated using the September 30, 2020 exchange rate of US\$1.00 = C\$1.3339.

(2) These WTI call options were sold to a counterparty in order to enter into the October 2020 to March 2021 WTI collars at the price detailed in the above table.

As at September 30, 2020, Athabasca had a commodity risk management asset of \$4.2 million and a liability of \$9.9 million resulting in a net liability of \$5.7 million (December 31, 2019 - \$14.1 million liability).

The following table summarizes the sensitivity to price changes for Athabasca's commodity risk management contracts:

As at September 30, 2020	Change in WTI		Change in WCS differential	
	Increase of US\$5.00/bbl	Decrease of US\$5.00/bbl	Increase of US\$1.00/bbl	Decrease of US\$1.00/bbl
Increase (decrease) to fair value of commodity risk management contracts	\$ (2,672)	\$ 10,236	\$ 4,246	\$ (4,246)

Additional financial commodity risk management activity related to 2021 has taken place subsequent to September 30, 2020, as noted in the table below:

Instrument	Period	Volume	C\$ Average Price/bbl ⁽¹⁾	US\$ Average Price/bbl ⁽¹⁾
<i>Sales contracts</i>				
WTI/WCS differential swaps	January - March 2021	2,000 bbl/d	\$ (18.54)	\$ (13.90)
WTI/WCS differential swaps	April - September 2021	7,500 bbl/d	\$ (15.98)	\$ (11.98)
<i>Purchase contracts</i>				
AECO fixed price swaps	January - December 2021	3,000 GJ/d	\$ 2.71	\$ 2.03

(1) The implied C\$ or US\$ Average Price/bbl, as applicable, was calculated using the September 30, 2020 exchange rate of US\$1.00 = C\$1.3339.

6. SALE OF ASSETS

Thermal Oil Contingent Bitumen Royalty Transaction

In 2016 and 2017, Athabasca granted a Contingent Bitumen Royalty (the "Royalty") on its Thermal Oil assets to Burgess Energy Holdings L.L.C. ("Burgess") for gross cash proceeds of \$397.0 million. On April 28, 2020, Athabasca upsized the Royalty for cash consideration of \$70.0 million, bringing the total gross proceeds received by the Company from the sale of the Royalty to \$467.0 million.

The upsized Royalty included amending the royalty rate scale and oil price thresholds at Leismer, Hangingstone and Corner ("Amended Royalty") with the royalty scale and oil price thresholds for the other Thermal Oil assets remaining the same. The Amended Royalty at Leismer, Hangingstone and Corner follows the same structure as the existing contingent bitumen royalties and ensures the Thermal Oil assets are not encumbered at low commodity prices. The Amended Royalty is based on a scale from 0% – 15% with a Western Canadian Select ("WCS") heavy benchmark. At prices below US\$60 WCS the rate is 0% (US\$75 implied WTI assuming a US\$15 WCS differential), the minimum 2.5% rate is triggered at US\$60 WCS with a sliding scale up to 15% at US\$100 WCS (previously US\$140 WCS). The Royalty is applied to Athabasca's realized bitumen price (C\$), which is determined net of diluent, transportation and storage costs. The Royalty has no associated commitments to develop future expansions or projects. No amounts have been paid or are currently payable in respect of the Royalty to Burgess.

The upsizing of the Royalty resulted in the derecognition of \$46.4 million of property, plant and equipment ("PP&E") and \$2.6 million of exploration and evaluation ("E&E") assets related to the Leismer/Corner CGU, and a gain of \$21.0 million for the other Thermal Oil CGUs.

Leismer Infrastructure Transaction

On December 10, 2018, Athabasca entered into an agreement to sell its Leismer pipelines and Cheecham storage terminal ("Leismer Infrastructure Transaction") for \$265.0 million. The Leismer Infrastructure Transaction was completed on January 15, 2019 and provides Athabasca with priority service on the pipelines and access to the dilbit/diluent tanks at Cheecham for an annual toll of approximately \$26.0 million, with a discounted toll for any excess volumes.

Upon close of the transaction, Athabasca received \$265.0 million of cash consideration and incurred \$2.8 million of transaction costs, resulting in net proceeds of \$262.2 million. Athabasca de-recognized \$39.9 million of PP&E and \$0.4 million in decommissioning obligations resulting in a gain of \$222.8 million on the Leismer Infrastructure Transaction.

7. PROPERTY, PLANT AND EQUIPMENT ("PP&E")

BALANCE, DECEMBER 31, 2018	\$	1,469,583
PP&E expenditures		198,820
Leased asset		12,570
Non-cash capitalized costs and other ⁽¹⁾		(1,320)
Depletion and depreciation ⁽²⁾		(132,850)
Disposals (Note 6)		(41,083)
BALANCE, DECEMBER 31, 2019	\$	1,505,720
PP&E expenditures		94,173
Non-cash capitalized costs and other ⁽¹⁾		(10,625)
Depletion and depreciation ⁽²⁾		(86,927)
Impairment loss		(471,839)
Disposals (Note 6)		(46,412)
BALANCE, SEPTEMBER 30, 2020	\$	984,090

(1) Non-cash capitalized costs relate to capitalized stock-based compensation and decommissioning obligation assets.

(2) For the nine months ended September 30, 2020 and for the year ended December 31, 2019, depletion and depreciation includes \$1.5 million and \$2.1 million relating to the Leased asset, respectively.

PP&E consists of the following:

Net book value (As at)	September 30, 2020	December 31, 2019
PP&E at cost ⁽¹⁾	\$ 3,044,375	\$ 3,007,239
Accumulated depletion and depreciation ⁽¹⁾	(677,072)	(590,145)
Accumulated impairment losses	(1,383,213)	(911,374)
TOTAL PP&E	\$ 984,090	\$ 1,505,720

(1) As at September 30, 2020, the PP&E cost includes \$12.6 million of Leased asset cost and accumulated depletion and depreciation includes \$3.6 million of accumulated depreciation relating to the Leased asset (as at December 31, 2019 – Leased asset cost of \$12.6 million and accumulated depreciation relating to the Leased asset of \$2.1 million).

As at September 30, 2020, \$68.7 million (December 31, 2019 - \$80.4 million) of PP&E was not subject to depletion or depreciation as the underlying oil and gas assets were not ready for use in the manner intended by management.

Impairment summary

At each financial reporting date, the Company considers potential indicators of impairment or reversal of previous impairments for both its Light Oil and Thermal Oil CGUs. This assessment includes an analysis of current market and regulatory conditions as well as a review of the Company's assets, future development plans and pending land expiries.

During the third and second quarters of 2020, no indicators of impairment or reversal of previous impairment were identified. In the first quarter of 2020, Athabasca identified indicators of impairment for all its CGUs. The COVID-19 outbreak declared a pandemic by the World Health Organization in March 2020 caused a significant reduction in oil demand, and an oil price war was initiated in March 2020 whereby oil supply was increased by Saudi Arabia and Russia, causing global commodity prices to decline significantly.

In 2019, no indicators of impairment or reversal of previous impairment were identified.

Impairment at March 31, 2020

Light Oil

The Light Oil Division consists of the Greater Kaybob and Greater Placid areas (collectively the "Light Oil CGU"). At March 31, 2020, the Company completed an impairment test on its Light Oil CGU which resulted in an estimated recoverable value of \$502 million (based on Value-In-Use ("VIU")), which was below the CGU's carrying value of \$766.0 million resulting in an impairment loss of \$264.0 million.

Thermal Oil

The Thermal Oil Division consists of the Leismer/Corner, Hangingstone, Dover West, Birch and Grosmont CGUs. At March 31, 2020, the Hangingstone CGU impairment test (based on VIU) resulted in full impairment of the CGU's net book value of \$207.9 million. The Leismer/Corner CGU impairment test (based on VIU) resulted in the carrying value of the CGU being fully supported. No indicators of impairment reversals were identified for Athabasca's fully impaired Dover West, Birch and Grosmont CGUs.

Impairment Test Assumptions

Future cash flows utilized within the Company's March 31, 2020 impairment tests were estimated using a 2% inflation rate and discount rates ranging from 11% - 15% based on the nature of the properties included in the CGU and the extent of future funding and development risk. The following table summarizes the price forecasts used in the Company's impairment tests as at March 31, 2020:

	Remaining										
	2020	2021	2022	2023	2024	2025	2026	2027	2028	Thereafter

8. INDEBTEDNESS

As at	September 30, 2020	December 31, 2019
Senior Secured Second Lien Notes ("2022 Notes") ⁽¹⁾	\$ 600,255	\$ 583,425
Debt issuance costs	(47,081)	(47,081)
Amortization of debt issuance costs	30,934	23,343
TOTAL LONG-TERM DEBT	\$ 584,108	\$ 559,687

(1) As at September 30, 2020, the 2022 Notes (as defined below) were translated into Canadian dollars at the period end exchange rate of US\$1.00 = C\$1.3339.

Senior Secured Second Lien Notes

On February 24, 2017, Athabasca issued US\$450.0 million of Senior Secured Second Lien Notes (the "2022 Notes"). The 2022 Notes bear interest at a rate of 9.875% per annum, payable semi-annually, and mature on February 24, 2022.

The 2022 Notes are not subject to any maintenance or financial covenants and are secured by a second priority lien on substantially all of the assets of the Company. Subject to certain exceptions and qualifications, the 2022 Notes contain certain covenants that limit the Company's ability to, among other things, incur additional indebtedness, create or permit liens to exist, and make certain restricted payments, dispositions and transfers of assets. The 2022 Notes also contain maximum hedging restrictions. As at September 30, 2020, the Company is in compliance with all covenants.

Athabasca may redeem the 2022 Notes at the following specified redemption prices:

- February 24, 2020 to February 23, 2021 - 102.5% of principal
- February 24, 2021 to maturity - 100% of principal

Debt issuance costs associated with the 2022 Notes were initially capitalized and are being amortized to net income (loss) over the life of the 2022 Notes using the effective interest rate method. As at September 30, 2020, the fair value of the 2022 Notes was \$223.4 million (US\$167.5 million), based on observable market quoted prices (Level 1).

Senior Extendible Revolving Term Credit Facility

In the second quarter of 2020, the Company's banking syndicate renewed the reserve-based credit facility (the "Credit Facility") until November 30, 2020. The credit facility is \$39.9 million and reflects the outstanding letters of credit for transportation commitments. If the revolving period is not extended in November 2020 any outstanding letters of credit would be cancelled at the end of the non-revolving term, being May 31, 2021. The borrowing base is determined based on the lender's evaluation of the Company's petroleum and natural gas reserves and their commodity price outlook at the time of each renewal.

Under the terms of the Credit Facility, Athabasca is required to contribute cash to a cash-collateral account equivalent to 101% of the value of all letters of credit issued under the Credit Facility. As at September 30, 2020, \$40.3 million of restricted cash was held in the cash-collateral account (December 31, 2019 - \$nil) of which \$31.5 million was current and \$8.8 million included in non-current restricted cash. The Credit Facility is secured by a first priority security interest on all present and after acquired property of the Company and is senior in priority to the 2022 Notes. The Credit Facility contains certain covenants that limit the Company's ability to, among other things, incur additional indebtedness, create or permit liens to exist, make certain restricted payments, and dispose of or transfer assets. The Credit Facility also contains certain maximum hedging limitations. The Company is in compliance with all covenants.

As at September 30, 2020, the Company had no amounts drawn and had \$39.9 million letters of credit issued under the Credit Facility which bear interest at 0.7%. As at December 31, 2019, the Company had no amounts drawn and had \$39.4 million of letters of credit issued under the Credit Facility.

Cash-Collateralized Letter of Credit Facility

Athabasca maintains a \$120.0 million cash-collateralized letter of credit facility (the "Letter of Credit Facility") with a Canadian bank for issuing letters of credit to counterparties. The facility is available on a demand basis and letters of credit issued under the Letter of Credit Facility incur an issuance fee of 0.25%. As at September 30, 2020, Athabasca had \$109.6 million (December 31, 2019 - \$109.5 million) in letters of credit issued under the Letter of Credit Facility.

Under the terms of the Letter of Credit Facility, Athabasca is required to contribute cash to a cash-collateral account equivalent to 101% of the value of all letters of credit issued under the facility. As at September 30, 2020, \$110.6 million of restricted cash was held in the cash-collateral account (December 31, 2019 - \$110.6 million) all of which is included in non-current restricted cash.

Unsecured Letter of Credit Facility

Athabasca maintains a \$26.5 million unsecured letter of credit facility (the "Unsecured Letter of Credit Facility") with a Canadian bank which is supported by a performance security guarantee from Export Development Canada. The facility is available on a demand basis and letters of credit issued under this facility incur an issuance and performance guarantee fee of 2.7%. As at September 30, 2020, the Company had \$26.5 million of letters of credit issued under the Unsecured Letter of Credit Facility (December 31, 2019 - \$24.8 million).

9. PROVISIONS AND OTHER LIABILITIES

As at	September 30, 2020	December 31, 2019
Decommissioning obligations	\$ 114,270	\$ 121,832
Lease liability	14,392	16,311
Contingent payment obligation	—	1,028
Other obligations	1,193	5,610
TOTAL PROVISIONS AND OTHER LIABILITIES	\$ 129,855	\$ 144,781
Presented as:		
Current portion of provisions and other liabilities	\$ 5,755	\$ 8,809
Provisions and other liabilities	\$ 124,100	\$ 135,972

Decommissioning obligations

The total future costs to reclaim the Company's oil and gas assets are estimated by management based on Athabasca's ownership interest in wells and facilities, estimated costs to abandon and reclaim the wells and facilities and the estimated timing of the costs to be incurred in future periods.

The following table reconciles the change in decommissioning obligations:

As at	September 30, 2020	December 31, 2019
DECOMMISSIONING OBLIGATIONS, BEGINNING OF PERIOD	\$ 121,832	\$ 118,468
Liabilities incurred	615	1,071
Liabilities settled	(1,954)	(3,675)
Liabilities disposed (Note 6)	—	(448)
Change in discount rate	(15,452)	—
Change in estimates	—	(5,192)
Accretion expense	9,229	11,608
DECOMMISSIONING OBLIGATIONS, END OF PERIOD	\$ 114,270	\$ 121,832

At September 30, 2020, the Company has calculated the net present value of its decommissioning obligations using an inflation rate of 2.0% (December 31, 2019 - 2.0%) and a credit-adjusted discount rate of 12.0% per annum (December 31, 2019 - 10.0%). The payments to settle these obligations are expected to occur during a period of up to 50 years due to the long-term nature of the Company's oil and gas assets. The undiscounted amount of estimated inflated future cash flows required to settle the obligations is \$424.3 million (December 31, 2019 - \$422.2 million). A 1.0% change in the credit-adjusted discount rate would impact the discounted value of the decommissioning obligations by approximately \$6.7 million with a corresponding adjustment to PP&E, E&E or net income (loss) if the adjustment is related to fully impaired assets.

Lease liability

On January 1, 2019, upon adoption of IFRS 16, the Company recognized a lease liability relating to its head office lease. The liability was measured at the present value of the remaining lease payments as at January 1, 2019 discounted at 10.0%. The following table reconciles the change in the lease liability:

As at	September 30, 2020	December 31, 2019
LEASE LIABILITY, BEGINNING OF PERIOD	\$ 16,311	\$ —
Initial recognition of lease liability	—	18,657
Interest expense	1,135	1,726
Liability settled ⁽¹⁾	(3,054)	(4,072)
LEASE LIABILITY, END OF PERIOD	\$ 14,392	\$ 16,311

(1) In the consolidated statements of cash flows, the liability settled is reported as \$1.9 million of financing activities and \$1.1 million of operating activities for the nine months ended September 30, 2020 (year ended December 31, 2019 - \$2.3 million of financing activities and \$1.7 million of operating activities).

Short-term leases and low value leases have not been included in the measurement of the lease liability. For the three and nine months ended September 30, 2020, Athabasca incurred \$1.2 million and \$4.3 million, respectively, of expenditures related to short-term and low value leases which have been recognized as incurred (three and nine months ended September 30, 2019 - \$1.6 million and \$5.7 million).

10. SHAREHOLDERS' EQUITY

The Company's authorized share capital consists of an unlimited number of common shares and an unlimited number of first and second preferred shares. There are no first or second preferred shares outstanding at the reporting date and none of the Company's share capital has a par value. The following table summarizes changes to the Company's common share capital:

As at	Nine months ended September 30, 2020		Year ended December 31, 2019	
	Number of Shares	Amount	Number of Shares	Amount
Balance, beginning of period	523,452,277	\$ 2,233,396	515,889,687	\$ 2,217,963
Exercise of stock options, RSUs and PSUs (Note 11)	7,223,114	8,484	7,562,590	15,433
BALANCE, END OF PERIOD	530,675,391	\$ 2,241,880	523,452,277	\$ 2,233,396

11. STOCK-BASED COMPENSATION

The Company's stock-based compensation plans for employees, directors and consultants currently consist of stock options, restricted share units ("RSUs"), performance share units ("PSUs"), phantom share units ("PUPs") and deferred share units ("DSUs"). The following table summarizes the Company's outstanding stock-based compensation units:

As at	September 30, 2020	December 31, 2019
Stock options ⁽¹⁾	7,045,233	8,432,067
RSUs (2010 RSU Plan)	—	156,667
RSUs (2015 RSU Plan)	11,267,874	14,956,090
PSUs	8,340,300	5,134,200
PUPs ⁽²⁾	8,468,000	—
DSUs ⁽²⁾	6,882,978	3,577,464
TOTAL OUTSTANDING EQUITY COMPENSATION UNITS	42,004,385	32,256,488

(1) The weighted average exercise price of the Company's outstanding stock options as at September 30, 2020 was \$1.90 per share with a range of \$0.41 - \$7.31 per share.

(2) The PUP and DSU plans are cash-settled stock-based compensation plans and are recognized as liabilities on the consolidated balance sheet.

As at September 30, 2020, total outstanding stock-based compensation units increased by 9.7 million compared to December 31, 2019. The increase was primarily due to 21.5 million units granted, partially offset by 7.2 million units that were exercised, and forfeitures and expires of 4.6 million units.

In 2020, 8.7 million units were granted under a new "Phantom Share Unit" plan. The units granted under this new plan will generally vest evenly over three years, have no exercise price and automatically settle in cash on each vesting date at an amount equivalent to the share price at that date. Accordingly, the "Phantom Share Unit" plan is a cash-settled stock-based compensation plan. As at September 30, 2020, Athabasca recognized a liability for this plan within Provisions and other liabilities of \$0.3 million which has a current portion of \$0.2 million. Refer to the December 31, 2019 audited consolidated financial statements of the Company for further information on the Company's other stock-based compensation plans.

12. PER SHARE AMOUNTS

	Three months ended September 30,		Nine months ended September 30,	
	2020	2019	2020	2019
Weighted average shares outstanding - basic	530,675,391	523,263,183	528,220,593	520,604,599
Dilutive effect of stock options, RSUs and PSUs	—	—	—	4,857,195
WEIGHTED AVERAGE SHARES OUTSTANDING - DILUTED	530,675,391	523,263,183	528,220,593	525,461,794

Dilutive securities will have a dilutive effect on the weighted average shares outstanding when the average market price of the common shares during the period exceeds the sum of the exercise price of the securities and the unamortized stock-based compensation expense. For the three and nine months ended September 30, 2020, anti-dilutive securities of 26,653,407 were excluded from the diluted net income (loss) per share calculation as their effect is anti-dilutive (three and nine months ended September 30, 2019 – 31,034,260 and 20,927,797).

TOTAL REVENUE	\$ 126,708	\$ 211,483	\$ 309,539	\$ 655,839

15. RESTRUCTURING EXPENSES

On April 2, 2020, the Company decided to suspend its Hangingstone operations due to the significant decline in oil prices combined with the economic uncertainty associated with the ongoing COVID-19 crisis. This suspension involved shutting in the well pairs, halting steam injection to the reservoir, and taking measures to preserve the processing facility and pipelines in a safe manner so that it could be re-started at a future date. As a result, the Company incurred \$5.7 million of restructuring expenses comprised of shut-in costs and severances.

16. FINANCING AND INTEREST

	Three months ended September 30,		Nine months ended September 30,	
	2020	2019	2020	2019
Financing and interest expense on indebtedness (Note 8)	\$ 15,105	\$ 15,275	\$ 46,833	\$ 45,722

Interest expense on lease liability (Note 9)	363	425	1,135	1,317
TOTAL FINANCING AND INTEREST	\$ 21,287	\$ 20,985	\$ 65,191	\$ 62,516

17. EXPLORATION AND NON-PRODUCING ASSET EXPENSES

Exploration expenses relate to Athabasca's fully impaired Dover West, Birch and Grosmont CGUs. Non-producing asset expenses relate to Hangingstone costs incurred after the suspension in April 2020 up to September 1, 2020 when Hangingstone recommenced production. These costs are mainly comprised of committed transportation and utilities distribution costs excluding costs directly associated with the suspension which are recognized in restructuring expenses (Note 15).

The following table provides a breakdown of exploration and non-producing asset expenses for the three and nine months ended September 30, 2020:

	Three months ended September 30,		Nine months ended September 30,	
	2020	2019	2020	2019
Exploration expenses	\$ 1,169	\$ 1,149	\$ 1,597	\$ 1,946
Non-producing asset expenses (Note 15)	8,602	—	20,299	—
TOTAL EXPLORATION AND NON-PRODUCING ASSET EXPENSES	\$ 9,771	\$ 1,149	\$ 21,896	\$ 1,946

18. INCOME TAXES

From time to time, Athabasca undergoes income tax audits in the normal course of business. The Company has received notice of reassessments from the Canada Revenue Agency ("CRA") and Alberta Finance. While the final outcome of such reassessments cannot be predicted with certainty, Athabasca has received legal advice that confirms its position as filed and believes it is likely to be successful in appealing the reassessments. As such, the Company has not recognized any provision in its consolidated financial statements with respect to the reassessments and has posted a \$12.6 million deposit with the CRA while objecting the reassessments.

As at September 30, 2020, the Company has approximately \$3.2 billion in tax pools, including approximately \$2.3 billion in non-capital losses and exploration tax pools available for immediate deduction against future income.

19. FINANCIAL INSTRUMENTS RISK

As at September 30, 2020, the Company's consolidated financial assets and liabilities are comprised of cash and cash equivalents, restricted cash, accounts receivable, long-term deposit, risk management contracts, accounts payable and long-term debt. The risk management contracts have been classified as Level 2 on the fair value hierarchy.

Credit risk

Credit risk is the risk of financial loss to Athabasca if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from Athabasca's cash balances, accounts receivables from petroleum and natural gas marketers and joint interest partners and risk management contract counterparties.

Athabasca's cash, cash equivalents and restricted cash are held with five counterparties, all of which were large reputable financial institutions, and management concluded that credit risk associated with these investments is low. Management concluded that collection risk of the outstanding accounts receivables is low given the high credit quality of the Company's material counterparties. No material receivables were past due as at September 30, 2020. Athabasca's risk management contracts are held with four counterparties, all of which were large reputable financial institutions, and management concluded that credit risk associated with these risk management contracts is low.

Liquidity Risk

The Company's objective in managing liquidity risk is to maintain sufficient available reserves to meet its liquidity requirements at any point in time. The Company expects to achieve this objective through prudent capital spending, an active commodity risk management program (Note 5) and by maintaining sufficient liquidity to manage periods of volatility within its cash, cash equivalent and short-term investment accounts, as well as through available credit facilities.

For the balance of 2020, it is anticipated that Athabasca's Light Oil and Thermal Oil capital and operating activities will be funded through cash flow from operating activities and existing cash and cash equivalents. Beyond 2020, depending on the Company's level of capital spend and the commodity price environment, the Company may require additional funding which could include debt, equity, joint ventures, asset sales or other external financing. The availability of any additional future funding will depend on, among other things, the current commodity price environment, operating performance, the Company's credit rating and its ability to access the equity and debt capital markets.

The Company's significant outstanding financial liabilities consist of the 2022 Notes which mature on February 24, 2022. All other material financial liabilities mature within one year. In addition, the Company has lease liabilities and decommissioning liabilities as disclosed in Note 9. The Company's future unrecognized commitments are disclosed in Note 20.

Foreign exchange risk

Athabasca is exposed to foreign currency risk on the US dollar principal and interest components of its 2022 Notes (Note 8) and US dollar payables, net of US dollar cash, cash equivalents, receivables, prepaids and deposits. During the three and nine months ended September 30, 2020, Athabasca recognized a \$10.0 million foreign exchange gain and a \$16.0 million foreign exchange loss, respectively (three and nine months ended September 30, 2019 – loss of \$6.9 million and gain of \$18.8 million). As at September 30, 2020, Athabasca's net foreign exchange risk exposure was a US\$368.5 million liability, and a 5.0% change in the foreign exchange rate (USD:CAD) would result in a \$24.6 million change in the foreign exchange gain/loss.

The Company is also exposed to foreign currency risk on crude oil and bitumen sales based on US dollar benchmark prices.

Commodity price risk

Athabasca is exposed to commodity price risk on its petroleum and natural gas sales due to fluctuations in market commodity prices. Athabasca manages this exposure through an active commodity risk management program as well as managing capital programs and production levels to maximize the value of recoverable resources. Refer to Note 5 for further details.

Interest Rate Risk

The Company's exposure to interest rate fluctuations on interest earned on its floating rate cash, cash equivalents and restricted cash balance of \$302.6 million (December 31, 2019 - \$365.0 million), from a 1.0% change in interest rates, would be approximately \$3.0 million for a 12 month period (year ended December 31, 2019 - \$3.7 million). The 2022 Notes and letters of credit issued are subject to fixed interest rates and are not exposed to changes in interest rates.

20. COMMITMENTS AND CONTINGENCIES

The following table summarizes Athabasca's estimated future unrecognized minimum commitments as at September 30, 2020 for the following five years and thereafter:

	Remaining							
	2020	2021	2022	2023	2024	Thereafter	Total	
Transportation and processing ⁽¹⁾	\$ 28,481	\$126,233	\$128,030	\$183,506	\$193,699	\$3,195,737	\$3,855,686	
Interest expense on long-term debt (Note 8) ⁽¹⁾	—	53,348	29,638	—	—	—	82,986	
Purchase commitments	4,611	4,963	376	—	—	—	9,950	
TOTAL COMMITMENTS	\$ 33,092	\$184,544	\$158,044	\$183,506	\$193,699	\$3,195,737	\$3,948,622	

(1) Commitments which are denominated in US dollars were converted into Canadian dollars at the September 30, 2020 exchange rate of US\$1.00 = C\$1.3339.

In April 2020, Athabasca reassigned 15,000 bbl/d of its Keystone XL pipeline transportation commitment to a third party and accordingly \$849.5 million of total related transportation commitments were removed from the above disclosure. The Company retains 10,000 bbl/d of capacity commitments on Keystone XL.

As disclosed previously, during the third quarter of 2019 Athabasca entered into a 20 year firm service transportation agreement for approximately 7,200 bbl/d of blended bitumen capacity on the existing Keystone pipeline and a development cost agreement in relation to the Keystone XL pipeline. This agreement provides for a US\$48.0 million (\$64.0 million) conditional payment, which is only payable if shipper agreements on the Keystone XL pipeline were terminated on or before January 31, 2020. In connection with such agreements, Athabasca provided \$83.8 million in financial assurances, consisting of \$33.3 million (US\$25 million) of cash and \$50.5 million of letters of credit. TC Energy and the Alberta Government announced on March 31, 2020 that the Alberta Government would provide financial support in the form of a \$1.5 billion equity investment in 2020 and \$6 billion of loan guarantees in 2021, enabling completion of the Keystone XL pipeline. As a result, the project resumed construction on April 1, 2020. The Keystone XL project has clearly not been cancelled however certain regulatory and technical matters have resulted in the extension of shipper agreements to no later than March 31, 2021.

The Company is, from time to time, involved in claims arising in the normal course of business. The Company is also currently undergoing income tax and partner related audits in the normal course of business. The final outcome of such claims and audits cannot be predicted with certainty, however, management concluded that it has appropriately assessed any impact to the consolidated financial statements.

21. SUPPLEMENTAL CASH FLOW INFORMATION

Net change in non-cash working capital

The following table reconciles the net changes in non-cash working capital from the consolidated balance sheet to the consolidated statement of cash flows:

	Three months ended September 30,		Nine months ended September 30,	
	2020	2019	2020	2019
Change in accounts receivable	\$ 940	\$ (20,515)	\$ 52,046	\$ (61,352)
Change in prepaid expenses and deposits	5,387	(32,179)	(944)	(38,161)
Change in inventory	(6,020)	11,299	12,271	899
Change in accounts payable and accrued liabilities	(12,110)	(4,703)	(76,057)	(17,869)
Unrealized foreign exchange gain (loss) related to working capital	(1,180)	—	549	—
	\$ (12,983)	\$ (46,098)	\$ (12,135)	\$ (116,483)
RELATED TO:				
Operating activities	\$ (15,653)	\$ (26,860)	\$ 6,056	\$ (70,339)
Investing activities	2,670	(19,238)	(18,191)	(46,144)
NET CHANGE IN NON-CASH WORKING CAPITAL	\$ (12,983)	\$ (46,098)	\$ (12,135)	\$ (116,483)
Cash interest paid	\$ 30,006	\$ 30,168	\$ 61,438	\$ 61,189
Cash interest received	\$ 452	\$ 2,040	\$ 2,910	\$ 5,948
