

Novo Resources Releases Updated Corporate Presentation

PERTH, Australia, Feb. 17, 2026 -- **Novo Resources Corp. (Novo or the Company)** (ASX: NVO) (TSX: NVO) (OTCQB: NSRPF) is pleased to announce the release of its updated corporate presentation, now available on the Company's website.

The new presentation outlines Novo's strategic priorities, exploration results, project advancements, and near-term catalysts. It offers investors a clear and current view of Novo's evolving growth strategy and its portfolio of high-potential gold assets.

"Our updated corporate presentation reflects the significant progress we've made across our exploration portfolio," said Mr. Michael Spreadborough, Executive Co-Chairman and acting CEO of Novo Resources. "As we continue to unlock value across our projects, we remain focused on delivering disciplined growth and long-term value for shareholders."

The presentation is available for download at: [Presentations – NOVO Resources](#)

Authorised for release by the Board of Directors.

ABOUT NOVO

Novo is an Australian based gold explorer listed on the ASX and the TSX focussed on discovering standalone gold and copper projects with > 1 Moz development potential. Novo is an innovative explorer with a significant land package covering approximately 4,160 square kilometres in the Pilbara region of Western Australia, along with the 22 square kilometre Belltopper Gold Project in the Bendigo Tectonic Zone of Victoria. In addition to the above, Novo is part of two prospective farm in agreements in New South Wales.

Novo's key project area in the Pilbara is the Egina Gold Camp, where Northern Star Resources Limited is farming-in to form a JV at the Becher Project and surrounding tenements through exploration expenditure of A\$25 million for a 50% interest. The Becher Project has similar geological characteristics to Northern Star's 13.6 Moz Hemi Project[#]. Novo is also advancing gold exploration south of Becher at the Teichman Project in the Egina Gold Camp, part of the Croydon JV (Novo 70%: Creasy Group 30%). Novo continues to undertake early-stage exploration elsewhere across its Pilbara tenement portfolio.

Novo has also formed a lithium joint venture with SQM in the Pilbara which provides shareholder exposure to battery metals.

Novo has strengthened its high-quality, Australian based exploration portfolio by adding the TechGen John Bull Gold Project in the New England Orogen of NSW, and Manhattan Corp. Limited Tibooburra Gold Project in the Albert Goldfields in northwestern NSW. Both projects demonstrate prospectivity for significant discovery and resource definition and align with Novo's strategy of identifying and exploring projects with > 1 Moz Au potential. These high-grade gold projects complement the

landholding consolidation that forms the Toolunga Project in the Onslow District in Western Australia.

Novo has a significant investment portfolio and a disciplined program in place to identify value accretive opportunities that will build further value for shareholders.

High Quality Multi-district Exploration Portfolio

WEST PILBARA DISTRICT

Balla Balla Project

Emerging polymetallic project focused on the Sholl Shear Zone with AC drilling completed H1 2025

EGINA GOLD CAMP

Teichman Project

Access to Yandeyarra received, initial reconnaissance rock chips outstanding

ONSLOW DISTRICT

Toolunga Project

Consolidated prospective 1,520 sq km landholding targeting IRG copper – gold systems in the Onslow District

PILBARA ANTIMONY

Southeast Wyloo

Au-Sb target with recon mapping programs completed in H2 2025

TIBOOBURRA GOLD DISTRICT

Clone and New Bendigo Projects

Manhattan Corp. Farm-in and JV with RC drilling completed in H1 2025

JOHN BULL GOLD PROJECT

TechGen Metals Farm-in and JV Ready for RC drilling 2026

BELLTOPPER GOLD PROJECT

Targeting Fasterville 'style' mineralisation*

EGINA GOLD FARM-IN/JV
Partnering with Northern Star in the Egina Gold Camp at Becher

* No assurance can be given that Novo will achieve similar results at the Belltopper Gold Project

#Refer to De Grey's ASX Announcement, Hemi Gold Project mineral Resource Estimate (MRE) 2024, dated 14 November 2024. No assurance can be given that a similar (or any) commercially viable mineral deposit will be determined at Novo's Becher Project.
