## Principal activities

The Group's activities and the trading results for the year are analysed in note 3 to the accounts. The Group is principally engaged in the design, manufacture, rental and sale of broadcast, video and photographic camera mountings, camera systems, videocommunication systems, lighting supports and associated equipment, airborne reconnaissance cameras and sensor systems, airborne video recorders and electronic countermeasure systems. The Group has manufacturing plants in the UK, Italy, the USA and France with sales and service companies in France, Germany, Italy, Japan, Singapore, the UK and the USA. The Group exports extensively from its manufacturing bases in Europe and the USA to over 100 countries.

## Share capital

At an extraordinary general meeting on 13 April 1995 your directors are to seek shareholders' approval of an increase of £2,500,000 in the authorised share capital of the Company to £13,000,000 and also approval of a 1 for 6 placing and open offer to qualifying shareholders at a price of 490p per share, which would result in 6,868,600 new ordinary shares being issued. Full details of the placing and open offer were sent to qualifying shareholders in a circular dated 21 March 1995.

With the exception of the placing and open offer mentioned above your directors have no present intention of issuing or granting rights over the unissued share capital, except in relation to the Company's adopted employee share schemes, and no issue will be made which will effectively alter the control of the Company without prior approval of the shareholders in general meeting.

A special resolution renewing the directors' authority to allot shares for cash, as if the pre-emption provisions of Section 89 of the Companies Act 1985 did not apply, is set out in the Notice of Meeting. The first part of the resolution deals with the allotment of shares for cash under a rights issue giving power to make adjustments to deal with overseas shareholders, fractions of shares and similar matters. The second part renews the power of the directors to allot shares for cash limited to 5 per cent of the issued share capital at 31 December 1994. These powers will last until the Company's next annual general meeting.

## Articles of association

### Article No 17

A resolution proposing that the use of facsimile signatures on any form of Company security issued has been included in the Notice of Meeting. With the advent of the proposed CREST settlement system on the London Stock Exchange, the time available to the Registrar to receive and register transfers and despatch certificates will shorten. By allowing facsimile signatures on share certificates, one element of any potential time delay will be removed.

### Article No 139

A resolution proposing the adoption of the replacement of the wording of Article No 139 to allow for the payment of dividends or any other monies due to shareholders by electronic means is included in the Notice of Meeting. The object of this amendment is to allow the Company to pay dividends to those shareholders who request it by the Bankers Automated Clearing System. This proposal will ensure that dividends are paid on a timely basis and enables the Company to take advantage of the cost savings available by the use of electronic data transfer.

Your directors fully support the adoption of these resolutions.

## Share option schemes

On 22 June 1994 your directors approved the implementation of the (1994) International Savings Related Share Option Scheme – Italy. The rules of the scheme were set out in accordance with The Vinten Group 1993 International Savings – Related Share Option Plan Parameters as adopted by ordinary resolution at the 1993 annual general meeting. Your directors intend to pursue this policy of setting up schemes in other countries where the Group has employees.

During the year the following options were granted to full-time directors and staff

|                                                                    | Date of<br>grant | Number of<br>shares | Subscription<br>price | Dates normally<br>exercisable |

## Fixed assets

The changes in tangible fixed assets in the year are detailed in note 12 to the accounts.

---

### Research and development

The Group is alert to the effects that evolving technology will have on its future products and markets. Where appropriate, each operating company carries out research and development programmes to suit its own market and product needs. Government and other customer-funded research and development is undertaken in some areas and, during the year, the value of this work amounted to £3.5 million, making the total amount spent on research and development £5.7 million.

### Directors

The directors throughout the year were Messrs M A W Baggott, C S Gladstone, R A Green, D J Medcalf, L Manfrotto, H Poulson and J H A Wood.

Details of the directors' shareholdings are given on page 17.

After nine years of service Mr Gladstone has decided to retire, with effect from the close of the annual general meeting, and will, therefore, not be offering himself for re-election.

Mr Medcalf is a partner in Greene & Greene, the Group's solicitors. The Group has paid Greene & Greene £25,035 for legal advice and services during the period 1 January to 31 December 1994.

Mr Manfrotto has various interests in properties leased by the Group. During the period 1 January to 31 December 1994, the Group paid £133,665 in rentals related to the property interests of Mr Manfrotto. On 17 March 1995, Lino Manfrotto & Co Spa, a subsidiary of the Company, agreed to purchase a property of approximately 6,289 sqm from Daniele Zambiasi Srl, a company in which Mr Manfrotto and his wife have a controlling interest. The property has been independently valued at a maximum of Lit 1.2578bn but will be purchased at Lit 1.0bn. The property will be used to expand the current production, warehouse and office facilities of Lino Manfrotto & Co Spa.

Pursuant to Section 310 of the Companies Act 1985, for the year ended 31 December 1994, the Company purchased and maintained policies of insurance for its directors and officers against the financial consequences of actions brought against them by outside parties for their acts or omissions in the performance of their duties as directors or officers of the Company.

With the exception of the above, no director, in the financial year covered by the accounts, had a beneficial interest in any contract to which the Company or any of its subsidiaries was a party during the year.

## Non-executive directors

The following directors served in a non-executive capacity

Mr Christopher S Gladstone BA – (British) aged 63; appointed to the Board on 9 July 1986.

Mr David J Medcalf LLB – (British) aged 50; appointed to the Board on 1 March 1990.

Mr Howard Poulson – (British) aged 51; appointed to the Board on 16 July 1992; currently a director and chief executive of Farnell Electronics plc and chairman of PERA.

Mr J Humphrey A Wood MA – (British) aged 62; appointed to the Board on 5 April 1991 becoming Chairman on 3 September 1991; formerly a managing director of Consolidated Gold Fields plc and currently chairman of Albrighton plc and a non-executive director of Birse Group plc.

## Directors' shareholdings

Beneficial interests of the directors and their families in the Company's shares at 31 December 1994, and as at 1 January 1994, together with details of directors' share options, were as follows:

|                                    | SAYE share      |         |                |         | Executive share           |         |

**Directors' shareholdings** continued

No share options have been exercised or have lapsed in the year under review. The options issued are not conditional on future performance criteria.

At 30 December 1994 the mid-market value of the Company's shares listed on the London Stock Exchange was 529p and the range during 1994 was 467p to 529p.

At 31 December 1994 Mr Medcalf and Mr Gladstone had non-beneficial interests in 914,441 shares and 2,888 shares, respectively.

There have been no further movements in directors' shareholdings or interests in shares of the Company for the period 1 January 1995 to 21 March 1995.

**Corporate governance**

The Group complies closely with the principal recommendations and the spirit of the Code of Best Practice established by the Cadbury Committee.

The roles of the Chairman and the Chief Executive are separate and the Board comprises a majority of non-executive directors. The Chairman and non-executive directors are appointed by the entire Board through a formal selection process, normally for a period of six years. The Board has agreed that re-appointment is not automatic.

A remuneration committee, consisting of the Chairman and the non-executive directors, establishes the terms of service, total pay and benefits of the executive directors, who do not have service contracts exceeding three years.

The entire Board of directors performs the tasks which might otherwise be delegated to an audit committee. The Company's auditors report to the Board twice a year and meet with the Board on at least one occasion in the year. They are also invited to meet the Chairman and non-executive directors separately should they so choose.

The Board of directors meets regularly and there is a formal schedule of matters and levels of authority which are delegated to the executive directors, all other matters and powers being reserved by the Board for its decision.

Directors, having notified the Chairman, are able to take independent professional advice in furtherance of their duties at the Company's expense.

### **Going concern**

After making enquires, your directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the accounts.

### **Health and safety at work**

The Company has continued to observe the requirements of the Health and Safety at Work Act 1976 and associated legislation with the utmost concern for the welfare of its employees.

### **Employment of disabled persons**

It is the Company's policy to consider applications for employment from disabled people on the same basis as other potential employees. Ability and aptitude are the determining factors in the selection, training, career development and promotion of all employees. If an employee becomes disabled during his or her period of employment, the Company will, if necessary and to the extent possible, retrain the employee for duties suited to that employee's abilities following the disablement.

### **Employee involvement**

The Group operates worldwide, and its employment policies are varied to meet local conditions and requirements but are established on the basis of the best practices for any given country. The importance of good communication and working relationships is recognised and the Group's policy is to keep employees informed on matters relating to their employment. The Group is organised on a decentralised basis although the senior operating executives of the Group, together with the Group Chief Executive and Financial Director, meet on a regular basis. In addition the managements of the subsidiaries employ a variety of consultation methods, including joint committees and briefing groups which operate on a regular basis.

### **Charitable and political donations**

During the year the Company made donations of £15,889 for charitable purposes.

### **Income and corporation tax act 1988**

The directors are of the opinion that the Company is not a close company within the meaning of the Act.

---

**Post balance sheet events**

On 14 March 1995, the directors announced that the Group had agreed to acquire the trade and assets of the BERC business based in California (BERC comprises The Broadcast Equipment Rental Company (a corporation), PAL America (a partnership) and the Broadcast Equipment Rental Company (a partnership)), for a total cash consideration of US\$13.7 million plus California sales tax estimated at US\$0.4 million. It is anticipated that the transaction will be completed on 31 March 1995.

On 21 March 1995 the directors announced that they had, subject to shareholders' approval, conditionally agreed to acquire the entire issued share capital of Sachtler AG, a group of companies based in Germany, for a total cash consideration of DM155.4 million, including debt to be repaid of DM26.0 million.

These acquisitions are being financed out of existing cash, new committed bank loan facilities of £20 million, repayable within two years, and by the issue of 6,868,600 new shares at a price of 490p in a placing and open offer to qualifying shareholders.

An extraordinary general meeting of the Company will take place on 13 April 1995 at which shareholders will be asked to approve the proposed acquisition.

**Future developments**

The Group's strategy is to grow its businesses through a combination of vigorous organic expansion and carefully planned acquisitions in areas related to its existing businesses, markets and skills.

**Auditors**

The Company's auditors, Clark Whitehill, have indicated their willingness to continue in office and will be proposed for re-appointment at the annual general meeting.

## Directors' responsibilities

Company law requires the directors to prepare accounts for each financial year which give a true and fair view of the state of affairs of the Company and the Group at the end of the year, and of the profit or loss of the Group for that period. In preparing those accounts, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the accounts;
- prepare the accounts on the going concern basis unless it is inappropriate to assume that the Company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the accounts comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention of fraud and other irregularities.

## Auditors' report

### To the shareholders of Vinten Group plc

We have audited the accounts on pages 22 to 38 which have been prepared under the accounting policies set out on page 25 and 26.

### Respective responsibilities of directors and auditors

The Company's directors are responsible for the preparation of accounts. It is our responsibility to form an independent opinion, based on our audit, on the accounts and to report our opinion to you.

### Basis of opinion

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the accounts. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the accounts, and of whether the accounting policies are appropriate to the Company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the accounts are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion, we also evaluated the overall adequacy of the presentation of information in the accounts.

### Opinion

In our opinion, the accounts give a true and fair view of the state of affairs of the Company and the Group as at 31 December 1994 and of the profit of the Group for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

# Notes to the Accounts

## 1 Basis of presentation

The accounts have been prepared in accordance with all applicable accounting standards under the historical cost convention modified to include the revaluation of certain fixed assets. In accordance with the exemption granted under Section 230 of the Companies Act 1985 the profit and loss account of the Company has not been separately presented.

## 2 Accounting policies

### Basis of consolidation

The difference between the cost of investments in subsidiaries and the fair value of their net assets at the date of acquisition is set off against reserves. The results of subsidiaries acquired during the year are consolidated from the date of acquisition.

### Fixed assets and depreciation

Depreciation is provided at rates estimated to write off the relevant assets by equal annual amounts over their expected useful lives.

In general the rates used are

|                                  |                               |
|----------------------------------|-------------------------------|
| Freehold and leasehold buildings | 2½% — 5% on cost or valuation |
| Plant                            | 12½% — 25% on cost            |
| Vehicles                         | 25% — 33⅓% on cost            |
| Office equipment                 | 10% — 33⅓% on cost            |
| Rental equipment                 | 20% — on cost                 |

### Stock and work in progress

Stock and work in progress other than on long-term contracts is valued at the lower of cost and net realisable value, less progress payments. Cost includes materials, direct labour and production and other overheads incurred in bringing stocks and work in progress to their present location and condition.

### Long term contracts

These are assessed on a contract by contract basis and reflected in the profit and loss account by recording turnover and related costs as contract activity progresses. Where appropriate, attributable profits and anticipated losses are recognised. The amount by which recorded turnover exceeds payments on account is shown separately within debtors in the balance sheet. Where payments on account exceed debtors, the balance is firstly offset against long-term contract work in progress and any excess shown separately within creditors in the balance sheet.

### Research and development

Expenditure on the Group's own research and development projects is charged to the profit and loss account in the year in which it is incurred. Only in the case of contracted development is any value carried forward in the balance sheet.

### Deferred taxation

Full provision is made for corporation tax deferred on timing differences other than those which are expected with reasonable probability to continue in the future.

### Foreign currencies

Transactions with overseas customers are converted at the rates in effect at the dates of the transactions. Profits and losses arising from the difference between spot rates and contracted rates on forward exchange rate contracts which cover sales and purchases are recorded in operating expenses. Foreign trading profits and cash flows are translated at the average rates for the year. Assets and liabilities are translated at rates ruling at the end of the financial year. Differences on translation of investments in overseas companies are taken directly to reserves.

### Turnover

This represents the net sales and the proportion of work performed on long-term contracts, after deducting agents' commissions and trade discounts.

**Pension costs**

The costs of providing pensions for employees under defined benefit pension schemes are charged in the profit and loss account over the working life of the employees in accordance with the recommendations of qualified actuaries. Any funding surpluses or deficits that may arise are amortised over the average working life of the employees but surpluses may first be used to improve members' benefits.

**Capital Instruments**

Capital instruments are stated in the balance sheet after the deduction of issue costs, which are charged to profit over the term of the debt. This represents a change in accounting policy to comply with the requirements of Financial Reporting Standard 4 and the comparative figures have been restated accordingly.

**7 Directors' remuneration**

The remuneration of the executive directors is determined by the Remuneration Committee. There is a bonus scheme for executive directors which has two elements

- i) a formula based on the annual growth of the normalised earnings per share in excess of the retail price index and
- ii) the attainment of agreed objectives

During the year the executive directors' service agreements were amended to limit their maximum bonus to fifty per cent of base salary.

The combined remuneration of the directors of the Group who discharged their duties wholly or mainly in the United Kingdom is set out below

**11 Earnings per ordinary share**

Headline earnings per share has been presented in order to reflect more accurately the ongoing earnings performance of the Group. The calculation uses profit after interest and tax but before exceptional items and the related tax. In 1994 this profit was £16,510,000 (1993: £12,262,000). The calculation of earnings per share under FRS3 is based on profit after tax of £16,510,000 (1993: £2,420,000). Both measures of earnings per share are based on the weighted average number of shares in issue during the year of 41,102,577 (1993: 39,944,325).

A USA subsidiary of the Company has in issue, via a private placement, \$40 million of 6.72% unsecured Senior Notes 2003 guaranteed by the Company. The notes are repayable over seven years commencing in 1997. Concurrent with the drawdowns under the notes, the Company entered into 10 year US dollar/sterling interest rate swap agreements with banks whereby \$15 million of fixed rate obligations were exchanged for obligations of £10.1 million at interest rates linked to LIBOR. The obligations under the swap agreements amortise in line with the underlying notes.

Certain foreign currency loans in Italy amounting to £2.1 million (1993: £2.3 million) are secured on the land and buildings of subsidiary companies in Italy and are at fixed interest rates of 5% to 7% per annum. A French subsidiary has a property on which there are secured loans of £1.2 million (1993: £1.2 million) with interest rates between 7% to 11% per annum.

## 21 Leasing commitments

At 31 December 1994 the Group had the following annual commitments under operating leases

|                            | Land and<br>buildings | Other | Total | 1993  |
|----------------------------|-----------------------|-------|-------|-------|

## 22 Contingent liabilities

The Company has guaranteed the Senior Notes described in note 16 and subsidiary companies' bank borrowings and commitments which, at 31 December 1994, amounted to £nil (1993: £5,704,000). In addition there are forward foreign exchange contracts and performance and advance payment guarantees which have been entered into in the normal course of trade.

## 23 Pension commitments

The Group operates defined benefit pension schemes in the UK which are set up under separate trusts. The adequacy of the schemes to meet the projected benefits is assessed by independent qualified actuaries, at regular intervals. The most recent actuarial valuations of the schemes were at 5 April 1992. The schemes had assets with a combined market value in excess of £15 million at that date representing 113.6% of the benefits that had accrued to members, allowing for expected future increases in salaries. The surpluses arising have been partly used to improve members' and pensioners' benefits; the balances have been spread over approximately 15 years by way of variation from regular cost. The most significant assumptions made by the actuary were; investment return – 9%; salary inflation – 7%; dividends – 5%; pension increase – 5%. The charge to the profit and loss account during the year amounted to £602,000 (1993: £654,000). There is an accrual of £108,000 (1993: £189,000) included in creditors in the balance sheet, for the excess of the accumulated pension cost charged to the profit and loss account over the amount funded.
