These forward-looking statements include but are not limited to statements and information concerning the potential benefits of the Arrangement.

These forward-looking statements are based on the beliefs of Tahoe's management, as well as on assumptions, which management believes to be reasonable based on information currently available at the time such statements were made. However, there can be no assurance that the forward-looking statements will prove to be accurate. Such assumptions and factors include, among other things, the satisfaction of the terms and conditions of the Arrangement, including the approval of the Arrangement and its fairness by the court, the receipt of shareholder approvals, and the receipt of the required governmental and regulatory approvals and consents.

By their nature, forward-looking statements are based on assumptions and involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Tahoe or Pan American to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Forward-looking statements are subject to a variety of risks, uncertainties and other factors which could cause actual events or results to differ from those expressed or implied by forward-looking statements, including, without limitation: the Arrangement Agreement may be terminated in certain circumstances; Tahoe will incur costs even if the Arrangement is not completed, and may also be required to pay a termination fee to Pan American; the termination fee may discourage other parties from attempting to acquire Tahoe; risks related to the business combination with Pan American, including risks related to assimilating operations and employees; risks related to the diversion of management time on the Arrangement; risks related to the completion of the Arrangement having a potential adverse effect on the market price of Pan American shares; the potential impact of the announcement or consummation of the Arrangement on relationships, including with regulatory bodies,

employees, suppliers, customers and competitors; general business, economic, competitive, political, regulatory and social uncertainties; the future price of gold, silver, copper, lead and zinc and market price volatility; changes in applicable laws and compliance with government regulation; risks related to the timing and possible outcome of pending or threatened litigation and the risk of unexpected litigation; risks related to political developments and policy shifts; and risks related to community and non-governmental actions.

Some of the important risks and uncertainties that could affect forward-looking statements are described further in the Information Circular and under the heading “Risks Related to Tahoe’s Business” in Tahoe’s most recent Form 40-F and annual information form filed with the United States SEC and Canadian provincial securities regulatory authorities, respectively, and included in the management’s discussion and analysis for the nine months ended September 30, 2018. Although Tahoe has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. These forward-looking statements are made as of the date of this news release and other than as required by applicable securities laws, Tahoe assumes no obligation to update or revise them to reflect new events or circumstances, except to the extent required by applicable law.
