PRESS RELEASE **For immediate release**

EHT Announces Proposed Shares for Debt Transaction

Toronto, June 14, 2016. EnerDynamic Hybrid Technologies Corp. ("**EHT**" or the "**Company**") (TSX-V: EHT) is pleased to announce that it has reached an agreement to settle obligations (the "Shares for Debt Transaction") owed to its creditor in the amount of $547,500.00 through the issuance of 3,650,000 common shares of EHT to such creditor at a deemed price of $0.15 per common share.

The Shares for Debt Transaction principally represents a payment for outstanding rent obligations. Completion of the Shares for Debt Transaction will allow EHT to preserve its existing cash balances.

All securities issued in connection with the Shares for Debt Transaction will be subject to a statutory hold period of four months plus a day from the date of issuance in accordance with applicable securities law legislation. The Shares for Debt Transaction remains subject to final TSX Venture Exchange approval.

About EnerDynamic Hybrid Technologies

EHT delivers proprietary, turn-key energy solutions which are intelligent, bankable and sustainable. Most energy products and solutions can be implemented immediately wherever they are needed. EHT stands above its competitors by combining a full suite of solar PV, wind and battery storage solutions, which can deliver energy 24 hours per day in both small-scale and large-scale format. In addition to traditional support to established electrical networks, EHT excels where no electrical grid exists. Through its recent acquisitions and new product developments, the organization now supplies advanced material solutions for various industries in combination with energy saving and energy generation solutions. EHT's core expertise lies in the development of innovative composite material systems with a full integration of smart energy solutions, which are processed through the use of EHT's proprietary production technologies into attractive applications- primarily modular homes, cold storage facilities, modular hospitals, schools, hotels and residential and commercial buildings.
