

**PRESS RELEASE****EHT Announces a Change in Financial Officers**

Toronto, October 19, 2016. Enerdynamic Hybrid Technologies Corp. (“EHT” or the “Company”) (TSX-V: EHT) is pleased to announce the appointment of Mr. Tak Wing Law to the position of Interim Chief Financial Officer. Mr. Law has been with EHT since 2014 providing him with in-depth knowledge of the organization. Mr. Law holds a Master of Arts from University of Oklahoma and Postgraduate Diplomas from Hong Kong Polytechnic University. Mr. Law is a Certified Professional Accountant, Certified General Accountant, a Certified Public Accountant in Hong Kong. He is also an associate member of Canadian Society of Corporate Secretaries.

Mr. Law brings over 25 years of experiences as a finance professional and business executive working across many industries and companies/professional firms in Canada, China and Hong Kong including large international accounting firms and the Law Society of Hong Kong. Mr. Law has applied his experience to many transactions including mergers and acquisitions and information circulars for publicly-traded companies as well as managed corporate reporting and compliance including auditing, financial reporting, taxation and filing. Before coming to Canada, he founded T. W. Law & Co. in 1996 specialising in corporate restructuring.

Mr. Gamble, CEO/Director of EHT commented that “Tak has been working in every facet of the Company and brings not just excellent skills and experience to his new position but insight into the ongoing business of EHT.”

The Board welcomes Mr. Law to his new position and wishes to thank Mr. David Prue for his service. Mr. Bruce Bent, Chair of EHT indicated that “the Board thanks Mr. Prue for his valuable efforts in addressing the organization’s complex historical financial reporting challenges.”

The appointment of Mr. Law is subject to regulatory approval.

About EnerDynamic Hybrid Technologies

EHT delivers proprietary, turn-key energy solutions which are intelligent, bankable and sustainable. Most energy products and solutions can be implemented immediately wherever they are needed. EHT stands above its competitors by combining a full suite of solar PV, wind and battery storage solutions, which can deliver energy 24 hours per day in both small-scale and large-scale format. In addition to traditional support to established electrical networks, EHT excels where no electrical grid exists. The organization supplies advanced solutions for various industries in combination with energy saving and energy generation solutions. EHT’s expertise includes the development of module structures with full integration of smart energy solutions. These are processed through EHT’s production technologies into attractive applications: modular homes, cold storage facilities, schools, residential and commercial out buildings and emergency/temporary shelters.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
