the Conversion Price in effect on the effective date of such subdivision, redivision, reduction, combination or consolidation or on the record date for such issue of Common Shares by way of a stock dividend, as the case may be, shall in the case of any of the events referred to in clauses 13.18(a)(i) and 13.18(a)(iii) above be decreased in proportion to the number of outstanding Common Shares resulting from such subdivision, redivision or stock dividend, or shall in the case of any of the events referred to in clause 13.18(a)(ii) above, be increased in proportion to the outstanding Common Shares resulting from such reduction, combination or consolidation. Any issue of Common Shares by way of a dividend shall be deemed to have been made on the record date fixed for the dividend for the purpose of calculating the number of outstanding Common Shares under this clause 13.18(a).

- (b) If the Borrower pays any dividend on the Common Shares other than a dividend referred to under clause 13.18(a) (whether in cash or other property) or issues to all or substantially all holders of the Common Shares any rights, options or warrants (other than pursuant to a stockholders rights plan) entitling them to subscribe for or purchase Common Shares at a price per share that is less than the last closing price of Common Shares before either the issuance of such rights, options or warrants or the news release announcing such issuance, the Conversion Price in effect on the effective date of such dividend or issuance shall be decreased in proportion to the aggregate fair market value of such dividend or the discount to such market price and the number of outstanding Common Shares that would result from the exercise in full of such rights, options or warrants.
- (c) If there is a reclassification of the Common Shares or the Borrower undertakes any transaction whereby all or substantially all of its undertaking, property and assets would become the property of any other person whether by way of arrangement, reorganization, consolidation, amalgamation, merger, continuance under any other jurisdiction of incorporation or otherwise (in each case a **Corporate Reorganization**) other than in both cases as described in clause 13.18(a) or, in the case of a Corporate Reorganization, a Corporate Reorganization which does not result in a reclassification of the Common Shares, the Lender shall be entitled to receive upon conversion and shall accept, in lieu of the number of Common Shares to which it was previously entitled upon exercise of the Conversion Right, the kind and amount of shares or other securities or property which the Lender would have been entitled to receive as a result of the Corporate Reorganization if, on the effective date, the Lender had been the registered holder of the number of Common Shares to which it would have been entitled to acquire upon the exercise of the Conversion Right.
- (d) In any case in which this clause 13.18 shall require that an adjustment shall become effective immediately after a record date for an event referred to herein, the Borrower may defer, until the occurrence of such event, issuing to the Lender after such record date and before the occurrence of such event the additional Conversion Shares issuable upon exercise of the Conversion Right by reason of the adjustment required by such event before giving effect to such adjustment.
- (e) The adjustments provided for in this clause 13.18 are cumulative and shall apply to successive subdivisions, redivisions, reductions, combinations, consolidations, distributions, issues or other events resulting in any adjustment under the provisions of this clause, provided that, notwithstanding any other provision of this clause, no adjustment of the Conversion Price shall be required unless the cumulative effect of such adjustments

would require an increase or decrease of at least one per cent in the Conversion Price then in effect.

- (f) For the purpose of calculating the number of Common Shares outstanding, Common Shares owned by or for the benefit of the Lender shall not be counted.
- (g) If any question arises with respect to the adjustments provided in this clause 13.18, such question shall be conclusively determined by a firm of nationally recognised chartered accountants appointed by the Borrower and acceptable to the Lender. Such chartered accountants shall be given access to all necessary records of the Borrower and their determination shall be binding upon the Lender and the Borrower.
- (h) Except as stated above in this clause 13.18, no adjustment will be made in the Conversion Price as a result of the issuance of Common Shares at less than the fair market value for such Common Shares on the date of issuance.
- (i) The Borrower shall not be required to issue fractional Common Shares upon the conversion. If any fractional interest in a Common Share would, except for the provisions of this clause 13.18, be deliverable upon the exercise of the Conversion Right, such number of Conversion Shares to which the Lender shall be entitled shall be rounded down to the next whole number.
- (j) For greatly certainty, an adjustment required under this clause 13.18 due to a Corporate Reorganization will not in and of itself be considered to materially prejudice the right of the Lender under any Transaction Document pursuant to clause 13.10.

For purposes of the Interest Act (Canada), whenever any interest or fee under this Agreement is calculated using a rate based on a year of 360 days or 365 days, as the case may be, the rate used pursuant to such calculation, when expressed as an annual rate, is equivalent to (a) the applicable rate based on a year of 360 days or 365 days, as the case may be, (b) multiplied by the actual number of days in the calendar year in which the period for which such interest or fee is payable (or compounded) ends, and (c) divided by 360 or 365, as the case may be. The principle of deemed reinvestment of interest does not apply to any interest calculation under this Agreement, and the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields. The Borrower confirms that it understands and is able to calculate the rate of interest applicable to the Loans based on the methodology for calculating per annum rates provided for in this Agreement. The Borrower irrevocably agrees not to plead or assert, whether by way of defence or otherwise, in any proceeding relating to this Agreement or any Transaction Documents, that the interest payable under this Agreement and the calculation thereof has not been adequately disclosed to the Borrower as required pursuant to section 4 of the Interest Act (Canada).
