FOR IMMEDIATE RELEASE

Gatekeeper Announces New \$760,000 Contract

Abbotsford, BC February 22nd 2016 - Gatekeeper Systems Inc. ("Gatekeeper" or the "Company") (TSX.V: GSI; OTC: GKPRF; FSE: 1GK) is pleased to report that it has entered into a new contract, with one of the largest school districts in the United States, to provide its solid state school bus video systems for special needs buses. The total contract value is approximately \$760,000 CDN.

Under the contract, Gatekeeper will provide its high definition solid state digital video recorders, cameras, and solid state storage. Gatekeeper expects to complete shipment of all systems in March 2016. The customer's name was not made available at press time.

In August 2015, Gatekeeper began shipping its high definition mobile video systems to provide transportation managers with better quality video, 360 degrees around their buses. Incidents such as sexual assault, false accusations, vandalism, bullying, and stop arm violations can be recorded to Gatekeeper's mobile video recorders and easily accessed using Gatekeeper's G4 video management software.

President and CEO Doug Dymant stated, "Our high definition mobile video platforms are gaining more attention across North America as we continue our sales and marketing efforts. Our systems allow customers to upgrade to our high definition platform without replacing older cameras in their system, providing the benefit of high definition video while giving them the option to replace older cameras as their budgets allow."
