Approximately 8.7 million shares were voted at the Meeting, representing 45.8% of the Company's issued capital. As presently constituted, the Board of Directors of Handa Copper includes: Marek J. Kreczmer, Anton Esterhuizen, Darryl Yea and Dr. Humphrey Lawrence Mbendeni Mathe.

About Handa Copper Corporation

Handa Copper is actively pursuing the exploration and development potential of a highly significant copper discovery in the Republic of Congo. The geological parallels between the West Congolian Belt and the Central African Copperbelt (CACB), the world's richest copper province, have been recognized since the 1930s. However, sustained modern exploration has never been carried out on the former until now.

Previously undisclosed archival records acquired by the Company, which included more than 10,000 stream sediment and soil samples, confirm the potential for CACB-style copper deposits on the Company's exploration licenses in the RoC. In addition, new data detailed soil sampling and geological mapping will assist the Company to effectively prioritize exploration targets for drilling.
